Editorial

The Magazine is now a year old. We wish ourselves "Many Happy Returns of the Day," and pray that it may continue, an unbroken record of school doings, for many years to come. Last year was a record one for the School in many ways—*inter alia*, because it saw the genesis of this Magazine. In school, on the field, and on the river (as well as *in* it) we set ourselves a high standard of merit; now we must see to it that we do not fall below that standard. We cannot expect to make records, or break them, every year. The thing that tells is honest endeavour, even if we cannot command success. "Who fails in high endeavour nobly fails." If every one of us can say honestly at the end of the year that he has done his best, there will be little to complain of.

In spite of the large number who left at the end of 1913 our muster-roll has increased. There are over thirty new boys this term, and our total is 165. The boarders, too, keep up their numbers; there are 31 in residence.

The building operations are progressing slowly, but surely, and begin to present a really imposing appearance, both from Macquarie and Barrack streets, the stone work being particularly effective. A good many minor improvements were effected during the Christmas holidays. The new sanitary ar-

rangements are highly satisfactory, and the levelling and rolling of the playground have considerably augmented the somewhat limited space for games

The familiar form of our worthy Vice-Master has been greatly missed this term. The Magazine voices the earnest prayer of the whole school that Mr. Stephens may be able to return to his duties next term in better health after his sojourn in the country.

A School Magazine was started in the nineties, but only lasted some half-dozen quarterly numbers, apparently becoming defunct in 1894. Its editor in that year was the late Major Wylly, of the Madras Staff Corps, who was for some years on the school staff. Of Major Wylly's two sons, the elder died in 1894 from complications after an attack of measles. His portrait hangs on the schoolroom wall. The younger, Lieut. Guy Wylly, brought fame to his old school by winning the Victoria Cross during the Boer War.

Apropos of magazines, it is interesting to note that there was at one time a Christ's College Magazine. A copy dated September, 1890, is in our hands. It announces the departure of the then Warden, the Rev. P. E. Raynor, and the arrival of his successor, the Rev. J. Oberlin-Harris. Another important announcement is that of the foun-

dation of the University of Tasmania. There is also the story of a "Bolster Fight" in verse, by an anonymous poet, and an account of a fire at the College, in which 250 library books were destroyed. A copy of Gould's "Birds," valued at £200, luckily survived. It would be interesting to know what became of this valuable work. Possibly it is to be identified with that now in the possession of the Royal Society. A number of football matches are recounted; two of them against Hutchins School, both won by the College. An editorial note apologises for the Magazine's not having appeared for twelve months, alleging in justification of the omission the loss of Editor, Staff, Printer, and Publisher during the interval.

The smallness of our circulation last year involved the management in considerable financial loss. The Board has accordingly decided that in future it shall be compulsory for all boys in the school to become subscribers. Even so, there will be a small deficit, unless the number of subscribers outside the school is increased. New subscribers for the current year will be very welcome, while the old ones are invited to help us by forwarding their subscriptions, with any arrears that may be owing.

Four of last year's prefects have left, namely, Brodribb (Senior Prefect), Payne, Vautin, and Charlesworth. The only two remaining are Harvey and Dollery. Harvey has been chosen by the Headmaster to succeed Brodribb as Senior Prefect, and the new prefects are Butler, Thomas, and R. Cumming.

"Continual Dropping wears the stone." The Librarian repeats his familiar plea for donations of books to replace the dilapidated volumes that have been consigned to the waste-paper basket. We have to thank J. Charlesworth for a copy of "Captain Scott's Last Voyage," and R. Boniwell for two of Charles Reade's novels. We are also grateful (in anticipation) to Mr. L. F. Giblin for his promise of books.

Public Examinations, 1913

In the Senior Public Examination in December, 1913, the School beat all previous records by winning three out of the four Scholarships awarded by the University, and eight out of ten prizes. Out of five who qualified for the Mathematical Scholarship four were Hutchins School boys. Nine of our boys passed. In the Junior Public we did equally well. Twenty of our boys passed the examination, and four qualified for exhibitions, taking first, second, fourth, and seventh places respectively.

Detailed results:—

SENIOR.

A. F. Payne: First Mathematical Scholarship; prizes for Arithmetic, Algebra, Geometry, and Trigonometry.

R. O. Boniwell: First Classical Scholarship; prizes for Modern History, Latin, and French.

F. E. Moloney: Second Mathematical Scholarship; prize for Chemistry.

K. A. Brodribb: One Credit, five Passes.

J. M. T. Butler: Three Credits, five Passes.

E. M. Dollery: Two Credits, six Passes.

H. L. Henry: Six Passes.

R. N. Weaver: Six Passes.

M. R. D'Emden: Five Passes.

JUNIOR.

S. C. G. Hawker: First Exhibition: Seven Credits, two Passes.

A. O. Gifford: Second Exhibition: Six Credits, three Passes.

D. A. Georgeson: Fourth Exhibition: Four Credits, five Passes.

L. W. Vaughan: Seventh Place: Four Credits, five Passes.

H. F. Barnett: Three Credits, six Passes.

V. A. Clark: Three Credits, six Passes.

W. B. Walker: Five Credits, three Passes.

A. S. Crouch: Three Credits, four Passes.

W. V. Tenniswood: Three Credits, six Passes.

E. M. Lilley: Two Credits, six Passes.

L. F. Reynolds: Two Credits, six Passes.

L. W. Adams: One Credit, seven Passes.

P. M. Ramsay: One Credit, six Passes.

R. A. Cumming: One Credit, six Passes.
R. S. Holmes: One Credit, four Passes.
S. F. Croft: One Credit, six Passes.
D. W. Williams: One Credit, eight Passes.
W. M. Murdoch: Seven Passes.
R. Cumming: Six Passes.
F. G. Fitzgerald: Five Passes.

STATE SCHOLARSHIPS.

H. F. Reynolds.

C. Rait.

C. B. Boyes.

NEWCASTLE SCHOLARSHIPS.

Senior: E. Waugh.

Junior: C. W. Adams.

PEDDER SCHOLARSHIP.

S. C. G. Hawker.

Old Boys' Column

N.B.—We are anxious to make this column one of the leading features of our Quarterly Issue, and the co-operation of our Old Boys is earnestly solicited in supplying items of interest which may come under their notice.

We desire to congratulate Mr. E. D. Dobbie, I.S.O., late Solicitor-General of Tasmania, on his promotion to the Supreme Court Bench. The new Judge is one of the most loyal of our Old Boys, and took a prominent part in the Old Boys' movement last year, which led to the reconstruction of the School management. His ability and integrity and high sense of duty eminently fit him for the honourable position to which he has attained. He is not the first of our Old Boys to attain this distinction, as Sir Lambert Dobson, one of the earliest scholars, was for many years Chief Justice of Tasmania. We hope Mr. Justice Dobbie will some day hold that still more honourable position.

