chairman of the board

It has been a full docket of work for the Board of the School this year in the fulfilment of its governance and oversight role. The demand of time and commitment for the Board has been relentless but given willingly, with the reward of seeing this great school so strong and vibrant and relevant in the education of boys in 2014. I thank the Board for that commitment: Charles Cottier, Rebecca Fergusson, John Groom, Marcus Haward, Chris Holloway, the Very Reverend Richard Humphrey Dean of St David's Cathedral, Gene Phair (who is also the President of the Hutchins School Old Boys Association) and Noelene Wilson.

In 2014 I can tell you that the School retains a strong, sustainable financial platform. Its enrolments for 2015, on current track, will be the highest in its history, with potentially 1,050 boys all but confirmed. The Early Learning Centre development is now completed, further enhancing future enrolment capability. The School Board has participated in the process around achieving accreditation by the Council of International Schools – a magnificent achievement which the Headmaster will say more about. From this process the building blocks of the new strategic plan have emerged and the board will embark on that journey with the Headmaster in 2015. I am confident that the policies the School has are not just pieces of paper hidden away in cupboards. They are live, evolving documents of best practice, designed to keep your boys safe in one of the great educational environments in this country.

The School is now supported by 300 dedicated and highly trained professional staff. I thank them all for their commitment. I also thank, on behalf of the Board, as usual, the Headmaster, Warwick Dean, for his dedication and loyalty to Hutchins, particularly over the last few months; the Deputy Headmaster for his outstanding leadership throughout the year; Jenny Self, our incomparable Business Manager; and the rest of the executive team.

There are two other matters of Board focus in 2014 I wish to speak about.

2014 marks a watershed moment in the life of the School with the development this year of a new alignment structure of governance responsibility between the Foundation Board and the Board of the School. The new President Mr Ian Johnston and new Board members, Robyn Allardyce with vast experience in governance and oversight and former President of the Old Boys, Tim Johnstone who, having already served the School in that role, now serves again on the Foundation. In this new role the Foundation will stand alongside the Board of the School, with focus for it on the governance and oversight of a Fundraising Plan. In the coming months a fully transparent structure will be available to understand for all, and marks a new era in my view, of shared responsibility for the sustainable future of this School.

I also wish to address The Royal Commission hearings which have been focusing on what occurred at Hutchins in the 1960s and the response since. The case study continues with a resumed hearing on 18 December in Sydney, followed by submissions and the finding mid-2015. I have been there throughout. It has been a profoundly disturbing, distressing and emotional time for all. The School cannot undo what happened in the past, nor ignore it now and in its future. It will not do so. I want to restate, categorically, that the Board apologises, sincerely and wholeheartedly, to any and all Hutchins Old Boys who have been sexually abused. I assure you and them that they have our support now and into the future.

In 2014 the Board and I can also assure you, as we have when I wrote to you, that all best practice is in place so your boys are educated in a safe environment, supported as they are, by highly trained professional staff, which is a hallmark of this great School.

There will doubtless be lessons to be learned when the findings are handed down – and we will learn, and absorb, and not ignore those lessons, guided as we now are in these times by the enlightenment of social reconciliation and revisionist thinking and we will ensure those lessons shall be a positive and shall enhance the ever evolving institutional character of the School.

But what is Hutchins in 2014 - Do we have it right?

In answer to the question, I can tell you Hutchins is a strong, vibrant, exemplar learning institution for boys, truly reflective of its core values of compassion and mutual respect and richly deserving its accreditation by the Council of International Schools, of which we in the Hutchins Community should be immensely proud.

In answer to the question, I can say that every day the School Board, in its governance and oversight role, together with the School Executive, strive to ensure that the School's actions and the approach concerning the education of boys, at every level, is consistent with and is an embodiment of, the School's Guiding Statements and core values which is in keeping with its heritage, and that this governance and operational objective has been successful.

But are these answers from me just mere puffery and self-serving? The sort of statements you would expect from the Chairman of the Board of the School, in the phalanx, a passionate and blindingly proud Old Boy, the only thing missing being the magenta and black face paint?

I think there is one event in the School year which I think we can go to find the answer to the question. It is the final assembly for Year 12 when, from the chapel, the boys walk down to the auditorium with their parents, flanked by the entire School. As they parade down from the chapel with their parents through a guard of honour, every boy is applauded with equal fervour. There is no greater or lesser clapping for the sportsman, the Prefect, the all rounder, the popular, the academic, the quiet achiever or the just quiet. Their parents are proud, each boy is evidently proud to be a Hutchins man. The boys lining the pathway on both sides of this final walk and all the staff are visibly proud of them as well. The applause right the way down the line is for the every man. That pride, that equal applause for all, is a very moving ceremony is what I offer to you all as the confirmation that we have it right here at Hutchins in 2014, and will beyond.

As they walk down the line, the pride the boys of Year 12 experience is in themselves. That they are Hutchins men. The applause they receive is recognition that they are all truly good men, each with an element in them of the core values which are the foundation of the character of this School. I like to think the pride they have is in the knowledge and confidence they are now invested with the resilience, purposeful effort and persistence which will be a hallmark of whatever they endeavour, and is a consequence of their life at this School.

As Alan Jones says – *'That final event is uniquely Hutchins. You can't copy it'* – and it, in my view, shows us yes the answer is - we have it right at Hutchins. This is a truly great School for boys.

David Morris
Chairman, The Hutchins School Board

Well, what a success 2014 has been. We commenced the year pleased that again Hutchins students achieved outstanding academic results in their final examinations. Congratulations to 2013 Dux Sam MacIntyre on achieving a perfect score of 99.95.

Again Hutchins was strong overall in the national measure of academic achievement (Australian Tertiary Admission Ranking – ATAR) where almost **one in three Hutchins students achieved a score of over 90.00**. This is an outstanding result and continues the trend of successful academic outcomes. On the basis of this evidence and that of the past seven years I will continue to say that if any school views itself as academically strong, then it should be prepared to stand shoulder to shoulder with The Hutchins School. In particular I am pleased that **almost all students achieved entry to their post-school study preference**.

This year it was also a highlight to congratulate 2005 leaver **Sam Forbes** on achieving the distinction of his award as a **Rhodes Scholar, The Hutchins School's 22nd**.

As you read through this issue of *Virtus*, I hope you enjoy the 2014 record of successes of numerous individuals and teams that achieved so much; can we ever forget the amazing talent and skilful production of “*Spamalot*”, the return of rowing’s **Head of the River** trophy and together with a plethora of **visual and performing arts** successes there were numerous finals and successes in **Athletics, Soccer, Football, Cricket, Badminton, Hockey, Table Tennis, Surfing, Sailing, Sports Shooting, Water polo and Cycling**.

Added to that list are the accolades for the numerous State, National and International achievements and awards in academic studies received by students and staff throughout this year.

Such successes do not just fall into our laps. It takes complex planning and a commitment by many to achieve them. It is fact that the successes of our school and the quality of the education offered to boys at Hutchins are largely determined by the **quality of our staff**. Therefore it is to all of our staff that I give grateful thanks for their teaching, coaching, mentoring and support of all the boys and I congratulate them for a job well done.

As our year ends, we say thanks and **farewell to our long-serving members of staff** and on your behalf and personally, I wish to thank them each and all for their commitment and contributions to the achievements they have made to the life of our school, their colleagues and the boys; Mr Peter Symons (Director of Teaching & Learning – 25 years), Mrs Sheree Malarski (Careers Counsellor – 11 years), Mr Thom Turbett (Design, Production & Digital Technologies – 28 years) and Mr John Devine (Director of Boarding and as Director of Community Relations – 11 years) and we offer our appreciation and thanks.

We also give thanks to **Mrs Robyn Kronenberg**, the Principal of our sister school, St Michael’s Collegiate. We wish her well in her retirement in what I expect will still be an equally busy schedule marked, “*retired; but only for the moment*”.

In 2014 we achieved some special outcomes: The design and construction of a boy’s specific **Early Learning Centre** extension to meet the twin needs of developing further a teaching and learning environment dedicated to boys and to meet ongoing strong demand for enrolments in this part of the school. Thank you to our Property & Development Committee, our Business Manager, Ms Jenny Self, the ELC staff and Head of Junior School, Mrs Manthey and our OH&S Manager, Mr Darryl White – it has been a wonderful effort and we look to celebrate an official opening in 2015.

A team of staff and Hutchins supporters continue to develop a special curriculum for the **boy’s wellbeing**. That process starts from the earliest years and is based on the work of world experts such as Professor Martin Seligman’s positive psychology. At Hutchins we have extended that thinking to include a whole concept of men’s health as an approach to boys understanding and exercising wellbeing.

At Hutchins imparting lessons and attitudes related to the health of men and boys is already an important part of our work and we believe we owe it to our boys to know that and what to do with that knowledge. Included in lessons at an age and stage appropriate level, will be extensions to our existing work around positive thinking, healthy bodies, healthy minds, healthy attitudes and the concepts of citizenship and gratitude. Our development of curriculum incorporating **Men’s Health** studies is further consolidated this year where a Kindergarten to Year 12 age and stage appropriate curriculum for boy’s development is addressed. This curriculum initiative is due for completion at the end of our current strategic plan implementation which is set at the end of 2015.

The development and implementation of a **staff performance and professional development program** supporting the needs of a professionally motivated and developing staff is now completed and in practice.

The **Hutchins School website** has undergone significant change and is now a functional, informative and inviting place to visit. Key initiatives centre on providing parents and old boys, as well as first time visitors, access to information and on-line facilities previously out of reach: online bookings for events and parent interviews, up-to-date news items, a parents' portal, an old boys dedicated site, an online annual calendar, a sports and events blog and social media site are just some of the new facilities our community is now able to enjoy.

A very special achievement this year has been accreditation of The Hutchins School by the **Council of International Schools**. This is a first for Tasmania and we join an elite group of schools nationally and internationally that meet strict benchmarks in all areas of operations undertaken by schools.

Meeting many rigorous international education benchmarks has been a truly community achievement and I thank the many committees and their Chairs for this work and I wish to especially emphasise the dedication and leadership of our Deputy Headmaster, Alan Jones.

It is to the enduring credit of the teams composed of staff, students, Board members, parents and supporting associations members that such an internationally recognised accolade has been achieved and this accreditation marks the commencement of a wonderful journey to come.

A vision for The Hutchins School is that it can continue to grow as an outstanding educational institution connected and continually contributing to a community of global citizens, and the community of this school has done it!

Throughout 2014 the student body reflected on the notion of being proud of that which is achieved and of the community to which one belongs. In the many **curricular, co-curricular and charitable events undertaken by our students**, especially Year 12 there was a clear indication that students were not only proud to have the privilege of being a member of the Hutchins community but to be able as a community to serve those in the wider community. It is to the credit of the whole school community that there is present a willingness to make a positive difference for others by acting for example by; giving blood, raising funds for cancer, collecting clothes for the homeless, raising funds for men's health, funding two Cambodian teachers, and so on.

At Speech Night we reflected on the power of youthful optimism, hope and the need never to be indifferent to others in a world that challenges us with the pace of change.

Our 2014 Leavers are the foundation class of the **Power of 9**, and I convey my immense pride in the manly and dignified manner in which they met its challenges and carried the lessons from Year 9 forward into their final years; they remain an example for those who follow of what it is to be a good man, one exemplified by the presentation of the **Year 12 Good Man Award** to Jock Mure.

To the valedictorians of 2014 for your leadership, wherever, whenever and however you gave it, and to School Captain, Henry Garrett and Vice-Captain, Oliver Jones who are fine examples of this leadership; well done and thank you. You have my gratitude and you and your leadership teams remain a beacon for your successors.

Warwick Dean
Headmaster

'It is to the credit of the whole school community that there is present a willingness to make a positive difference for others...'

It is my pleasure to announce the following student leaders for 2015:

Captain of Buckland House
Liam Johnston

Captain of School House
William Scott

Captain of Stevens House
Michael Young

Captain of Thorold House
Lachlan Paul

Captain of Burbury House
Harshvardhan Makharia

Vice-Captain of School
Ryan Jones

Captain of the Hutchins School
Ziah Cooper

Warwick Dean
Headmaster

STAFF MOVEMENTS

New staff

The following new staff were appointed during 2014 to replace those who left at the end of last year or during the current year:

Rodney Aarokyanathar	Cleaning Team Member
Louise Bender	Director of Teaching and Learning
Denis Bishop	Bus Driver
Michelle Mizzen	Marketing and Media Relations Manager
Sarah Moss	Foundation Assistant
Rosemary O'Rourke	Artist in Residence
David Szoka	Audio, Visual and Lighting Technician
Sandi Webb	Executive Assistant to the Headmaster

We welcome these new staff members into the Hutchins family and wish them all a very happy and fulfilling time at the School.

Contract staff

Several members of staff joined us on limited term contracts to assist in the absence of staff who were on leave:

Felicity Ambroz	Teacher Aide
Louise Bodycoat	ELC Teacher
Leigh Cordell	Chinese Teacher
Anita Doherty	Teacher of Outdoor Education
Richard Gard	Special Education Teacher
Sharon Jones	Teacher Aide
Anne Killalea	Language Specialist
Anna Maguire	Music Teacher
Gillian Martin	Laboratory Technician
Brenton Matthey	Drama Teacher
Liam O'Leary	Instrumental Specialist
Sean Priest	Instrumental Specialist
Greg Rowlings	Junior School Teacher
Jean-Yves Theron	French Teacher
Robert Tuck	Power of 9 Teacher

Burbury House

To the boarding house we welcomed Residential Tutors Joshua Gouw, Tom Johnston, William Lelong, Tavis Little, Simon Terhell and Gap students Stuart Witte, Jonas Vollner and Philip Anderson.

