# The Hutchins 

The most important step in doing anything significant is to find a reason for doing it. Motivation is the hardest thing to find both in school and in life generally. A long term goal, such as a goodjob, or a good result after a year's work, is perfectly reasonable, but it is not really urgent enough to provoke a consistently strong effort throughout the year. Competition and friendly rivalries between students of similar ability is one of the best ways to produce high quality performances consistently.

There is a tendency to resist streaming of classes, because of the possibility of feelings of inferiority developing in pupils with low ability. The positive effect, that of giving students competition of their own ability, and thus incentive to improve their work, is often thought to be effective only in certain groups of students. As with any other aspect of psychology, the effect of streaming is entirely a matter of attitude.

If Hutchins has a worth while goal, it is to create an atmosphere in whichlearning becomes a pleasant experience, and where every student is always voluntarily stretching his own ability. When students leave school, they will enter a world where they must find their niche, and discrimination is an important aspect of everyday life. The word 'discrimination' unfortunately carries undesirable connotations, but its original meaning, that of leaming the differences between people, is something desirable in a school. Hutchins is a group of a thousand individuals, with individual potentials and talents, all of which should be recognised and understood. This means that to be fully successful, a thousand differen people should grow in a thousand different ways each day, which is, of course, a daunting task. Lfe is a competition, and me best way to prepare fortis to compete at school, providing that the schoo can provide the right sort of competition
and can take a well-earned rest, and hopefully enjoy reading their 1989 school magazine.

## AN INTERVIEW WITH THE HEADMASTER

With the large number of new buildings on the Campus, what further facilities does the school need? The recently completed Resources Development Plan was seen by the Board of Management to provide a plafform upon which a Master Development Plan can now be based. The substance of that plan will be devised as a result of visits and research / will do when/ go overseas on Study Leave in 1992. In the meantime, the Science Block needs refurbishment, I would love to provide proper student commonrooms and offices forthe Prefects and the SRC odevelop fudenlanag ment in the school, and an indoor sports centre incorporating the swimming pool would be wonderful. The school is unlikely to have the resources for such projects for some time yet. Frankyl we cause to be grateful for what we have at the moment. There are a lot of schools less fortunate.
If a haemophiliac boy infected with HIV through blood transfusion applied to enter the school, what would you do?

Admit him without question, and expect the support of the school for him.
Is Hutchins like the school in "Dead Poets 'Society" in that it promotes conformity and conservatism? A school which has a slightly conservative context, as opposed to being reactionary, provides a buffer against every fad and trend of incessant change. This allows truly intellectual radicalism to develop, as opposed to mere adolescent rebelion. A radical, indivialistic view of the world stems from a deep sense of one's stake in one's own future - a firm belief in one's personal accountability. Boys who cling to the inals of ashion
 forming. It is worth noting that some of the most radical and challenging women of Australian history have been products of con-
 They developeda se . Keating in the film. He made the point was strongly that one "should suck the marrow out of life" but not choke on the bones.

Earlier this year, you said you would name teasers and bullies in Assembly. Have there been none?

I stressed that if, in the opinion of other students and staff, an individual persisted in such destructive behaviour over a period of time, then I would hold him publicly accountable for the damage he was doing to the corporate life of the school, I stand by that. Fortunately I have not judged it to be necessary. We all hope it never will be.

We progress as we must, and with us we take memories of the past. A new decade is on our doorstep and although only significant as a period of time, it will nevertheless prove a new era for Hutchins. The increasing uncertainty with which we look at our future both nationally and globally has at last begun to take effect in the lives of the students.
From the students' own initiatives, I have seen a new awareness developing. The SRC's resource conservation programme and the paper recycling in the computer room are but two examples. This, combined with a greater interest in outdoor activities, is evidence of the growing environmental responsibility at Hutchins.
For this responsibility to continue, we must ensure that Hutchins remains a compassionate school, for without compassion, inspiration is lost through fear of rejection. I have found the school to be a most compassionate place this year, with students from throughout the school showing a friendly and interested attitude towards me and towards each other. This attitude must continue to be encouraged, for without it, Hutchins cannot remain an outstanding institution.
Hutchins is an outstanding institution, and its successes this year are evident. From Academia to Sport, both individuals and teams, the school continues to dominate the field.
The SRC and CRC have played an increasingly important role and will hopefully continue to do so after the temporary departure of Mr. Peter Carey. Mr. Carey's commitment to the SRC and student activities has been of huge benefit to the school. Mr. Carey's place is to be filled by Mr. Sprod, and I wish them both well for the future.
To next year's students and prefects, I would like to leave this thought. The school is an intricate system, and each of you is important to this system. Every move you make and every word you speak will affect this system. It is up to each one of you to determine the future of this system. I know you are capable of making the school a kind and compassionate place to learn at, and I am sure that you will. Finally, I must offer my thanksto Mr. Bednall for his friendship and guidance. To Mr. Smith, who has kept the whole prefect body in tune, I say farewell and thank you for your support throughout the year. And the leavers of 1989 especially, I thank you for making this year the pleasure it has been.
At the end of a major part of our lives, ponder this thought: "Let the intermediate ends be war-
antable, the ultimate end worthy." Let us all make our lives worthwhile! rantable, the ultimate end worthy." Let us all make our lives worthwhile!

Nick Brodribb,
School Captain. and Friend

Sub-Prefects - Back: A. Shaik, P. King, A. Rosevear, J. Downie, S. Willcox, J. Harper, S. Pitt, M. Bell, A. Clough. Front: C. Smith Esq., J. Hope, P. Lipscombe, D. Sims, D. Brammall Esq.

From the recenfly christened McKay and Brammall Staffrooms comes news of staff departures and arrivals. We welcomed back TIM SPROD after his year in the U.K. and promptly gave him more work to do by taking on PETER CAREY'S role of Director of Student Support Services while Peter takes leave-ofHAMMOND has also flourished. WES IMMS has joined the languages staff in Middle School, where PAUL ogy building, PETYER SYMONS took over the reins frited the new art room in the Design and TechnolSpeech and Drama) jomONS took over the reins from IAN LUXFORD at Easter, BILL POWELL (Grade 6, ence, and in the Stephens Library, JANET WATERS has takMOUR came to establish a Centre for ExcelInevitably, there are departures LiNminenters has taken on a full-time job
Irevevitably, there are departures imminent too, be they for promotion, retirement or a change of January 1990, after 15 years with appointed Principal of George Town's Star of the Sea College from BARBARA JOHNSON from the Administrat BARBER has opted for retirement after almost as long, as has lured back by the Queensland sun STEPHEN FORREST is taking going to Cathedral School, Townsville, business in the Blue Mountains manufacturing equis faking a six month holiday before setting up leave in search of adventure at sea PAUL HAMMONDent for schools. ADRIAN ALPINE has decided to on, as is DAVID NEW also from the Music department JEFF THing back west, PHILLIP TAYLOR is moving dation Office, whichled to CHRIS HALL's promotionthere for a year to do some overseas travelling later next year DAVID BUIOCK tutorial staff after 2 years, and the SHEEHANS are moving in.

## REX BARBER

Rex began his teaching career with 3 years in Turkey, followed by a decade in Victoria before again heading overseas, this time to Fiji, where he taught in both secondary and tertiary institutions again he came to Hutchins for a new career, this time in Music, after almost 20 years of teaching English. Since then, we have seen Music grow within the school to a level only dreamed of before he came: instrumental and keyboard tuition has been developed, the orchestra has flourished, choirs have performed, annual musicals have been triumphs, with "Westside Story" being amongst the most remarkable achievements, boys have been able to study music into the Senior School. Music is not an easy discipline to teach, especially to teenagers, and involves hours outside the normal teaching day: time him well in his hard-earned retirement him well in his hard-earned retirement.

## CHRIS SMITH

Chris joined the staff in 1975, when the long-serving students honoured elsewhere in this magazine also arrived. Since then, he has had enormous input into Hutchins life in a variety of areas: he it was who established Computer Studies, who put rugby on a firm footing. He was one of the founder year-group heads, ran our Business Studies programme for 8 years, was assistant to the Headmaster, chairman of the C.R.C. and then executive director of the Hutchins Foundation. Perhaps his most memorable contribution there was the first of our Auctions which was an outstanding financial and social success. He returned to the academic staff to be Head of Senior School. It was inevitable that he'd end up as a Headmaster (like his own father!), and George Town will soon know he has arrived. We wish him, his wife Jill and the children every success in this new venture.

8
"Unless I see the scars of the nails in his hands and put my finger on those scars and my hand in his side, I will not believe." (John 20:25)
The naming of the School Chapel in honour of St. Thomas seems appropriate for our School which promotes the striving for knowledge and mature understanding. 'Doubting Thomas', the only Disciple reservations about Christianity,
It is quite normal for thinking young people to question and raise doubts; it should be part of the learning process. However, St. Thomas came to see that his doubts were unrealistic when confronted by Jesus a few days after the resurrection. His doubts were wiped away by 'proof'। Jesus' response to Thomas' statement of belief was to comment that those who have not seen and yet believe are far more blessed.

Christians are challenged to exercise their faith in Jesus and his sacrifice for us. While most will have some doubts and reservations about areas of Christianity, it is only when faith is exercised and a commitment made to Jesus that Christianity really starts to grow, to become vital and alive for people,
It seems to me that many people use their doubts and reservations as an excuse to avoid commitment to following Jesus and responding to his promises of strength, joy and fullness of life. Living by faith has always been risky, for we do not know where $\square \begin{aligned} & \text { God may lead us. As Thomas, the other Disciples } \\ & \text { and people today still find, God keeps his promise } \\ & \text { through Jesusthat nothing inheaven oron earth will }\end{aligned}$
 be able to separate us from his love and life.

Follow St. Thomas, have your doubts and reservations, but be like him too in responding and living by faith in Jesus that youtoo may be blessed by him, Bruce Mitchell, Chaplain
\%

## CONFIRMATION 1989

Nearly a repeat of the "Feeding of the 5,000!"
Fr. Bruce nearly had to perform a miracle to feed the 34 boys attending the Confirmation Camp at Seven Mile Beach when the Friday evening meal was left at the School. Fortunately Mother Barbara came to the rescue and retumed to the School to collect the goodies.
Fr. Bruce wanted a miracle of a bout of laringitis to be performed on a large number of those attending the camp. This annual Camp again went well with the highlights being the outdoor Eucharist on the Sunday morning and the experience of learning and living as a part of God's family.

Thirty-two boys were confirmed in the Schoo Chapel and two others intheirhome Parishes. Bishop Davies was the Confirming Bishop (In the absence of Bishop Newell through illness) and as usual it was a moving and memorable occasion.

The Nettlefold area welcomed Mrs. Young and Mrs. Rae, who have made an immense impact on the work involved in the circulation and processing of books.

The layout of the Nettlefold area has been redeveloped to increase both the staff and study areas, We now have a distinct fiction area, an integrated work storage and service area and room for magazine and ovemight loan display areas.

Services developed this year include on-line data-base searches, expansion of the ovemight loan system for books in demand and student input into the selection of fiction through our management committee. Under the leadership of Phillip Lipscombe, this group has done much of the routine work while gathering ideas from classes and individuals, discussing and making selections of books and periodicals. Places are available for 1990.
The Stephens Library has enjoyed a busy, successfulyear promoting reading and children's literature and building up the collection.
Guided reading programmes are now operating for Grades 4-6. Second Term saw the exciting finals of our Literary Mastermind competition in both Middle and Junior Schools. The Middle School Judging Panel for the book of the Year met for the second time and presented a well considered report which was published in the Mercury.
In Third Term we were privileged to hear two authors of intemational reputation - Ron Brooks and Australia's answer to Roald Dahl, Paul Jennings.
OurLiterary Club meets every Friday afternoonfor afternoontea and book discussion. It's a buoyant, enthusiastic group whose activities have so far included reviewing books, a visit to a play, book selection for the library and involvement in a book auction. In the pipeline is a new literary magazine which the boys hope will be launched by the end of the year.
Our operation relies heavily on all our helpers - the boys who volunteer, tidy and shelve books, the Library Management Committee who assist in library supervision and last, but by no means least, our group of mothers who generously give several hours of their time every week to file cards, cover, repair and reshelve books. Many thanks to you all

Robin Goodram \& Rex Beamish

## SECRETARY \& TREASURER'S REPORT

1989 has been and will be the year to remember for the Hutchins S.R.C. This year the foundations for a truly strong example of Student School Management Programme have been laid down. The work of previous S.R.C. 's is at last truly bearing fruit as the body of students involved has expanded and their influence on the running of the school greatly increased.

The number of students involved this year in all aspects of the S.R.C. has been quite outstanding. The general student input now covers effectively Grades 5 to 12. However, student representatives are only one aspect of the Student Council.
Additionally, the S.R.C. is comprised of many Sub-Committees beyond the Executive. These subcommittees carry out many useful activities both within the School and in the general community, Included in this S.R.C. report are individual reports from the leaders, or co-ordinating officers of the sub committees. It is useful however to have a general overview of the activities of these committees,
The Social Committee, led by Dominic Rea, is assigned with the task of co-ordinating social activifies as well as liaising with the Social organisers of other schools. During the year, five Grade 7 and 8 discos were held; two Grade 9 and 10; two Grade 6; and one Grade 11 and 12 Informal Formal. All socials were successful - they being a significant money earner for the S.R.C.

The Activities Committee is assigned with co-ordinating various activities both within the School as well as in the extra curriculum. Led by Simon Willcox, it has supplied lunch time sporting equipment for the Middle and Senior Schools and has held tug-of-war competitions throughout the School. Finally, this body has been a significant contributor to the organisation of the various Southport Camps held throughout the year.
The Welfare Committee is one of the most significant new bodies within the School. It is responsible for many different examples of improving the general climate of the school. This committee is subdivided into many various groups, these being
(i) The Be-Friender Group, co-ordinated by Phillip Lipscombe, which involves Senior students participating in the lunch time activities of the Junior School. During the year there were about 28 consistent Senior students involved in this, with some tripping down to the Junior School up to 3 times per week. An additional highlight of the Be-Friender Group was the camp held at Southport for selected boys from Grades 6,7 and 8 :
(ii) The Peer Leadership Group, which is primarily aimed at anti-smoking campaigns. Senior students conduct informal classes with Middle School boys with the aim of creating a relaxed, pleasant atmosphere in which to advise the boys. Thanks must go to Scott Latham for his leadership in this area as well as other service students involved:
(iii) Junior School and Middle School service is aimed at those students involved providing help for the teachers, essentially acting as teachers aides. It extends through many grades and has been extremely successful throughout the year
(Iv) The final group of the Welfare Committee are the Student Liaison Officers. These Senior students were charged with the responsibility of assisting certain students in their academic studies. This provides a very crucial service as, in many cases, assistance is better coming from a student rather than a teacher.

A final committee of the S.R.C. is the Curriculum Review Committee. This is a long established body which this year has had many achievements. Some of these include: the abolition of athletics standards in the Senior School; establishment of a Working Party into the reviewing of Religious Education: many voluntary education programmes were also undertaken with as many as 318 people having completed the various courses.

Other important activities of the S.R.C. have been: the Career Talks Evenings organised by James Downie; and the establishment of a Resources Programme headed by Edward Fader which is aimed at such things as energy efficiency around the School.

Essentially the S.R.C. has had a very productive year. The various bodies of the Council are now established and their running has set a precedent for future council members.

Andrew Clennett, S.R.C. Secretary

## THE PEER LEADERSHIP GROUP

The Peer Leadership Group of 1989, and especially the Grade 12's who were in their second year. approached the task in the group's second year of existence with some anticipation, hoping to build on the excellent foundations laid in 1988.

The Peer Leadership Group is a programme of antismoking education for Grade 7 s and is conducted by Senior boys (Grade 11 a 12 s ). The programme has 9 $x \mid$ hour sessions and deals with three main areas, pressure to smoke, the effects of smoking, and the traps of advertising.
As in 1988, the programme proved highly successful, this time operating all year and reaching all Grade 7 boys. The Peer Leaders, who had attended a vigorous three day training course, handled the situation well, largely because we had decided that the scheme

Phillip King had to be more than just telling younger boys why they
shouldn't smoke. The secret of the group's success is that it is primarily about making friends and discussing issues, and not merely the dissemination of information. We deliberately avoided any sense of a normal classroom environment; we were there as friends, not as instructors.

## THE BE-FRIENDER GROUP

It is now nearly three years since the original formation of the Be-Friender Group, a programme which has consistently proved its value to the school as a whole. This year, the scheme continues to be dynamic, with 40 H.S.C. students regularly (at least once a week) spending their lunch period down in the play areas of the Junior School, not as police-
 men but as friends.