Another of our oldest and most respected Old Boys, Mr. A. W. Garrett, B.A., Oxon., has recently been appointed Registrar and Inspector of Secondary Schools. Mr. Garrett was a "Tasmanian Scholar" who proceeded to

Oxford, and afterwards joined the Indian Service. Retiring in due course he returned to his native land, where he was appointed to an inspectorship under the Education Department.

Mr. R. L. Dunbabin, M.A., another Tasmanian Scholar, who has for some years been a Lecturer at the Tasmanian University, has been appointed to a Professorship in recognition of the excellent work he has done for the University. Mr. Dunbabin represents the Old Boys on our Board of Management.

Another distinguished Old Boy, Mr. J. W. Tibbs, B.A., Headmaster of the Auckland Grammar School, paid a visit to Tasmania during the Christmas vacation.

Mr. W. Spencer Lake was also here enjoying a holiday recently. He holds an important position at the Bendigo School of Mines.

Mr. Henry Allport has passed his final Law examinations, and has been admitted to the Bar.

Messrs. D. Vautin and C. B. Hughes, who passed so creditably in the Federal Service examination last year, have been appointed to the Home Affairs Office and the Land Tax Office respectively.

Capt. L. E. Hudspeth has returned to Hobart after a long exile in the West. He has been appointed to the position of Area Officer 93B.

Messrs. H. Allport, E. C. Stephens, and Huon Walker have been admitted to the degree of LL.B. in the University of Tasmania. The last-named, on being presented for his degree, was made the subject of a lengthy ode after the Pindaric manner. This was chanted by the students, with full orchestral effects. "Pickles" stood the ordeal with Spartan fortitude.

Mr. G. W. C. Dixon has been appointed to a position on the reporting staff of "The Mercury."

Messrs. A. F. Payne, R. O. Boniwell, and F. E. Moloney have commenced reading for their First Year at the University. Boniwell takes the Law course; the other two are doing Science.

Student Life in Edinburgh

This article, while purporting to give, in small compass, a more or less complete account of the institutions and customs of the University of Edinburgh, yet must fail to do justice to all of these. For, in an institution of the size of this University, a member of any one Faculty could not possibly obtain more than a superficial knowledge of the workings and doings of any other. Which consideration will perhaps suffice as apology for the more particular references which will be made to the Medical Faculty.

It is, indeed, this Faculty which has been responsible for the reputation Edinburgh has gained in all parts of the civilised world. The fame of her Medical School is almost as widespread as is the name of the grey, old city of the North itself. But all branches of learning are represented in the University. Law, Science, including sub-branches, such as Agriculture, and other applied Sciences, Engineering, Arts, Music, Art and Divinity, all have their place in the curriculum.

The size of the University of Edinburgh is not generally appreciated in Australia. Approximate figures only are available just at present, but the total number of students now attending lectures is in the neighbourhood of five thousand. Of these, Medicine claims fifteen hundred, and Arts a like number. And it is to be borne in mind that, in Edinburgh, there are other institutions of learning besides the University, such as the Royal College of Physicians and Surgeons, and various schools of Engineering, as well as the larger Public Schools—Fettes, Merchiston Castle, and Loretto. So that one may readily appreciate how truly academic a city it is.

With such numbers of students, it is to be expected that the classes should be correspondingly large, and, in Medicine, the lecture classes contain, as a rule, about three hundred members. Generally speaking, order is well maintained, but some poor unfortunate lecturers in the earlier years of the course, have not any success in this respect, and, in one particular class, a fireworks dis-

play is an unfailing occurrence on Guy Fawkes' Day each year.

The most striking feature in connection with the students themselves is their very cosmopolitan nationality. All shades of colour and most races are to be found among the citizens of our academic "state." Dutchmen from the Transvaal, swarthy chiefs from Central Africa, coloured men from the Far East, and representatives of the most outlandish portions of the British Empire, all find their way to Auld Reekie. Australians are there, too, but not in such numbers as was the case years ago. New Zealanders far outnumber them, and there is quite a small colony of the latter, some four hundred studying there.

There is no collegiate life in any of the Scottish Universities. They were modelled, not on Oxford or Cambridge, but on the University of Paris. The University is merely a teaching body, and the students live in "digs." A city within a city is formed by the buildings in the Students' Quarter of Edinburgh. The flat system prevails everywhere, and many, and vigorous, are the stairhead arguments indulged in by students and irate landladies over various matters connected with the cuisine and the economy of the household. To obviate this very real difficulty, certain University Halls have been instituted. These are self-supporting, and the students who live in them share the expenses incurred.

Under the circumstances, the corporate life of the University would, of necessity, be somewhat difficult to maintain. The very size of the place tends to bring this about, and the natural separation of the Faculties is made more pronounced by the fact that the buildings themselves are scattered about in different parts of the city. So it comes about that a Medical student rarely has an opportunity of meeting men of other Faculties, and even finds it difficult to get to know anybody outside his own year of study. And, to render this easier, there exist two main factors—one, the University Union, and the other, the Athletic Club. The former is simply a large Students' Club, with all the comforts, conveniences, and enticements to

idleness associated with such an institution. The value of it, especially to students from over-seas, can scarcely be estimated, and it undoubtedly does serve the purpose for which it was instituted. There are about a thousand members, mostly Medical students. The Athletic Club, however, is not nearly so popular, and its numbers are something of which to be ashamed. But here, if anywhere, is the place where men are really brought together. All branches of sport are represented, but it is the "Rugger" blue that holds pride of place.

There are, in addition, Clubs, established for Colonials, which endeavour to promote the interests of the Over-seas students. It is the usual experience that colonial students associate with one another much more readily than with Britishers. And this inevitable tendency has this disadvantage—it helps to prevent a better understanding of the men born in the British Isles, and counteracts the great widening influence that association with such men undoubtedly produces. And for this reason membership of these parochial clubs would seem to be a very debatable advantage.

Most University students have a season in their course when the restraints of their rulers are thrown off, and full play is given to the spirit of devilment supposed to be a student's peculiar possession. In Australia it is the Graduation Ceremonials that serve this purpose, in Edinburgh the time-honoured occasion is that of the Rectorial Election. The Lord Rector of the University is elected by the vote of the matriculated students to be their representative on the Council. For a fortnight before the actual election day, the campaign is conducted with great vigour on behalf of the various candidates. Usually it is a political struggle—Liberal v. Conservative—and committees are formed to forward the interests of the respective parties. They line rooms, and forthwith barricade them, and up till election day these are garrisoned, and attacks on the rival fortresses are made with great vigour. The object of these attacks is to break into and destroy the contents of the evening's stronghold. The police are well-behaved, unless the fighting ex-

tends to the streets. Peasemeal, ochre, and soot, crowbars and sledgehammers are the weapons of offence. Usually, the class-rooms are considered neutral territory, but, on one occasion, the Professor of Anatomy could not understand the cause of the uproar that accompanied his entry into the theatre, until he chanced to notice the skeleton used for demonstration purposes adorned with the Conservative colours. It is on record that Robert Louis Stevenson and his party once resisted the militia for three days in one of these struggles. The present Rector is Lord Minto, and the list of those who have held the position includes the names of Gladstone, Carlyle, and Ruskin.