We thank them for their contribution to the School and wish them every success in the future.

Resignations

During the year a number of staff resigned to take up positions elsewhere while others left us at the end of the year. We thank them for their dedicated service to the School and wish them every success in the future.

Sarah Caddick	Marketing & Public Relations Manager
John Devine	Director of Community Relations
Anita Doherty	Outdoor Education
Rev Matt Gray	Senior School Chaplain
George Hugheston-Roberts	Power of 9
Sheree Malarski	Careers Counsellor
Carol Marshall	Executive Assistant to the Headmaster
Claire Preston	Music Teacher
Robert Stewart	Head of Music
Peter Symons	Director of Teaching & Learning
Trudy Williams	Personal Assistant to the Deputy Headmaster

It is with a heavy heart that I write this final Virtus report as I prepare to leave Hutchins. I have enjoyed working with and ministering to the students, staff and parents of Hutchins. This year has included a number of highlights I would like to share.

Power of 9 Central Australia challenge

I attended the challenge with a group of boys and staff who threw themselves into working with indigenous students at Yippirinya School, Alice Springs. For two weeks we worked in the classrooms, in PE and visited communities as part of the day to day running of the school. The boys also worked with the St Vincent de Paul van that served meals to homeless people. It was a wonderful experience of insight for all of us and the boys engaged sensationally, well prepared by the Power of 9 team: Ken Kingston, Robbie Tuck and the outdoor education staff. Boys were able to get a better grasp on the complexities of the relationship between this ancient culture and European ideals. It is easy to suggest simplistic solutions but the only way ahead is for deep engagement and empathy. This trip certainly assisted us to deepen our understanding. Our thanks also must go to our guides Nigel and Keith who gave us important insights into Aboriginal culture. It will remain one of the highlights of my ministry at Hutchins.

Cambodia

A significant step forward occurred with the connection with the work of our brother and colleague, Abraham Hang in Cambodia. In a wonderful gesture of solidarity the Hutchins staff has collaborated to financially support two staff members at the Oddar Meanchay school in the Khmer Rouge-populated north of Cambodia. By regular deductions from the monthly pay, we currently support teachers of preschool and Year 5. Additionally, David Macquillan (Chapel Warden, 2014) has been very active in raising funds for extension work required in the school. He initiated fundraising for well over \$1000 in 2014. The Oddar Meanchay school plays a vital role as there is no compulsory schooling and there would be no other provision in this remote region near the Thai border.

Spirituality in Power of 9

The boys at the Marieville Esplanade Campus have had confronting but enthralling opportunities to engage with the significant themes of life.

To grasp Life, we visited Cornelian Bay Cemetery including a tour of the Crematorium and Chapel.

To understand Freedom, we attended a tour of Risdon minimum security prison and had an opportunity for an extended discussion with a man who has a 42-year sentence for double murder.

To explore Faith, we met with the Dean of the Cathedral and toured this magnificent building, including a visit to the bell tower and views over Hobart.

To better understand our Neighbours, we attended a session with Palawa leader Sharnie Everett who gave us the creative and challenging view of an aboriginal version of the history of Tasmania.

Matthew Sayers and Matt Gray with student at Yippirinya school

Tom McTye (Year 9) with Yippirinya students

Our thanks go to:

Michael Anderson, Systems Administrator at Millington's, Cornelian Bay

The staff and inmates at Ron Barwick Minimum Security Prison, Risdon

The Dean of the Cathedral, Very Reverend Richard Humphrey

Sharnie Everett and Dane from the Palawa Aboriginal Corporation

Junior School

Rev Mark Holland has been leading the chaplaincy to the Junior school and Middle school. He constantly looks for new and fun ways to teach the good news about Jesus Christ. His leadership of the JAFFA lunchtime groups has been inspirational. He will be the acting Chaplain in 2015 and I assure him of my prayers as he leads this vital ministry within the school.

Nazrwi (Naz) Woldemichael

One of the members of our community, year 11 student Naz, had a terrible accident as a pedestrian when struck by a car. Naz was in an induced coma for two weeks in ICU at Royal Hobart Hospital while the family and medical staff waited to see what the outcome would be. Naz has made a wonderful recovery and is working through rehabilitation at home. His mother, Hirut, and the family are grateful for the continued prayers and support of the Hutchins community. Naz's striking artworks were showcased during the recent student art show in the Senior School.

Funerals

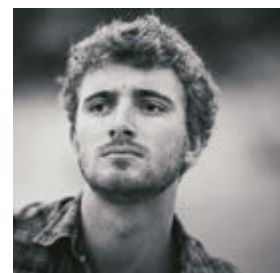

I was asked to lead funerals for two old boys during the year.

Nick Balcombe passed away after suffering a severe stroke in February. Tragically, Nick was only 31 and had a very promising musical career ahead of him. His funeral was attended by more than 1,000 people at St George's Anglican Church, Battery Point.

Trevor Young also passed away in June. He was a talented musician, active in community service with Rotary and beyond. His son, Scott Young, was also a Hutchins staff member.

In concluding I would like to thank all those who have been a support to the ministry of the chaplains since 2009 and assure you of my continued prayers for the school as I depart for new adventures.

Rev Cannon Matthew Gray Chaplain

Nick Balcombe, old boy and musician, passed away Feb 2014

Hutchins is not defined by the architecture or the facilities.

Hutchins is not just a school, it is a second home, a family.

A family that provides a plethora of opportunities for students to excel within their area of interest, a family that consists of building relationships with mentors and friends, but most importantly, a family that builds the character of men to prepare them for the world after school.

As a member of the Hutchins family, you wear the school crest. This crest alone is grounded in the long and proud history of the School. On this crest is the Hutchins lion. The lion represents courage and honour, characteristics of the men that attend this school. It was both mine, and the Year 12 prefects; ambition this year to build an environment where each boy wore this crest with pride. Not because wearing the uniform is an expectation but because they were proud to be part of this school. To have pride in your school and pride in yourself. What you do matters.

As a member of the Hutchins family, this crest will always stay with you. Over my 14 years at the school I feel like the Hutchins crest has been imprinted on my heart. Serving as a constant reminder of the family to which we all belong. I was able to witness a great sense of pride this year from all students and I would like to thank the Prefects that assisted me in promoting this goal.

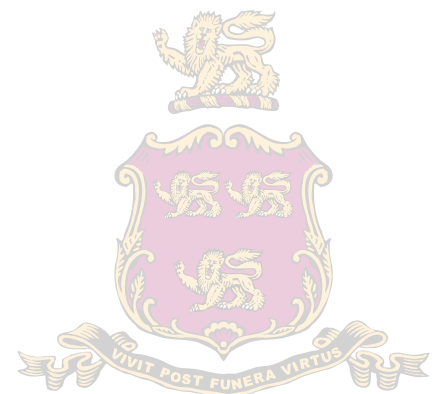

'We have all been given the opportunity to find our passion and follow our desired path.'

At Hutchins, students are treated as unique individuals, each with their own interests, strengths and weaknesses. Each student is able to contribute their own skills to the family and it is due to this diverse student body that Hutchins can be as successful as it is today. We have all been given the opportunity to find our passion and follow our desired path. This is due to the dedicated teachers that Hutchins is privileged to have. They are our mentors and our role models. They have inspired, encouraged and comforted us. They have left a lasting positive impact on my life and I will never forget them.

To Mr Dean, Mr Jones and Mr McNamara. I will be forever grateful for the faith you had in me to achieve my goals and aspirations. You have been the best mentors anyone could ever wish for. Your leadership, passion, commitment and enthusiasm has enabled this school to have a successful year and I have no doubt the school will continue to improve and grow in years to come.

Thank you to the leavers of 2014, it has been an incredibly productive year as shown by the strong unity of the group. You have excelled within all areas and I am so proud of each and every one of you. The example you have set for future students has been remarkable, the strong characters in this group is what makes Hutchins the great school it is. We have created a bond that has been formed through the experiences of our time at Hutchins and we will forever be a part of this community. I hope that you never forget the memories and experiences you have had whilst at the school and I wish you all the best for the future ahead.

Henry Garrett
School Captain

Reflecting on this year and my time at Hutchins brings with it memories of thorough enjoyment as well as challenging circumstances. Having been to eleven separate schools across Australia, my reflection has brought me to the conclusion that the myriad of opportunities provided by Hutchins, from intercultural experiences to performing arts to academia, is unique and empowering. I made it my goal to take hold of each and every opportunity I could find and was interested in throughout my time at the school, especially since I was living on campus as a boarder.

Although I have had very little experience in the game of life, I have certainly learned the significance of opportunity to be a pivotal concept. Each person is presented with opportunities throughout life, whether important and significant or seemingly insignificant. If one does not act on these, however, those opportunities may simply be caught in the passing wind, closing a door and limiting the paths forward. Being able to take hold of these opportunities and run with them actualises a possibility or thought into the productive action of stepping forwards.

While it is a nice idea in theory to simply reach out and take any opportunity which presents itself, I have found that more often than not, there will be a challenge or difficulty attached to an opportunity. These challenges are often the reason why people avoid opportunity. Without challenges and struggles though, people would be unable to grow and increase their capacity to deal with future problems. I also found that the biggest inhibiting factor for me this year was the fear of failure and what others would think of me if I were to fail in attempting to make the most of an opportunity. It may seem cliché, but one who presents themselves to the chance of failure frequently and without fear is also presenting themselves to the opportunity of success at the same rate. So, increasing the likelihood of failure also increases the likelihood of success, which is what most people are looking for, success.

I also learned quickly this year that other people's thoughts about me and my abilities have absolutely no influence over my actual ability. I found and continue to find that placing too much weight on the opinions of others makes it more difficult to focus simply and solely on what I need to do in order to continue to progress forwards. There are very few factors in life that each person can control, I think that it is most efficient and effective to ensure that all efforts are directed into manipulating these factors rather than wasting effort on those factors which will not change no matter how hard one tries.

I am by no means a master of grasping opportunities and creating success from them, becoming impartial to the fear of failure, embracing challenges as a chance to grow or removing myself from dwelling on the thoughts of others. When I made a conscious attempt to do these things though, I found it easier to work towards clear goals and feel as though I was making progress.

To have the opportunity to attend Hutchins has presented me with more opportunities than I could poke a stick at, as it supports those who have a passion for the creative arts, academia, and sports, along with any other interests boys may have, aside from the other half of the world's population

of course as an all-boys school. Doing my best to make the most of these opportunities has now left me with the opportunities I currently face for my future as an adult (ok, almost adult) and a Hutchins man as well as the tools to take them and run.

Daniel Larratt
Dux of the School

The Council of International Schools is a non-profit membership organisation that provides services to schools and higher education institutions around the world that have the following in common:

- a desire to provide students with the knowledge, skills and abilities to pursue their lives as global citizens;
- an internationally-minded culture; and
- a commitment to high quality education.

Why CIS for Hutchins?

- to improve what we are doing as a high-performing school
- to benchmark ourselves against other world-class high-performing schools
- becoming a member of this elite world-class benchmarked schools
- to provide students with the knowledge, skills and abilities to pursue their lives as global citizens - i.e. to compete on the international stage
- wanting an external, well-research framework upon which to target our future direction.

Global Citizen

At Hutchins, being a global citizen means...

- being aware of our wider world and how it works
- seeing ourselves as citizens of this wider world
- valuing and respecting differences
- taking responsibility for our actions
- acting to make our world a fairer and more sustainable place

Accreditation Process

The Accreditation process involved five basic steps, namely:

1. the Preliminary Visit
2. the Self-Study
3. the Team Visit
4. decision on Accreditation
5. subsequent Procedures.

Alan Jones
Deputy Headmaster

2014 has been a momentous year in the proud history of our School. In 2014, The Hutchins School continued along its CIS journey, and by the end of Term Three, the 18 months of planning, hard work, team effort and self-reflection that the School had undertaken with unbridled commitment culminated in the Accreditation Team Visit.

It was, indeed, a privilege to invite into our School the team of eleven visitors, impressively led by Mr Mark Porter, Head of Woodcroft College in Adelaide and included educators and school leaders from various CIS member schools around the world, including Hong Kong, Manila and Bangkok as well as South Australia, Victoria and Queensland.

During the visit, the team members visited classrooms, spoke with students, parents, staff and the Board, and summarised their observations in response to the School's own self-study in a report prepared for the CIS Accreditation Office in the Netherlands.

With the enthusiastic endorsement of the Visiting Team, on 20 October 2014, the Council of International Schools awarded The Hutchins School Accreditation status, marking a significant milestone on our CIS journey. This is a magnificent achievement reflecting that we have reached all 37 internationally-benchmarked standards to which a high-performing educational community may aspire. This Accreditation will be noted in the School's next history and positions the School amongst 700 other world-class schools.

In celebration of this historic achievement, the School was honoured to be presented with a certificate and plaque at Speech Night 2014 by CIS Regional Accreditation Officer, Mr Ray Davis.

As we look to 2015, as an educational community, we shall continue to seek common approaches to the use of differentiation in teaching and learning, what it means to be internationally-minded and see how best to embed the teaching of international-mindedness into our educational offerings. Likewise, we shall strive over the coming year to more carefully articulate the attitudes and characteristics of a global citizen, in line with our determinations to become a flagship school in global citizenship. And, notably, in order to ensure that our Guiding Statements remain dynamic and continue to lead the strategic direction of the School, it will be important for the School community to review its Guiding Statements in 2015.

Just as it was part of the 2013-2015 Strategic Plan for the School to commit itself to gaining membership and accreditation status with the Council of International Schools, CIS will once again play an integral part in the next Strategic Plan.