This year for the first time, a break-up BBQ was held inthird term and all Junior School boys were reated to a sausage with the senors. Anotherinnovationfor this sear was a Be-Friender group camp for lonely and new students, held at our Southport property. This camp, organised by Simon Willcox, was a great success and should be repeated next year, given its popularity with all concemed.

Finally, I would like to thank all the members of the group for the high degree of commitment they showed throughout the long and fruifful year. Next year's Co-ordinator will be Kim Eagling, who showed outstanding commitment by helping on up to three days every week, and I wish him and his members well.

Phillip Lipscombe,
SRC Student Welfare Officer

## JUNIOR AND MIDDLE SCHOOL SERVICE

The concept of Junior and Middle School Service is an old one, but the present programme is unique to the last two years. The scheme now involves many more Senior boys going into classrooms in the lower grades and as a result, many more of our young boys are being reached. Senior boys from Grades 11 and 12 act as assistants to teachers, whether in a class. small group or individual tuition situation.
A total of 35 boys took part in the programme this year, collectively reaching every grade from 1 to 7 , a remarkable achievement when it is remembered that the students sacrifice study periods to visit their classes and that all participants are also members of the Be-Friender Group and many are Peer Leaders as well.

Tim Lyons, SRC Junior School Service Co-Ordinator

## COMMUNITY SERVICES \& ACTIVITIES COMMITTEE WORK

Throughout the year a number of activities were undertaken by the Community Services and Activities branch of the S.R.C. Many of these activities were highly successful and will hopefully continue in the future.
Most of the services performed this year were in the form of camps at The Hutchins School's recently improved Southport Outdoor Centre. This facility proved very useful and enabled us to accommodate people who, without the Centre, would not have been able to enjoy the area. One group which particularly benefitted from a camp there was some men and women from the Walkabout Workshop who accompanied 13 senior students and 2 teachers for three days. During the camp the clients participated in many activities which I am pleased to report they, and we, enjoyed very much.
In term two, a Be-Friender Camp was run by Activities Officer of the S.R.C., Simon Willcox. This camp was also a great success and bonded many friendships between the younger boys. It also helped strengthen ties between the Junior and Senior boys within the School.
The final, and major, camp or the year was held in term three for a group from the Walkabout Workshops (as previously mentioned). This is the second successive year we have attempted this camp and many people will remember the success of last year's camp or Offord.
As well as the camps we have managed to perform some of the traditional activities which are religiously undertaken by the S.R.C. each year, including yet another record breaking year for the 40Hour Famine, which I understand brought in well over $\$ 2,500$. Numerous Door-Knocks for organisations such as the Retarded Citizens' Welfare Association and Freedom from Hunger were successfully undertaken. Lunchtime sports equipment and games were purchased and rostered out by the S.R.C. representatives. As always, the scheme has been overseen by Mr. Peter Carey whose dedication and hard work has ensured not only success with the proj-

Stuart Galbraith
Community Services Co-ordinato

## the Curriculum review committee

The CRC is nominally a Sub-Committee of the SRC, but enjoys a freedom from central contact that allows it to be a particularly effective way of expressing student concerns. Unlike the SRC itself, the CRC rarely goes in for high profile projects, but works patiently and quietly behind the scenes to influence educational priorities within the School.
This year we built significantly on the social foundations laid for the CRC by last year's varied and highly successful programme. Among the projects continued or newly established are a thriving Clubs and Societies Sub-Committee (which assists in the management of 12 student-based clubs), the Values Working Party into R.E., and the Voluntary Education Programmes, which the CRC co-ordinates. We also succeeded in negotiating a resolution to the problems surrounding Athletics Standards and a whole host of specific issues relating to exams, courses, classes and teachers.
1989 was, in conclusion, one of the CRC's most successful years to date, and the 1989 Executive would like to thank all the subject teachers who attended our meetings to help resolve issues and especially Mr. Bednall and the Director of Studies, Mr. Morton, for always being willing to listen to the ideas and problems of students and to help resolve them.

Tim Lyons, 1989 Chairman

## THE S.R.C. SOCIAL COMMITTE

This year a number of S.R.C. members and myself organised eight socials for Grades 5 to 10 . Five of these were Grades $7 / 8$ functions, two were for Grades $9 / 10$ and two more were for Grades $5 / 6$. Of all these we found the 7 and 8 socials to be the most enjoyable. Many friendly relationships were forged between the girls and boys coming to the socials and the people who helped me set them up.

As well as the socials during the year, a function was held for the matric students of Collegiate and Hutchins. This was the "Informal Formal" interm one, It included a live band and spit roast-buffet meal held at Collegiate School. Alrhough there was a problem wh ninsufien in meg and making a thang thverysuccessuluncion. One ormain reasonsforissuccesswas choice. This meant that the function plared host to a wide range of suden choice. This rite range of student from different schools

Dominic Rea, S.. R.C. Social Director

## S.R.C. STUDENT CAREERS OFFICER

This year saw the first attempts by the S.R.C. to assist Senior students with the planning of careers, and to make the choices that confront all school leavers as easy and as safe as possible. The primary way this can be achieved is through the dissemination and availability of information, and as a result the school has produced its own Careers Handbook and has also erected a Job Vacancy Board and a panel of literature

The Careers Handbook was perhaps the most important initiative, as it has filed an important gap in careers information available, by providing just was produced entirely within the Office of Student Suppot Services, and is a veritable mine of useful information on job applications, résumés, and interview techniques, as well as job descriptions from over 150 employers from Tasmania and interstate. This owforms a crucial and well used part of choosing avocationat Hutchins, as all Grade 11 and 12 's were offered a copy, and the Library is also stocked with 10 copies. Lames Downie, S.R.C. Careers Officer

## CAREERS PLANNING AT HUTCHINS

The transition between school and the workforce is never an easy one, and for many boys leaving school holds hopes, fears, and usually a sense of apprehension at the unknown ways ahead. To assist with this transition for school leavers and to help those planning tertiary education towards a Career path, the Student Support Services Office has run a variety of programmes.
As well as providing a resource base for the distribution of pamphlets on all manner of careers, courses and institutions, the Office also developedits own Careers Planning and Placement Handbook, giving advice on résumés and job applications, and with sections on specific jobs and information for both parents and students. This volume of some 150 pages should form an ideal reference work for Hutchins school leavers for some years.
A Careers Fair was also held, where representatives of specific employers, the professions and educational institutions set up stalls in the Auditorium and discussed matters with parents and sons. This concept again, as in 1988 , proved to be highly effective and allowed for many boys to rationalise their future objectives. Mr. Carey also organised courses for boys leaving school to leam interview and job applicariontechniques and assistedmany boysinency nities before leaving the school. nities before leaving the school.
Mr. Stevens continues to run a successful programme of Work Experience for Senior school boys, tion sessions and job interview sessions organized by Mr. Carey and conducted by employers were popular and informative, some leading to job offers.
Hopefully these and other initiatives in the future will help making decisions about his future less daunting for a student at Hutchins.

## DEBATING

This year has been one of the most successful in some time for debating at Hutchins, with highly successful teams in all three divisions, especially following the mediocre season of 1988. 1989 was the first year of an expanded and re-organised roster system, involving a much largernumber of feams. Some participating schools felt the season was too long and large, but Hutchins still had boys who missed out on debates, Nearly 400 debaters were involved in the competition with nearly 80 from Hutchins. This added to the organisational difficulties but, largely thanks to Mr McQueen, the season and all our 14 rounds of hosting passed largely without a hitch.
Our teams performed strongly at all levels and particularly those teams with ome degree of experience. At the Junior level our 6 teams were all consistently ompenive and pere adjudicators Similarly Our Intermediate A's narrowly missed a beth in the final adzalis. series. It was in the Send ame second in two others, putting 2 teams through to the finals series. UnforHutchins won two and cane a close contest and six wonderful speeches witnessed by nearly 100 people, the team of Scott Davdson, Tim Lyons and Nick Brodribb triumphed over Mark Bell, Scott Latham and David Sims. This team then beat Dominic in the final, giving the team a perfect record of wins for the season and also registering our Fourth Senior Premiership in 10 years, a record which surpasses that of any other school.
Particular mention must be made of some of our less experienced teams at all levels, who gained reputations for beating teams with far more experience, especially among our younger debaters this augers well for our fifth and subsequent Senior victories,
Hutchins boys also entered several speaking contests. Tim Lyons entered and wonthe Lions National Youth of the Year quest and the Jaycee's Youth Speaks for Australia State Final.
The Literary and Debating Society also ran several events which are now becoming traditional, including an HSC debaters' camp with Collegiate, a series of Oxford debates and a Debaters' Dinner. Senior members of the Society have also worked as adjudicators for the Inter-School debates and the Middle School Impromptu Speaking.
Thanks must go to all the coaches and adjudicators who helped to make season 1989 such an unqualified success, and the I express my sincere hope that the Society continues its good form into 1990.

Tim Lyons, President, Literary and Debating Society

## H.S.C. DEBATERS' CAMP

What does over thirty H.S.C. Students from Collegiate and Hutchins descending on the normally painfully boring east coast township of Orford spell? Trouble? No, not when they're all debaters, then ventist centreagain agreed to become the venue for debaters' camp.
And so it was that late one Friday afternoon in Term I, a motley and rather broken down collection of vehicles rolled into Offord, ranging from a well-used bus to a Torana and a green Holden Premier with a particularly tasteful brown vinyl roof. We all poured into the building, where the fight for prime and commandeered the best rooms, especially those featuring such decadent luxuries as en suite
bathrooms and matresses that weren't rotting. Once again, bothschools displayed their fascist tendencies, gulag mentalities and downright moral conservatism by refusing to allow mixed accommodation.
After the now traditional Friday night frivolities (posing as attempts to prepare debates) saturday morning dawned and the combat ants sharpened their tongues and shuffled each other's cue cards in readiness for battle ighlights of the day included the decision by Oxford debate that marijuana should be egalised, as well as several other heavily oifical topics. On both days the Oxford styles

rious Open Debating Team again proved to be the most popular and
warding for all concerned. Otherfeatures of the camp included midnight beach walks in the pouring rain hotly pursued by Mr . Sheehan in his testpattern jumper (to stop himself from getting lost) and with ame of our number the other with wettoa-towels. This was all too sexually liberated to indula in guide leal (largely because there were no volunteers to ental althou thre was no wetage compentions, was, however, as usual, an overtone of sexism to the debate (more from the girls than us), althe There few well chosen words from us males often had the desired effect of sending some of Collegiate's fringe-dwelling loony feminists into fits of red-faced righteous indignation one speaker began his address with the words "Madam Char-woman", words that were simultaneously greeted with hoots of aughter and the bellows of another sacred cow being shot repeatedly through its multiple stomach.
Despite the best attempts by a certain Collegiate old-girl to stifle debate ably perpetuating a whole series of entirely puerile and trivial topics, the debating was at most stages extremely lively and enteraining. There was a vast range of abilities and level of commitment among the speakers and just occasionally the rebutfal lacked punch, leaving speakers feeling the sensation not unlike that felt after one has been savaged by a dead sheep, but a whole series of marvelous speakers more than outweighed the dull moments,
Debating camps in 1989 again proved that when thity articulate, mostly intelligent and healthy youths with mouths matched only in size by their egos are locked away in a retreat situation, the result always going to be uproarious and especially fun. It is, therefore, to be hoped, that the camp ont of the future. A final word must also be added to silence, once and for all, those Collegiate girls who
have repeatedly accused,

Hutchinhy malicious way, Hutchins debaters of arrogance. Our answer is as accurate anditissimple, "If we have and is is because they jolly well deserved itl" so there.

## SEVEN BRIDES FOR SEVEN BROTHERS

The fact that this year's School Musical was about seven lively, healthy, young lads known for their fighting and lack of culture, all attempting to get a woman, may indicate that Hutchins boys are rapidly becoming type-cast. In reality though, this year's combined musical with Mt. Carmel, "Seven Brides for Seven Brothers", was a show that allowed a large number of our boys to show just how cultured they really are.

Produced entirely in Term II and hosted this year by the girls, the play involved much hard work, with the principals and brothers rehearsing up to five times perweek. The show, as always, produced some memorable moments, such as Mrs. Johnson finally coaching the brothers to square dance, and an often over-realistic fight scene, where the Mike Tysons of the cast often decided to liven up rehearsals to a positively dangerous extent.
A feature of the play is its rampant chauvinism, making it a particularly strange choice for a girls' school, and allowing some of our more neanderthal males to retum to their roots. Adam, the lead male and eldest brother, gets married to obtain a cook/housekeeper and then proceeds to sing songs like "A Woman Ought to Know Her Place." The brothers follow suit and the "brides" are suitably submissive and sweet. There were some funny moments at rehearsal, including Scott Latham's recurrent faceplants during a scrap with one of his brothers. Adrian Rosevear's frenetic if not uncontrolled enthusiasm, Dominic Rea's co-ordination during dances, Jo Hope's high notes, Paul Bini's harmonica rendition of "Here Comes the Bride" and Will Reynold's crouch position while singing.

The four shows themselves went off with few hitches, and the cast covered and supported well to help render the few glitches almost unrecognisable. Even an emergency appendectomy by our curtain puller was easily fixed, as the two off-night principals filled the gap quite adequately (pulling the curtains that is).
The musical, of course, contained all the usual ingredients, romance, rivalry, jealousy, lust and infighting: and that was before we even got near the stage. Despite this, or perhaps because of it, the cast became quite close and as usual the final night party was a tearful affair. This year saw the final musical for a large number of Grade 12's. Tim Lyons, Scott Latham and John Harper (veterans of 4 musicals) and Will Reynolds, Adrian Rosevear, Andrew Clennett and Dominic Rea (2-3 musicals) all of
 are if anything even better. The extromely young orchestra also shows great potential given 1989's solid performance. And so, as the cast belted out "Going Courtin'" one final time on the Saturday night, we were all left to either ponder past triumphs or plan next year's assault. I hope that when I watch next year's production I see as many people having as much fun.

## SCHOOL - "TOP TABLE"

This year the School House Drama production was the play "Top Table". Basically it involved a fictitious political convention that gets slightly interrupted by two cleaners, and around 10,000 soldiers from various armies around the world. Hard work was put in by all involved. However, due to a lack of experienced actors compared to other Houses and a misunderstanding by the producer that entertainment does not necessarily mean good "theatre", the production received a last placing from the adjudicator. All the dame, the play did receive a lot of laughs from the audience which in hindsigh was what we aimed to do.
Some very good and amusing performances were put in and there is some definite talent rising up through the Boarding House. Thanks must goto Mr. McQueen for giving up his time to watch rehearsals and to all students in any way involved with the production. We wish the School House actors of the future the best of luck, as they going to need it!

## STEVENS - "BLACKADDER"

It was with some hesitation that the Stevens House Tasteless Drama Association (est. 1989) decided to perform an episode from "The Blackadder" series. As we then proved, minimalist theatre and smut are a popular combination, with "Ink and Incapability" taking the coveted double of Best Play and Best Producer(s).
I would like to thank my co-producer Nick Brodribb, our cast and our very professional backstage crew. Special thanks must go to Mr. McQueen and extra special thanks to Mrs. Farmer for all her co-op eration and assistance.

## THOROLD HOUSE DRAMA

This year Thorold departed from tradition and presented an a-political play, and frankly that explained our demise, from our 1st in both 1987 and 1988 to a dismal third this year. Thorold's strength has always been our presentation of intensely controversial material (usually the rich being robbed by leff-wing-anarcho-syndicalist-loony-lefty-deviants) through a lens not in soff focus but high relief (usually to hide the deficiencies in our sets). This year we tried "The Frogs" by Aristophanes, and managed to reduce a pants-wettingly funny play to a mild giggle,

The play did however, contain some of the traditional features, including a huge cast, liftle rehearsa time, a musical note and Dennis our Gorilla, who this year took a rather psychopathic tum. Thanks must go to all my cast and especially to Mr. Mcqueen: my running battles with him over censorship were always a pleasure. My only advice to the next generation of horold Thespiansis Never Explain, Neve Complain, Get Even *. (Especially on School, Stevens and Bucks).

Tim Lyons, 1989 Producer

## GRADE NINE PLAY

During the second term, a group of grade 9 boys presented a play under the guidance of Mr . McQueen. The play, entitled "Caught Napping", was performed before the rest of grade 9 as well as at an evening performance open to the public. Seeing that it went for one and a half hours, it was by far the longest production any of the cast had been involved in, and it proved to be very challenging Cast members were: Steven Harwin, Robert Page, Matthew Rainbow, Marcus Clarke, Sam Gray Adam
After much long and tedious work, the play finally came together and was a great success. This gave a great deal of satisfaction to us all after all the hours put in. Thanks must go to the backstage crew and, of course, to Mr. McQueen for all the hard work he put into it.