But not least important among all these recollections of Edinburgh is that of the nature of the relations between the Professors and the students. They are, all of them, men of rank, and have our mental respect. And, with one or two exceptions, they are men, too, who really are considerate for their students. Nothing is too much to do, if, by the doing of it, some difficulty is cleared away. And it is because the students have mentors of this type, men who have been students in Edinburgh before them, and because of the influence that their great predecessors have left lurking in the scenes of their former greatness, that Edinburgh has been, and still is, to so many, a real Alma Mater.

H. D. WRIGHT.

Sixth Form Spasms

"Once more unto the breach, dear friends"—
Bill Shakespeare.

Well, Friends, Romans, Countrymen, we have started once more upon the long and weary journey which leads us to the goal of our ambitions, the Senior Public. Again Shakespeare's immortal lines roll through our form room, and, as of old, the science class perpetrate the awful odours which make the air in the neighbourhood of the lab. positively unfit for human consumption.

It was a sadly depleted body that as-

sembled on opening day as representing the glory of the Sixth. Alas! the fair flower of our aristocracy had departed, and sadness held sway for a time. (Tears may be shed here if desired.)

We can imagine how our Henry of last year would have rolled out the stirring lines which head this spasmodic literary effort. No more shall his strident tones ring through the class room. Harry's voice, as Shakespeare would say, "took the biscuit," or, as the French delicately express it, "absolument prit le gâteau." He was very often A flat, and was never known to B sharp; but let's give him a Rest, as it was after all his Natural Tone of voice, and—did you say puns were Barred, Mr. Editor?

The way Flossie Payne, Pat Moloney, and Bonny distinguished themselves was a credit to the Form and to the teachers, and they have all passed on to seek, like Alexander of Old, new worlds to conquer at that classical institution, the University. We also bade good-bye to such popular fellows as Charlesworth, Brodribb, Cliff Hughes, and Weaver, whose sentences expired last Xmas.

However, we bucked up and made a fresh start, and are now getting along swimmingly, as the results of the Sports at the Sandy Bay Baths will show. Payne and Harvey upheld our honour on those occasions, their feats being a big feat-ure of the day. Beaky's jumping and running, at both our Sports and the Combined, were a credit to us. We also formed all but two of the tug-of-war team which won at the latter gathering, so we are doing well. We have here a little problem for the Physics Class. A reward is offered for its solution, but Richardson is expected to stand out so as to give the rest of the class a chance, we being confident that nothing can stick up, fix, or corner him.

Find the tension, at the middle point, in the rope during the Staff versus Sixth Tug-of-War. Also the amount of work done by the Sixth in pulling over eight clever gentlemen, given that the brains of the Staff to those of the Sixth are proportional to their average ages. The following data are given

you (more may be had on application, if necessary):—

(1) Average age of Staff = 39 (you may assume this to be approximately correct). Average age of Sixth = 16.6.

(2) Acceleration due to Gravity of Expression on the Anchor's face = 32 feet per sec. per sec.

(3) $\pi = 3.1416$ or $\frac{22}{7}$ if made by Knaggs and Co.

(4) The amount of heat absorbed in changing masters at 15deg. C. to masters at 115 deg. C., or the latent heat of vaporisation of masters = 8,000 calories.

(5) D'Emden's glasses contained concave lenses (radius of curvature, 20 cm.).

(6) The pitch or vibration frequency of Clark II.'s voice = 999 (not out).

Here endeth the First Term's Spasm.

Games and Athletics

The most crowded quarter of the year has come and gone, and, looking back, we find much to congratulate ourselves on, and something to regret. Our own school fixtures, The Annual Sports Meeting and The Swimming Sports, passed off very successfully, and provided keen contests and healthy rivalry. In both departments the outlook for some years ahead is promising, as we seem to be fairly strong in the under-age classes of events.

In Combined Schools' Meetings, the school has every reason to be proud of its record, as it holds the premier position in both Swimming and Athletics, gaining the latter distinction for the first time in the history of the Coverdale Shield.

The School thus holds at the present time the Sharp Cup for swimming, the Bibby Shield for cricket, the Coverdale Shield for athletics, and the Clark Shield for rowing, a collection of which we are pardonably proud.

In cricket we have not done so well, win-

ning only one match out of three played, namely, the game against St. Virgil's College.

The School crew is working every morning from Sandy Bay sheds, and is made up of D. Harvey (str.), V. Cotton (3), M. Dollery (2), L. Payne (bow). The race is set down for decision not earlier than the fourth Saturday of the second Term. At least three schools will be represented, Hutchins School, Friends' High School, and St. Virgil's College.

Swimming

The School Swimming Sports were held at Sandy Bay Baths on Friday afternoon, 6th March. Practically the whole school was there, either competing or looking on, and in addition a great many of their parents and friends. The sports passed off very successfully, most of the races providing good finishes.

The following were the results of the racing:—

50 Yards Breast Stroke Open Championship.—Heat 1: R. Sharp 1, R. McCreary 2. Time, 42 2-5sec. Heat 2: V. Cotton 1, A. Clinch 2. Time, 42 2-5sec. Final: R. Sharp 1, Cotton 2, A. Clinch 3. Time, 42 1-5sec.

50 Yards Championship (under 13).—Heat 1: E. McCreary 1, G. Robertson 2. Heat 2: D. Urquhart 1, R. Chesterman 2. Final: E. McCreary and G. Robertson (dead-heat) 1, D. Urquhart 3. In the swim-off E. McCreary beat G. Robertson by a touch.

50 Yards Open Championship.—D. Harvey 1, K. Atkins 2. Time, 36sec.

Diving (under 15).—K. Atkins 1, G. Boyes 2.

50 Yards Handicap (under 15).—Heat 1: K. Atkins (scr.) 1, J. McCreary (4sec.) 2. Heat 2: R. McCreary (5sec.) 1, J. Stewart (4sec.) 2. Heat 3: Sparrow (3sec.) 1, Collings (4sec.) 2. Final: K. Atkins 1, R. McCreary 2, J. McCreary 3.

Beginners' Race.—S. Croft 1, R. Chesterman 2, J. Clarke 3.

100 Yards Open Championship.—L. Payne 1, K. Atkins 2. Time, 1min. 19½sec.

Greasy Pole Contest.—E. M. Dollery.

50 Yards Open Handicap.—Heat 1: D. Harvey (scr.) 1, G. Brain (3sec.) 2. Heat 2: V. Cotton (2sec.) 1, S. Ross (3sec.) 2. Final: D. Harvey 1, V. Cotton 2, G. Brain 3.

50 Yards Handicap (under 13).—G. Robertson 1, G. Boyes 2, R. Chesterman 3.

200 Yards Open Championship.—L. Payne 1, K. Atkins 2. Time, 3min. 17 4-5 sec.

Diving (under 13).—G. Boyes 1, T. Kelly 2.

50 Yards Championship (under 15).—K. Atkins 1, Sparrow 2. Time, 45 2-5sec.

Open Dive.—K. Atkins 1, V. Cotton 2.