The community-wide Self-Study (including surveys, workshops and reporting) has enabled us to examine our entire operation and identify the opportunities for improvement, delivering major strategic outcomes. Indeed, the entire Accreditation experience and resultant reports will directly inform our next Strategic Plan, making it the most comprehensive, thorough and inclusive plan of its type in the School's history.

I take this opportunity to record my full and genuine thanks to The Hutchins School community which has given, so unreservedly, of its support and participation on this journey; an effort which now brings forth opportunity for many auspicious prospects for our School in the years ahead, which would otherwise, not have been possible.

Warwick Dean and Alan Jones with Mark Porter, CIS Accreditation Team Chair (centre)

The Student Representative Council (SRC) has had a year filled with success once again. Our goal was to increase our presence in the school, notably with social media, which has been the fundamental platform of success in our fundraising efforts and events.

This year, our charitable focus aligned with the local, national and global mindset that has grown within The Hutchins School. Our charities were Louis' Van, Cancer Council Australia and World Vision – Syrian Appeal. Events like plain-clothes days, barbecues, pizza lunches and other fundraising efforts supported three significant donations to these charities.

Our annual SRC Quiz Night held in Term 2 was a tremendous success, raising over \$14,000 for various interest groups across the school. This enabled us to give back to the student body through providing funds for a new water fountain in the Middle School, table tennis tables and new food stations in the Senior School.

A major event for the year was the world record attempt at getting the most people to complete Level 5 in the beep test. Organised by Liam Johnston and Ryan Jones, it was a great success by engaging over 600 students, staff and the School community while promoting healthy living and raising funds to go to our selected charities.

In 2014 the SRC has offered numerous leadership opportunities for those involved in the SRC and other students in the school. Events like the GRIP Leadership conference provided a platform for Year 9s and 10s to explore underlying attributes in leadership. This conference initiated our own conferences run by Year 11s, 10s and 9s for Senior School and Middle School students. Those who attended took part in activities that emphasised skills that contribute to leadership.

I am incredibly proud of what the SRC has achieved in 2014. The key to our success was a unified, concise and highly accountable group that works together within the school, leaning on one another to fulfil our collective and individual goals.

Liam Johnston (Year 11) fronting the media for coverage of the World Record Attempt

I thank each and every one of the young men that were involved with the SRC. Special thanks to the Secretary of the SRC for 2014, Ben Johnston. It's been a pleasure to work with such a passionate personality. Finally, I'd like to thank Mr Prior for his continual support, co-ordination and mentorship he has offered to the SRC and me in my role as Chairman. It is evident without both Mr Prior and Ben Johnston's support, combined with the other members, the SRC wouldn't have been able to achieve their standard of success in 2014.

Michael Fletcher
Chairman of SRC

Year 7 students and Mr Leonard were part of the 600 participants attempting to break the World Record.

The mission of the Foundation states:

The Foundation works to ensure the future of Hutchins by supporting the School in an ongoing capacity.

While the vision of the Foundation is:

To create a financially secure school where each student is able to develop their personal best.

These statements are as relevant in their intent today, as they were when the Hutchins Foundation was established in 1977, but if the outcomes of the Foundation's efforts are to continue to achieve the best that is possible to assist the School, progressive adjustment must be made to its operations to ensure this.

The School and the School Board are continually looking to take The Hutchins School forward and maintain it at the forefront of education. As part of this process the School has determined that there is a need to expand the role of the Development Office and in fact create two offices managed by a Director of Development and a Director of Community Relations, the former focussing on fund raising into the future and the latter the present or here and now of marketing, enrolment strategy, events and Burbury House etc.

Traditionally a primary support to the School by the Foundation has been to the Development Office and this will continue within the new structure together with liaison with both Directors.

The Hutchins Foundation fully supports this new structure and has been working with the School Board through a joint steering committee to ensure that correct governance and management is in place to ensure its success.

This year has seen the completion of the ELC extension, assisted by a significant contribution from The Hutchins Foundation from monies donated to and income generated by the Foundation, for just such a purpose. A fantastic gateway for young students into The Hutchins School.

In addition the Foundation has continued to support the Development Office, the Hutchins Art Prize, Follow Your Dream Awards and various scholarships.

A highlight of Anniversary Week was the naming of Hutchins new safety, training and rescue boat at the very well attended Anniversary Luncheon held in Burbury House and sponsored by The Hutchins Foundation.

The boat *J.W. Burton*, a RIB Inflatable, was funded from a recent bequest from John William Burton and is a very practical and visible evidence of support to the school.

Follow Your Dreams attracted fourteen entries this year, over a diverse range of areas of interest, with twelve boys receiving an award of financial assistance towards their dream.

Don Camm retired from the Foundation Board this year after many years of untiring service and support and new members Scott Harvey, Robin Allardice and Tim Johnstone joined the Board.

At the Annual General Meeting in May, Mrs Jenny Inglis retired as President. Jenny had stepped back into the role when Mike Harris was not able to continue as President for personal reasons. Special thanks were made to Jenny in recognition of her efforts.

The Investment and Finance Committee has been renamed, to the Investment, Finance, Audit and Risk Committee to better reflect its role within the

Foundation and the areas the Foundation has governance over.

Andrew Nesbitt has continued as Chairman of this Committee maintaining close scrutiny of the investments and finances of the Foundation in association with investment advisors Evans and Partners.

Other current committees and Chairpersons are:

- Bequest – John St. Hill
- Membership and Fundraising – Jenny Inglis
- Hutchins Art – Kristian Falconer

All of whom along with their committee members continue to ensure the aims of the Hutchins Foundation are achieved.

John Devine has again been the glue binding the Foundation to the School. His continuing efforts over the broad spectrum of his tasks, not just directly for the Foundation, but also linking into all facets of the School family has greatly assisted the Foundation in its work.

The Foundation is also appreciative of the efforts of the Hutchins Art Curator, John Ancher and the Hutchins Archivist, Margaret Mason Cox in their support of the Foundations efforts in their respective areas of expertise.

2014 has been a big year for the Hutchins Foundation both in the magnitude and extent of the support it has been able to provide to Hutchins but also in it addressing the need for progressive change to align itself better with the School's ongoing necessary changes and hence look to expand its support to the School.

To facilitate this, the Foundation looks forward to a continuing and expanding support from the wider Hutchins Family into the future, be it in the form of bequests, donations to the Hutchins Building Fund, Library Fund, Scholarship Fund, or Annual Appeal all of which are under the trusteeship of The Hutchins Foundation.

Ian Johnston
President

"We work together to enhance the Hutchins community and provide meaningful connections between parents, carers, staff and Old Boys. We aim to facilitate and develop relationships that will help to advance and support the mission of The Hutchins School,"

These words are taken from the mission statement of The Hutchins School Parents' Association and in 2014, the Association worked hard to achieve this mission through a number of events and activities held throughout the Year.

In Term One, the annual School Fair was once again well supported by the school community and continues to provide the Association with a valuable source of fundraising. The traditional rides and stalls were this year joined by stalls set up and run by the boys, with all proceeds collected and retained by the boys to support their various interests and charities. The Association was very pleased with the effort the boys went to in preparing for the fair and intends to continue to provide this opportunity going forward. The Fair would not be possible without the very hard work of the Convenor, Carol Plunkett. A huge thanks to Carol and her team for yet again pulling together a great fair.

In Term Three, the Association held the inaugural Magenta and Black Cocktail Party. This event was an opportunity for the parent community to gather together and celebrate Anniversary Week. Set in the luxurious Henry Jones Art Hotel, parents from Prep to Year 12 were treated to Tasmanian wines and produce, all whilst listening to the Blue Note Jazz Band. It was great opportunity for parents to network, make new friends and get reacquainted with some old friends. The evening was such a success that the Association will look to continue with this in 2015. The brains behind this event was the Convenor, Melita Griffin. Melita's experience in event management was clearly obvious, as the event was a perfect way for parents to celebrate Anniversary Week.

In Term Four, the final event for 2014 was again, a new event, the Blokes and Spokes Bike Ride. The Association was extremely pleased with the support of this event. As a first time event, there were a few nerves and quite a bit of red tape to get through. However, the support from the school community was overwhelming, with over 180 riders taking part. The aim of this event was to give the boys an opportunity to spend some time, outdoors with their special bloke and for the blokes to meet other blokes in a relaxed environment. With perfect weather, the riders left the Cenotaph and headed down the bike track for a 14km return ride. Some of the smaller riders chose to peel off at the Cornelian Bay Park for some non-bike related fun. Back at the Cenotaph, a group of hardy "shelias" manned the BBQ and handed out the goody bags. The best part of the day for me was watching the boys and their blokes lying on the grass with their sausage and bikes, talking, laughing and simply spending some time together. This was the success of this event. Again, without the hard work of the Convenor, Louise Christie, this event would not have been possible.

This year the Association will farewell a longstanding member, our Treasurer, Herbert Moll. Herbert has been a tireless worker for the Association, working largely behind the scenes, especially at the Fair. Some of you will recall Herbert counting money well past the end of the Fair on many occasions. Herbert is leaving Hutchins as his son has just completed Year 12 and on behalf of the Association and parent community, I would like to thank Herbert for his dedication and commitment to the school and wish him and his family all the best for the future.

All in all, 2014 has been a very busy time for the Association. Not only have we introduced some new events, but we have also managed to build on the success of existing events, all of which contribute to the school in some small way. We look forward to your continued support in 2015.

Megan Killion-Richardson
President

Each year The Hutchins School announces a series of free public presentations called the Headmaster's Seminar Series. This series always includes the annual Webber Lecture. The Webber Lecture was first delivered in 1998. It was delivered by The Reverend Webber in whose honour this lecture was named in recognition of his outstanding services to the study of ethics and the lecture is presented by a person whose topic is always linked to a question of ethics. Past Webber Lecture presenters include Lowija O'Donoghue, The Honourable William Cox AC, Dr Natasha Cica, Mr Warren Reid, The Honourable Sir Guy Green, His Excellency, The Governor Peter Underwood AC, Mr Simon Illingworth, Li Cunxin, Reverend Tim Costello and General Sir Peter Cosgrove.

This year our Webber Lecture was presented by Dr Keith Suter one of the world's great thinkers and communicators. Dr Suter is a well-known and respected speaker on global issues. As a highly regarded social commentator, strategic planner, writer and broadcaster, Dr Suter's opinions are sought by media and he is recognisable as the global issues/foreign affairs presenter. On such topics Dr Suter has an extraordinary mind and extensive knowledge; his expertise covers International Affairs, Law, Society, Leadership, Business, and the Future. He is a member of the most prestigious global think tank in the world, The Club of Rome which is comprised of only 100 members. The Club of Rome meets regularly to analyse the social, political, economic and environmental issues and how those issues impact on us now and into the future.

In his address, Dr Suter contemplated with his audience; a definition of ethics "Ethics is easy": "share everything", "play fair", "don't hit people", "put things back where you found them", "clean up your own mess" – Reverend Robert Fulghum All I Really Need to Know I Learned in Kindergarten.

To a most appreciative audience, Dr Suter then addressed in a context of ethical contemplation matters such as: the distinction between normative ethics and applied ethics; internationalism and globalism and their governance; the ethics of

economics, global and domestic; the ethics around global challenges such as the progress of peace, the fragmentation of nation states, ICT as the machine of globalisation; dimensions of warfare, the singularity of man, the 'Blue Economy' and the inevitable importance of education in maintaining and further developing the capacity of the human race to address such significant questions.

Warwick Dean
Headmaster

hutchins old boys' association

The Hutchins School Old Boys Association has had a very active year in 2014. The highlights continue to be the reunions where Old Boys enjoy a catch-up over a drink and a dinner reminiscing about their years at school and what they have been doing since. The annual five year reunion held at Burbury House attracted a record number of Old Boys flying in from all parts. This year the Headmaster hosted a superb reunion in London attended by many guests. It is great to see so many Old Boys reuniting in so many different and fantastic environments.

This year also saw the "Lionising" of Rear Admiral Edward Pitcairn Jones as well as the annual Anniversary Week.

This year's annual Ray Vincent Lunch congratulated Peter Bender as the Ivied Tower Award winner. Peter's recollection of his days at Hutchins and how he has succeeded in business was very informative and humorous. His story is one of true hard work and determination and a very worthy winner of the Ivied Tower Award.

One of the School's longest standing teachers and frequent guest to Old Boy events was inducted as an honorary Old Boy of The Hutchins School this year. James McLeod is one of the most popular people at the School and has had a terrific relationship with many students and Old Boys in his thirty years at the School. He has been a past member of the Old Boys Cricket Club and a truly worthy recipient of the Old Boy status. For the first time, a normally very talkative man was lost for words at the announcement at the 2014 Leavers' Lunch.

Congratulations to the Hutchins School Old Boys Football Club who won the Old Scholars Football Association Premiership again this year. The Club has had tremendous success over the past decade and it is great to see the team full of so many Hutchins Old Boys who have come back to have a kick with their mates.

We continue to find, with your help, as many lost Old Boys as possible. Our website has a portal for updating contact details and our Facebook site has grown

considerably in the last two years. Please encourage as many fellow Old Boys as you can to go to the website and update their details, join the Facebook page or just contact the Development Office at the School with contact details of Old Boys you know. That way we can make our functions bigger and better than ever.

I would like to take this opportunity to thank John Devine, Jenna Vance, Michelle Mizzen and Anna Kirkland from the School's Development Office for their countless hours of help and support for the Old Boys Association. John and his team do an enormous amount of work for the Old Boys for which we are most grateful.

Thank you also to the other Committee members of the HSOBA and we look forward to another exciting year for Old Boys in 2015.