Adam Morton

GRADE 7-10 HOUSE DRAMA
$\rangle$
Mr Pride adjudicated this year's 7-10 House Dramam competition and, after two nights of varied entertainment, declared Bucks House to be the winners. David Pammenter, George Whitehouse and Justin Voss had combined forces to produce a hilarious version of "Murderat Moorstone's Manor." Peter Bostock produced School's version of "King Chicken" which gained second place and Steves were third with "King Toad", with Thorold's "Hitch-hiker's Guide to the Galaxy" coming fourth.

## DRAMA FESTIVAL

As a result of the efforts of Rodney Cannon, Alistair Ingles, James Woods, Matthew Brennan, John Erp, Peter Tennant, Greg Woolley, James McLaren Matthew Knight, Mark Cummins and James Eddington a very pleasant and very successful Drama Festival was held in our new Drama Studio on Saturday, 4 November. It is important to begin this article with the names of the organising committee because the boys involved did an enormous amount of work: writing letters, making phone calls, ordering pizzas helping with lighting and general backstage work and cleaning up.

Our winning House Play from the $7-10$ competifion began the affemoon programme. Then we had plays from St. Virgil's and Mt. Carmel followed by Theatre Sports. After a meal of pizzas and coke, St Virgil's began the evening's proceedings followed by Emmanuel Christian School's Grade 7's perform ing some skits and Grade 8's performing a short play. Finally Mr Hall provided some helpful theatrica "tips". I hope that everyone involved is proud of what they achieved.

This year has been an exciting one for the music Department with the official opening of the Dudley Clarke Performing Arts Centre. The Governor, the Bishop, and Dr. Clarke attended the opening ceremonies, which were well supported by parents and friends. The new centre features three large classrooms, the director's office, six teaching-practice studios and a magnifl cent rehearsal studio, the Beethoven room.

Music students have made a significant contribution to the life of the school during 1989. One of the noteworthy occasions was the perform ance by the massed choirs and orchestra at the anniversary service in the cathedral.

The combined musical with Mt. Carmel College continues to be an annual feature of the school's music and drama departments. This year "Seven Brides for Seven Brothers" was presented for several nights to very app ciative audiences. Singing, acting, and orchestra were all of a high standard.

The Junior School staged two musicals: one by Grades 2 and 3, and one
 by Grades 4.5 and 6 . Audiences were impressed with the talent and enthusiasm of these young with the tal
This year has seen the successful introduction of group violin tuition to all Grade 3 students. It is (18) of group violin tuition to all Grade 3 students. It is dents, parents and teachers to this new scheme which we hope to extend next year. Music in the classroom continues to be an im portant part of our music programme, and the Yamaha Keyboard Laboratory is in regular and frequent use.
We believe that the students at Hutchins are being provided with enriching experiences and ortunity to develop their musical talents.

The Dudley Clarke Performing Arts Centre was officially commissioned by the Governor General irPhillip Bennett, and named afterDr. Dudley Clarke BE Headmasterofthe Hutchins Schoolfrom 197 to 1986 .
The new building has given the Music Depart ment a manificent home with excellent facilities The lower floorhas three large classrooms, including he Yamaha keyboard laboratory, as well as a spacious director's office, a staffroom and a storeoom. The upper floor has six teaching-practice studios and a huge rehearsal room, the Beethoven studio, which is ideal for orchestra and choir rehearsals. The Beethovenstudio is in frequent use by various groups for activities related to the performing arts. this new building has now made it possible fo most of our music activities to take place in the one centre, with a great increase in the co-ordination and effectiveness of these activities.
R. Barber, Director f Music and Head of Performing Arts (Valete, see page 8)

## HEADMASTER'S REPORT

At the end of 1988 Junior School staff looked forward to 1989 with an anticipation of new classrooms and peace without builders cluttering up the area. On Orientation Day, however, pessimism pervaded throughout discussions as teachers dodged carpet layers and painters whilst showing new parents and students around. On the first day of school it was as Mr Bednall promised and Grades $3 / 4$ moved into heir new rooms despite a few problems of excess sunlight and leaks when the rains came
At the commencement of Term II we were into the Music Block, the Art Room and the Drama Centre but the wait was worth while as was the joy of a handball and bat tennis area. At last we were operating fully from all designated areas.

Atthe end of 1988 we had said goodbye to Mrs Holton and Messrs Rodwell and Brewster, and in their places we welcomed Mrs Jones to a full-time appointment in Grade 4, Mrs Collis moved from Middle School to Prep, and Mr Powell, who besides taking a Grade 6 also had the social responsibility of organising Speech, Drama and Movement. As for 1989 itself.
we started with the House Swimming Sports and proceeded to a successful inter-School Carnival; a plethora of individuals, groups, choirs, choral groups, and string ensembles entered the Hobart Eisteddfod with many successes:
numerous bodies rushed around football, soccer and hockey grounds again with success: ...clashes between the Israelites and Philistines in the Shepherd King and a plague of rats as our Musicals went on stage:
.a close contest in the House Athletics and an excellent effort by the athletic team
asses on excursions and camps;
grandparents day another successful venture
Alex Miine, Richard Davis, Michael Cardno and Russ Ebert winning scholarships;
...Michael Anning, Robert Blackwood, James Burbury, Dane Bignell, Robert Cameron, Michael Conacher, Bassett Dickson, Luke Harrison, Mark Lyons, Andrew McQuilkin, Tim Newell, Peter Overton, Nicholas Pohl, Daniel Thiessen and Antony Whitehouse being appointed leaders:
..teachers battling boys at football and soccer;
. 4 J playing a natural role as convicts on their Port Arthur trip:
Be-friender Groups and Old MacDonald's Farm,
and many moups that have sipped my memery

989 has been a very active year and 1990 is already shaping up
 o be even busier. An innovation in 1989 was a seminar run at Hutchins whereby staff from many of the Independent Junior Schools got
together to discuss common problems. So successful was the day that it is proposed to have more over the years at differing venues. To the boys passing on to higher grounds, we extend our best wishes and ask them not to forget us as we are all part of the School, and to those who are leaving, good luck wherever you may be going. John Anderson
$\qquad$

The Middle School of 1989 consisted of 5 grade 7 classes and 5 grade $8^{\prime}$.
Grade 7 Form Teachers were Mr. D. New. Mr. G. Stevens. Mr. P. Taylor, Mr. P. Wills and Mrs. S. Seewang Year Head of Grade 7 was Mr. J. McLeod.

Grade 7 Form Teachers were Mr. D. Goninon, Mr. D. Wellham, Mr. P. Hammond, Mr. R. McCammon and Mr. W. Imms. Year Head of Grade 8 was Mr. A. Dear.
House Captains for 1989 were: R. Brammall (Buckland). T. Scott (School). N. Bums (Stephens) and G Pendlebury (Thorold)
Underthe system which began last year, some 40 grade 8 boys, during the course of the year, carried out duties as Middle School Leaders in a most responsible and helpful manner which ensured the smooth day-to-day running of the Middle School.

Life in the Middle School has again been very busy this year in a multitude of varying cultural, academic and sporting pursuits, many of which would not have taken place without the dedicated support Two members of Staffleave us at the end of the vear: Mr. David New and Mr Paul Hammond We cerely thank them for their efforts on our behalf and wish them well for their future pursuits,
sincerely thank them for their efforts on our behalf and wish them well for their future pursuits.
Staff Room accommodation for Middle School received a much needed boost this year with the establishment of the George McKay Staff Room in the Keith Armstrong building.
This facility, shared with the staff of the JuniorSchool. appropriately honours George's name - along serving and much respected former member of Staff.

## CONGRATULATIONS TO..

The 28 Middle School boys who were confirmed this year, Andrew Read, who was a prize winner in this year's National Maths Competition. 31 others gained Distinction Awards and a further 22 were awarded Credit certificates. Andrew was also a prize winner in the State Mathematics Competition. In the Australian Schools' Science Competition, 27 Middle School boys were awarded cerlificates.
Our top performer was Ben Condrie who was awarded a prize.
Shane West, Nigel Binns, Geoffrey Valentine, Scott Harper and Duncan Boss-Walker, who were selected to represent Tasmania in the Australian Secondary Schools' Table Tennis Championships.

7 G.St. who won the S.R.C. sponsored class-room competition.
lim Scott who was selected in the Southern Tasmanian under 16 cricket squad.
Giles Whitehouse, who represented Hutchins in the Apex Speaking competition.
Craig Barling, who was the Southem Tasmanian Schools' grade 8 Badminton Champion.

David Sheahan, Richard Carrngton-Smith and Timothy Duncan, who were members of the E Grade Pennant winning Squash team

Kosta Izortzis, selected in the under 13 State Soccer squad.
Matthew Clifford, selected in the state under 15 hockey team along with Andrew Short, Giles Whitehouse, Mark Chopping and William Joscelyne.
Andrew Clarke, Hobart Junior Tennis Champion (12 and under) and members of the 12 and under state Tennis Team

Geoffrey Valentine, who won the under 13 division of the city to Casino fun run
Thomas Rimes, piano, who did particularly well in the Hobart Eisteddfod. Thomas also came first in the under 12 division of the Casino fun run.

Matthew Heyward, singing, who won the 13 and under solo section of the Hobart Eisteddfod.
Paul Chamberlain, who won 4 races in the Island Swimming Championships.
The under 12 rugby team - premiers
under 13 and under 14 Hockey teams winners.
Under 13 and under 14 Hockey teams for finishing top of their respective divisions,
cello to the whole Middle and Senior Schools at Headmasters Assem ly on September 27th

At the time of writing these notes there are still a further five activities to go. Buckland House, the title holders, are being hard pressed by Thorold. To the Grade 8 boys proceeding to Senior School, we wish you well, particularly as the first group experiencing the new T.C.E. To the Grade 7's, we look to you for some positive leadership as the senior group of the Middle School for 1990

## WALKABOUT WORKSHOPS AND THE HUTCHINS SCHOOL

In conjunction with Ms. Wilma Koolhof, the Walkabout Workshop Training officer and Mr. Carey, a camp was organised during the August 1989 holidays. Two meetings were held with the clients prio to the camp in order to assess requirements and to get to know the men and women who would participate in the camp.
Owing to the non-availability of the venue used previously we were thankful to have the facilities at Southport made available.

Several senior students took responsibility for organising various aspects of the camp, i.e., transport activities, menu and itinerary and the school bus was made available for transport.
Activities included canoeing, cricket, fishing and a countermeal at the Dover Hotel where the group tried unsuccessfully to compete with the locals for the use of the hotel snooker table!

Overall, both students and clients enjoyed the experience of the camp and whilst the challenges of such an activity are, by the nature of the service, unique, we were pleased with the willingness with which students undertook their responsibilities, especially when one considers that such involvement requires much more than social interaction. However, as is usually the case with these experiences, the students gained much more than they gave from the involvement and those of us who found the challenge exhausting also found the rewards fulfilling and we are looking forward to meeting the men and women from the Workshops again in order to share more laughs over the many photographs and slides taken during the camp

We are thankful to Mr. Sheehan and Mr. Turbett for joining us and to the following students who assisted: M. Bayley, A. Clennett, J. Downie S. Galbraith, J. Harper, A. Lees, T. Lyons, J. Madden, A. Pyke D. Sims, D. Symes, J. Tyler, S. Willcox.

Stuart Galbraith, Community Services Co-Ordinator 1989

In 1989, The Hutchins Foundation continued to build on its successes of the past twelve years: so much seems to have happened since The Foundation was established in 1977 with Mr. Jeffery Boyes as the inaugural Development Officer. The Foundation has continued to expand and Mr. Chris Smith and Mr. Jeffrey Thomas were later appointees to the new position of Directors of Development, while Relations Officer Hall originally on the teaching staff of the School, and then appointed as Community
1989 has been a year of buildings - we have seen the erection of the Dudley Clarke Performing Art
1989 has been a year of buildings - we have seen the erection of the Dudley Clarke Performing Arts and Technology Building, and the continued growth of the Foundation Centre for Excellence. Added to these works are the renovations to the Nettlefold Library and the improvements of the Stephen Hay Memorial Park at Southport. In all these improvements of facilities for the boys of Hutchins, the Foundation has played a significant part.
We have been able to assist to such a great extent thanks to the generosity of Parents, Old Boys and Friends of the School, all of whom have donated their time and their resources to the Annual Appeal, to the Dinner Auction and to other fund-raising ventures such as The Hutchins Calendar. Bequests left o the School have also played a crucial part in establishing the secure base upon which the Foundation plans to guarantee the future of the School.
The Foundation and the Development Office have continued to assist the Parents' Association, the Old Boys' Association and other special interest groups in the School with their functions this year: The Hutchins Fair, the New Parents' Cocktail Party and the Anniversary Cocktail Party, the Dinner Auction and the three very successful Grandparents' Days, and an extensive programme of Old Boys' Reunions are just some of the areas where the Foundation is active
The Foundation could not exist without its strong support body of volunteer workers. We owe a great deal to the President of the Foundation. Mr. Bob Gozzi, and to the Vice Presidents, Messrs. John Elrick and Leith Thompson, to the Chairmen of various Committees - Messrs. Andrew Kemp, Ian Ross, Max Jack, Jo siv. hin worker. ${ }^{\prime}$ 's 1990 will
1990 wind continued growth and success of the Foundation as the keystone to the School's independent future.

This year has again been a very busy one on the sports field. The school has increased the number of sports played and students now have a very wide range of sports from which to choose. There have been many excellent individual and team performances throughout the year. As well we have seen the installation of a new drainage system for the Main Oval and we are all hoping that this will enable us to get even greater use of the oval than we do now.
First Term saw wins in Sailing, Tennis and Rowing with another excellent performance by the rowing club to again take out the overall trophy. We await with interest the introduction of Quad Sculls for the 1989/90 rowing season. The sculls have been introduced to rowing in Independent Schools because sculls have long been promoted as an excellent learning medium and the Quad Sculls retain the team or wail
Our sailors once again showed what depth we have in the school when they won all events in the inter-School Sailing Championships. The organisation of Sailing is very difficult and time consuming and Mr . McCammon deserves our congratulations on the performance of the team,
Mr . Tassell is Master i/c Orienteering and E. Mitchell performed extremely well in the Tasmanian Championships in winning the U17 competition.
Hockey is a sport which is showing tremendous improvement in both the number of teams playing and in the standard of performance. The First XI had an outstanding season in winning the Independent Schools State Final and narrowly losing the Southern Final to Hobart College. This is the first time I can remember a Hutchins team making the Southern Final and Mr. McLeod and the team deserve our congratulations. As well, the under-age teams did very well in getting to finals in a number of age groups.
The First XVIII again performed extremely well with some very exciting wins against St. Virgil's College to win the Southern Competition and then a strong performance against St. Patrick's College to win the State Final.

Wesley Roach, an Old Boy of St. Virgil's College, has been coaching our teams in Water Polo for a couple of years now and this year took both the Grade $9 / 10$ team and Matric team to strong wins in their respective finals. I am indebted to Mr. Roach for all his help and he has already agreed to extend for another year. We looking to encourage Water Polo in Grade $7 / 8$ next year so that there continuity in the sport
Another sport which is improving rapidly is Volleyball. The Matriculation team performed particularly well throughout the season and lost out on a place in the final by only a few points. As with Water Polo, we need to try to encourage boys from Grade 7-10 to take up the sport so that we get continuity, Third term as always is very busy and we started off with another excellent performance from the Cross-country team. There were wins at Under 12 and Open through Luke Harrison and Jarrod Shaw with John Lewis second in the Open. The school took out the Open Team as well as the overall championship for the 1 lth year in a row.

Athletics this year saw a disappointing start to the season with the cancellation of our trip to Melbourne. We now have some excellent coaches in the various disciplines and there are encouraging signs in some of the performances that our Athletics is on the right track again. Athletics is a sport that needs dedication in order to succeed and this was exemplified by the performances of many of our middle distance runners and in particular Jarrod Shaw and John Lewis.
A great many people give up a lot of time and effort to make our sports successful and I am indebted to the following people for their efforts on our behalf this year:

Middle School Sportsmaster: Mr. S. Young Junior School Sportsmaster: Mr. D. Woolley David Hoskins

We rely on the assistance of the Ground Staff and Maintenance Staff and would particularly like to thank Mr Peter Knight, Mr Ken Knight and Mr Neville Cowan

1989 cricket began with the biennial visit to Peninsula which included matches against an invitation XI, Mentone Grammar, Peninsula and finally the all importan "Boot" game. (Which alas we lost)

Good performances during the tour came from C . Waterworth with 45 no and 66 no; G. Martin scored 45 and 20; G. Hildyard "hammered scores of 27 36.49 and $26: \mathrm{M}$. Bowerman put in solid scores of 20 and 20 and P. King scored a 40 . In the bowling department B. Bessell had figures of 4-48,2-31 and 2-34 S. Hammond captured $5-35$ and $5-15$ both against Peninsula, and Nigel Pal freyman bowled well to take $2-30$ and $3-46$

Onour return to Tasmaniawe played two more practice games against Launceston Grammarand Scolch/Oakburn. We were beaten by Gram mar but we defeated Scotch/Oakburn thanks to the magnificent innings R. Allanby 100 no 10 not out

The 1 for Huthins. Friends' were dismissed for 113 ands. It resulted in a 12 Hutchins bowlers to figure were Bessell 2-31 and Hammond 5-22. In the batting Martin scored 82 , King 56 . Allanby 55 and Hildyard 42.