Diving for Objects.—L. Payne 1, A. Gifford 2.

Teams Race (Past v. Present).—Present: L. Payne, K. Atkins, D. Harvey 1. Past: G. Butler, S. Cotton, R. Butler 2.

Combined Swimming Sports

This meeting was held at the Sandy Bay Baths on Saturday morning, 14th March. The School again carried off the Championship Cup. Since its presentation in 1911, the winners of the Cup have been as follows:—

1911.—Hutchins.

1912.—Hutchins and Queen's (tied).

1913.—Hutchins.

1914.—Hutchins.

Some good swimming and diving was witnessed, L. Payne and K. Atkins being the best performers of the day. Atkins's diving was especially good, and he carried off both events rather easily.

The Open Teams Race was an excellent contest, and was won by us also, our team consisting of L. Payne, D. Harvey, V. Cotton, and K. Atkins. Mr. Margetts energetically performed the duties of honorary trainer.

Following are the results of the racing:—

Under 15 Teams Race.—Hutchins School, 1; Friends' High School, 2; Leslie House School, 3.

Breast Stroke, 50yds.—R. Sharp (H.S.), 1; A. Clinch (H.S.), 2; V. Cotton (H.S.), 3. Time, 40sec.

100yds. Open Championship.—L. Payne (H.S.), 1; G. Risby (St. V.), 2; V. Evans (St. V.), 3. Time, 1min. 17sec.

50yds. Under 13.—C. Kelleway (F.H.S.), 1; G. Robertson (H.S.), 2; F. Terry (F.H.S.), 3. Time, 44sec.

Open Teams Race.—Hutchins School, 1; Friends' School, 2; St. Virgil's, 3.

Diving, Under 13.—C. Kelleway (F.H.S.), 1; G. Boyes (H.S.), 2; L. Major (F.H.S.), 3.

200yds. Open Championship.—L. Payne (H.S.), 1; G. Risby (St. V.), 2; R. Major (F.H.S.), 3. Time, 3min. 17sec.

50yds., Under 14.—K. Atkins (H.S.), 1; C. Sparrow (H.S.), 2; G. Terry (F.H.S.), 3.

Diving, Open Championship.—K. Atkins (H.S.), 1; G. McArthur (St. V.), 2; G. Boyes (H.S.), 3.

Life - Saving Competition. — R. Reid (F.H.S.), 1; L. Payne (H.S.), 2; V. Cotton (H.S.), 3.

Swimming on Back, 50yds. — K. Pitt (L.H.S.), 1; R. Reid (F.H.S.), 2; D. Harvey (H.S.), 3. Time, 49sec.

Diving for Objects.—L. Payne (H.S.), 1; G. McArthur (St. V.), 2; G. Risby (St. V.), and C. Crisp (F.H.S.), equal, 3.

Associated Schools Sports

HUTCHINS WIN THE SHIELD.

The Athletic Meeting of the combined schools was held on the Top Ground on Wednesday afternoon, April 1. The function was a splendid success, and reflected credit upon its organisers. The day was a warm one, and the conditions for running

favourable, as the results of the racing will show. The events were watched by a large and enthusiastic crowd of spectators, including the Governor and party, whilst each school was represented by a large contingent of barrackers, who used their vocal organs to their full extent in support of their various champions. Afternoon tea was provided by a number of ladies from the University. Some splendid finishes were witnessed, and several records were broken, including the 100yds. Open Championship. The surprise of the day was the annexing of the Championship Shield by the School, and our fellows are to be congratulated upon their splendid running, especially in the under-age events. The Shield, which is a very handsome one, has been in the possession of Friends' for the last six years, so must rather feel its change of quarters. Bowtell and Goodfellow are a couple of very promising runners, and helped considerably in the struggle for Championship Honours. In the 100yds. (under 13) the former equalled the record of 12 1-5sec. held by A. Pringle, of Friends', whilst Goodfellow broke the record for the 80yds. (under 11), doing the distance in 10 3-5sec. F. Coombs, of Leslie, is to be congratulated on his splendid running in the 100 and 440 Open, whilst Reid and Jones, of Friends', both showed good form in winning the Hurdles and the 880 and mile respectively. Harvey, of Hutchins, again jumped very well, though not at his best, and carried off that event. His running in the 440 was a splendid effort, and well merited the terrific applause which greeted the finish. B. Douglas ran exceedingly well in the 880 and the mile, and proved himself not far inferior to Jones over these distances. The enthusiasm of the spectators reached its culminating point in the tug-of-war, when Hutchins met Leslie, and after a terrific pull, in which the energies and muscles of the combatants were strained to their fullest extent, and which lasted 4min. 45sec., the pistol cracked, and we were the winners. The winning of the Championship in Athletics is an event unparalleled in the history of the School, this being the first time it has been accom-

plished. The following are the championship points:—

Hutchins (50½ pts.)	1
Friends' (43½ pts.)	2
Leslie (27½ pts.)	3
St. Virgil's (15 pts.)	4

The winners of championship events were:—

100 Open.—F. Coombs (L.H.S.) Time, 10 3-5sec. (Record.)

120 Hurdles.—R. Reid (F.H.S.) Time, 16sec.

440 Open.—F. Coombs (L.H.S.) Time, 60 1-5sec. (Harvey (H.S.) 2nd.)

High Jump.—D. Harvey (H.S.) Height, 4ft. 10½in.

Mile Championship.—E. Jones (F.H.S.) Time, 4min. 53 2-5sec. (B. Douglas (H.S.) 2nd.)

880 Teams Race. — Friends 1, Leslie 2, Hutchins 3.

Open Flag Race.—Friends 1, Hutchins 2, Leslie 3. (Won by inches.)

Flag Race, Under 15. — Hutchins 1, Friends, Leslie.

220, Under 15.—L. Vaughan (H.S.) 1, Watt (St. V.) 2. 28sec.

100, Under 15.—S. Jones (F.H.S.) and Stewart (H.S.) dead-heat. 11 4-5sec.

High Jump.—Calvert (H.S.) 1, Vaughan (H.S.) 2. 4ft. 7in.

High Jump, Under 13.—K. Douglas (H.S.) 1, Harvey (St. V.) 2. 4ft. 1in.

100, Under 13.—Bowtell (H.S.) 1, Jackson (F.H.S.) 2. 12 1-5sec.

880, Under 15.—S. Jones (F.H.S.) 1, I. Cumming (H.S.) 2. 2min. 36 3-5sec.

220, Under 13.—Bowtell (H.S.) 1, Jackson (F.H.S.) 2. 29 1-5sec.

80, Under 11.—Goodfellow (H.S.) 1, Palfreyman (L.H.S.) 2. 10 3-5sec.

120, Under 11.—Goodfellow (H.S.) 1, Palfreyman (L.H.S.) 2. 16 2-5sec.

We won the following events, which did not count for points:—

Obstacle Race.—D. Davis (H.S.) 1, K. Hart (L.H.S.) 2.