Gene Phair
President

Another busy and eventful year in the Foundation Archives began with settling into the new office space in the downstairs archives store. How do I spend my time? With ongoing archival activities: acknowledging and registering donations and preparing them for storage; locating and scanning photographs, and attempting to identify the students pictured for annual school reunions; researching the activities of many of our former students in reply to family history enquiries; setting up and changing displays in the many showcases around the school; researching candidates for the newest Hutchins Lion and potential recipients of the Ivied Tower Award; digitising documents and photographs in order to increase the online accessibility of the Hutchins Archives and Heritage Collection; writing articles for *Communiqué* and *Magenta & Black*. Much time was spent this year on research and preparation of historical documents and photographs for the School Choir prior to its attendance at the Anzac Day celebrations in France.

Class visits from Years 2Ba and 2Bo were enthusiastic affairs, with the most popular exhibits being the perennial favourites, the cane and the portable typewriter, closely followed by the donning of various articles of uniform and trying out the old student desk and nibbed pen. The visit from Mr Palfreyman's 3JBC was a smaller and quieter affair, though the favourite items were much the same. We also had visits from Years 5 and 6 groups.

Brian Storrs, Rueben Cousins and Angus Bayley, 2Bo

Waiting in line, 2Bo

Oliver Thomas and Aden Chan, 3JBC

Hugo Allison, 3JBC

A visit to the State by the UK descendants of former staff member Robert Samuel Hornblow enabled us to add to our history file on this colourful character [see *Virtus* 2011]. We also fielded visits from Charles Sturt University Librarians-in-Training and the new Archivist from The Friends' School, as well as from many Old Boys. Workplace student Angela Strk spent a number of days over several weeks learning library and archival procedures and assisting with daily tasks, as part of her TAFE library technician course.

Professional Learning activities included attendance at Melbourne Grammar School's presentation entitled *Researching the Great War and the Role of the School Archivist*, followed by a tour of its archives. The Museums Australia National Conference over four days in May was an exciting learning experience, featuring giants of the archives, art and museums world presenting on a range of topics which was simply breathtaking in its scope and interest value. A recent workshop on Preventative Conservation, run by Arts Tasmania and featuring the considerable knowledge and skills of UK conservation expert Linda Clark, was another great learning experience.

A PowerPoint presentation on Hutchins history given by the Archivist to the Sandy Bay Historical Society focused on features around Sandy Bay of particular interest to that keen group of historians.

Aerial view of the Junior School, War Memorial Oval and Queenborough Cemetery, 1957

An *Introduction to Archives* workshop held at Hutchins by the Australian Society of Archivists (Tas branch) brought in more budding archivists for training and consolidated our partnership with the organisation. An extended period of overseas leave in Europe from August-October in order to pursue a personal research project precluded my attendance at the ASA 2014 AGM in New Zealand. Consequently I missed the announcement that *Character Unbound: A History of The Hutchins School* had received a Commendation in the Mander-Jones Awards, which recognise publications showcasing the archival profession.

An enquiry during the year from John Duke of Avram, Earl Marshall of the International College of Arms Noblesse, established the fact that the Hutchins coat of arms was unregistered. We are grateful for his generous donation of time, effort and a considerable sum of money required to have the School's name and arms added to the Australian Heraldic Archival Register.

Margaret Mason-Cox
Archivist

HUTCHINS ARTS FESTIVAL

The 2015 Hutchins Art Prize will be the Visual Art component of the inaugural Hutchins Arts Festival.

From Tuesday 8 to Sunday 20 September 2015, the Hutchins Art Prize exhibition will be held in the Long Gallery. Downstairs in the Salamanca Arts Centre from Tuesday 8 to Friday 11 September, the Peacock Theatre will be staging drama, dance and musical events showcasing the talents of Hutchins Performing Arts and Music students.

For the first time Performing Arts, Music and Visual Art programs at Hutchins will be presented to members of the School community and the general public as a co-ordinated educational and cultural initiative. Planning such a comprehensive public presentation of the School's achievements in the arts has thrown up many scheduling difficulties. The false starts will seem insignificant when the Hutchins Arts Festival is finally celebrated in 2015.

MAGENTA & BLACK SHOW

2014 was a Magenta & Black Show year. In May the Long Gallery was the venue for a spectacular exhibition of Hutchins Art students' work K-12. Over 1000 people viewed the show during its six days duration. The MBS Gala Opening was enthusiastically supported by around 250 art lovers and their sons. Acting Headmaster Alan Jones welcomed the large gathering and heaped praise on the expertise of Hutchins Art teachers Rachelle Robinson, Kate Langridge and Rebecca Terry. Chair of the Hutchins Art Committee Kristian Falconer opened the exhibition and Artist-in-Residence Rosemary O'Rourke spoke about painting her mural in the Nelson Road tunnel.

Art book vouchers each valued at \$150 were presented to the winners of three exhibition sections by Ms Falconer representing the sponsor Hillross Professional Wealth Management. The Junior School prize (K-6) was awarded to 'Texture Sculptures' (Year 4), the Years 7-10 winner was 'Joseph Cornell Inspired Assemblages' (Year 8) and the Years 11/12 winner was Kaelan Durbin with his bicycle tyres sculpture. Kaelan was also the winner of the People's Choice Award.

Cool jazz at the Gala Opening was played by Hutchins combo the Blue Notes. Hospitality students attended to guests' gastronomic indulgence.

The fifth Magenta & Black Show presented a public showing of outstanding secondary school Art whilst enhancing Hutchins' reputation as a school able to seamlessly extend the academic and sporting achievements of boys into artistic excellence.

Magenta & Black Show, Hobart Long Gallery

Alternative Pathways collaboration

In 2013 the John Bednall Centre for Excellence and Faculty of Design Production and Digital Technologies collaborated to provide non-academic students with a meaningful life skills program. These students participated in activities including reconditioning mowers, changing tyres, designing and moulding skateboards, designing, costing and making garden beds and learning to use woodwork and metalwork machines and tools.

The John Bednall Centre for Excellence Early Intervention Program

The John Bednall Centre for Excellence Early Intervention Program focuses primarily on boys' early literacy skills. Boys from Prep to Year 2 read short, predictable texts with familiar vocabulary and supportive images, drawing on their developing knowledge of concepts about print, pictures, language patterns and alphabet letters. These students develop listening skills that relate to the sounds within words to further develop their reading and spelling abilities. Boys listen for rhyme, letter patterns and increasing more complex sounds within words. By the end of Year 2 students should be able to accurately spell words with regular spelling patterns and use capital letters and full stops when writing sentences. Over the three year program students learn to correctly form all upper and lower-case letters.

Connecting with old boys

In the anniversary term, the boys from Years 5 & 6 extension programs chose exemplary Hutchins Old Boys to investigate and honour. The aim was threefold: to deepen their understanding of elements of Hutchins history; to deepen their connection with the school both past and present; and to hone their research skills. Initially the boys gained informative background material from an enlightening session at the archives with our archivist, Ms Mason-Cox. The boys collected images of various archival artefacts around the school, used the digital archives and school magazines stretching back to the early 1900s; and where possible, set up interviews so as to gain valuable primary research. It was a fabulous project for the boys and enabled them to connect with Hutchins, linking past and present.

RAP

Religion and Philosophy is a subject undertaken by Year 12 students that introduces older students to the rigorous nature of philosophical thinking. It places issues such as abortion, capital punishment and euthanasia into ethical frameworks and requires boys to analyse these issues broadly under a range of world views. This year 35 boys have completed the RAP course, attended the Webber Lecture, attended after school seminars and written three philosophical essays to graduate with distinction from The Hutchins School.

Philosothon

The Hutchins School has, over the last two years, been fostering a greater understanding and appreciation of Philosophy and the thinking skills it develops through an involvement with Philosothons. We have been lucky enough to have Tim Jarvis (PHD candidate at UTAS) helping prepare our boys for the culminating event held in June each year.

A Philosothon is an event that encourages school students to investigate ethical and other philosophical questions in the context of 'communities of inquiry'. Students develop higher order thinking and communication skills through a series of discussions with students from other schools. These discussions are facilitated by philosophy teachers and adjudicated by a panel with appropriate academic or educational qualifications.

While there is an element of competition in a Philosothon, it aims to promote a sense of community by developing a shared understanding of values and purposes in a spirit of cooperation. It further develops skills in inquiry-based learning, ethical reasoning, higher-order reflective thinking and a search for meaning through dialogue about open questions and contestable concepts.

Middle School John Bednall Centre

The Year 7 Step Up and Year 8 Challenge Up classes have been spirited in improving many areas of their literacy. Working through spelling tests, reading fluency activities and reading comprehension booklets have enabled the boys to develop their skills in order to successfully complete larger print and digital assignments. The term-long projects completed this year included a water safety unit, a persuasive shark culling research assignment, a Sport

Prep Literacy Group: Mrs Judy Smith, Oliver Skinner, Montgomery (Monty) Cummings

Prep Literacy Group: Thomas Haas cutting, Xuewei (Mike) Zhu

Year 7 Step Up: Samuel (Sam) Jones Yr 7

Yr 10 Alternative Program: Maxwell (Max) Beattie, Maxwell (Max) Sheppard, Hamish (Jock) Taylor

Year 6 Extension Group: Mr Adam Palfreyman, Clancy Pickering, Riley Stevenson, Axel Moore, Zachary Chatwood, Jack Rossiter

Coaching unit, a nutrition assignment and a biography on a globally significant person. The boys have thoroughly enjoyed their learning and the related excursions to the State Cinema and McDonalds.

Sandra Paine
Director

The primary goal of every teacher at The Hutchins School is to improve the learning outcomes of our students through a rich and diverse academic program and best practice pedagogy in the classroom. Our curriculum content reflects the values of the School, provides outstanding learning opportunities and provides a globalised context for our students to engage both nationally and internationally.

The teaching and learning programs at Hutchins are focused on developing the student as a whole person. We commend the work of the Performing Arts and Music Faculties for their innovative and challenging programs that have allowed our students to excel in their creativity. The Design, Production and Digital Technology Faculty has enhanced both staff and student skills in emerging technologies, while the Supaspace Program and the Health and Physical Education Department have embedded a well-resourced and accessible Wellbeing Program through the Middle School years. The Power of 9 Program continues to engage and challenge boys.

We have been working hard over the last few years to bring together a curriculum that is challenging, engaging and meets the requirements of the Melbourne Declaration on Educational Goals for Young Australians and the Australian Curriculum. The Council of International Schools conducted their accreditation visit in October and our ELC, Junior, Middle and Senior Schools and Faculties were commended on the excellent content of our curriculum and the high level of professional commitment of our teaching staff.

Learning is enhanced when teachers work within a positive culture that values academic learning and the holistic development of each student and provides opportunities for teachers to acquire the skills necessary to engage students and cater for their individual differences. Our staff has engaged in many hours of professional learning which has been invaluable in developing our knowledge and skills in what is a continually changing educational environment.

We look forward to continuing a rich partnership with our students and parents and the challenges and successes of 2015.

Louise Bender
Director of Teaching and Learning

This was another busy year in Mathematics with students competing in a number of competitions and events.

Australian Mathematics Competition

This competition is run throughout Australia and around 40 other countries. The following students have done exceptionally well:

Krishant Nand (Year 11) – Prize. To qualify for a prize, Krishant is in the top 0.3% of students (1 in 300).

Edward Johnstone (Year 10) – High Distinction plus the Prudence Award for the most consecutive correct answers starting from Question 1.

To qualify for a High Distinction, students must score in the top 2%.

Other High Distinctions were:

Sudhaunshu Hardikar (Year 7), Jackson Coad (Year 7), Alexander Hall (Year 8), Koh Kawaguchi (Yr 8), Robert Jiang (Year 9)

UNSW-ICAS Maths Competition

An Australia-wide competition. This year there were 7 medal winners, an outstanding result.

Year 6 – William Osborn - UNSW Medal – Highest score in Year 6, Tasmania.

Year 7 – Jackson Coad - UNSW Medal – Highest score in Year 7, Tasmania.

Year 8 – Koh Kawaguchi - UNSW Medal – Highest score in Year 8, Tasmania.

Year 10 – Edward Johnstone – UNSW Medal – Highest score in Year 10, Tasmania.

Year 11 – Krishant Nand – UNSW Medal – Highest score in Year 11, Tasmania.

Year 12 – Nicholas Gribble and Nicholas Graver – UNSW Medal – Equal highest score in Year 12, Tasmania.

To qualify for a medal a student must obtain the highest score for their year level in the state.

Tasmanian Maths Relays

Students compete in a team of 4 against other Tasmanian schools. They answer a series of increasingly difficult problems and run their solutions back and forth in a relay style situation.

Year 12 Team – first in the state. Andrew Mackay, Daniel Larratt, Gavin Yang, Nicholas Graver.

Year 9 Team – first in the state. Harrison Evans, James Tucker, Thomas Dunbabin, Thomas Young

Year 10 Team – second in the state. Daniel Croser, Fergus Smith, Thomas Maughan, Edward Johnstone

Year 8 Team – second in the state. Koh Kawaguchi, Alexander Hall, James Browne, James Anderson

Australian Maths Challenge

A series of challenging problems completed over 3 weeks.

Raman Law Year 7 – Distinction
Neil Law Year 8 – Distinction
Koh Kawaguchi Year 8 – Distinction
Alexander Hall Year 8 – Distinction

Australian Maths Enrichment

A very challenging series of problems completed over three months. Eleven boys participated with particularly outstanding achievements by Angus Christie (Year 5) and Raman Law (Year 7).

Australian Intermediate Mathematics Olympiad

Koh Kawaguchi (Year 8) and Alexander Hall (Year 8)

ML Urquhart Competition

Krishant Nand (Year 11) and Andrew Mackay (Year 12)

High Achievers Program (HAP)

Andrew Mackay in Year 12 also completed the High Achievers Program (HAP) at the University of Tasmania. This is a first year University course in Calculus and gives him credit for the University of Tasmania courses should he study there in the future.