In a rain shortened match against Dominic, Palfreyman 3-13 and Allanby 2-37 restricted the opposition to 85 in its allotted overs. In reply Hutchins domi nated with King 30 no and Palfreyman (adding to his impressive bowling) scoring 18 no. We passed the Dominic score for the loss of only two wickets. Hutchins faced its arch rival St. Virgil's confident that it would do well. Palfreyman with 4-19 and Alanby 3-37 helped restrict St. Virgii's to a total of 107. Regrettably Hutchins could only muster 142 with C . Waterworth 42 and Glen Martin 43 being our only worthwhile contributors.

Against Friends' at home, Hutchins threw everything it knew into its attempt to ouffight its opposition. We bowled them outfor 67 in their lst innings - Bessell $5-22$. Hammond $2-5$ and Palfreyman 2-3. Our reply of 4-97. Allanby 44, King 28 was to no avail. Unfortunately we could not repeat the 1st innings effort leaving Friends $7-68$. It was however a good performance by Hutchins.
Our retum fixture against Dominic saw us bowl them out for 146 with excellent bowling from Bessell 3-48. Hammond 3-32 and Palfreyman 2-33. In reply Hutchins dominated the bowling with Allanby 110 Waterworth 37 and Palfreyman once again getting his head down to score a well compiled 54 .
he last game against saints at Austins Ferry would detennine who was to win the Southem Premi ership. Alasst. Virgin proved oostrong. Whist warbow and ing and we were dismissed for a dismal 68. Our congratulations go to the St Virgil's side who clearly demonstrated their superiority by aoing on to win the Island Premiership against Scotch/Oakbum.
On behalf of the team would like to offer special thanks to Mr. Brammall and Mr. Hoskins for the
rganisation of the tour and all the effort they put into making 1989 a happy year. Our thanks also to Mr. Wellham. Mr. Peter Knight our curator who worked so hard to provide the best practice and match pitches possible and of course to our mums and dads who so enthusiastically supported us and looked after all catering needs. Good luck to the XI for 1990

Left to Right-Back: N. Yeoland, T. Burbury, S. Hammond, C. Waterworth, B. Jones, G. Martin P. King R. Allanby, B. Bessell J. Duncan.

## MR. MORTON'S 2ND XI

This year the 2nd XI roster consisted of 5 games; unfortunately one of these was called off due to inclement weather. In the remaining games the side had two wins and two losses, and although veryone didn't get both a bat and bowl every week every attempt was made to ensure that it was hared around across the entire roster. For this reason the season was enjoyed by all. Good batting performances came from Nat Hiller, Brett King, Nick Yeoland and Michael Bowerman whilst with the ball Daniel Woods and Andrew Bishop were the main contributors. David bowled 27 vers taking 9 wickets at an average of 9.4, and Andrew took 8 wickets from 29 overs at an average of 7.5. Thanks must go to Mr . Morton and the parents for their time, effort, coaching, umpiring and scoring.
M. Bowerman and B. King

## YEAR 9/10 CRICKE

A Hutchins All-Rounder

The Hutchins $9 / 10$ cricketteam had a mostsuccessful year, going through he season undefeated, and winning the premiership convincingly. The team was successfully coached by Mr. Calder, the captain was Andrew Timbs and vice captain Andrew Younger. The whole team contributed throughout the season, but there were some individual highlights. Guy Wagner had an excellent season with the bat, scoring a whirlwind 115 n.o. against St. Virgils and finishing the year with 201 runs at an average of 67 . Others to perform well with the bat were Andrew inbs (95 runs, ave (3) ge 32, Peter Tennant
The average 25), and (om sam ( 3 uns, average 23)
the bowng attack was spearheaded by Andrew Younger who took 9 wicket wets, average 10). Dion Badcock (6 wickets, average 10) and Rodney Cannongav, average 9)
Rodney Cannongave a polished display behind the stumps allyear, and the fielders backed up their bowlers with some excellent catching and ground fielding.
Our thanks go to Mr. Calderfor giving his time to coach us, to Mr. Timbs for scoring, and to all the other parents for supporting us throughout the year.

## 8B CRICKET

The Hutchins 8 cricket team has had mixed success in the $88 / 89$ season. Everybody has improved greatly throughout the season and I'm sure all have enjoyed their games whatever the result at the end of play. Michael Zawadski opened the bowling with fierce pace which set our team on a winning roll. onathon How's medium pace deliveries were also effective and some good fielding was a highight, Ourmost exciting match was against Clarence up at the Crossroads. Clarence were 8 -139 off 26 overs Ginn 'clubbed' a ball over the bowler's head for four in one of the opening deliveries. This set the pace for a determined effort by the Hutchins boys. William Joscelyne, who has been a solid batsman all season, and Tim Scott were the batsmen in and as time had run out needed three runs off the last ball or victory. The Clarence fieldsman misjudged his return and two runs were taken - resulting in a tie. Both teams thought this was a fitting way to end such an exciting game. William finished with 42 n.o. and Tim 76 n.o. On behalf of all the teams I would like to thank Mr. Jones, Mr. Young, Mr. Scott, Mr. Brammall, Mr. McLeod, Mr. Anderson, Mr. Wellham and all the parents who transported the boys to the games and helped with the scoring.

## ROWING

The Hutchins School VIII (with John Pith), Daniel Herman, Robert Bloomfield, Stuart Poole, Andrew Jones, Julian Breheny, Michael Vincent, Richard Poulson and Matthew Bale) thoroughly outclassed the opposition to record a 10:42 second victory over Scotch College in the 1989 Head of the River at Lake Barrington, and this outstanding performance reflected the crew's efforts throughout the season.
Success in any endeavour depends on many factors, including a sound foundation and regular assessment. The Hutchins VIII gained a solid foundation in a six-day intensive rowing camp at Lake Meadowbank during the last week of the summer vacation - thanks to the generosity of John Parsons, Mrs Pitt and Mrs Bale for all their assistance during this period, and the First VIll's exellence was in no smal way due to regular competition which enabled constant assessment to be made. Victories at the Cock of the Mersey, the Southem Head of the River and at the Tasmanian Schools Championships helped in assessment.

D Depth of rowing at Hutchins is important - this season we had six four-oared crews in the Under 13 age group, three in Under 14's and two in the Under 15's - the First IV being so strong that they rowed in the Under 16 age group and won the Head of the River
Adaitionaly, was defeater ont it was astonishing ins family atthellead fthe River-Ifeelvery proud of all the rowersand of the who School which seemed to be with us on the day It is impossible to thank everybody for their contribut
pirit, success and well-being of the Boat Club, but if ther is the spini, Su chase well-being who must have sometimes wondered how he managed to get his normal day's work done during the rowing season.
will miss Hurchins' rowing and all that goes with the rowers and theircoachesis "Nevergive in." Ian Luxford
P.S. Special thanks must go to Mr Luxford for the dedication and skill he showed while bringing up the VIII crew to such a high standard. Also to the coaches of the younger crews. The commitment shown by all rowers was very good and hopefully next season will be just as successfulfor all crews. The contenders for the VIII have begun training in term 3 with their new coach, Ms Urszula Kay, who has vast experience and many notable achievements to her credit

Jonathon Pitt

## SWIMMING

This year we knew that the interschool Swimming Competition was going to be tough. We had lost a lot of Grade 12 swimmers from last year and a few swimmers to other schools. It seemed that for the first time Hutchins may have to put in a special effort. The School had a great depth of swimmers in a number of age groups, but lacked outstanding perform-
ourperformance was geod and wo worn just pipped at the post a number oftimes in the south on Swming wped at post pool in high spirits hoping for a win but were to be disappointed being just beaten for 1 st place by St. Virgil's.

The following week, while waiting for the Island Swimming to arrive, we trained hard and reshuffled the team. Hoping this tactic would help us, and the factthat northem schools may take a few points away from St. Virgil's, we were more confident.

The day arrived for us to be disappointed with the shocking weather conditions and with a number of our swimmer absent through iliness. Again the result was St. Virgil's 1st, Hutchins 2nd. All the team members gave good performances with J. Chamberlain, S. Dickson, P. Chamberlain and R. Betts gaining lst places.
R. Betts, Captain

## BADMINTON

Out of twelve badminton teams at Hutchins this year, three qualified for the finals and three played in grandfinals, with one grad
Our two junior teams
Anthony Barrett and
 were very enthusiastic and well organised Craig Barling, who provided good examples and skill, were reliable captains. We conCraig on becoming the Grade 8 Southem dren's Badminton Champion this year. The school boys would like to thank Mr. Dear for his port throughout the season
Our three grade 9 teams showed dedication and a determination to succeed and it was par ticularly disappointing for the division B 1 team to be narrowly defeated inthe gris the The division g 2 to Mm. 1 optained by David Stredwick, won the Brandfinal after a great deal of hard work The grade 9 boys would like to thank Miss Brown for coaching them this Thoysto of two boys, Brent Major and Andrew Rumley.

Tho coached the three grade 10 teams, are apprecia, the most successful, finished third on the There were four Matric teams this year, and our one a number of boys who put a lot of effort into the porth The spoppot of Mr Starkey and Mr . Hall is appreciated by all Matric. badminton players.
The support of Mr. Starkey and Mr. Happreciatic. badminn A. Farmer (Teacher i/c)

## SQUASH

1989 proved to be only a fair one in terms of success in squash. The Open team consisting of Mark Bell squash. The Open team consisting of Mark Be (captain), John Duncan, Andrew Timbs and mierships and were narrowly beaten by a mierships and were narrowly beaten by
combined Friends'/H.M.C team. The two successful teams were the B 1 team, consisting of G. Hope, N. Hiller, S. Parker and D. Sims, and the E 1 team of D. Sheahan, R. Carrington-Smith, T. Muir and T. Duncan.
This year Hutchins entered a record eleven teams in the competition, comprising of 44 players.
The House Competition was extremely close this year, with School narrowly defeating Bucks in 1st place, with Thorold 3rd and Stephens 4th.

Thanks must go to Mr. Millington for his much appreciated work throughout the season, as his organisation was the main reason that squash ran so smoothly this year.
M. Bell

The opening two months of 1989 saw some impressive results in the Inter-High Schools Competition the grade $8 / 9$ team of Andrew Clark, Andrew Gould, Andrew Short and twin-brother Malcolm won the the grade $8 / 9$ team of Andrew Clark, Andrew Gould, Andrew short and twin-brotherMaster instead; and in the grade 9/10 competition, our two teams finished first and second respectively. Players were Mark Badenach, Tim Nation, Andrew Houston and Daniel Noar for the winning team, Anthony Brodribb, Matthew Barwick, Paul Stredwick and Edward Wong for runners-up.
Inthe Independent Schools' Roster, the Under 15 side was undefeated, as was the Openteam which easily won the Southern Premiership despite the departure of Adam Wills to the workforce. Mark Be led our strongest team for some time, supported by lim Johnstone, Simon Robenton and Juilan Tatter
sall, with valuable contributions too from Geoff Hope. In the State Finals, the
standard of tennis in the North was once again ahead of ours, and we went down, humbled but not disgraced, to Marist.
Inthe CockHouse Competition, School won a closely contested series of matches, with Thorold just beaten into second place.
Term Three marked the beginning of a new Inter-High Roster and we have entered seven teams in all, five in grades 7 and 8 and two in the grade 9 event; with the difference that this IF time, the two strongteams fromseniorschool have been and eve therschoolsmore of a chancell am gratefult and give or especially on Saturdays.
L. Clipstone, Masteri/c

## TABLE TENNIS

In the Autumn Roster the Hutchins No. 1 Team (Div. 1), consisting of Duncan Boss-Walker, Jeff Andrews and Scott Harper, lost in a close final against Taroona. Hutchins No. 3 Team (Div. 2), consisting of Glen Curran, Geoff Valentine and Ryan Flynn, defeated Princess Street Primary soundly in the final.

In the Winter Roster, the Hutchins No. 1 Team (Div. 1), consisting of Shane West, Nuncan Boss-Walker Scott Harper and Adam Hills-Wriaht in an exciting final of Division 2the HutchinsTeamconsisting of Dion Badcock Andrew Sypkesand Pyan Flynn defeated Taroona soundly.

Of particular note this year is the selection of five Hutchins boys to representTasmania, along with Burnie High, to compete at the Australian Secondary Schools Table Tennis Championship to be held in Adelaide in December: Shane West, Nigel Binns, Duncan Boss-Walker, Scott Harper, and

Geoff Valentine.
Shane West has performed particularly well this year winning sev eral Tasmanian Championships in the Under 12 and Under 13 age group, showing great potential for future years

Mrs. C. Atherton
Back: Shane West, Geoff Valentine.
Centre: Mrs Christine Atherton. Front: Nigel Binns. scott Harper. Absent: Duncan Boss-Walker.

## WATER POLO - MATRICULATION

The team started the season with high hopes of doing well as we retained seven players who had played before. The coach this year was Mr W. Roach who had previously coached the grade 9/10 team. The season started disastrously with a lack of communication and drive to succeed. However as the season progressed the enthusiasm improved and results were encouraging. We finished the season in fourth position and had a big job in front of us is we wanted to win the title for the second year in a row. We only just managed to get into the four ahead of the Friends' School. We started the finals playing St. Virgil's College whom we had beaten in the roster. The match resulted in a comfortable victory for us. In the Preliminary Final we faced Elizabeth College and in a very close contest came from $4-1$ down to tie the game at the end. In the two halves of 3 minutes we won by 3 goals, giving a fina performance ran out comfotable winners 8-1. Our thanks must go to Wes Roach for his assistance performance ran out comfortable winners 8-1. Our thanks must go to Wes Roach for his assistance

## GRADE 9/10

The Hutchins Grade 9/10 Water Polo team had an extremely successful season losing only two of
 came came logether at the beginning of the season with only three members having played in a schoolboys roster previously. The team, under the season on top of the ladder in the semi-final gutchins and finished the very determined Claremontteam to go straight into the Final and the hopes were fulfilled when Claremont beat Taroona in the Preliminary Final In the Grand Final Hutchins againshowed improved form tor out winners by 10 goals to 1 . All players wish to extend their than to the coach for his efforts throughout the season
A. Ingles, Captain

SAILING REPORT

Hutchins boys have again had a very successful and enjoyable year in sailing. About 30 boys have been involved in Tuesday afternoon school sailing with the help of Mr. Imms. Mr. Hammond, Mr. Eaton and Mr. Carter. Hutchinsboyshave won many championships, among them Matthew Knight, the current State Sabot champion, Travis Read, who won the Stonehaven Cup in Adelaide and who was named Junior Yachtsman of the Year, and the boys who won the Interschool Sailing Regatta in both dinghy and sailboard sections.
The House Sailing Competition was run on March 20th on the Derwent River Buckland

FIRST XVIII REPORT 1989
Captain: Sam Gorringe
Vice Captain: Michael Bayley • Deputy Vice Captain: Richard Palfreyman
The school side competed anothervery successful season when it won the State final against St. Patrick's College towards the end of Term Two. This victory represents a significant achievement in that inals. As with previous teams, success came as a result of disciplined application, team commitment and a willingness to build fitness levels.
The season opened with a round-robin series held once again at St. Patrick's College, Launceston. Following this occasion, the team successfully contested two State-wide games. With the arrival of the May vaction, a squad left for Melbourne and two games were played over three days, one against Geelong Grammar and the other against Camberwell Grammar. In addition to this, the squad attended a V.F.L. match and were addressed by Hawthorn coach, Allan Jeans. The trip was a great team-building experience, and thanks must be extended to Mr . Andrew Bayley for his efforts which ensured its success.
Throughout Term Two the side enjoyed success against the Northem Schools, as well as gaining considerablly from games against Sandy Bay under-age and Hutchins Old Boys. Coaching sessions were also provided by TF L personalities, Garry Davidson and Royce Hart. These were most beneficial to the team.
In the Southern Competition. Hutchins also won all games until a final roster match played against traditional rivals, St. Virgil's. The game was played at Austin's Ferry and Saints proved superior in what was a high standard was required to decide the Southern premierteam, Saints too having won all their othergames. Played was requirea to decide the Southernpremierteam, Saintsunt it was a real test of character and commitment. Following a very even first half, the Hutchins side gradually managed to get on top. It was an excellent match and will long be remembered by both players and spectators.
With only a few days to prepare, the side regrouped for the State final in Launceston. Once again, all worked together, confident in one another's ability, and ran out deserving victors.
Congratulations to captain Sam Gorringe and all the players who contributed to the success of the team. It was a great effort. We wish those leaving every success for the future.
Thanks must be extended to Mr. Wood, John Groom, David Hoskins, the parent body, Mr. Peter Knight, S.B.F.C. and the Headmaster for their support and help throughout the season
State Final Scores: Hutchins 10-14-74 St. Patrick's 4-13-37
Southern Final: Hutchins 15-17-107 St. Virgil's 17-5-71
Chris Rea (Coach)
Hutchins First XVIII Football Team - State Premiers 1989

Hutchins Second XVIII Football Team

Parents' Best and Fairest
Coach's Award:
Old Boys - Best Team Player State Final: Best Utility: Most Consistent Best 1st Year:

Richard Allanby
Sam Gorringe
Michael Bowerman
Chris Waterworth
ichard Palfreyman
Ben Jones
Tim Burbury
FOOTNOTE: Back-to-Back Premiership Members: R. Palfreyman, B. Jones, C. Waterworth, J. Shoobrdge, M. Bayley, G. Hope, P. King, M. Bowerman. Triple State Premiership Member: S. Gorringe.