Musical Chairs on Bikes.—Hall 1, Cotton 2.

Sack Race.—K. Douglas 1, Chesterman 2. Tug-of-War.—Hutchins 1st.

This formed a fitting conclusion to a splendid afternoon's sport.

Hutchins School Sports

Our annual Sports meeting was held on the Top Ground on Wednesday, the 25th of March, the function being a complete success from every point of view. The credit of this attainment belongs to our Sportsmaster, Mr. Bullow, who acted as Secretary, and to Mr. Margetts, who undertook the arduous task of arranging the ground for the different events, and otherwise ably assisted Mr. Bullow. Good entries were received for the majority of the events, and some keen racing was witnessed by a large assembly of spectators, who manifested great interest in the proceedings.

The officials of the day were constituted as follow:—Patrons, the Headmaster, Messrs. A. A. Stephens, C. W. Butler, and G. A. Gurney; Judges, Messrs. T. C. Brammall, H. D. Erwin, R. H. Isherwood, S. T. Ellis, I. S. Margetts, and S. L. Hughes; Committee of Management, D. Harvey, D. Calvert, M. Dollery, G. Adams, V. Cotton, L. Payne; Timekeeper, Mr. A. F. Golding; starter and Hon. Sec., Mr. R. Bullow.

Additional interest was lent to the School Championship this year by the presentation of a handsome silver cup, subscribed for by the Staff. As was generally anticipated, this honour fell to David H. Harvey, who won four championship events, attaining an aggregate of 12 points. L. Payne was runner-up. Harvey's jumping this year was particularly good, while he has greatly improved over the Hurdles since last year. In the under 15 class, J. Stewart secured most points, his running being very good. In the under 13 events, H. Bowtell proved superior to his comrades, whilst A. Goodfellow was easily the under 11 champion. The latter runs in good style, and has the makings of a good runner in later years.

The amusement of the day was, as usual, provided by the Obstacle Race, and the fellows, as they struggled from the retaining folds of the flour bags, were unanimously voted real "white men" all over. The appearance of the competitors, as they finished the course, was, to say the least of it, very peculiar, and moved the spectators to hearty laughter. After the Sports, however, the general opinion was that the final tug-of-war was the best item of the day, and the expressions on the faces of our worthy staff, as they manfully struggled to avert defeat, was described by one lady as "Simply lovely."

Afternoon tea was catered for on the ground, and the majority of the spectators availed themselves of this convenience.

The results of the racing were as follow:—

100yds. Open Championship.—D. Harvey 1, L. Payne 2, W. Freeman 3. Time, 11 2-5 sec. Harvey won fairly comfortably, there being no one to press him seriously.

Under 15 High Jump.—D. Calvert 1, I. Cumming 2, L. Vaughan 3. Height, 4ft. 8in. Calvert jumped very well indeed, and attained a height 4in. above that for the corresponding event last year.

100yds. (under 13).—First heat: H. Bowtell, scratch, 1; D. Chesterman, 10yds., 2; K. Goldsmith, 7yds., 3. Time, 12 4-5sec. Second heat: A. Goodfellow, 4yds., 1; K. Douglas, 2yds., 2; G. Cearns, 7yds., 3. Time, 13 2-5sec. Final: H. Bowtell 1, K. Douglas 2, D. Chesterman 3. Time, 12 4-5sec.

100yds. Handicap (under 15).—First heat: M. Ogilvie, 15yds., 1; R. Chancellor, 3yds., 2. Time, 12 3-5sec. Second heat: F. Longley, 13yds., 1; I. Cumming, 3yds., 2. Time, 11 3-5sec. Third heat: J. Stewart, 3yds., 1; D. Calvert, 7yds., 2. Time, 11 4-5 sec. Final: F. Longley 1, J. Stewart 2, D. Calvert 3. Time, 11 3-5sec.

120yds. Hurdle Race, Open Championship.—Final: D. Harvey 1, M. Dollery 2, R. Sharp 3. Time, 18sec. This proved a good race, Harvey only winning by about a foot on the sprint in.

80yds. Handicap (under 11).—First heat: A. Goodfellow, scratch, 1; R. Hadley, 5yds.,

2; R. Chesterman, 6yds., 3. Time, 11sec. Second heat: L. Piddington, 4yds., 1; S. Ross, 5yds., 2; F. Young, 10yds., 3. Time, 12sec. Final: A. Goodfellow 1, R. Chesterman 2, L. Piddington 3. Time, 12sec.

100yds. Open Handicap.—First heat: D. Harvey, scratch, 1; A. Clinch, 6yds., 2; W. Freeman, 3yds., 3. Time, 11 2-5sec. Second heat: L. Payne, 3yds., 1; S. W. Ross, 8yds., 2; M. Dollery, 4yds., 3. Time, 11 2-5sec. Final: L. Payne 1, D. Harvey 2, A. Clinch 3. Time, 11 1-5sec. This was a good race. Payne, off the 3yds. mark, was too good for Harvey, and his running was a surprise to everyone.

120yds. Handicap (under 11).—First heat: A. Goodfellow, scratch, 1; R. Hadley, 8yds., 2; Z. Bidenscope, 12yds., 3. Time, 17sec. Second heat: J. Morris, 12yds., 1; J. Hay, 19yds., 2; L. Piddington, 8yds., 3. Time, 16 2-5sec. Final: A. Goodfellow 1, J. Morris 2, J. Hay 3. Time, 17sec.

50yds. Handicap (under 10).—W. Looker, 9yds., 1; B. Beedham, 10yds., 2; F. Finlaison, 8yds., 3. Time, 7 2-5sec.

Sack Race (under 13).—K. Douglas 1, D. Chesterman 2, T. Arundel 3. This race attracted a good field. Douglas, who won the event last year, seems to have been born with an intuitive affinity for the "sack," which we hope will not follow him in after years.

High Jump (Open Championship).—D. Harvey 1, L. Payne 2. Height, 4ft. 10 $\frac{1}{2}$ in. Harvey jumped in good style, clearing the rod cleanly on all but one occasion. The height was one inch higher than last year's event. (We notice that the winner of this event in the Grammar Sports, Launceston, cleared 5ft. 4 $\frac{3}{4}$ in. This must constitute a Tasmanian Schools' Record, formerly held by C. Bryan, of Hutchins, with 5ft. 2in.)

100yds. Championship (under 15).—J. Stewart 1, L. Vaughan 2, I. Cumming 3. Time, 12 3-5sec.

220yds. Handicap (under 13).—H. Bowtell, scratch, 1; T. Arundel, 16yds., 2; R. Evans, 20yds., 3. Time, 29 4-5sec.

440yds. Open Championship.—D. Harvey 1, L. Payne 2, W. Freeman 3. Time, 60 4-5

sec. This was one of the best struggles of the day. Payne came up well on Harvey, and in the last 40 yards it was touch and go between them. The spectators were moved to great enthusiasm by Payne's game running.