National Mathematics Summer School

The NMSS is a two week residential school held each January at the Australian National University in Canberra for mathematically gifted and talented senior high school students. Krishant Nand from Year 11 has been selected for this prestigious school. Congratulations to Krishant. Only the most exceptional students from across Australia are selected for this event.

health and physical education

2014 has been a year of change in the Health and Physical Education Faculty.

We welcomed Jason Berry and Greg Rowlings to the Faculty and they have provided a range of fresh and exciting ideas in the ELC and Junior School. Boys are learning how to integrate ICT into their learning in Physical Education classes.

In Year 7 we introduced a Wellbeing Unit where students participated in a variety of mental health practices including Positive Education, Mindful Meditation and the Rock and Water Program.

Students in Power of 9 have continued to enjoy the challenge of daily Wellbeing lessons designed to improve their aerobic endurance, strength, co-ordination and muscular conditioning.

The HPE Faculty would like to thank Shane McAloon for his six years of service to the Faculty. Mr McAloon makes his way down to the Marieville Esplanade campus to assist in the running of the Power of 9 Program in 2015.

Anthony Prior
Head of Health and Physical Education

Samuel Harris, Riley Stevenson and Vincent Harman (Year 6) using ICT in a Physical Education lesson

humanities report

Our rich and diverse range of subjects presents our boys with a variety of opportunities. History, Geography, Civics and Citizenship, Economics and Business, Behavioural Studies and Years 9-12 Studies of Religion subjects are offered allowing our boys to thrive.

In the Australian Business Studies Competition, undertaken by the Business Studies 3 class, David McQuillan (Year 12) and Mac Bethune-Watkins (Year 11) earned a Distinction. Benjamin Robinson (Year 12) earned a High Distinction and was also the State Winner in the Senior Division.

State and National Competition Winners L-R: Stewart Jackson, Toby Burnell, Andrew Mackay, Samuel Carmichael, Benjamin Robinson

Semester 1 Year 8 Geography students and the Geography 3 class participated in The Australian Geography Competition. Year 8 students who earned a High Distinction were: Hamish Allan, James Anderson, Joseph Bailey, Chisomo Banzi, Henry Chambers, Thomas Davie, Charles Moss and Alexander Hall. Year 12 students who earned a High Distinction were: Alexander Bessell, William Fisher, Lachlan Grueber, William Heyward and William Terry. Special congratulations to Samuel Carmichael (Year 8) and Andrew Mackay (Year 12) who not only earned High Distinctions, but succeeded in recording the highest scores in Tasmania in their respective divisions.

As a part of their course, Business Studies students participate in the CPA Australia Plan Your Own Enterprise Competition. Stewart Jackson and Toby Burnell (Year 10) were the Australasian Winners of Division Two (for group entries). Their business plan was for ExpressO, a business which will provide affordable quality coffee and other beverages and snacks for clients as well as create a healthy, happy and safe working and selling environment.

Jodie Schafferius
Head of Faculty – Humanities

In June Martin Chambers attended the International Boys Schools Coalition conference in Nashville [U.S.A.] to continue the work we are doing with Action Research in boys' education. The focus this year is on Maker learning as the whole Maker movement has been rediscovered in education across larger countries like the USA. At Hutchins we have run a design-based education stream in our curriculum for many years which is based squarely on the 'Maker Movement' philosophy. The new Australian Curriculum reflects similar so a transition for us is relatively easy.

Martin has a particular focus on curiosity and how the 'maker philosophy' fosters and grows a boy's curiosity in their learning. Curiosity is an important factor in a person being a successful lifelong learner. We value this highly as a Faculty and will see Martin's findings have an effect on our future planning.

Design Technologies

Students continue to explore the Design Make and Appraise approach to learning together with a more structured skill-based VET approach. While exploring a variety of materials, the boys continue to be creative and produce outcomes illustrating great skills and understanding. Craft is highly valued, with the boys pursuing many design challenges and high quality product.

Chris Berndt led a group of keen designers on a brief involving the development of serving platters for our Chef Adam Aitken. Adam was keen to showcase the efforts of the boys in catered events for school functions etc. Well done to these boys on such a variety of successful solutions.

David Lennon Year 10

CAD CAM continues to impact our society and in turn our school curriculum. We provide students from Year 8 onwards with opportunities to be involved in this exciting learning space. CNC and 3D printing technologies have provided us with the ability to follow a concept of design right through to a 3D virtual model and onto a working, tangible product.

Embedded control systems has grown from our Robotics Program with Raspberry Pi's and Arduino boards bringing not only the challenge of designer maker, but also the challenge of learning software languages in order to apply this technology to functional solutions to problems from our built environments. Next year we launch the CompSci8; Computer Science for year 8s on the back of the development put into this emerging area.

Sustainability will be always at the front of our minds in terms of materials use. Anthony Hyland continues to pursue this area with continued development in the use of veneers and other manmade wood fibre based products. The introduction of electronics and repurposed phone chargers brings these projects to wonderful example of form and function.

Introducing modified programs for boys has been significant this year; working with the wonderful support of Sandra Paine in the Bednall Centre for Excellence, we have introduced small engines and a whole range of reconditioning opportunities for the boys involved. From outboard engines to gardening tools and a Subaru WRX engine, Roy Servant has led these boys on a most rewarding experience.

With new programs come new pedagogy and different ways to support the boys in their learning.

Nick Randall (Old Boy)

Mitchell Rickards Year 8

Adam Aitken and student platter

Jack Hayes Year 9

William Gregor Year 9

Digital Technologies

There have been some very pleasing initiatives taking place within the digital technologies curriculum this year. They include:

- **Bebras Challenge (and Pilot):** Hutchins was selected as one of the few schools in Australia to test out the new national computational thinking challenge named Bebras. The Year 8 ICT classes tested the online system and we provided feedback to the organisers. Following this, students from both the Junior and Middle Schools participated in the Challenge proper in the second half of the year. It was a wonderful experience for all involved.
- **Grok Learning:** All students from the Year 10 Computing class, as well as other interested boys from Years 8-12, competed in the UNSW Python Challenge. The Challenge takes boys on a four week journey learning the Python Programming Language. This year we had boys at beginner, intermediate and senior levels competing.
- **Informatics Olympiad:** A number of the senior students already familiar with programming entered the Informatics Olympiad Competition. This is an extremely challenging activity where students' mathematics and programming skills are tested. Winners have the opportunity to represent Australia and compete on the world stage.
- **ICT subjects:** As far as ICT in the curriculum was concerned, the Year 8s were offered ICT as a subject for the first time which proved to be very successful. The Year 10s produced some outstanding projects such as Quad Copter and Timelapse videos, Surveillance Camera reports and guides on how to build a PC. The TQA3 subject, Information Systems and Digital Technologies also had a successful year, with the highlight being a visit out to the Technopark to see the ISP TasmaNet in action.
- **Minecraft Professional Learning Day:** Staff at The Hutchins School hosted, for Independent Schools Tasmania, a professional learning day around the theme of Minecraft. Teachers from around the State were invited to see how Hutchins is using Minecraft in an educational setting, including the running of the Minecraft House Challenge and the use of Minecraft.edu. A willing group of ICT leaders helped out on the day and all attendees were very suitably impressed by the experience.

And finally and slightly on the less serious side, a number of LAN parties were organised for the ICT Student Committee who gave so generously of their time again throughout the year.

Well done to all the staff and boys involved within Digital Technologies this year.

Initiatives for 2015 will see our Faculty continue to address curriculum change in alignment with the Australian Curriculum and the Council for International Schools. As digital technology continues to embrace every part of our personal and business lives, as a Faculty we are making steps to bring the emerging technologies into our learning environments, seamlessly and with context and purpose. We grow in many directions with vocational-based learning (VET) providing a new growth area for us we are excited about where we can go with it. Boys are always interested in entering the workforce in more ways than University alone. We are working with interest in establishing these pathways further.

We farewell Thom Turbett as he retires from teaching at Hutchins having served as a Teacher and Head of Faculty. Thom started in 1986 bringing his interests and passions to all aspects of his time as a Mentor, Coach and Teacher. We all wish Mr Turbett the best with his new interests and directions.

Martin Chambers, ICT Teacher

Thom Turbett

Faculty Prize Winners

The Prize for Craft - Jonathan Francis-Smith
George Rowntree Memorial Prize for Design Graphics - Samson Banzi

Old Boys' Lodge Prize in memory of Wynne Hay for Craftsmanship in Design in Metal - Jack Harrison

Old Boys' Lodge Prize in memory of Wynne Hay for Craftsmanship in Design in Wood - Jack Grining

D A Wilson Prize for Computer Graphics and Design - Lochlan Fraser

Prize for Housing & Design - William Terry

Head of Faculty - Design, Production and Digital Technologies

Cameron Urquhart Year 7 with Lamps

Lochlan Fraser Year 12

Mallory Keith Year 7

Oscar Wyatt Year 12

Yianni Skoulakis Year 11

Jack Bignel and Thomas Cottier Year 12

Visiting writers

Recently, Australian author Scot Gardner talked to Years 6-9 students and encouraged them “to be courageous about life and beginning to dream [their] futures”. He gave the wonderfully practical advice: “Keep writing because it is easier to come back and fix things once you’ve finished”. He supported reading Shakespeare because “pushing your boundaries is vitally important” and Shakespeare writes about “what humans do”. Thank you, Scot!

In February this year we welcomed Australian poet Geoff Goodfellow to Hutchins. Geoff emphasised that poetry is relevant to and can be appreciated – and even created – by ordinary people, including teenagers. He gave us an insight into a poet’s perspective:

- Wordplay is something I’m vitally involved with.
- My stanzas are a series of snapshots from the camera in my head.
- I set up the poem as a script for the voice.
- Poetry is not going to change the world; but it is a catalyst for change.

Geoff’s audiences enjoyed him telling stories and reading a variety of poems, including playing some which had been set to music.

Mrs Alison Farmer

English as an *additional* language

This has been another year full of challenges for international students studying EAL at Hutchins. All of our EAL students have shown their courage and resilience in managing the difficult task of studying in another language.

We have had a number of new EAL students coming to us in 2014, mainly from Hong Kong and mainland China, with one senior student from Barcelona, Spain. In the Early Learning Centre, Lynn Paddock has continued the excellent work she does, helping boys as young as five to quickly develop the vocabulary and understanding they need to join in all of the wonderful activities they have in class. Mrs Paddock has had a particularly dynamic group this year and they are all progressing very well with their English.

In the Middle and Senior Schools, a number of students have needed some extra English support to help them follow the content of their mainstream subjects and to feel comfortable using English in the school grounds or Burbury House, with their friends. Peter Lucas and Anne Killalea have provided first class tuition in reading, writing, speaking and listening, which has made a big difference in helping our students to thrive in the School. I thank all of these excellent teachers for their unfailing dedication to helping the EAL students.

In their regular EAL classes and with their intensive lessons, the students have covered numerous texts and movies, written a range of essays and practised expressing themselves in presentations and discussions on complex issues, all with growing confidence. For our annual excursion this year, always a highlight, we joined the Pennicott boat tour at Bruny Island. We had a beautiful day for the trip and the boys all loved it.

Simon Moore
Head of EAL

Chinese

This year we welcomed Mr Leigh Cordell, who taught Chinese from Years 5 to 8 and Mr Yang Song, a Masters student from Beijing Normal University, a Teacher Assistant who has supported students of Chinese throughout the School.

Through the extension of Chinese classes at Hutchins to Year 5, Junior School boys are exposed to the Chinese culture and language over a two year period. Through games, activities, songs and movement, the boys have developed their

ethical and multicultural awareness through these lessons. The boys are increasing their knowledge of the importance that China has for Australia and in the greater Asian region. In Mandarin class students have covered simple sentence structure and topics including numbers and counting, calligraphy, origami, greetings and manner.

Leigh Cordell

The best lesson in Chinese class was when we looked into the History and Geography of China. **Angus Christie**

The best Chinese lesson was the second lesson when we labelled everything on a map of China. **Luke Manns**

I think the most fun lesson was when we played a number game on the wall. **Lachlan Redburn**

French

We also welcomed Monsieur Jean-Yves Théron to teach French in the ELC and Junior School.

The ELC and Junior School boys have enjoyed being taught by a native French speaker. They learnt songs in French about numbers, introducing themselves and French Christmas carols. They played lots of games with colours, numbers and greetings. The Year One and Prep boys tasted French bread and cheese. Boys from Years 2 to 5 entered the Alliance Française poster and poetry competition, and boys from Years 2, 3 and 5 won prizes and distinctions.

Jean-Yves Théron

HAP French

Studying second-year French as part of the High Achievers Program this year was a very rewarding and fun experience. Through the course I met interesting people, many of whom were studying degrees I was interested in, allowing me to refine my future choices, but also make new friends.

By studying a language at this level, I learnt much more detailed grammar, building on areas I had covered previously in pre-tertiary French, which will make studying French in the future (as I plan to do) much easier.

Ian Fulton

The aim of the School's ICT Plan is to enable a safe, secure, yet innovative and dynamic working and learning environment which provides all students and staff with the opportunities to learn with ICT. Some of the highlights for the year included:

- transformative use of ICT in the School's K-12 curriculum for curriculum mapping (ATLAS), online learning (FRONTER) and the flipped classroom (YouTube video-on-demand)
- teachers' commitment to effective ICT professional development, particularly with the engaging and creative blogging by many staff as they reflected on technology use in classroom teaching
- strategic deployment of a Bring Your Own Technology (BYOT) program for students' use of their own devices in Years 7-12.