## SECOND XVIII FOOTBALL

After an extremely successful premiership season last year, the second XVIII football team enjoyed another good season. Under our new coach and Old Boys' captain, John Groom, we started the anorson with strong winsoverSt. Patrick's, Launceston Grammar captain, John Groom, we started the tivals St. Virgil's. However in our next encounter a somewhat reformed St Virgil's side returned the punishment on their own ground soundly defeating us and proving a real challenge to our hopes of back-to-back premierships.
Unfortunately, come half-time of the Southern final, the score-board proved a sorry sight. We were down six goals and had apparently lost our early season spirit. With the words of coach Groom. "We don't lose to St. Virgil's." "in our minds, we managed to saivage
This was a disappointing end to what was largely a good season in which we lost only to St. Virgil's. As with last year, the first and second XVIII's remained an integral part of each other, with each team's successes providing mutual encouragement and support. Although not having any officia awards, the best players for the season would be James Downie (vice captain), Andrew Jones, Stuart Harvey, Damien Williamson and Josh Bradshaw. Thanks must go to John Groom for giving up his time to coach us, and to Mr. Wood for managing the team.

Martin Stephenson, Captain

## HUTCHINS YEAR 10 FOOTBALL

We've had a difficult year, winning only 3 of the 10 matches. Ourteam was weakened this year with the loss of Nigel Palfreyman and Euan Mitchellto the firsts, and have had to front up to bigger and better feams most weeks. Despite these difficulties, each player has given his full $100 \%$ endeavour, and each
match has been a spirited contest. The highlights have been the win against third-placed New Town High and the narrow loss against them in the retum match
Andrew Younger has been dominant in the ruck all year and should figure prominently in the bes Browning, Scott Nicholson, Daniel Noar, Jason O'Neill and Tom Salmon

Michael Calder, Coach
J. Mcleod Esq.. A. Hobson, N. McMeekin,
M. Badenach, T. Pickard, D. Symes, J. Tyle G. Lucas, E. Cox, G. Whitehouse, A. Mills, D. Wills.

## HOCKEY

Hutchins had a moderate season overall in hockey with most teams making the finals
but with no premiership resulting from the All schools competition. The first eleven though had an First Eleven) we achieved the by Nick Cole (captain of Hockey) and Sean McDonald (captain of the at the end of the roster matches. The team then won winning the Minor Premiership for the top team final hurdle so to speak when they lost the grand final against HMC Independent Schools final against Grammar and despite the field thMC. The team then played the all the other factors working against the team, they were the winners by a score of 1 -0 The crowd and well served throughout the year in defense by George Whitehouse, Damon Symes and Forbe Applas and it is worth noting that the defence conceded fewer goals than any other team in the competition The half-line of Sean MCDonald, Nick Cole, and Mark Badenach also played consistently throughout the year. The forward line of Glen Lucas, Troy Pickard, Andrew Hobson, Ellis Cox and Nathan McMeekin scored a huge amount of goals and were always dangerous. Also the players who were not on the Tis much as other players (David Wilis, Anthony Milis and James Tyler) played extremely well

The Second Eleven also had a very good season with many good results against some of the top sides of the competition, including a 1-1 draw with the eventual premiertop of their ladder only to lose unluckily to Friends' in their semi-final and the $U / 13$ side finishing second after valiantly uning the Friends in their semi-final and the $\mathrm{U} / 13$ side these younger players, Hutchins sing theirgrand final. With the potential shown by the players would like to thank seiresp supported them throughout the year The Firt Eleven well as the parents who thank Mr. McLeod for his work as the teams's coach.

## VOLLEYBALL

This year saw the formation of what became known as the Volleyball Juggernaut. The first six which actually consisted of 12 or 13 volleyball animals had a vastly successful season which included a few " ini". Toppointments. The wnole team was undifferentiated in ability and could be easily termed a lay. To pinpoint any players in particular would be an immensely bigoted approach. However some with sit and berse whist others, although trying hard Thnt and determination, cian't quite have what it takes to be a volleyball superstar.
whe enang nat all became remanday lunchtime when the thever other students every ers' delicate auras. Playing in a roster that beyman Gymnasum and burnt the staff volleyball playferm, the Juggernaut ling trail of savagat began in the Lenten Term, hen proceeded into the Trinity season, the TEAM had been undefected Howion in its wake. Up untill the last rostered game of the moment, once said, "All good things must come the inal: and our dignity. However we finished the roster na high when, ou defal rostermatch; our semiOf important note, the team went on two tours, one in Trinity Term and the other in Mcha come third Both tours were down north to play teams from the exciting and exotic locations of Launcelmas ferm and Devonport. An enjoyable season was had by all

## THE HUTCHINS SKI TEAM

This season Hutchins was able to enter no less than fourteams in the annual Von Bibra Volvo Tasmania Inter-Schools Championships held at Ben Lomond on the 13th August
The course was set using the newly acquired rapid gates down the back of the Giblin ski slope, in exceptional snow conditions. Despite being covered with fertilizer to ice completely ovemight, the fact that there were over one hundred skiers competing in the event meant that the course would only last for one run per skier. This placed great importance on the draft for positions, with the earlier skiers generally performing better.
The course was very similar to that encountered last year; very steep and icy at the top leading to fast yet tight middle section and a "straight to the gate". The best times of the day were gained by carrying asmuch speed as possible from the top part of the course throughtothe bottom and employing a racing tuck for the greater part of the race.

The following are the results of the Hutchins Teams:

| Hutchins A | 5 Peter Neilsen | 25.34 s |
| :---: | :---: | :---: |
|  | 69 Martin Stephenson | 28.70s |
|  | 77 Luke Dineen | 30.75s |
|  | Total Time | 54.04s |
|  | Placing: 5th |  |
| Hutchins B: | 45 Matthew Bale | 30.78s |
|  | 77 John Pitt | 49.00s |
|  | 13 Simon Pitt | 1.01.97s |
|  | Total Time: | 79.78s |
|  | Placing: 23rd |  |
| Hutchins C: | 33 Nick Cole | 30.89s |
|  | 1 Chris Allen | 39.45 s |
|  | 65 Alistair Cole | 1.15.08s |
|  | Total Time | 70.34 s |
|  | Placing: 18th |  |
| Hutchins D: | 92 Bass Gamlin | 31.15 s |
|  | 28 Ben Rea | 31.73 s |
|  | 60 Joakim Nilsson | 32.46 s |
|  | Total Time | 63.88 s |
|  | Placing: 13th |  |

## SURFING

This year the school entered fourteams in the Tasmanian Schools Surfing Championships. Compet ing with one team in the college division, and three in the secondary schools division. Hutchins was looking at its greatest ever number of participants. Unfortunately the large majority were knocked out in the early rounds, but Dave Roberts managed 2nd in his heat in the A grade college division, and Cameron Rainbow scored a position in the semi-finals of the B grade secondary schools division. The waves on the day were of reasonable quality, considering the reputation Clifton beach has for appaling waves. The other competition was also of a high standard, with many teams boasting state representatives
Thanks go to Mr. Wells for his support on the day, the Tasmanian Surfing Association for organising the event and to Huey for providing the swell.

- In addition to the inter-school competition, this year saw the inaugural running of the House Suffing Competition. The event was organised in first to the fact that this date fell in July it was obvious that thick wetties hoods to the fact that this date fell in July, it was obvious that thick wetties, hoods and boots would all prove essential on the day. Pre-event hints on how addressed a gathering of entrants on the Thursday prior to the event The day itself provided very poor conditions at most beaches, despite the good swell and offshore winds. One fair to poor bank was found "Sandpits"; off the Oppossum Bay road. The waves were 2-3 feet in size and were breaking inconsistently on a small righthander. On arriving one set did

The Head Prefect gets barrelled!

a fair impersonation of Pipeline on an outer sandbank. However this was soon fiooded by the high fide. The event began with 5 heats in surfing and boogie-boarding with one house member in each heat Following these were the semi-finals and finals. The judges were Mr. Frost, Mr. Wells and Mr. McCammon The four boogie boarders and four surfers fought for control of a small left hander shorebreak mush burger wave, wh whe better qualty sets going natur il "I he surfer. The boogie boarang was wo Those guys on their boards were just going off it was unreal". We all wish Ben luck In the suring Nick Watson managed to win riding the small waves on his forehand Second and third place-getters N . Brodribb and D. Roberts found the small waves difficult to catch, as they are accustomed to much larger waves, and fewerpeople in the way. Nevertheless the competition was a great success, bar the near loss of Jeremy Carlile who forgot that paddling can become tiring. Thanks to S. Latham for his rescue effort, and to $M$. Bell for organising the Surf Rescue team, flags, rescue (?) boards and funny little yellow and orange hats that have some strange meaning as yet undiscovered. Thanks also to Mr. McCammon for organising Chris Collins to come and speak to us and provide the competition vests. Long live the Hutchins surf crew

## IST XI SOCCER

Coach: Mr. Hoskins
Captain: Michael Sly
Vice Captain: George Kalis
The team were confident of success in the 1989 soccer season in trying to defend our title well eamed from last year's successful season, with an encour aging one-season build-up. Many of our experienced top class players left us las year, but they only gave way to promising new ones both in leadership and skil. young players
with one the fave of the season with encouraging signs, when we managed a hard fought draw Although our results were forthis year, HMC, and followed that wh an impressive win against Friends combination was lacking some understanding and this was substantiated when we met our arch rivals St. Virgil's. As far as rivalry goes. Hutchins and St. Virgil's are perfect examples, with aggressive tight battles guaranteed, and this was no exception. With the help of a spirited and vocal home crowd, St Virgil's threaded the winner into the back of the net with only a few minutes remaining

The team recovered from the disappointment with another draw and win against the HMC and Friends' respectively, but followed with a 2-3 loss to St. Virgil's. This had meant that our chances fo defending our title were slipping away and, going into the last match, they had disappeared com pletely. But we were playing fro something more important than that, our honour. It was against the new holders of the tifle, St. Virgil's. Hutchins dominated most of the game with chances coming frequently but we could only come out with a 2-2 draw.
Mention should be made of the leadership and good perfomances shown from the players: Michae Sly, George Kalis, Wiliam Reynolds, Julian Tattersall, Michael Davis, Brendan Cooper and Nat Hiller and also for the other players who all improved during the course of the year.

Tribute should also be paid to Mr. Hoskins for the time and effort he put into the team

| Games Played | Won | Lost | Drawn | Goals For | Goals Against |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 8 | 3 | 2 | 3 | 22 | 9 | G. Kalis |

## OVER IAA SOCCER TEAM

This year there were two even teams at the Over 14 level.
The Over 14A Soccer Team consisted of 10 Grade 10's and 5 Grade 9's and coached by M McMeekin. Due to other commitments Mr. McMeekin could only come to the games on Saturdays, so we only have about one training session a week. This showed later on in the season with andfitness. This year there were a lot oftalented teams in the league and Hutchins A did well by winning about half the games they played in
the players that consistently did well throughout the season were D. Mathewson (Captain). A. Bird . Harper, M. Allan, A. Gould and T. McMeekin.

信 good luck to next year's Over 14 Soccer team.

## SOCCER REPORT OVER 14 B

Our Over 14B soccerteam consisted of MathewBarwick (Vice Captain), John Gavalas, Guy Wagner sam Harrington, John Li, Dion Badcock, Cameron Rainbow, Stuart Giles, Mathew Clark, Mathew Morris Andrew Bovill, Simon Wu, Anthony Brodribb and myself, Alistair Cole (Captain). The team was coached by Mr. C. Smith. The team as a whole started slowly, losing the first five games in a row by narrow margins, each defeat giving us more experience and greater confidence, and from then on we won or drew the rest of the games, 16 in total of which we lost five. Some especially strong performances came from Guy Wagner in defence, John Gavalas and Cameron Rainbow in attack and Mathew Barwick in midfield. Andrew Bovill and myself were occasionally called upon to play for the senior team, both of us earning first colours, and I am pleased to say the team still performed very well in our absence. Thanks must go to the parents for supporting us throughout the season, and especially to Mr. Smith for giving up a lot offime to coach us. I m sure I speak for the whole team when I say that I'm sorry he 1990. 1990.

Alistair Cole

## UNDER 14 SOCCER TEAM

The 1989 Under 14 Soccer team enjoyed quite a successful season
We were privileged to be coached by Mr. Wellham, whose expertise was of great benefit, seeing ur team improve dramatically under his supervision.
Goal Keeper Adam Sherrin for his excellent beginning of the season with a broken leg. Thank you Goal Keeper Adam Sherrin for his excellent contribution.

Merit awards were received by Adam Sherrin, Nick Abbott and myself, Zane Carey

> Best and Fairest - Z. Carey
> Most Improved - Michael Larkins

On behalf of our team I would like to thank Mr. Wellham for his time and encouragement.

## BASKETBALL

The 1989 Basketball season began third term with once again seven separate teams playing in two competitions and a tournament.
The Open side competed in the SATIS roster with the three State colleges also represented for the first time. The Under 16 squad competed in a separate SATIS roster as well as a Grade 1OHSSSA toumament at Kingborough. The Grade 9, wo Grade 8 and two teams encountered strong opposition and gained good success and experience.
$\stackrel{3}{3}$

## GRADE 7

- We have had great interest in Grade 7 basketball again this year with over 30 student vying for Division 1 and 2 teams. After several practices, the teams were selected with Dr. Ludwig taking the firsts and Peter Neilsen coaching the seconds. After three games, Division 1 had three losses. The competition is fierce. Mark Latham and Digby Hebbard are experienced players helping the team gain momentum with each match. Division 3 has won one of its three matches. Stefan Grun. Hamish Logan and Jeremy Richardson show promise for the future and could push for the top team

## GRADE 8

The Grade 8 Division 1 boys team has impressed greatly over the first three games played. With boys ke Adam Lane David Parsell and Ross Triffitt showing tremendous ability and skill not only individually but also within a team, we can only anticipate a great season in 1989
The rest of the team in Division 2 with Mr. Phairare also coming along in leaps and bounds. With better teamwork and experience, their confidence will continue to grow and their standard improve.

## GRADE 9

At the time of writing the Year 9 team has played four games. We defeated Cosgrove, Clarence and Sorell comfortably and had a narrow victory over Dominic. The team is selected from a squad of fifteen players, so competition for a place in the ten is intense. Our wins so far have been due to the a yoamork then we should see and Ans throuh to finals. teamwork then we should see ourselves through to the finals.

Ourfirst team struggled against biggerand older club teams in a combined schools and U19 club roster. We achieved two wins, one Oursmall forward pack was a creditto the their opponents. hard-fought match against the visitors snatch a
Stuart Galbraith and a number of grade a number of grade completed his fifth year made a great impacton
R. Beamish (Master I/C)

## UNDER 14 RUGBY

This season was a mixed bag for the Under $14^{\prime}$ s. The team played six fifteen- $a$-side games, losing 4 ames to 2 against St. Virgil's. In the seven-a-side competition, held for the first time this year. Hutchins lost 3 games to 2. Most of the team members were rookies this year, but all gained experience and developed their skills as the season progressed. Out thanks go to Mr. R. Wilson for coaching the team.