Obstacle Race.—First heat: D. Templeman. Second heat: A. Standaloft. Third heat: N. Chapman. Fourth heat: P. Upcher. Fifth heat: W. Walker. Sixth heat: D. Cotton. Final: P. Upcher 1, W. Walker 2, A. Standaloft 3. This event vied with the tug-of-war in providing the amusement of the day. Each competitor had to negotiate a tarpaulin, a barrel, a bag, the ropes, and finally the apple in the bucket of water. A few of the bigger starters became absolutely fixed in the bags, and extricated themselves only with great difficulty and energy. Mr. Margetts had very kindly endowed each length of bagging with about two pounds of flour, and the appearance of each emerging head would have moved the ancient Heraclitus to laughter. P. Upcher, who was about the smallest lad in it, escaped the difficulties of his older opponents, and came in the winner by a whole apple.

220yds. Handicap (under 15).—F. Longley, 21yds., 1; I. Cumming, 5yds., 2; L. Vaughan, 3yds., 3. Time, 27 3-5sec.

220yds. Championship (under 15).—J. Stewart 1, L. Vaughan 2, I. Cumming 3. Time, 30sec.

One Mile Open Championship.—B. Douglas 1, B. Watchorn 2. Time, 5min. 13sec.

One Mile Open Handicap.—B. Douglas 1, S. Croft (60yds.) 2, R. Read (60yds.) 3. Time, 5min. 13sec. Douglas, who won this race last year, again proved himself the best runner we have in the school over this distance. His staying powers are very marked, and he always has a good sprint left at the end. B. Watchorn also ran very well, starting off scratch with Douglas, and finishing about 12 yards behind him.

Tug-of-War.—VI. Form beat the Rest of the School; V. (b) beat IV. (a); V. (a), under 15, beat V. (b). Several of these tugs were well fought out and sustained. At the conclusion someone suggested a tug between

the Staff and the Sixth. The idea was taken up with avidity, and the masters prepared themselves for the fray with great deliberation and with the determination to uphold their honour at all costs. Our struggle against the powers that be was worthy of the deeds of the Titans of old, and aroused the onlookers to tremendous excitement. Finally, after quite three minutes' sustained effort, the strain told severely upon the constitutions of our worthy Staff, their condition not exactly fitting them for such a tremendous call upon their energies. Amid terrific applause the Sixth won, and furnished a fitting conclusion to a good day's sport.

Cadet Competitions

(By S.L.H.)

This year, for the first time, the Hutchins School Company of Cadets was represented by a team in the Commonwealth Cadet Competitions. Although not successful, the team drilled and shot very well, reflecting great credit on the boys in the team, as many of them have only been drilling since June; whilst the winning team held the championship last year.

Of course, we have had the advantage of being able to drill in the day time, but, even so, we did very well to get within 20 points of such a team as "I" Coy.

The only other School that sent in a team of its own was the State High School, which came fourth on the list, being 40 points behind us.

The position we hold is mainly due to our Rifle Shooting. In this department we beat the winning team by 24 points, 57 to 33. "F" Coy. beat our score, however, by 3 points; and, if they had done better in skirmishing, they would have been very close to "I" Coy. for first place.

In skirmishing we were beaten by 12 points out of a possible 250, both "I" Coy. and ourselves scoring very high points.

In Section Drill, Inspection, and March Past, we were practically equal to "I" Coy., there being a difference of only 4 points out of a total of 350. Where we lost points was in the Physical Drill. In this part of the Competition we lost 42 points, being 24 points behind the winning team.

We must certainly congratulate the winners on the excellent way in which they performed. They were a very fine team, and deserved their win. Next year, of course, we expect to get to the top, our only sorrow being that we shall not have our rivals of this year to compete against, as they are all boys who will be 18 years old this year, and will therefore go into the Citizen Forces.

It rests with the cadets of the school to place themselves in a position to be able to win the Competitions next year. This can only be done by every boy in the company doing his best at every drill. Each boy should remember that if he does not do his best he is preventing others, who want to see their School on top, from getting the training that will enable them to do so.

Personally I wish to congratulate the team on the way they performed, and on the way they gave up time and pleasure to try and win. Of course, it is very disappointing to be beaten by so few points, but we must admit that a better team won, and look forward next year to being the best team in Tasmania, and possibly in Australia.

The following were the points gained by the leading Companies:—

Company.	Rifle Shooting.	Inspection.	Physical Drill.	Skirmishing.	March Past.	Fire Control.	Section Drill.	Total.
Possible—	192	100	150	250	50	50	200	992
I.	33	69	132	205	45	42	192	718
N. (Hutchins)	57	85	108	173	45	40	191	699
F.	60	68	118	169	46	44	180	685
H. (State High S.)	57	60	115	176	40	33	177	658
A.	43	55	127	179	39	35	176	654

Cricket

So far as the season has gone, it has been disastrous for the School Eleven. Three matches have been played, only one of which has been won, the other two being lost by very narrow margins. The games against Friends' School and Leslie House School were marred by very poor fielding in the air, though the ground fielding was nearly always good. Against Friends' School no fewer than fourteen catches were dropped, and against Leslie House ten. As the game in the first case was lost by 1 run, this probably had a good deal to do with the result.

H.S. v. F.H.S.

This game was played on 21st March on the Association Ground. After a very exciting game F.H.S. won by one run. Both Dollery and Calvert batted well for their runs, and Barnett made a sensational debut as a bowler. Reid made some good strokes, but his innings was marred by seven chances.

FRIENDS' SCHOOL.

First Innings.

R. Reid, c Richardson, b Adams	45
H. Shirrefs, b Cotton	1
J. Pringle, b Cotton	1
H. Armstrong, c and b Barnett	13

4. Fight the Good Fight

FIGHT the good fight with all thy might,
Christ is thy Strength, and Christ thy Right;
Lay hold on life, and it shall be
Thy joy and crown eternally.

Run the straight race through God's good grace,
Lift up thine eyes, and seek His Face;
Life with its way before us lies,
Christ is the path, and Christ the prize.

Cast care aside, lean on thy Guide;
His boundless mercy will provide;
Trust, and thy trusting soul shall prove
Christ is its life, and Christ its love.

Faint not nor fear, His Arms are near,
He changeth not, and thou art dear;
Only believe, and thou shalt see
That Christ is all in all to thee.

THE NATIONAL ANTHEM

God save our gracious King,
Long live our noble King;
God save the King!
Send him victorious,
Happy and glorious,
Long to reign over us,
God save the King.

Thy choicest gifts in store
On him be pleased to pour;
Long may he reign!
May he defend our laws,
And ever give us cause
To sing, with heart and voice,
God save the King.

5. Lord, dismiss us with Thy Blessing

LORD, dismiss us with Thy blessing,
Thanks for mercies past receive;
Pardon all, their faults confessing;
Time that's lost may all retrieve;
May Thy children
Ne'er again Thy Spirit grieve.
Bless Thou all our days of leisure;
Help us selfish lures to flee;
Sanctify our every pleasure;
Pure and blameless may it be;
May our gladness
Draw us evermore to Thee.
By Thy kindly influence cherish
All the good we here have gain'd;
May all taint of evil perish
By Thy mightier power restrain'd;
Seek we ever
Knowledge pure and love unfeign'd.
Let Thy father-hand be shielding
All who here shall meet no more;
May their seed-time past be yie'ding
Year by year a richer store;
Those returning,
Make more faithful than before.