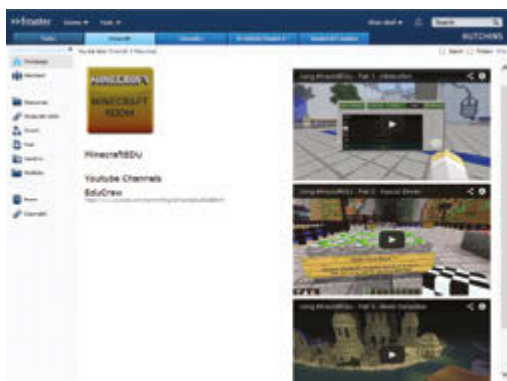

In the Early Learning Centre, Junior School and John Bednall Centre for Learning Support, students are using the School's iPads as learning tools, with a core set of mobile applications that support literacy, numeracy and ICT skills.

In 2014, the Student IT Leaders' Committee comprised John (Jack) Pereira as Chairman, with seventy-four student members participating from Years 6 to 12 over the course of the year. A Middle School Minecraft competition was held. MinecraftEDU became part of the learning program as gamification of the curriculum, whether through digital technology or board games allowing for high levels of differentiation to meet all students' interests.

One of the year's highlights for students across all year groups was the opportunity to experience another world-class interactive virtual learning environment. The AARNet IGLEw (Immersive Global Learning Environment) – an inflatable 3D theatre – was inflated in the Senior School Library because of the high ceiling. The fast broadband speed and interactive software allowed staff and students to navigate through breathtakingly accurate visual representations of space environments and experience a virtual "flight through space" using NASA technology. As they did two years earlier, James Seddon and Matt Ralph helped students to visualise their learning journey through the known universe in an exciting and meaningful way.

The Hutchins School website, the Communiqué and Facebook pages had a makeover. The aim of the new responsive designs was to enhance viewing on mobile devices (tablets, smartphones, iPhone or iPad). Although it is a refreshed design, the same extensive information is still available, including relevant School blogs, along with updated and new information from all areas of the School. Often stunning high resolution imagery is employed to feature new events.

Dr Jill Abell
Director of Information Services & ICT

The new website for enhanced viewing on mobile devices

2014 has been another busy year in the Music Faculty. This year we have seen a huge growth in the number of students taking individual lessons – almost double the number from previous years. This has led to an increase in the quality of music making and engagement from the students. It bodes well for the future as these beginner students take more of an interest in our ensembles.

Music Camp

We began our year with our annual Music Camp at Orana. Once again it was a great opportunity for our ensembles to get the jump on their repertoire and to spend social time together as a team. Both senior and junior ensembles were represented with several rehearsals happening at the same time. Many thanks to all the music teachers and especially to the Friends of Music who kept us well fed and energised for work and play.

ANZAC Tour

In April a group of Hutchins and Collegiate students travelled to Belgium and France for ANZAC Day. The schools were honoured to represent Tasmania as the official choir for the Dawn Service at the Australian War Memorial in Villers-Bretonneux, France. After a farewell concert at the Hobart Town Hall we departed for Ypres, Belgium via Dubai and Paris. Besides the Dawn Service, we also gave concerts in several sites throughout the Somme including the Menin Gate, Peronne, Fromelles and the Villers-Bretonneux Town Hall. During the day our tour guide, Wendy Billingslea, took us to some of the battlefields and memorials as well as a sunny spring Easter Sunday in the medieval city of Brugges. It was very moving to visit the memorials and even walk through the trenches – still scarring the landscape 100 years later.

Our main “job” was the Dawn Service. We were up at 2 am for the 5 o’clock service and already people were arriving at the War Memorial. The Service itself was very moving and it was humbling to sit there in the breaking light and imagine what it may have been like. With 5000 in attendance and several million watching back home, the Hutchins and Collegiate students were perfect ambassadors for their schools. The day also included a service in Bullecourt and then a march to the Digger Memorial outside the town.

With our official duties finished, we then travelled to Paris for sightseeing, a concert at La Madeleine and the Flame Ceremony at the Arc de Triomphe. There were opportunities to take in the museums, art galleries and famous landmarks, not to mention some serious shopping and souvenir hunting. With a last day of fun at Disneyland Paris, it was back home to Hobart.

Spamalot

One of the main projects this year was our production of Monty Python’s *Spamalot*. The large cast was prepared by producer/director Michelle Weeding, musical director Robert Stewart, stage manager Brenton Manthey and choreographer Jacquie Coad, with costuming, sets, sound, and music provided by a dedicated team of teachers and students. The show was a great success and showcased the talents of many areas in the school – including a stellar performance by members of the Health and Physical Education Faculty.

Jazz@Hutchins

One of the highlights of the Music calendar, Jazz@Hutchins, continues to showcase high quality performances from the Brass Ensemble, School of Performing Arts and Big Band. Sadly, we have a large numbers of boys graduating from the band and their contributions and service over the years will be missed. Special thanks go to Mr Cashion and the instrumental teachers for preparing such an enjoyable evening. Of course, the Friends of Music continue to make the evening so enjoyable by creating such a great atmosphere. Thanks to our co-conveners Jo Young and Roxanne Casey and their team.

Eisteddfod Success

This year has seen many ensemble and individual successes at both the Hobart and Clarence Eisteddfods. In particular, the Senior String Ensemble and the Senior String Quartet gained special prizes and commendations from the adjudicators winning. The String Ensemble won the Tasmanian Symphony Orchestra Friends Trophy while the String Quartet won the Australian String Teachers Prize for most promising string ensemble.

Thank you to all our ensemble conductors and instrumental teachers for their dedicated work preparing students for public performances and exams. The Faculty is also supported by the assistance of the Friends of Music in ensuring our concerts run smoothly. In particular, a special “thank you” to Ms Rose Seddon, our administrator, for all of her commitment to the Music Faculty’s daily running.

Robert Stewart
Head of Faculty - Music

Research Inquiry

Hutchins students in Years 9–10 all have to conduct an experimental investigation as part of their science course. There is also an opportunity for Year 8 and 9 students to conduct an investigation as part of their respective Year projects. The best investigations from 7 to 10 each year are encouraged to enter into the science investigation “tour”. With the same project, students can enter both the UTAS Science Investigation Awards (entries from schools in the south of the state) and the Tasmanian Science Talent Search (all Tasmanian schools). The competitions have different judges and different judging processes, and often reward different types of projects. From the TSTS the best projects are then selected to be entered into the BHP Billiton Science Awards (Australia wide competition).

UTAS Science Investigation Awards

Sixteen students from Years 8 to 10 entered their research investigation into the UTAS Awards. Over 150 projects were entered from schools in the south from Years 7 to 12. Hutchins students featured prominently in the public awards ceremony held at the University of Tasmania.

The Hutchins winners were:

Year 8: Joseph Bailey – 1st prize – The Effect of different substances on the spin of a table tennis ball

Year 9: Timothy Lindsay – Honourable Mention – Effect of propellant on muzzle velocity of a bullet

Year 10: Michael Boulton – 1st prize – Factors affecting efficiency of wind turbine; William Burgess – 2nd prize – Effectiveness of cooking oils and fats on production of biodiesel; Patrick Eberhard – 3rd prize – Factors affecting currents in Northern D’Entreaucastreax Channel; Thomas Maughan – Honourable Mention – Dissolving rate of different paracetemols.

Michael Boulton also received the award for the Best Investigation from Year 9 to 12.

UTAS prize winners

Tasmanian Science Talent Search

Students who received awards at the TSTS were:

Michael Boulton – Equal 1st Prize Intermediate level plus the UTAS School of Mathematics & Physics Prize for “The most outstanding investigation involving Maths and Physics”. Michael’s project was also selected to be entered into the BHP Billiton Science Awards.

Timothy Lindsay and Thomas Skalicky both received Merits at the Intermediate level.

Highly commended at the Intermediate level were: Thomas Maughan, William Burgess and Patrick Eberhard.

The Hutchins Science Faculty received the Royal Society of Tasmania Prize for the “Best Set of Intermediate Science Inquiries”.

Special TSTS Award winner Michael Boulton (right) with Mr Crofts (left)

RACI Titration Competition

Seven Year 12 Hutchins students made the national finals of the Titration Competition. Lochlan Fraser achieved a Gold Medal, while Andrew Mackay, Henry Johnston, Jock Mure, Samson Banzi, and Thomas Henning all received a Silver medal. Thanks to Dr Adam James for his tireless efforts in training up our participants.

Australian Brainbee 2014 State Finals

Brainbee is a national competition for Year 10 students interested in neuroscience – the study of the brain and how it works. Four Hutchins students attended the State Final at the Menzies Research Centre: Michael Boulton, Daniel Croser, Thomas Macrossan and Thomas Skalicky. The finals consisted of both individual and team rounds interspersed with demonstrations in the neuroscience laboratories, talks by eminent researchers and tours of the facilities. The Hutchins boys performed well, achieving 3rd spot, winning themselves a \$30 iTunes voucher and the School \$200 in scientific supplies. Special thanks to Dr Keith Martin-Smith for helping the students prepare for the competition.

10th International Student Science Conference (ISSC), Nankai High School, Tianjin, China

This year the ISSC was held in Tianjin, China. Over 85 students attended as delegates, with participating schools coming from Australia, China, India, Italy, Hong Kong, Mexico, Russia, Taiwan, UK and the USA. Hutchins sent a delegation of five Year 9 and 10 students under the leadership of Dr Keith Martin-Smith. Timothy Lindsay (Year 9) and Patrick Eberhard (Year 10) presented their 2014 Research Investigation to the conference. Patrick Eberhard’s investigation was on the interaction of tides and current in the D’Entrecasteaux Channel and Timothy Lindsay’s on the drop of a bullet fired at different speeds. Other students who were part of the Hutchins delegation were James Tucker (Year 9), and Ben Speakman and Jake West (both Year 10).

Hutchins ISSC delegates in the Forbidden City

As well as the scientific sessions, there were also a number of excursions including: the Boeing composites factory; the Tianjin Natural History Museum with a wealth of spectacular fossils; and to the Qilihai Wetlands Park. On the last day Dr Keith Martin-Smith took the boys on the bullet train to Beijing for the day to visit the Forbidden City which was an adventure and an eye-opening cultural experience. Food was a highlight with a cornucopia of dishes provided for every meal. The boys made many new friends from across the world and perhaps they will work together in future scientific endeavours.

ICAS Science Competition

Five Hutchins students were awarded UNSW medals for achieving the top score in their Year level in Science. The five students were: Jackson Coad Year 7, James Browne Year 8, Fergus Smith Year 10, and Krishant Nand and Lachlan Paul, both Year 11.

National Youth Science Forum

Three students were selected last year to attend the Science Forum in Canberra. Johannes Peters, Gavin Yang and Nicholas Graver all experienced the two weeks of science talks, visits to research facilities, the opportunity to practise their science communication, and of course meeting a wide range of science students from all over Australia. The selection process for the Forum occurs each year in May. Krishant Nand (Year 11) will be attending the next Conference in January 2015.

Science and Engineering Challenge

Twenty-three Hutchins Year 10 students walked over to the University for the 2014 Science and Engineering Challenge. Overall Hutchins came fourth on the day. Our best performing team was Thomas Maughan, Jake West and Jayden Stevenson who won the Hover Frenzy activity.

The winning Hover Frenzy team

Science and Engineering team

Junior Youth Physicists' Tournament

The fifth JYPT was held in Incheon, South Korea. The tournament involved 12 schools from Australia, New Zealand, Singapore and South Korea. The Hutchins team consisted of Edward Johnstone, Stuart Carnaby, Fergus Smith, Thomas Skalicky and Sean Oosthuizen, all from Year 10. The problems they investigated included: Optimising the image quality in a pin-hole camera; explaining the blurriness of images seen through polyethylene film; and determining and explaining the parameters affecting the flow of sand through glass tubes. All the boys learnt a lot about the need for rigour when presenting findings. They were subjected to severe scrutiny, being asked to justify their data, their conclusions, and their physics understanding. They also had the opportunity to do the same to other teams.

Although Onslow College from New Zealand won the tournament, (Hutchins won the play-off for 11th), the Hutchins boys dominated the international soccer games on the host school's sand pitch and had a great time. There was also time to visit the National Museum, Aiins World (a miniature city made up of iconic buildings from around the world), the 2014 Comic Festival, Seoul Tower as well as a stroll through a traditional Korean shopping strip.

The JYPT team in South Korea with one of their hosts

Around the labs

Two new Year 10 electives were run this year, 10 STEM and 10 Marine Studies. Both of these subjects give students the opportunities to expand their experience in science. 10 STEM is an interdisciplinary subject linking Science, Technology, Engineering and Maths. The main focus this year was on wind turbines. Students fabricated model wind turbines or parts of a bigger model turbine, in the Design and Technology workshop with Mr Moore while in the Physics Laboratory they investigated factors affecting the output. The Marine Studies class covered marine biology and biodiversity as well as marine safety and the challenges of working in a marine environment.

Brett Smith has obtained a new mascot for the Biology laboratory. The Science Faculty spider, a banded huntsman, lives on a diet of crickets, which are also available in the lab!

Biology students investigating marine organisms on the Pengana

Working on their turbines in STEM10

visual and performing arts

"Logic will get you from A to B. Imagination will take you everywhere." Albert Einstein

Simply this is what we do! Every day we foster creativity in our boys. We are not just producing arts for Arts sake but providing opportunities to explore, think and approach things in different ways. Historian Eugene Ferguson said "Pyramids, cathedrals, and rockets exist not because of geometry, theories of structures, or thermodynamics, but because they were first a picture – literally a vision – in the minds of those who built them. Society is where it is today because people had the perception; the images and the imagination; the creativity that the Arts provide, to make the world the place we live in today." Everything in our Faculty is about exploring creativity. We encourage our students to approach challenges from different perspectives and thus produce works that communicate who they are and how they react to their world in an inspiring way.