## UNDERWATER HOCKEY

1989 has been a good year for Hutchins, as both team 1 and 2 finished third and fourth respectively on the ladder.
Team 1 had agoodseason being defeated 3 gamesto 2. David Gould was the team's strongest member, being supported by Neil Owens and Andrew Jones. David Williams and Andrew Hayhurst put up good defence with Geoffrey Owens as full-back
The final game went into overtime as it was 2 all as the siren went. In a struggle Rose Bay slipped through and scored the winning goal. Team 2 used the season to acquire new skills and team work, trying different team members in different positions and experimenting with different tactics.
During the final game the amalgamated Taroona team proved too strong, being a well seasoned team with several very experienced play

ers. The team consisted of: Marcus Christie, Derek Goode, Damien Clark, Luke Dineen, Jackson Pitt and Ben Cullen.
The Hutchins teams would like to thank Mr. Wells for giving his time and effort towards the supervision and coaching of the teams. Also all parents for their support and enthusiasm. We all look forward to next year's season of Underwater Hockey.

## ATHLETICS

This year saw a new setup with coaching in Athletics which should help us to lift our standard in future years. Coaches from Sandy Bay Athletics Club offered to help with our coaching. The coaches are of a high standard and worked hard to assist us. There were a few problems in its first year of operation but these can be rectified for next year. The team had many good individual performances in the sournen compention but the st. Vigiss College team was too stiong with tremendous depth which showed the benefits of some hard training. The team travelled to Launceston the following week expecting to be alot closerto S. Virgins at the end of the day. Harf way fhrough ne competnion we were the leading school but our performances in the afternoon were not as good and we eventually finished fourth. The signs were promising however and with some hard work over the nextfew years ourteam can again be competitive with St. Virgill's College. Highlights of the two meetings were:

## CROSS COUNTRY

Report on S.T.I.S.S.A. Event - Saturday 30th September, 1989
Again Hutchins managed a most outstanding achievement inthis sport in winning the overall Team's rophy and also the Open Team trophy.
It is of some significance too that the Hutchins School has held the Teams trophy since 1979 - having now in 10 years, never been beaten. The Open Team trophy has only been lost to Hutchins three times in that 10 year period.

| RESULTS: | U12 | 1st | Total Points |  |
| :--- | :--- | :--- | :--- | :--- |
|  | U13 | 2nd | Hutchins: | 307 |

## BUCKLAND

1989 has been a very successful year for Buckland House. A series of wins and second places rem for Cock House

The success started with the first House event on the calendar, Swimming, in which Bucks won hroughthorough organisation and full participation. This victory was soon followed by another, Sailing, in which our fleet of windsurfers and dinghies far outclassed the other Houses. A third place in Cricket and a fourth place in Tennis, however, knocked the major strategy about a bit. We therefore resolved o recover the lost ground in Drama and Standards. This plan was quite successful as we gained two second places in both events. The remaining House events in Term One saw Bucks coming third in both Rowing and Athletics. At the end of term, Bucks was coming equal second to Stephens, who had streaked ahead by seven points.
Term Two was by far the most successful term in history for Bucks. We had victories in both Rugby and Hockey and second placing in Badminton. Soccer and Squash. We gained third places in Australian Rules, Cross-Country, and Debating. Not in one of the eight events for the term was Bucks placed last. Term Two set Bucks up for a final assault upon Stephens. Affer an eager House meeting on the first day f term, teams were organised and all was set for a final run to victory. Crushing winh Chess made us a certain bet to win the Cock House.

After last year's sensational result in the Cock House, 1989 had hoped to be just as successful. These hopes were fuelled early in the year by a victory from Mark Bell's tennis team and an encouraging result hopes were fuelled early in the year by a victory from Mark Bell 'stennis team and an encouraging result
from James Downie's 1 st XI. However, uncharacteristically poor performances in events that were usually won by School sadly left our chances of winning the Cock House small.
This was highlighted in the mixed results of the year's aquatic events. Despite our swimming capain's vast experience in swimming and a large number of boarders who were willing to go in anything, school House could only manage third place. This unfortunately didn't reflect a few outstanding individual performances by some of our better swimmers such as Rod Betts.
School also had a forfeit in the sailing due to the disappearance of Warren Young, the captain. This left the sailing fleet floundering in disillusion, being forced to watch the race on the muddy banks of the Derwent. Warren later made up for this misdemeanour by an inspirational display in the house football. John Pitt, however, pulled through in the rowing, with School winning by a comfortable margin.
Second term proved to have some disappointments in store for School in the traditionally successful events. Although there was always a high level of commitment and participation in the School House eam, our results did not always show this. House Drama epitomised this fact, as the fourth placing did not reflect the huge amounts of time and effort that Scott Davidson and his fellow actors contributed for this production. Soccer, Cross Country, Hockey and Debating also faired badly, gaining results that

Mixed in these defeats were some outstanding victories. School House experienced wins in football, under the captaincy of Josh Shoobridge, Badminton, Squash, and seconds in Basketball, Athletics, Impromptu Speaking and Chess. The School House Volleyball Juggemaut also managed a creditable

Special thanks must go to Mr. Rae for his support and contributions as House Master, Michael Bayley as vice-captain, the committee and finally the boarders who were always eagerto help me out. Good

tephens House Executive: W. Frost Esq. M. Bowerman, M. James

This year has been a very successful one for Stephens House. Although losing to Buckland in the final analysis, Stephens led from first term until the final weeks of the year. Our success can be attributed to enthusiastic participation from all members of the house and aw in to thank all the Stephens men who administer events. I would personally like to take this op
gave up their time and ettition back in the now distant first week of the school year and went straight
 to the second in the Swimming, a second in the Sailing, a second in the Rowing, and victories in Athletics and Standards completed our dominance of the Lenten Term. We also took part without success in the Tennis, Convincing wins in Cross-country and Drama cemented our house in its position of number one toward the end of second term. These victories along with a comfortable second in the footy, due to leadership from Ben Jones, were the last highlights of the Cock House comperifion as far as stephen were concerned. However, never let it be said that a Stephens man ever gives in. Our Chess combat ants fought valiantly for the house and managed to come fourth and our senior big-men enjoyed simila success in that very technical game of Basket Ball.

Our policy this year has been to blood young players so that Stephens House will be a Cock House competition force in years to come. This policy has by no means accidentally contributed a he overa success that we have enjoyed this year. Captains supplemented their feams cuive s comprehensive strategy which almos led us I
last year as House Master -the effort and time he has dedicated to the Steph's cause and take this opportunity to wish next year's men the best of luck.

In 1989 Thorold House experienced a substantial lift in house spirit, mainly due to the the hard work of the house executive. We attempted to have more house meetings than any other house and we introduced such spirit encouraging schemes as cheering until the executive members' throats were sore and even fund-raising for the purchase of a house flag with the Thorold emblem on it! The executive's success is illustrated by the marked improvement in the house competition results when considered on a term to term basis.
Traditionally Thorold started poorly coming fourth in the Swimming, a tradition unbroken now for ome years. Even under the captaincy of Suart Gaibraith we still could only manage a fourth in the Athletics. Cricket was again another disappointment: Thorold coming fourth. But later into term one we were able to gain third position in the House Saliing and the House Drama, we were on our way to success. Adrian Rosevear and Timothy Lyons must be praised for their time and effort in organising the House Drama, which undoubtedly requires more preparation and practice than any other House event. Tennis, with David Woods as captain, was our most successful first term event with Thorold House coming second.
Our football team appeared to be lacking in personal skill, and when we came fourth it appeared hat our team work wasn't all that great either! Still, in traditional Thorold fashion, we plodded on and soon we were rewarded for our efforts. Michaer sylead the soccer team to success with our first win for He for both of these sports. In third term our speaking talents became evident with wins in the Impromptu Speaking and the Debating Joshua Bradshaw gave a fine example for his team in the House Basketball, shooting four "three-pointers" in a row, a great display of his ability,
All, shooting four "three-pointers" in a row, a great display of his ability.
Although we appear to have had 1989 forthe improvement in House spid be wrong to consider foundation for the House competition next year.
I personally thank the House Executive for their time and willingness to help, and especially ourHouse Master, Mr. Cripps, for his guidance, Good luck to the House Captain next year, and may 1990 be as successful as 1989.

## EXCURSIONS

$\square$
GEOLOGY
The 1989 Geology class took a cross section from the school. It contained both the incredibly intelligent, and of course the odd rapscallion. Faced by this mixed bag of naive youngsters, Mr. Sprod set about to put us right insofar as our Geological prowess was concemed. The class showed a great deal of enthusiasm towards then emained there just as enthusiastically when we arrived. After some gentle persuasion we were all coaxed out and thus begun our PRACTICAL experience. The remainder of the term followed this trend of theory then excursion. somewhere in the order of 12 excursions were undertaken during the year and each was met with the same enthusiastic response: "But it's so cold out there. Mr. Sprodl"
Some of the more exotic and tropical location were Cygnet, Blackman's Bay and Mt. Wellington. However the high point of this year's class must have been the Strathgordon excursion. From our infant history in the Derwent bus trip took 0.0002 years but many still found this an unacceptably long period of time. "Had they considered, wonder, the fact that they would have had to repeat the trip $5,000,000,000,000$ times for it to have taken as long as the time we travelled back into history? The expedition rested at the Lake Peddar Chalet, where many a game of eight-ball and darts was played. The next moming we entered the Florentine (death) Valley and weaving our way amongst huge piles of dead trees and log-trucks we saw some outcrops of educational benefit, We also proceeded to Growling Swallet, a large cave in the valley. Unfortunately it was flooded and inaccessible. Thanks go to A.N.M. (Australian Nature Mashers) for letting us drive through their property. Thanks also to D. Williamson for as Belief in God and whether or not Chrome Bumpers are really necessary. Even the girls, who traditionally form a large part of the class, actually contributed on some occasions. Thanks to Mr. Sprod for his tolerance and perseverance, and finally I wish all members of the class good luck in their exams.
N. Brodribb

## RURAL SCIENCE III

Rural Science in 1989 proved to be a great year, both out in the field and in the classroom. Twelve girls from Collegiate, Fahan and MT, Carmel made this class somewhat more attractive.
The practical side of Rural Science involved doing three farm studies and various experiments.
Each term we were letloose on a property, the first being 'Birchview' at Kingston, owned by our teacher, Dr. Jim Ludwig. Here we were shown the value of combining many enterprises and utilizing the land to its utmost capa-
bilities. 'Homewood' was the property our second farm study was based on. 'Homewood' is a Merino property at Carlton owned by Mr. John Pratt, an ex-L.A. cop and good friend of Dr. Ludwig. Here we were shown how such varying methods as computerized management techniques and natural fertilizers and herbicides are used.
The final farm study was completed an the Hansen's apple orchards at Grove. We witnessed highly mechanized ystems at work ranging from packing to grading and also pickedup a few apples along the way. Mr, John Jones came and gave us a special lecture on cropdusting and plane seeding during the year also and apart from a few kes by Dr. Ludwig the year was highly successful and thanks must go to John Pratt, Carl Hansen, John Jones and the master cowboy himself. Dr. Ludwig

Ben Bessell and Edwina Morris

## THE VOLUNTARY EDUCATION PROGRAMME

For a growing number of Hutchins students the question 'what time does school end?' no longer has a simple answer, as for many 3.35 p.m. is only the beginning of a whole host of other activities. As well as sport and House competitions and training there is a growing number of extra-curricular courses being offered under the collective banner of 'Voluntary Education Programme'. In total this year 18 courses have been offered, offen with Junion, enior and Advanced variations and with two seasons during the year. This unprecedented rise in places available ncourses has been precipitated by the interest shown by boys in these courses last year. and has allowed 316 boys

from Grades 7 to 12 to take part, many in more than one course, This is a remarkable effort, and means that roughly half the eligible boys have taken some course.
The courses were arranged by Mr. Carey and the Student Support Services Office and began in Week 2 of Term 1 and continued to the very end of the year. For the courses run by the School, special certificates have been printed to allow boys to receive a wrilten qualification and any benefits they can from the courses with regard to This yent
This year, the old favourite courses were run again such as Flrst Aid, Cookery. Defensive Driving. Mechanics, ncluded Esperanto (the internationallanguage), Scuba Diving Shorthand, Yachting. Word Processing and Typing some of which involved certification to an intemationally recognised level.
All of these courses are important to the students' personal development, as well as providing a useful outlet or personal talents and interests and complementing the Life Skills, Duke of Edinburgh Award programmes and assistance in career prospects. It is hoped that this extraordinarily high rate of participation can be continued into
the future, and that even more boys will take part in these undoubtedly valuable programmes.

## ACTIVITIES DAYS

$\dagger$
This year, three Activities Days were held, 20th March, 1st August and 17th November. All were great successes with students seizing the opportunity to learn new skills and provide leadership. Many exciting and interesting activites were offered, ranging from House Sailing, Cricket, Tennis, and Surfing Competitions, Duke of Edinburgh ballooning. Boys spent their time leaming intriguing chemical reactions or wading in a cold and the with a fishing air Thanks must go to all staff and parents who assisted in the smooth running of Activities Days and especially to Mr and been over the past two years

## THE ADVENTURE CLUB

This year the Adventure Club has been fairly active with many caving trips an rock climbing after school. One of the main things the club has done this year has been the construction of a rock climbing wall in the gymnasium. This was conthe ted by Allan Adams of the Climbing Club of Tasmania towards the end of the .at lub Poole, Cameron Booth, tim Lyons, James Plaister, Mr Sprod, and myself. The chuting and hot air ballooning. Unfortunately, we were not able to be maraactive and have more student participation. Would like to thank to be more his time and effort, Steve Bunton for taking us caving. Adrian Goodwin for rock climbing and Allan Adams for the construction of the climbing wall.

Peter Bostock. President of the Adventure Club

It is called the arid red centre but the 36 boys and 8 adults who trav elled in May could be excused fo thinking differently. Certainly the sol
is red, but due to heavy rains the Centre was very much a picture of green growth and colouful wildflow ers. The party flew to Melboume where we met Rob, Gill, Wendy and our Coach, and then proceeded via Mildura, Broken Hill, Wilpena Pound, CooperPedy, Ayers Rock (Uluru), Kings Canyon, Alice Springs, Tennant Creek, Mataranka, Katherine and Kakaduto Darwin. On the seventeenth day we flew home to Hobart
To many the highlight was probaAy rs Rock althoughnot to the top Ayliptone's 17 minutes of some years
 past butthere were many sights and
incidents which will stay in the memories of the group. The vast hole which is the legacy of the North Mine at Broken Hill: the thunderstorms and flooded tents at Mildura: the desolation and cold of the Manna Hill bush camp; the serenity and beauty of Wilpena Pound; fossicking at Cooper Pedy; the grandeur of Kings Canyon and Standley Chasm; the miles of straight roads; the mystery of Devils Marbles; the changing colours of Ayers Rock; the soothing waters of Mataranka; the thundering passage of road trains; the falls and rock pools at U.D.P.; the impressive Katherine Gorge; the incredible flora
and fauna of Yellow Waters billabong
he mystique of the art work at Nour langee and Obirl; and those incred ble reptiles at Yellow Waters, South Alligator and Moomanah
How can we readily forget the thoughts of Noel Fullerton, the effort Of the Hobart Boys Choir at Katherine he moumful howl of the dingo; the whape the ornitho ge great white bers, Messrs, Morrisby, Mitchell, Keat ing. Houston and Nicholson, or the constant search for a McDonalds Was the trip educational? I am sure it was. The "party of 89 " now realise just how vast this country is. They should have a greater appreciation of itsfascinating history, its incredible sights and its amazing people and hope ally how fortunate they are to be Tas manians.