HUTCHINS SCHOOL SONG

Hutchins! Hutchins! Grand and Fair!
The only School we serve;
For thee till death we'll do and dare
And naught can make us swerve.

REFRAIN

Let your voices ring, lads!
'Tis the old School's due;
Sing her praises, sing, lads!
Hutchins! Hutchins! tried and true.
Thy name adown the ages past
Thy sons salute and cheer;
And so shall we while life doth last,
With lips and lives revere.
We learn thine ivied tower beneath
To play the game of life,
And know they only win the wreath
Who strive in honour's strife.
May all thy sons prove ever true,
Whate'er their gifts and powers,
That men may yield to thee thy due,
Beloved school of ours!

. . The Hutchins School . .

HOBART

Order of Morning Prayer

OUR FATHER, which art in Heaven,
Hallowed be thy Name, Thy Kingdom
come, Thy will be done in earth as it
is in heaven. Give us this day our daily
bread. And forgive us our trespasses,
as we forgive them that trespass against
us. And lead us not into temptation;
But deliver us from evil; For thine is
the Kingdom, the power, and the glory.
For ever and ever. Amen.

O Lord, open thou our lips.

Answer: And our mouth shall shew
forth thy praise.

O God, make speed to save us.

Answer: O Lord, make haste to
help us.

Glory be to the Father, and to the
Son; and to the Holy Ghost;

Answer: As it was in the begin-
ning, is now, and ever shall be; world
-without end. Amen.

Praise ye the Lord.

Answer: The Lord's Name be
praised.

OFFICE HYMN (all standing)

(Lines to be repeated alternately.)

O JESU, Lord of light and grace,
Thou Brightness of the Father's Face,
Thou Fountain of eternal light,
True Day dispersing shades of night;

Come, Very Sun of heavenly love,
Come in Thy radiance from above,
And shed the Holy Spirit's ray
On every thought and sense to-day.

So we the Father's help will claim,
And sing the Father's glorious Name,
And His Almighty Grace implore
That we may stand, to fall no more.

May He our actions deign to bless,
And quench the darts of wickedness;
In life's rough ways our feet defend,
And grant us patience to the end.

May faith, deep rooted in the soul,
Subdue our flesh, our minds control,
May guile depart and discord cease,
And all within be truth and peace.

So let us gladly pass the day,
Our thoughts as pure as morning ray,
Our faith as noontide glowing bright,
Our minds undimm'd by shades of night.

All praise to God the Father be,
All praise, Eternal Son, to Thee,
Whom with the Spirit we adore
For ever and for evermore.

The Articles of our Belief.

I BELIEVE in God the Father Almighty, Maker of heaven and earth: And in Jesus Christ his only Son our Lord, Who was conceived by the Holy Ghost, Born of the Virgin Mary, suffered under Pontius Pilate, Was crucified, dead, and buried, He descended into Hell; The third day He rose again from the dead, He ascended into heaven, And sitteth on the right hand of God the Father Almighty; From thence He shall come to judge the quick and the dead.

I believe in the Holy Ghost; The holy Catholick Church; The Communion of Saints; The Forgiveness of sins; The Resurrection of the body, And the life everlasting.

Amen.

1. Collect for the Day.

2. Collect for the School.

O GOD and Father of us all, Who givest to Thy children light and life and happiness, we pray Thee for Thy blessing on this day. In labours let us always work for Thee; in leisure never

grieve Thy Holy Spirit. Control our affections, hallow our thoughts, inspire our hopes, quicken our prayers and praises. Bless we beseech Thee, our School, take away whatsoever is unworthy, cherish and strengthen all that is Christlike, pure and noble. Grant that all who go forth hence may manfully fight Thy battles in the world and conquer through the might of Jesus Christ our Lord. Amen.

3. The Third Collect, for Grace

O LORD, our heavenly Father, Almighty and everlasting God, who hast safely brought us to the beginning of this day: Defend us in the same with Thy mighty power: and grant that this day we fall into no sin, neither run into any kind of danger; but that all our doings may be ordered by Thy governance, to do always that is righteous in Thy sight, through Jesus Christ our Lord. Amen.

4. 2nd Cor. xiii.

THE grace of our Lord Jesus Christ, and the love of God, and the fellowship of the Holy Ghost, be with us all.

For Saints' Days and Festivals

Psalm

O praise God in his holiness: praise him in the firmament of his power.

Praise him in his noble acts: praise him according to his excellent greatness.

Praise him in the sound of the trumpet: praise him upon the lute and harp.

Praise him in the cymbals and dances: praise him upon the strings and pipe.

Praise him upon the well-tuned cymbals: praise him upon the loud cymbals.

Let every thing that hath breath: praise the Lord.

1. O God, our help in ages past

O GOD, our help in ages past,
Our hope for years to come,
Our shelter from the stormy blast,
And our eternal home;

Beneath the shadow of Thy Throne
Thy Saints have dwelt secure;
Sufficient is Thine Arm alone,
And our defence is sure.

Time, like an ever-rolling stream,
Bears all its sons away;
They fly forgotten, as a dream
Dies at the opening day.

O God, our help in ages past,
Our hope for years to come,
Be Thou our guard while troubles last,
And our eternal home.

2. Captains of the saintly band

CAPTAINS of the saintly band,
Lights who lighten every land,
Princes who with Jesus dwell,
Judges of His Israel.

On the nations sunk in night
Ye have shed the Gospel light;
Sin and error flee away,
Truth reveals the promised day.

Distant lands with one acclaim
Tell the honour of your name,
Who, wherever man has trod,
Teach the mysteries of God.

Glory to the Three in One
While eternal ages run,
Who from deepest shades of night
Call'd us to His glorious light.

3. Onward, Christian Soldiers

ONWARD, Christian soldiers,
Marching as to war,
With the Cross of Jesus
Going on before.
Christ the Royal Master
Leads against the foe;
Forward into battle,
See, His banners go!

Onward, Christian soldiers,
Marching as to war,
With the Cross of Jesus
Going on before.

Like a mighty army
Moves the Church of God;
Brothers, we are treading
Where the Saints have trod;
We are not divided,
All one body we,
One in hope and doctrine,
One in Charity.—Onward, &c.

Onward, then, ye people,
Join our happy throng,
Blend with ours your voices
In the triumph song;
Glory, laud, and honour
Unto Christ the King,
This through countless ages
Men and Angels sing.—Onward, &c.