This year has seen many inspirational works created, developed and collaborated on. As well as welcoming new drama teacher Mr Brenton Matthey, we've had outstanding eisteddfod results, staged shows and exhibitions and produced the musical *Spamalot* which was one of the highlights with the whole Faculty coming together to assist the students in producing an outstanding performance season.

Michelle Weeding

Head of Faculty – Visual and Performing Arts

School of Performing Arts Initiative

Spamalot

This year Hutchins undertook the monumental effort of putting on a full-scale production of Monty Python's *Spamalot*. The cast of over forty pulled together students from a broad range of age groups from across Hutchins and Collegiate. The rehearsal process was long but always enjoyable; beginning in the first weeks of school, and rehearsing continuously until it was performed in a series of five shows in August. *Spamalot* is an energetic musical that never takes itself too seriously. The story was filled with plenty of outrageously stupid scenarios and classic Monty Python humour that had the audience laughing explosively at every gag.

It was directed by Michelle Weeding who ensured that each scene was delivered with life and energy. Meanwhile Jacque Coad choreographed the song and dance numbers, no small feat for a large ensemble. The play was underscored by a professional band and complemented by brilliant sound and lighting crews. Every performance sold out with the Auditorium bustling with energy across every show. The entire cast were thrilled by the support that we were given by the school community. Since then we have done special performances for the CIS and at an education conference at the Grand Chancellor. For many of us it has been the highlight of our time at the school.

Sebastian Withers

Senior Drama

Robinson Crusoe by John Morley

A strong cast comprised of Year 9 through to Year 12 drama students performed an adaptation of John Morley's *Robinson Crusoe* in May. We enjoyed a sold out season, just rewards for the efforts of the director, cast and technical crew, packing out the intimate Drama Studio. Those who came along were treated to plenty of clever (and not-so-clever) innuendo, oodles of bad and distasteful puns, a couple of on-point Tasmanian references and a joke – or two – at our 'fearless leader' Tony Abbott's expense.

The nature of pantomime granted free-licence to develop individual characters, personifying them with quirks and methods of delivery which are 'larger than life', so to speak. This notion was embraced by the cast unanimously. The genre of pantomime is deep-seated in audience participation and is very much a formulaic production utilising stereotypes and defying realism in pursuit of laughter. Who could resist Ziah Cooper in better nick than a Dame Edna, donning a Marge Simpson-esque wig, high-heels and a dress while portraying the evergreen pantomime dame Mrs Chrissie Crusoe!

As a cast we'd like to thank Mrs Weeding for her tireless work behind-the-scenes and in her role as director, playing a sublime hand in helping to craft one of the more memorable and euphoric shows I've been a part of during my time at Hutchins.

Theatre Performance

This year the Theatre Performance Class performed a version of *Answers* by Tom Topor. Our adaptation was a crime drama set in Melbourne and presented a sinister reimagining of the heralded glory days of Australian police work the '70s. Directed by Mrs Weeding, it was set like an episode of an Australian crime drama such as 'Homicide' or 'Division 4'. The play itself told the classic story of a suspect and two interrogators, but with a twist – the suspect claims he isn't the man the interrogators think he is. The suspect continuously argues his innocence while the interrogators, Frank and Ed, use any means necessary to get a confession.

Despite only running for half an hour, it was one of the most intense plays I have acted in because it ran without blackouts as a seamless piece of theatre. Reactions from the audience were positive and despite only being a short snippet of drama, we believe we created something impactful and meaningful for our audience. It was a great way to conclude our series of performances throughout the years at Hutchins.

Sebastian Withers

Senior School House Drama

Perhaps the most enjoyable event on the Cock House calendar! Each House is given only a single day to prepare, polish and present their own original work of drama. Some Houses went in very well prepared, the directors having finished their scripts weeks before, others working cohesively with their team to write the scripts on the day! But whatever the preparation methods were, each House came out with a truly awesome performance, which is a real credit to the effort of the casts and their directors. Stephens took to the stage first with their performance of *House Wars*, a clever parody of everyone's favourite sci-fi saga, featuring Ben Robinson, who took out the annual prize

for "most convincing woman". Sebastian Withers' witty scriptwriting and social satire were brought to life in the School House production of *The Hobart Douchebag Massacre*. Cameron Allen's Thorold team arguably received the most laughs of the night in their feline murder mystery *Big Cat*. But it was Buckland House that won the day with their rounded production of *The Fellowship of the Shield*, which followed the quest of Huddo Baggins and Samwise Nogajski to destroy the Cock House Shield and bring peace to Middle Earth. This fantastic event would not be possible without the work of Mrs Michelle Weeding, so from all the directors and cast members, we thank her for the great effort that she puts into Hutchins Drama, year after year.

Ziah Cooper

Middle School Drama

Year 7 Arts Expo

This year on 28 August, Year 7 boys got together with Mr Brenton Matthey to put on The 2014 Year 7 Arts Expo. They performed monologues, short skits and small plays to an excited audience of family and friends that poured into the Auditorium that night. It was a huge success. Whether it was Malcom Ward telling the crowd how much love he had to give or Gus Chugg, Miles McTaggart and Jackson Coad letting their imagination go too far by getting lost in a haunted house. There was also a chance for the boys to show off some artwork they had been producing during their Semester One art lessons. During the swap of acts, their artwork was projected onto the screen on centre stage. Most of them also had to provide their own costumes and props. But thanks to all the willing parents who devoted a bit of their time to make or buy the costumes and props so they could all get that little bit more into character. It was a brilliant night and the audience, performers, and staff thoroughly enjoyed themselves in what was a very successful event.

Thomas Reeves

Year 8 Arts Expo

The Year 8 Arts Expo took place in November. With its theme set around the re-telling of old fashioned fairytales, some interesting and entertaining performances were produced. It featured a love quadrilateral in the re-telling of Little Red Riding Hood; a lot of punny "yolks" around at the expense of a cracked Humpty; Hansel and Gretel and the Samsung Galaxy S5 (with a special appearance from the Honourable Prime Minister) and some Liam Noir just to name a few. Accompanied by the Year 8 Band who played some great renditions of 'Happy' and 'Mambo No 5' and some great artwork the Year 8s have created throughout the year. A big thank you to all of the parents who attended and made sure the students were there on time.

Mr Brenton Matthey

Dance@Hutchins

This year the Hutchins Dance Troupe enjoyed success as the troupe developed their skills in performance and technique. Led by Dance Teacher Mrs Coad we worked consistently all year to foster our skills whilst rehearsing choreographed routines. At the 2014 Southern Tasmanian Dance Eisteddfods, the troupe entered in the Under 18 Jazz Group Section. It was a dance inspired by the 'Game of Thrones' fantasy series. This was reflected in our costuming and music choice which revolved around that theme. Unfortunately we failed to place among the fifteen groups in the competition, but we were all highly satisfied with our efforts. Also competing was a song and dance duo in the Open Age Group which received a 'Highly Commended' at adjudication. The Dance Troupe is working toward our performance at Speech Night and rehearse weekly. We invite anyone to join as the Troupe consists of boys at varying skill levels.

Sebastian Withers

visual art

Twentieth Century German Philosopher Ernst Cassirer explained the importance of the arts as follows: "Science gives us order in thoughts, morality gives us order in actions; art gives us order in the apprehension of visible, tangible and audible appearances." A valuable education includes a rich arts curriculum, introducing children and young people to great literature, dance, theatre, visual arts, music and film.

The Visual Arts curriculum at Hutchins has sought therefore, to develop skills in, and experience of, a range of art techniques and processes in the Arts. These are not just technical skills, but skills in seeing and expression from an aesthetic perspective. Art at Hutchins develops in students a historical and cultural perspective in a variety of visual art forms, including painting, printing, sculpture, photography, drawing, installation art; it explores ideas about what makes art aesthetically pleasing or satisfying; and it develops capacity for judging and explaining judgements, as well as being able to participate in broader philosophical conversations about, for example, what constitutes art and whether beauty matters.

It is pleasing to affirm that the Art classes of 2014 have encouraged, motivated, inspired and stimulated myriad of creative pursuits concluding with the culmination of a vibrant and diverse application of ideas and techniques in the pre-tertiary Year 11/12 Art Exhibition. We can be proud of the achievements of all 2014 Art classes.

Additionally, The Hutchins School was fortunate to be awarded an Artist-in-Residence in 2014. The AIR program is a Federal Government initiative of the

Australia Council for the Arts in partnership with Arts Tasmania. The aim of the program is to allow students to gain an understanding of the processes involved in working as an artist, as well as provide the artist with an opportunity to develop their professional practice within a school setting. Rosemary O'Rourke was assigned to work with Year 11 and 12 students for a period of 30 days over 12 weeks. Although, primarily working with senior students, as Rosemary's project involved making large ephemeral wall drawings, students quickly became familiar with her working on a large-scale drawing in the Nelson Road pedestrian tunnel. The Art Team is very grateful to The Hutchins Foundation for being instrumental in providing funds for this large drawing to be completed and I invite you to visit this site when you are next at the school.

vocational education and training

Vocational Education and Training courses continue to be a popular option for students at Hutchins, with over 50 students enrolled in some form of vocational training in 2014, while completing their Tasmanian Certificate of Education in Years 10, 11 and 12.

An exciting new VET program to commence in 2015, is the Certificate III in Fitness. This qualification will be offered in partnership with the Australian Institute of Personal Fitness (AIPT) and delivered at Hutchins by Adrian Finch. Adrian is the Head of Sport in the Senior School and has his Certificate IV in Fitness. He has several years of experience running his own fitness program early mornings in the Hutchins gym.

Students enrolled in this program will use AIPT's online learning resources and Adrian will conduct practical training within the well-equipped Hutchins Circuit and Weights Rooms.

To complete the full Certificate III qualification, students are required to log 40 hours of practical work experience throughout the year. This can comprise time spent on their specific sport training, coaching they may do, as well as work placement at local fitness centres. This qualification will

provide the foundation for those wishing to enter the leisure and fitness industries.

The areas of Hospitality, Cookery, Engineering, Maritime, Music and Retail remain popular programs with students and have provided successful pathways for our students into apprenticeships, further education and employment. Jack Grining, a current Year 12 Leaver, has secured a highly sought after metals apprenticeship with Nyrstar.

In addition to providing a practical skills-based learning experience, vocational programs enable students to determine their aptitude and suitability to an area of work.

As I write my final Virtus entry for Hutchins, I acknowledge the commitment and enthusiasm of our teachers in the ongoing development of VET courses and feel confident that the School will continue to foster and support the provision of these great programs.

Sheree Malarski
Careers Counsellor

Marine School

The diverse range of marine opportunities was consolidated across the School from ELC to Senior School, in academic subjects as well as boating activities. The Marine School has again run or assisted with, units of study across the School as well as operate its own subject and activities.

Science

Marine science starts at a young age with visits to the Marine Discovery Centre at Woodbridge by ELC students and again by those electing the Year 10 Marine Studies subject. Antarctica and ocean circulation is studied in Year 5 and an ecological study of the Derwent Estuary is made by Power of 9 students. In Year 8 Science Extension, boys can look at a range of design options of boat and sails. Year 10 student Patrick Eberhard won acclaim in the University Science Prize and the Tasmanian Science Talent Search for his research investigation of tidal flow in the northern D'Entrecasteaux Channel.

Yachting Australia courses

A raft of new students has come on board for the crew and helm courses in the Keelboat Program. Brandon Fisher (7), William Clerk (9) and James Gabriel (9) are well on their way to completing the Crew Certificate, while Samuel Carmichael (8) and Mitchell Hurst (8) have started the Helm Certificate. We congratulate Tobias McShane (12) for receiving a Service Award to yachting for his years of dedicated service and leadership. The Marine School has just received accreditation to deliver the Powerboat Program and will shortly be offering courses. This will augment the Motorboat Licence course currently run, in which a record of 17 students passed this year, mostly from the Marine Studies elective.

Marine Extensions

A heavy program of marine extension activities was conducted this year including yacht sailing, power boating, tall ship sailing and snorkelling. Power of 9 students were the main focus. An introductory snorkelling course was run as part of the Marine Studies elective in Year 10. This culminated in an ecological study of the Tinderbox Marine Reserve.

Working On Water

Seven students from Year 10 participated in this three day program, which looks at careers in the marine environment as diverse as fish farming, marine biology to seafood presentation.

Junior School

Year 4 students experienced a taste of the life at sea in the early days of the colony. As part of their studies, they added the salt of a day under sail on the *Lady Nelson*. The Boat Safety program initiated by MAST was reintroduced to the Year 3 curriculum this year, which covers on water safety and fire and flare demonstrations.

Mariner's Service

It was a great sight to see the flags of various maritime organisations and shipping companies fly again at St George's Church, for the annual celebration and commemoration service for those who served a life at sea. Hutchins students were involved with the parade of flags, readings and music during the service and cooking the barbeque afterwards.

The writer of *Into the Wild*, Jon Krakauer, once said that “the very basic core of a man’s living spirit is his passion for adventure!”

The Hutchins Outdoor Education Staff believe that through adventure in the outdoors we can harbour a love for learning, for excitement, for personal enrichment and for peace, understanding and kinship with nature.

Outdoor Education at Hutchins continues to grow at a rapid pace with 2014 being the first year that both a senior Outdoor Education class and a pre-tertiary level Outdoor Leadership class have run independently of one another. Enrolments for 2015 TQA courses are already full to the brim, with numbers of students wishing to be involved in the outdoor curriculum growing by the day. From our perspective this highlights the success of the Power of 9 Program and its two-week expeditions that incorporate Outdoor Education philosophies as a key component.