Although 1988 was the best year for the Duke of Edinburgh's Award at Hutchins, with a record Amber of awards at all 3 levels, the successes still follow in 1989. A re-shuffle in the State Award Office saw a new regime taking control, committed, somewhat paradoxically, to reducing award numbers. saw anewins, being the State's largest and most successful operating group in the State, come in for immediate and sometimes over-intensive scrutiny. This has had the short term effect of slowing down our gold participants. It hasn't however, stopped our candidates; each new barrier appears only to have increased their determination. Our Bronze and Silver level candidates are still proceeding well. At the end of firstterm, we made a breakthrough in assisting ourSchool's input intothe Scheme when Mr. Carey, Tim Lyons and PhillipLipscombe were appointed tothe Southem Regional Committee, which functions as the State governing body. Tim and Phillip have also been made members of the Expedition Advisory Panel. This input by 'Hutchins men' at a high level in the scheme's management has proved very useful in assisting our planning for the future.
The year began early for the Scheme, when we conducted a Gold training Expedition in January on the Central Plateau. Blessed by remarkably good weather which allowed swimming in the headwaters of the Mersey, the trip was run by an old friend of the Scheme at Hutchins, Mr. John Findlay, while two Gold Awardees tagged along to train as assessors. There has been a steady stream of expeditions throughout the year; at Gold level Irips visited the Central Plateau, Mount Anne in winter, Mount Field, the South West and he East Coast. A tinal tip visted he Westem Arturs over Show weekend. Bronze anill s Bronze beve a training weeke one day navigation courses and evening lectures were organised on all aspects of bush craft organised on all aspects of bush craft
the work done by a number of peopl scheme from Hutchins, I would like to record our gratitude for with Bronze expeditions is invaluable and Mr. A. Hack, Mr. M. Bowden and Mr. J. Findlay for their time as assessors or trainers. Finally, thanks must go to Mr. Carey for his co-ordination of the Scheme. Tim Lyons - Phillip Lipscombe (Captains 1988-89)

## DUKE OF EDINBURGH BRONZE EXPEDITIONS

Two major expeditions were planned for this year, the first to Maria Island and the second, in Term Two major expeditions were planned for this year, the first to Maria Island and the second, in Term
three, to Cape Pillar. Neither was without problems: the trip to Maria was marred by some poor three, to Cape Pillar. Neither was without problems: the trip to Maria was marred by some poor
behaviour and dropping of litter by those either left behind or who turned back from the climb to the behaviour and dropping of litter by those either left behind or who tumed back from the climb to the
top of Bishop and Clark which, quite justifiably, drew a stinging letter of rebuke from the Island Ranger: top of Bishop and Clark which, quite justifiably, drew a sting ing letter of rebuke from the Island Ranger and the latter was washed out by the atrocious weather during the Show week-end holiday. Admit-
tedly the rain was heavy on the first day and a gale was forecast for overnight, but some tents didn't even cope with the water; and with many of the group claiming to have no dry clothes left for the major walk, there was no other option but to retum early to Hobart. At the time of writing, it is hoped that a trip can be arranged during the early part of December for those who still need to qualify. In the light of the Fortescue Bay experience, applications will have to be carefully vetted.
L. Clipstone

Footnote: Nine Grade 9 boys enjoyed anovernight trip to Coal andS.W. Cape in November.

Another year has ended in Burbury House, the home-away-from-home of approximately seventysix boys. It has been a year full of events that gives boarding a variety or experiences that day boys can only imagine.
Developments which took place at the end of last year now provide boys in year9 and above with individual bedstudy cubicles.
The Burbury House Support Group, consisting of boarder parents, has been active in organizing working bees centred on the provision of curtains in most rooms. These have been welcome additions to the House. Some successful fund-raising activities, notably the 'Burbury House Country Stampede held at Hamilton, provided a lot of fun for the whole community. The boarding community is very grateful for the support and looks forward to continual input by the Burbury House Support Group. The boarders have contributed readily to both the life of the school and the entire House community. Participation and achievement in school and House activities have been outstanding. The residential community has benefited through the door-knocking efforts undeltaken members of the House, introductions of sketches, a wider range of contributions and a monetary prize for the best item subintroduc
mitted.
The year has gone, but definitely not forgotten are the people who helped to keep the House running. The Masters - Mr. T. Sheehan. Mr. N. Bester. Mr. D. Bullock. Mr. D. Bushby. Mr. A. McLeod, and running. The Masters - Mr. efforts, the Burbury Housethanksthem. The contribution of Mr. and Mrs. Overton at 193 and of Mrs. Bester and Mr. Rae has been very significant. As well, Mrs. Swanson, the kitchen staff, Ken and Neville and the maintenance men and the cleaning staff deserve a sincere thank-you for the personal interest and care they have shown towards all the boys - their friendly attitudes help make this house our home. Finally, on behalf of all the boarders I would like to thank Mr. C. Rae for his care and concem towards all the members of the House, and his time and efforts to ensure that day-to-day routines were maintained.

On behalf of those leaving, I would like to wish the members of Burbury House every success for 1990 Sam Gorringe

The House has enjoyed a good year and from all the staff and boys we exiors fortheirwondeft tributionandwishthemwell for the future.

## BASTILLE NIGHT 1989

In this bicentennial year, we celebrated July 14th with an evening of small sketches, plays, quizzes and music. The intention was to have a fun evening, with most French students being able to take the stage for a few moments before an audience numbering almost 300 , and despite some stage management problems we seem to have succeeded. The Auditorium was bedecked with posters from almost every student, and you can see a selection of some of the better ones in this magazine. There were some outstanaing musical items, from Martew Staley (fule), Mrs. Alison Farmer (flute), Mark khos Antiques. Aftrwards there were soft drinks and patisseries, croissants and quiches plus some delicious brie as well as the inevitable garlic bread. My thanksto all the parents who contributed beth goodies and assistance, and to my colleagues for their enomous help. Congratulations to Christian Pieters for his winning posterfor which he received a beautifuligsaw of Notre-Dame. What a pity than next year's July 14th not only falls on a Saturday, but during the mid-term holiday break!

ART \& LITERATURE

## POOR LITLE JOHNNY

It was a life, buta hard life, being a Chicago gangster back in those days. It was the sorto of life that gave you fun. adventure
and really wild parties during the day and whores, , casinos, machine guns and 1 nightmares during the night. But it was my life, and really wild parties during the day, and whores, casinos, machine guns and nightmares during the night. But it was my life
I was smart, and my father was Vincent Despore, Al's right hand man. I suppose you could say I was born into the profession like a farmer's son will often become a farmer. I won't bore you with my life story though: 1 'm going to tell you a story that $m y$ father used to read to me when I was just a liftle kid, and before they found him at the boftom of the river.
Untle Johnny was a small man, about four and a half feet if he was a centimetre. But for a small man he had a lot of guts
enough to go up directly against Capone. He ran guns, at a price cheaper than Capone's. To do this was a sure way considerably shorten you life span, but only if you could be found, and little Johnny was a hard man to find, even in a cit small as Chicago. Being so small he could hide in the most extraordinary places and he was making a hell of a lot of money while staying on the run from Al's heavies. Christmas bonus, without telling anyone, in July, and ended up taking a permanent Christmas vacation. Butit couldn't be said that Capone wasn't imaginative. He loved sport, especially when it involved death, and he offen devised amazingly enter oes. He was being denied by liftle Johnny and he had devised such a game Little Johnny was not captured by Capone, but by the pa one of his best.
handsome monetary benefits and little Johnny was handed over to Capone, who cost the same thing. The police received game was this: Little Johnny was brought into a room. It was a small room, the walls and celling were blue, the carpet Anas whis litte and there was a piano in one corner from which a light jazt tune was emanating. In each of the other corners was an attractive indoor plant. The plant and the piano were all done for effecti: Al Capone was the master of effect. The only thing that caugh
your eye as you entered the room was the four doors situated on the far wall your eye as you entered the room was the four doors situated on the far wall. one red, one blue, one green and one black
The striking thing about these doors was that they were only about four and a half feet high, only tall enough for liftle Johnny to walk through comfortably. My father was privileged to view this game and he knew what was behind each of the dooors, Each door opened into a very small room. On one of the walls of these rooms was a piece of paper on which was printed a short verse, witten by Cavone himself, Johnny would have to read this verse and when he had finished an action would take place, something akin to his brains being blown out by a thompson sub-machine gun. In an Capone explained this to liftlle Johnny whie my father aimed a Thompson sub-mach
cortex. Caponethe lilt have much choice. He spent a few moments pondering his decision and then cut a knife through the tension by instructing have much choice. He spent a few moments pondering his decision and then cut a knife through the tension by instructing
the old piano to start playing it hot as he was going to find our what was behind the green door.
He opened the door slowly and stepped into the room. Following instructions he recited the passage
What a lucky guess you did
You can go away no
and be a lititle gun seller.
Capone was never much of a witer: he dropped out of school at first grade. After he had finished the passage, a trap doo opened and Johnny sid downit. On the way downhe wondered why At was being so generous and ne came oor
that he wasn't really surprised when he was knifed by a huge bodyguard as he walked out the door at the bottom I have offten ruminated on this story while sitting in the small cell that I occupy in ' D' block. I now realise that Chicago gangsters must have been one of the most warpeach

## THE PARADISE BIRD

The paradise bird is the guardian in the sky, she stretches out across the universe: Her tail is the rainbow whichbrightensup the horizon, her eyes are he sun and the at day and the Moon forth nights. Whenthe days are hot she gently flaps her wings and a cool breeze blows away the heat Sometimes she is lonely and so bigtearsthunderdown from her eyes and when they hit the clouds they tum into spray and it rains. But she is always up there guarding us.

Seth Barwick, Grade 7

HOW?
The sleek body twisted in and out of the fronds of the "seaweed" Up, down, in-between, leaping into the cold, crisp, icy air. Diving, diving, down to the sandy bottom
liny bubbles escaped from its nose.
Fast, faster, faster.
Streaking along underwater. It turned, floated, hung, suspended, The huge chest rising inconspicuously.
The crab, food, life. Its life swallowed up
Man cruel Man killed for sport.
Man, cruel Man
A spear flew through the water, the creature moved,

## How?

The di How could a man do that?
The body flown eyes glazed over
How?
Greg Aldridge, Grade 7

## RAINBOW

Red is for the flag the bull-fighter waves, Yellow, the colour of the sun
Pink is the sunser behind ink is the sunset behing Green is leaves that hang upon Our trees. Oranges are lovely to eat,
Purple brings out the spring owers, violets. Blue is the colour of the sky in which we ofter see the rainbow.
Anthony Barrett Anthony Barrett
MY OWN PLACE
The trickling, clear, fresh mountain waterinthe Lenah Valley creek is rapidly progressing to the New Town Rivulet

The wind is blowing through my silk, brown hair
I feel like I am in another beautiful, fresh new wôrld where all my distracting problems are left behind.
But then the sharp whistle of the lovely, black butcher bird makes me snap back into reality.
I sit cautiously down on the mossy, damp rocks.
I gaze up at the distant, deep blue sky where the clouds are swelling and making little pictures for me.
The gusty breeze is making the elegant stringy bark gums sway to and fro above my head.
then hear the faint scuffling of lizards and tiny animals hrough the mysterious, eerie bush

A tiny, brown, withered leaf falls from one of the big gums. It floats slowly down towards the ground, then it is swept away by the swelling raging water.
Itry to save it but it slips out of my big, rough hands and is drowned in the bottom of the bubbly water fall.

## IS IT WORTH IT?

A man there stands upon a condemned building
Looking below and asking himself is it worth it
Through his moist eyes he sees sludge running down gutters
pouring out of drain pipes and lying in puddles on the concrete floor.
He watches tom cats, scrounging for food amongst some trash cans.
And in a pile of rubbish, there is a bum with a bottle of grog in his hand.
He is asleep and looks comfortable, but to the man on the building he looks
cold, hungry and in need of love and care
handing out drugs to kids who couldn't even be seven years old
And at the other end he sees an elderly man harassing a little girl.
The man on the condemned building with his mind made up, called out.
is it worth it?

THE GLASS PLANET
The glass planet in the Milky way s like a speck of dust floating in a room Going round and round The everlasting ball of flame. Which is the size of a drop of rain, Compared with all the rest, Creatures battling their way out. Trying to smash the glass, The everlasting war of the glass planet s broken by the ears, eyes and thoughts Of one child
in a speck of time that it did las.
Tom Fitzgerald

SPACE: A SENSE OF WONDER
Space great wonder is space,
The , space, eternal space.
The sky just seems to go on forever.
to look up into the sky and not se impossible it seems to look up into the sky and not see the end.
With the stars and planets just hanging there it looks But beyond them lies much
Discoveries just waiting there in the vast infinity,
Oh where, oh where does it all end!

## Andrew Sypkes

## ROCKS

Rocks come in many forms, mudstone, as sediment in river, Or limestone, as reefs in tropical seas dolerite as a steep cliff,
hornfels is compacted togethe
Or granite, once hot liquid.
now cooled deep in the centre of the earth.
Basalt, erupting as lava,
full of gassy holes.
Others like sandstone
he laying down of grains of sand Maybe marble pressured togethe
formed from limestone.
Jonathan How

## THE THIEVING GLUTTON

Through the corridors of Hutchins, Sneakily I crawl,
Heading for the fuckshop.
Staying by the wall.
I take a left and then a right
Up some stairs and through a doo
Great! The key is on the wall
I turn the key in the lock,
A click, and then it's open
Waiting for me.
A pie, then a hot dog, maybe a roll.
A few drinks might be in order,
Now I'm full of food.
What did not taste nice was the pinkie.
Which I got the next day,
don't know how they caught me,
swiffly ran away,
Crime doesn't pay.
Miles Rochford

## THE COWA-KI TRIBE

Derek Rostagno was lost, deep in the heart of the coniferous forests on the border of Hungary and Austria. He had been trekking around aimlessly for three days since he had become separated from the rest of the members of the "European Botany Conference". Unknown to him rescue expeditions had ventured within five killometres creatures thathe passed and the mosquitoes which constantly ate into his flesh. He was in desperate need of fresh food and water as he had used up his supplies long ago and now all thatremained was a quarter of a litre of whiskey which he had illegally brought with him. He felt sure he would die of starvation if he didn't get food soon. He was at his lowest ebb, lost in a foreign country. And then he came across the Cowa-ki tribe.
On firstsight the Cow-ki tribe really did appear to be a relic from the past. They were virtually uncovered except for a very scanty material covering the lower torso. Derek Rostagno firstencountered the tribe late on his third day in the wilderness. He had sat down for a rest because of his overall fatigue, and sailed off to sleep. As he snoozed "Notyet letme sleep jusabidmore" he mumbled as he reached out for the clarm clock which
"Ah, you speak English," said an unusually accented voice, "Good, good." As Rostagno began to realise what was happening he felt a slight prick in his arm and darkness fell over him.
When Rostagno awoke he found himself in a dark, murky room, containing three brightly coloured doors in front of him as well as a large congregation of people looking over him. He was tied to a metal table by thick straps, which appeared to be old car seatbelts. A large, dark complexioned man walked up. "Master, what is your request?" he boomed in a deep voice.
"Youare in the Cowa-ki's domain. We have beendwelling in these domains under Austro-Hungary for centuries since our ancestors moved here.
"And who are your ancestors?" asked the disbelieving botanist.
"Why, the great people of the ancient land of Naturia, of course," he replied. "And the great scribes of the distant world wrote that a man of fair colour would come and only he could choose our destiny through the doors of providence which you can see in front of you.
"Then why am I strapped down?"
"ered the direction of the doorsman. "Merely a precaution, you understand." As Rostagno stood he was doors. "As you can see there are three doors; green, red and gold. Each has ymbolic meaning and the one you choose shall decide the future of our race."
"But why me? What have I done?" pleaded Rostagno.
"You were the first. You must decide," was the answer.
"You were the first. You must decide," was the answer.
Rostagno decided to think each one through. "First the green," he thought. "Green symbolises envy and jealousy. Next the red. Red symbolises danger. Finally the gold. Gold symbolises glory," "That's easyl" he claimed as he moved towards the golden door. He pulled it open to reveal a huge gust of wind. People were hurled about crumble. Then, suddenly a large voice boomed from above: "Youchose incorrectly and the civilization will perish! Notall thatglistens is gold. Did younotrealise that Naturia is "Nature" in the ancientlanguage and greenrepresents nature. How naive you are!" With this the village crumbled with all its inhabitants being killed and no trace of it ever being seen again.

Future Career: Politician

The year 1989 marks more than the end of a decade for four Hutchins'senior students - it is, indeed the concluding point, in a significant association with the school. In an era in which change has occurred at a remarkably rapid pace, Richard Allanby, ScottDavidson, Edward Fader and John Polack have exhibited exceptional "staying power", spending the entirety of their school career at the Sand Bay campus. Starting as three year olds in Mrs. Tanner's afternoon kindergarten class, 'Dickie' 'Dave' 'Fingers' and 'Des' have shared their lives with Hutchins since early 1975. They leave with a vast array of memories and with their prospects for a successful future greatly enhanced by the grounding tha they have received.

Sixty years of service between hem: (L-R): Richard Allanby. Edward Fader John Polack.

Travis Read and William Reynolds are leaving after foutteen years each at the School.

Richard Allanby

Edward Fader

## H.S.O.B.A.

President::
Vice President:
Hon. Secretary
Hon. Treasurer:
on. Assistant Secretary:
Committee:

Ex-Officio:

John A. St. Hill
Ewen C. Cummins, Mark Samsom
Alan M. Graves
F.J.E. (Minty) Johnson

Christopher Hall
Andrew Bayley, Robert Dick, Stewart Hutcheon, David Jackson, Leigh Johnstone, Andrew Potter
Clive Simpson, Leith Thompson, Tom Vincent. O.B.Bd. Representative (Brent A. H. Palfreyman) Headmaster (John A. Bednall)
1988 School Captain (Stephen Tisch).