Our Trip Round the World

(Continued),

D. Harvey.

We arrived at Glasgow early in the morning of Saturday, July 10, 1912, but we had to leave by boat that night for Montreal, so we did not have much time to see the city. But we made the best of the time we did have. We had a very enjoyable day, as we took several tram rides into the country a little, and saw some of the beautiful Scotch scenery which one often reads about. The city itself is very large and the streets fine, but it always seems to be overhung with clouds of dark smoke, which, of course, issues from the many factory chimneys, and gives it rather a dull appearance. We are so impressed by the British Isles that we all wanted to stay longer, but as we were due in America to take part in the exhibition and competitions at the beginning of September, to our regret we could not stay.

We left Glasgow that evening by the S.S. Pretorian for Montreal. Our voyage across the Pacific was a pleasant one, as the steamer was a fairly large one, and the ocean moderately calm. It was on this ship that we

Our Trip to Launceston

(E.M.D.)

heard the bag pipes for the first time. To a Scotchman the music of a bag pipe is very charming, but we Australians could not appreciate it very much. We took the northern route from Glasgow to Montreal, which runs down between Newfoundland and Labrador. On our way we passed several icebergs, which was quite a novel sight to us. We reached Quebec early on the 19th, after steaming up the beautiful river, St. Lawrence, for four days. We went ashore as soon as possible, as we were all eager to see that old capital which is so famous in history. There we visited the memorials of General Wolfe and Montcalm on the Heights of Abraham. The inhabitants are mostly French-Canadians, but there are a few English settlers scattered among the suburbs. The town is divided into two parts; one part is on top of the Heights, from which one has a lovely view of the St. Lawrence, and the other part is nestled down at the foot of the Heights. Quebec is a very beautiful city, but is becoming extremely delapidated in the old parts, which somewhat spoils its appearance, which is a shame, especially as the old parts show evident traces of the great struggle. On the Heights, the same old muzzle-loading cannons, which were used against Wolfe, are still posted, more for the curiosity of travellers than for protection. The old battery is now turned into a picturesque old park, with the cannons scattered around, while the telegraph posts, and different pieces of old woodwork, are absolutely riddled with bullet holes, not a quarter of an inch apart. We were extremely interested in this old town, but as time was pressing we had to move on.

Our next stop was Montreal, and this was the end of our sea voyage for two months. It was only 12 hours' steaming from Quebec to Montreal, and as the river is comparatively narrow between these two places, we had a splendid opportunity of viewing some very pleasant scenery. We did not see much of Montreal, as we arrived there late in the afternoon, and left again for Toronto that evening. We walked round most of the principal streets, some of which are very fine, and busy with ceaseless traffic.

(To be continued)

The School team left town on Tuesday morning, December 9th, with the intention of journeying to the Northern capital to try conclusions with the Grammar School for the Premiership of Tasmania. Some of us went by road, and some by train. Those who went by train had a good trip up, whilst the motorists had an enjoyable time spinning along in the fresh country air.

At 1.30 p.m., dinner was partaken of by the roadside, several members quite distinguishing themselves, and during the trip there was frequent recourse to the bottles of cordials with which we were provided.

All went well until nearing Launceston, when a bearing worked loose in our engine, with disastrous results to that very important member, so that when we arrived in Launceston, the car had to be sent back by train. We were very sorry indeed for this unfortunate mishap, as the car was a private one, and had been very kindly lent for the occasion.

We arrived in a very sunburnt state to join our brothers at the Metropole, and in the evening went up the Gorge for a walk. Next morning we arrived at the ground at 9.30 a.m., and soon got to work. The disaster need not be here described, as the harrowing details appeared in last issue. After two hours' fielding in the hot sun, we were thankful to sit down in the cool to dinner, provided by our friends, the enemy, and felt somewhat refreshed when we took the field again. At 4 p.m., there was a second adjournment for afternoon tea, and a few minutes before 6 o'clock we were all out for the second time.

At 7 p.m., both teams met in the dining-room of the Metropole, and feasted amicably together, the day's doings being freely discussed.

As the meal drew to a conclusion, both

captains were seen to be wearing very thoughtful expressions, and appeared very nervous. The reason was very soon apparent, for Mr. Gillett (the Head-master of Grammar) rose and addressed us, saying that it gave him great pleasure to welcome the Hutchins boys to the North, as Hutchins and Grammar were sister schools, and always possessed a reputation for clean sport. He went on to say that it had been his original intention to have entertained us at the School itself, but, as he had been told that we had to return that evening, he had had to forego the idea. We were genuinely sorry for this, as we would have liked very much to have had a look over the School. Continuing, Mr. Gillett said that an invitation had come along from the English Amusement Company for both teams at the pictures that night. He complimented Grammar upon their fine victory, and also Hutchins upon the clean, sportsmanlike conduct they had displayed, and also upon the keen way in which they fielded throughout the long first wicket partnership between Headlam and Busby. It was apparent that Hutchins had not showed their true form in the first innings, and that something had gone wrong somewhere. He hoped that many more such friendly contests would take place between the Schools (loud applause).

Mr. Savigny, the Grammar coach, then spoke a few words, congratulating his boys on their win, and also Hutchins upon their fielding throughout the day. He said that it naturally followed that the team undergoing the long train journey must be at a disadvantage with regard to the home team. Also he thought the Northern wickets were vastly different from those in the South, which were much faster.

Mr. Bullow (Sportsmaster) then replied on behalf of Hutchins, thanking Mr. Gillett for all the nice things he had said about us. We had undeniably had bad luck, but wished to make no excuses for ourselves. He congratulated Grammar on their fine win, saying that Headlam's innings was one of the finest he had ever seen in school

cricket. He warmly thanked the Grammar School for their hospitality, and hoped that next year it would fall to our lot to reciprocate it (applause).

Mr. Steele (Grammar School Sportsmaster) then spoke, endorsing Mr. Gillett's remarks. He said that the wicket, which had showed a tendency to crumble during the latter part of the game, was not a new one, but was the one that had been played on the Saturday before. Owing to the secretary of the N.T.C.A. forgetting to notify the groundman, a new wicket had not been prepared for us. He hoped that next year we should meet again, and that the verdict would lie with his boys (applause).

Mr. F. Headlam, the Grammar captain, was then called upon, and he rose, looking as if he was very much out of his element. He congratulated his team on their win, and Hutchins upon their fine fielding, mentioning the splendid catches taken by several of our team. He then said the inevitable, "I think that's all I have to say," and sat down, amid tumultous applause.

Mr. A. Payne (captain of Hutchins) commenced with the wise remark, "Why keep the worst till the last?" which phrase he had evidently carefully thought out during dinner. He congratulated Grammar on their win, and Headlam upon his fine innings, and hoped that when next we met the tables would be turned. He then resumed his seat, and eagerly sought the water bottle, whilst the applause continued unabated.

After a fruitless appeal to the vice-captains for a speech, we dispersed, a few to catch the mail, and the majority to attend the pictures. There an enjoyable evening was spent by both teams in friendly intercourse. Next morning, a few of our team and several Grammar lads had morning tea together at a cafe, and then we all boarded the train for home, after cordially wishing our friends good-bye.

We arrived home tired and dusty at 5.30 well pleased with our holiday, if not with our performance.