## BRANCHES

The Headmaster attended the reunion of the North Western Branch while David Brammall repreented the School at the Northem Branch. Unfortunately the Headmaster's plan to visit the mainland Branches was prevented by the pilot's dispute. Locally, the Year Reunions have proved to be very popular, and point the way to the future, with seven reunions planned for 1990.

## OLD BOYS FOOTBALL CLUB

President:
Secretary:
Treasurer:
Vice President
Committee:
Senior Coach:
Reserve Coach:

Chris Drury
Jim Munro
David Heath
Peter Hopkins, Nick Heath
Fred Abel. Ken Camthome, Clive Simpson
John Wertheirmer
Nick Heath.

The club enjoyed a good season both on and off the field. The Seniors just failed to make the finals but demonstrated that they had the ability to defeat any side in the Old Scholars competition. The Reserves finished the roster games on top of the ladder but lost the Grand Final to O.V.A. by 13 points. Their performance suggests that 1990 could produce the long awaited "double".

## MAIN TROPHY WINNERS

Arthur Walch Memorial rophy: Best \& Fairest (Senior):
John Proon
Best \& Fairest (Reserve)

## HUTCHINS OLD BOYS CRICKET CLUB

The Club enjoyed a most successful season. Under the captaincy of David HoOskins, the Lions defeated O,V.A, in the final. The Blacks also reached new heights by reaching the finals for the first time

Notable Performances:

## Lions Blacks

Batting Average: Justin Nandan 97.0 • Mathew Johns 29.20 Bowling Average: Tony Rodwell 17.38 • Richard Baker 13.32

| John Mullen Memorial Trophy: | Justin Nandan |

\end{aligned}
$$

Bowling: David Hughes $6 / 89$ vs O,V.A. Saint
This season brings on exciting new challenges to S.O.S.C.A. It has amalgamated with the City Association for a trial period of one season. The Club belleves that the injection of more teams will help provide a more challenging and rewarding experience for the players.

The Club would also like to express its indebtedness to the school for the use of the wonderful facilifies and we look forward to their continued support in the 1989-90 season.

Congratulations are extended to the two appointed Captains for this season. Nigel McLeod (Lions) and Matthew Johns (Blacks)
The Club is always pleased to welcome new members too.
Rod Headlam, Secretary

## H.S.O.B.A. RUGBY REPORT

With the aim of shaking off the legacy of two very disappointing seasons, the Hutchins Old Boys Rugby Union Club attacked 1989 with new purpose and vigour to achieve what was undoubtedly one of its finest years

The success of the year was exemplified by the fact that the Senior Grade only narrowly missed out ontaking the Statewide inle in June, and were similarly narrowly denied aplace in the Southern Grand final by old rivals Taroona who defeated us in the Preliminary final. The Reserve Grade were also unlucky not to make the final series. Furthermore, we had three State Representatives in Andrew Burnett, Kelly Ogilvie (Senior Tasmanian XV) and Sam Forbes (Under 19 Tasmanian XV). Kelly Ogilvie was also the joint winner of the Referees' Best and Fairest Trophy. Also, in honour of some outstanding playing performances during the year, a number of trophies were awarded including those for our Best and Fairest players, Scott Parnham (Senior Grade) and Stephen Sakell (Reserve Grade).

However, 1989 has ended on a sad note for all those associated with the club, due to the passing of one of our most promising players, Martin Zochling. Although only 19 years of age, Martin was truly a talented player, and was regarded as such by opposing sides due to his outstanding ability in the line outs. He will be sadly missed by us all, and never forgotten.

## DOWN THROUGH THE AGES

Malcolm Ward is becoming one of our most travelled Old Boys. His current address - Gerlach, Nevada, USA - reminds many of us of a most revered master 1920's through to 1960's "Goozey." Malcolm, a geologist with Western Mining - Perth to Hill 50 to their Darwin Exploration Office, to their Hog Ranch Gold Mine in Nevada and now to Queens University in Kingston (Canada), Ontario, where he will do his M.Sc degree in Geology.
T.D. (Tammy) Simpson is the sole surviving member of the Dam Busters crew. Was a member of the RAF's famous 617 Squadron, which attacked the heavily defended Mohne, Eder, and Scorpe dams. Oliver Scarr formerly page 21.
Oliver Scart, formerly E.S. \& A. Bank (ANZ) has been presented with a 50 year certificate of the .
LNarth): Hamilton: Gens results included: Bothwell: Ian Downie (Great Lake); Esperance: Jack (North); Jock Nickolls (Central); Geoff Parsons (South); Oatlands: Tom Raphael (Dulverton); Campbell Town: David Downie (Central); Green Ponds: Tony Bis-
dee (Warden), 3rd Bisdee to be warden, 6 th to be on the Council.
sel. "Intrigue" saile
If youwant to know anyth clubs. Has more than a passing interest in the recreation ground.
Brian Aherne, awarded OAM in "Queen's Bithday Honours", former president of the HSOBA and Football Club, has been appointed regional consultant for Tasmania of the Insurance Council of

Russell Bowden, formerly farming in the Brighton District can now be found at the Derwent Waters Residential Club, golf and bowls now his main interest
Former Honorary Consul for Belgium in Hobart, Doug Fiizgerald, has been named Knight of the Order of the Crown in recognition of his work for Belgium. Graham Woodward has been appointed to be the Consul for Belgium.
Water Safety awards, introduced by the Water Safety Unit of the Department of Sports and Recreation, saw Jeff Boyes gain an award for meritororious service, for his life long interest in marine radio communications. He was awarded B.E.M. for services to MRC
James Henri, is senior lecturer, School of Information Studies, Chas. Sturt University/Rivnins, Wagga Nagga.
Mike Temple-Smith (Dr.) has been appointed chief of the chemistry and soils branch of the Depart-
Recent Hobart Horticultural Society Show - grand champion daffodil was a Pink Large Cup grown by Jackson's Daffodill Farm - in other words David did it again: many of us can remember grand-father tim carrying off such awards fifty years ago.
Andrew Hunn crewed on "True Blue", Perth owned one tonner for the Admiral's Cup regatra sailed off Cowes in July. Andrew is now a Perth based surgeon
Hamish Lindsay visited the School and talked to the boys about space. He left NASA when Honeysuckle Creek closed in 1981. Has a new job as senior technical officer at the High Court of Australia. for 1988. John is managing director of Performance Automobiles.
Max Burbury, of "Ratharney", Woodbury, who has shown foresight 40 years ahead of his time has been awarded the major individual award in the first Greening Australia (Tasmania) tree care awards, Manager of the new Rosny Branch of the Savings Bank of Tasmania, is Mike Trousselet, he is also eastern shore zone manager.
Anthony Baker wrote his name into the Guinness Book of Records and football history in the football season just concluded, kicked 216 goals. Plays with the Bakers Creek team in the Mackay Football League, Queensland. In four games he kicked 20 goals or better - 27 being the best. He has plenty of time to repeat this effort, being only 24. Former high jump champion. Formerly played with Old Launcestonians, Longford, Mildura. Profession - school teacher.
Championship Fleece awards announced just prior to the Royal Agricultural Society annual show
in October included the following: Corriedale Fleece: P.S. Burbury \& Son; Comeback Fleece: Parsons "Bloomfield"; Most successful exhibitor: R.V. Bowden \& Son - Richard. Other names noticed were S Burbury \& Son, N. Burbury

Bruce Golding elected president of the Royal Commonwealth Society (Tasmanian Branch)
Reg F. Cane, ourwandering professor, has retumed from anothersession at the University of Utah, and following this assignment with a visit to the University of Malta. Our Reg is quite a well-travelled-person with 34 trips across the Pacific to his credit!
Arthur J.R. Hodgson was recently featured (14.1.89) in an article in the Adelaide Advertiser. He also fravels extensively, for Vision Systems Ltd., which sold $\$ 200,000$ worth of equipment to Capitol Hill are also clients.

Graeme Norman, Sydney, paid the School a visit recently and with his brother Don Norman was featured in an article in The Mercury. Both are writers and at the age of 75 Graeme wrote Yachting and the Royal Prince Alfred Yacht Club, and Don has written six books and has been ghost writer for a further three texts.
Robert (Bob) Vincent was responsible for the staging of a set of photographs of Hobart, covering the period 1846-1914, and subsequently published as This Southern Outpost. Included in the book were early photographs of Ingle Hall, the School's birthplace, and of the Collegiate School.
Noel J. Ruddock was honoured in the Australia Day Awards 1989 - (Member of the Order of Australia) - and was more recently honoured at the Sports 1988 Achievement Night, when he was presented with an award: Athletics, rootball and Cricket are Noel's $p$ David Graney is reported to have an unbeatable
will contest the World Championships in the Netherlands Australian Mirror Class championships, 1988, good luck for the coming competition! Barrie Foster has recreational interests other than yachting: he has been elected President of the North Hobart Football Club.
Adrian Gibson, a former Captain of the school and for many years a resident of Victoria and frequent Tasmania-visitor, is the Executive Chairman of Inve : are Dty. Ltd. and had joined the Board of salmon producer Tasmanian Atlantic Salmon Ltd.
Noticed on the University of Tasmania lists of Prizes and Scholarships were the following Hutchins Old
Boys (E\&OE): John Elias: Best First Year and Best Stud Boys (E\&OE): John Elias: Best First Year and Best Student in Introductory Accounting. David Clerk: Best Year Engineering. In Medicine the following prizes were made: Nick Lintzeris: Australian Huntington's Association Prize, Medishield inTherapeutics, ClinicalPharmacology \& Therapeutics, Nigel Mann Greatex Medical Prize, Tony Patiniotis; Best research project in Community Health. Law - James Omond International Trade. Science - Highest Aggregate in Chemistry units 231-2-3 Tino Delbourgo, Proficiency in Physics John tisch, Parkinson Prize: Chris Yeats. Several students were also honoured by being menioned on the Dean's Roll Bowes was awarded the Harwin Memorial Prize.
Ian Watchorn, formerly of the Savings Bank of Tasmania, has been appointed a Client Advisor of Rudie Sypkes \& Associates.
Dr. James Rogers has been elected incoming Vice President of the Royal Society of Tasmania and Charles Payne has been re-elected to the Council
Geoffrey W. Colman has "taken silk". As he has been practising at the Bar in Melbourne for many Congratulations Geoffrey. The more senior members of the Old Boys' Football Club still rememberthe efforts of Geoffrey and E.G.A.B. (Ted) Terry in the Grand Final of 1949 - the only game in the season we did not win. Hutchins kicking 2 goals 8 to "The Shop's" nil in the last quarter, mainly due to the efforts of two Old Boys in the opposition camp: Colman and Terry.
R.F. (Bob) Clifford was voted Tasmanian of the Year 1988. He is Founder and Managing Director o nternational Catamarans, Tasmania. Bob has won the contract for the wave-piercing catamaran to be used on the Bass Strait service. Don Calvert and his yacht Intrigue have just completed a very successful yachting season, consistently being in the Number One spot and competing successfully in he inaugural Tasmanian Three Peaks race.
King Institu keting Institute. He is a graduate of the International Marketing Institute's Harvard Summer School.
E.\&.O.E. AS extracted from the school registers, apologies for any inaccuracies or omissions. We would be pleased to be advised of any changes which may be necessary.

The common room, I hear you ask, What is it really for?
A hangout for the motly crew? Or is it something more?

It's a place to meet, a place for all,
The bevs, the lads, the nerds, segregated from the rest, Their influence unheard.
We pay our money for coffee and tea,
Five dollars should last for years,
But who needs hot drinks? we all say, We wish they'd buy us beers.

The notice board is falling down, The chairs they are all stuffed, Each time Kev fixes them, He curses with disgust.

There's the cupboard door that's fallen off. But this is not all bad.
It doubles as a cricket bat Or a skateboard for the mad.

Lunchtime sees the fellas come in, To talk, eat and have fun,
Like a bunch of lizards they sit and sleep.
On the balcony under the sun.
And don't disturb the Physics talk,
You're sure to pay the price. When Jez and Joe get hold of you. It won't be very nice.

The wall is chipped, the tables broke, There's grafitti on the door,
Then hear you ask again.
What is the common roontor
The answer's really simple.
"To keep the Grade 12 's separate And the rest of the school's thoughts clean."

THE COMMON ROOM

We are the worst, we are Grade 12,
Well that's what they all say.
So ensure if you're not one of us.
Into the common room, don't stray!
Ripped to pieces, eaten raw,
the maulers will all feast,
Bashed and strung up despite your age,
By the Grade 12 beast.
If you're lucky and plead real hard,
here is a chance you may
Be merely locked in the cupboard
For the remainder of the day.
At times the room could be compared
o many a sporting venue
The M.C.G., a boxing ring
Or whatever's on the menu.
The cry is out, "Let's have a kick".
And a footy is produced
ydro flies, Cecil stabs.
Our safety is reduced.
We've come to leam throughout the year
About many things, and that,
he common room is haunted
By a doidy little rat!
He slinks around here and there,
His beady eyes trained.
On any piece of rubbish,
About which to complain
A word of advice for next year's clan.
Who occupy this room
2 is great, the party year
But you can't get out too soon!
Vica Bayley

This year saw quite a few structural changes to the Archives. Shelves have been added to store the large collection of old and valuable books, and access from the Ray Vincent Wing has been made available.

There have been a number of donation from friends and Old Boys. To note a few: a large leather bound Bible donated by Mr. and Mrs. Donald Burbury. The inside leaf has written "Martha Loulise Buckland, March 3 ist 1860". Martha Buckiand was the second eldest daughter of J. R. Buckland (First Headmaster), she married F, G. (Ginger) Howell, whotaught mathematics at Hutchins until 1893. Othe additions to the Archives include a scrapbook from the 1920 's donated by Mr. W. S. Hannon and a se of photographs (1934-35) from Mr. E. Valentine.
There have been a number of requests for biography information throughout the year and the Museum has been a popular place of interest for visitors to the School.

Next year it is envisaged that an "Archives Club" will be initiated to ease the burden slightly for the Assistant Archivist. This year Phillip Lipscombe has been a valuable Assistant and has earned praise from a large number of visitors.
of and ordered records management
Everyone is welcome to spend time and browse through the Museum when visiting Hutchins,
I.Millhouse

Towards the end of 1985 , I decided that a year off would be a pleasant thing sol applied for a year's eave-without-pay. I was asked to postpone my leave. Mainly through my involvement with squash had already come to know some of the Grade 8 students of that year. I was very impressed by the pleasant enthusiastic manner of those boys so Itook very little convincing to stay for 1986 as Year Group Master of the group

A very pleasant camp finished 1985. I wonder do the individuals involved remember a teary bout fhomesickness one morning or an earnestapology on behalt of he groupsso hatlwoulanthink the "Grade 8's were all ratbags". It is highly unlikely that one boy could have realized my trepidation a I supervised his skin-diving expedition as I had promised. Those rocks seemed terribly menacing. I kep seeing sharks.
No-one's perfect and 1986 sawsome very serious problems: the boy who assured me that the packet of cigarettes which fell at my feet out of his blazer pocket were not his, for example. But, already, a mark was being made: a screening of a video-tape of a certain production of - "The Pirates of Penzance" is solid evidence. In the chorus scenes and the scenes with the policemen, the screen fills with enthu-
 We experad 0 's were in their academic and spoting pursuit too. Play On Tour ended the year t is always fun. A slight mishap as lines were altered and the set collapsed at launceston Church GrammarSchool asain was fun. I collacertain Toranain peces onabackroadinto Richmond and some very sensible, constructive help from two members of the cast - both Grade 9's.
By the time I returned in 1988, the many programmes run by the SRC and the CRC were benefitting greatly from the input of that year's Grade 11's. Staff were making positive comments in all sorts of areas. There were some excellent results in HSC examinations of that year. Participation in all sorts of activities had again been excellent. Some staff were anxiously volunteering to be Grade 12 form masters. Suddenly, the final year was upon us. Many boys got the recognition they deserved, being made Prefects and sub-prefects and they spent this year leading the school in a thoroughly excellent manner. But I noticed others too: the boys who coached debating teams, the people who regularly volunteered to help with the ongoing action of debating evenings, the boys who were continually mentioned at assembly for being excellent sporting captains or organising successurcamps for others o enjoy, those who undertook the thankless task of helping me to try to run an efficient Grade 12 CommonRoom, guest speakerorganisers, House Drama producers, eaders in Burbury House and there are many I've missed - some I never even knew about, probably.
It is not only what this Year Group has done but how they did it and the large percentage of them who contributed so much.
So why is this a "Year Head's Lament"? Except for the silly little boys who wagged school or skipped class, I've had so few problems to deal with because of the positive, co-operative nature of this group I've forgotten how and I lament the fact that I might have to learn it all over again.