Our camps have continued to extend across the school, embracing the importance of the need for human-nature connections and promoting relationships, reflection and resilience. More than 35 camps were run giving an average of almost one for every week of the school year. These camps ranged from local overnight ‘micro-adventures’ such as a night-navigation rogaine competition at Seven Mile Beach to numerous two-week expeditions that take place both internationally and in remote wilderness areas of Tasmania.

In our Junior School, students commenced their curriculum-based Outdoor Education, completing activities that allow them to start feeling comfortable with the thought of being away from home and tackling small adventures. Our Middle School Student’s came closer to nature as they began to explore different outdoor-based activities and skills whilst gaining a little more independence and learning the importance of initiative and leadership in preparation for the Power of 9 programs.

The Senior Outdoor Education and Outdoor Leadership classes this year have fully embraced Tasmania’s pristine wilderness areas by plunging down icy cold waterfalls and cascades in Cradle Mountain’s Dove Canyon, undertaking alpine walks on Mount Anne, summiting the challenging Frenchmans Cap in Winter, and traversing the Overland Track from both directions. Groups also snowcamped at Mount Field, with the brave and willing sleeping out in hand dug snowcaves, paddled whitewater rafts and kayaks down the stunning Picton River and undertook a vertical caving experience in Loon Cave. Other relatively local trips involved an overnight rock climbing adventure at Rocky Tom as well as a night navigational exercise near Seven Mile Beach and even an overnight bivouac in the snow on Mt Wellington.

2014 also saw Hutchins returning to the land of the Kiwi to immerse themselves in the fantastic culture of New Zealand and to ski and snowboard the glorious peaks of Coronet and The Remarkables. Given the keen interest in this trip from students it is looking to be repeated again next year in the July school holidays.

Congratulations to the following students who in the past year have achieved their Bronze Medal in the Duke of Edinburgh Awards: Jake West, Jeremy Willson, Patrick Eberhard, Conor Duggan, Timothy Lindsay and Ben Rhodes. We wish them all the best as several of them go on to tackle the requirements of the prestigious Gold Award. Congratulations too to our Outdoor Leadership class – a class that involved not just Hutchins students but also those from Collegiate and Fahan.

Reflecting on this year, the classroom of Outdoor Education at Hutchins has no walls or ceilings of plaster and paint. Our white-boards consist of panoramas of snow capped mountain peaks and stretching sandy beaches. The lessons learnt within the outdoors cannot always be marked on paper but instead make a mark on the students life; a mark of ability, empathy and wisdom about things outside of that which was created by man.

The Outdoor Education Team work hard all year to ensure these opportunities are provided at a high level and continue to push the boundaries of normal education. A very special thank you to the brilliant staff and all round explorers of Todd Blackhall,

Mark Oates, Ben Duggan, Matt Eaton as well as to the Power of 9 Staff of Ken Kingston and Robbie Tuck.

In a final note from a daring and inspirational adventurer; “*Challenge is what makes men. It will be the end when men stop looking for new challenges.*” - Sir Edmund Hillary

May the all of the students of Hutchins past and present never stop taking up the challenge!

Anita Doherty
Hutchins Outdoor Education
Teacher

BY KEVIN NGSTON

Power of 9, cultivating fine young men since 2011!

As the school lined up for the traditional 'guard of honour' for the 2014 leavers, I stood in the crowd. Only teaching Year 9s, I mostly lose contact with the senior students. This year was different. As the first of the leavers made their way from Chapel to the Awards Assembly, I realised that these students were familiar. I knew them well. Even though it had been almost four years, I knew these young men and they knew me. It was a moving experience to see them grow and mature into such fine young men. But also remember the time we shared in Power of 9. They were the first group and that was special for me and to the many of them that stopped to chat, shake hands, embrace and remember a significant time in their and my life.

I just hope that the shared experiences from their Power of 9 year remain not just memories but anchor points from which they can continue to grow as individuals: handholds that will help them when faced with exams, stresses, setbacks and triumphs. I hope that it will remind them the importance of being mindful and kind. I hope that it has helped them find their purpose in life or at least to seek it. I felt proud to have shared some of these discussions and experiences with these young men and it invigorated me to keep striving to make that a key part of the Power of 9 year at Hutchins.

It has remained as our key goal in Year 9, to cultivate fertile ground for growth and development. We have had another successful year doing exactly that. The expeditions have all pushed the students well beyond their comfort zones, engaged them to tackle adversity and hardship and helped them reflect on how they are changing and growing.

Below are some reflections on 2014, the year that was....

Port Davey Challenge

As the Autumn days just start to draw in and the leaves on the deciduous Beech are getting their first golden hues, we head off each year into the wilderness for the Port Davey Challenge. There is always a great deal of uncertainty as we head off to be self-sufficient on the South Coast Track or aboard *Windeward Bound*: the dominant factor being the temperamental Tasmanian weather. Not knowing how fierce the roaring forties will be or whether the incessant west coast rain will set in and flood the rivers and campsites. As with most years, the trip went well with a great mixture of challenge and delight with some beautiful weather, great views and good camaraderie, interspersed with some rain squalls, arduous walking and of course, the mud!

This Challenge still manages to bring about the most personal challenge and growth for the participants. Being in such an extreme and beautiful environment seems to allow everyone to slow down, become calm, clear and at peace. The group become close and really gel as they navigate their way through offshore island, rainforest, beach and bog hole.

I also witness the boys step up and be responsible, not only for their own wellbeing but for that of the group. They lead each other and take responsibility for the day to day management of the walk and ship alike. Harnessed in, wet weather's on, hands firmly on the wheel of the *Windeward Bound* sailing through the treacherous Southern Ocean in the moonlight is an enduring image that will stay with all those that have experienced it. This year the groups were led by Mark Oates, Robbie Tuck, Nick Hancock, Kim Ladiges, Tim Grabovski and Shane McAloon. Peter Starkey and I helped aboard *Windeward Bound*. Mark always works tirelessly, not only to lead the expedition but to create a special video memoir for the group. His 2013 film was a finalist in the annual AdventurePro Video Festival.

Global Challenge Thailand Fiji

Unfortunately, due to political unrest and the declaration of Marshall Law in Thailand, we made the decision not to travel to Thailand. It was our first priority to ensure the safety of students and staff so we investigated a replacement option. After an extensive search for alternatives, we decided on Fiji as a replacement. It certainly wasn't your typical Fiji holiday experience. We teamed with Destination Dreaming, a well-established and highly regarded travel education program. They provide experiences based on creating sustainable connections with remote communities. We were lucky enough to be part of their Fiji Highland Experience. Nick Eaves joined me and our group as we ventured into the heart of Viti Levu, the largest Island of the Fiji Archipelago.

The trip began in Nadi but only to shop for supplies at a local market before loading on an open-backed village truck to make the journey into the highlands. For the next 12 days we were to live as a local in the Fijian Highlands. During with this time the students learned about the language, history and richness of traditional village life. The villages were largely vehicle-free and without electricity, hot water or modern conveniences. Perhaps the most striking difference we experienced was the generosity of the locals and the community spirit we witnessed.

The boys participated in traditional ceremonies, dances, feast, farming, hunting and other aspects of traditional life. We also enjoyed the opportunity to work with the Nasivikoso Village School and to provide useful resources to a neighbouring kindergarten that is only just being established. Our adoptive Fijian family made us so welcome. Joe and Fonga introduced us to their home, village and beautiful way of life.

The group came back inspired to be more connected to each other, the environment they live in, their family and community. We very much wish to continue our relationship with the villages of Nasivikoso and Draiba in the future.

Central Australia Challenge

"A journey into the country's heart": this expedition is so much more than a sightseeing trip. Again this year, we have partnered with the Yipirinya School in Alice Springs to provide our students with a snapshot of contemporary indigenous life. The challenges and issues confronting the communities and the richness of the traditions and culture shine through, sometimes in stark contrast to one another in this expedition. The boys this year really connected with the students at the school, working with them daily in the classroom. They were also able to be actively involved with the wider community in Alice Springs by providing service to the St Vincent de Paul Society through assisting with their food van service for the homeless and hungry.

As in past years, one highlight of the trip was the indigenous tour through the sacred lands of the Mutijulu, Luritja and Western Arrernte people as they visit Uluru, Kata Tjuta and Watarrka. We were privileged to have with us two outstanding guides with a rich understanding of the significance of these areas, Nigel and Wara. They were able to ensure that the Power of 9 boys had far more than the regular tourist experience at these spectacular and spiritually significant places.

An indication of the expedition's success was how emotional our boys were when it came time to leave. In a short space of time they had connected with the students, school and broader community.

Island Challenge

This year we wanted to "up the ante" so to speak, for the Island Challenge. We made a slight change in our description of the expedition to allow us to seek locations further afield than a coastal island experience. Our current survival challenge is deep in the West Coast wilderness. After a three year in-the-making lead-up, we finally were able to string together a fantastic but challenging 13-day journey through the West Coast World Heritage and Tarkine areas.

As we speak, two groups are making their way through rainforest, deserted beaches, lakes and rivers to complete one of the more arduous Island Survival challenges. This year they have sea-kayaked across lakes, mountain-biked through giant forests, walked through ghost towns, sailed through treacherous waters, climbed stunning coastal outcrops and paddled down pristine water rivers. The boys had a real "baptism by fire" with over 40 mm of rain and 30 knot winds on the first two days. They managed to keep warm and dry, light a fire and cook up a feast, proving that despite hardship they can thrive if they work together and stay positive.

Again we have been extremely lucky to have dedicated and experienced staff to lead the boys through this adventure of a lifetime. Mark Oates has laboured on creating this expedition as leader and he has been assisted by Matt Eaton, Nick Hancock, Anita Doherty and Alex McWhirter in the field. Mark will once again create a video of this unique experience. His 2013 movie won the AdventurePro Video Festival, Schools Division. Mark's blurb for his award-winning video reads: "It is rare these days in education for students to be put in a position where they are forced to deal with the unknown but this expedition seeks to develop students' resilience, teamwork and leadership by doing exactly that. As the journey unfolds the students tell the stories of their learnings and the lessons that they have gained from this incredible experience."

The common themes amongst all the expeditions are the conditions ripe for growth. These include being challenged by experiences and circumstances outside what the boys are familiar with. Whether this is the cold, the wet, the mud, a different language, culture, food or company; they all push the students into new territory. Another important ingredient is the quality of the mentors, staff and leaders, who help support, shape and influence these young men to strive to be better and go further than they perhaps thought possible. My heartfelt thanks go to our staff who as well as being great outdoor leaders are exemplary individuals who through their interactions are outstanding role models for the behaviours we expect of fine young men.

Through hardship, struggle and triumph, the groups emerge with confidence, tenacity, endurance and grit paired with the maturity, empathy and mindfulness of others this should allow them to succeed in future pursuits.

I look forward to hearing of the 2014 P9 alumni next year and beyond. I look forward to lining up in the 2015 'guard of honour' and feeling the same sense of pride as these men move out into the community as fine young men.

Libraries and learning – developing lifelong learning through inquiry

All three libraries aim to develop students' lifelong learning skills through the process of guided inquiry. The library teams work closely with the teachers and students to embed information literacy skills across the curriculum, beginning with fostering a love of reading in ELC students to teaching critical inquiry, problem-solving, effective ICT skills and independent research skills for academic integrity in Senior School. Strong library services are essential to an international school program that values the cognitive, cultural, social, affective, technological and spiritual values of a globalized world and dynamic future. The growing reliance on online resources and ways of collaborating means that ethical information use and digital citizenship skills are also taught explicitly as critical components of guided inquiry.

Specifically supporting the new Australian Curriculum implementation, the Annual Library Appeal is highly valued for the opportunity to keep the print and digital collections up-to-date and dynamic as the curriculum content changes. Hosted by the library web platform, *LibGuides*, our virtual library intranet continued to grow this year, becoming a central and linking resource in supporting teaching and learning; facilitating 'learning anytime and anywhere' by providing access to quality resources.

As the enjoyment of reading is an essential element of the library teaching, a variety of initiatives were adopted. During the year, Prep to Year 2 enjoyed visiting storyteller Sam Derchie from Ghana and tales of life in traditional villages in Ghana. Year 6 students and some of the Year 7, 8 and 9 English classes were treated to a visit by Scot Gardner, a children's and young adult author who captivated his audience with stories about his family and his sources of inspiration.

Microsoft's Skype proved to be an engaging tool to promote reading and develop students' global awareness. 4W participated in a Reader's Theatre exchange with students from Monroe Elementary in California via Skype. The boys each memorised a few lines from Dr Seuss' immortal classic *Oh, the places you'll go!* and performed them for our audience via a video conference linkup, and the Monroe Elementary students recited *One fish, two fish, red fish blue fish* to us. The Prep classes also enjoyed a Skype session with Mrs Harmann's Kindergarten class from Hartlake Elementary in Wisconsin, USA.

Annual book events again generated much enthusiasm for reading. The National Simultaneous Storytime was a highlight and students enjoyed a reading of *Too many elephants in this house* by Ursula Dubosarsky and Andrew Joyner. The Premier's Reading Challenge again garnered enormous amounts of reading through the younger grades, while there was a fantastic display of book character costumes in this year's Book Week Assembly, the theme being 'Reading to Connect'.

The Hutchins Libraries have played a critical role in developing students' life-long learning skills through various initiatives and we look forward to continuing to support students along their journey next year. As a Chinese proverb states, "Learning is a treasure that will follow its owner everywhere".

Kate Reid, Catherine Duffett and Dr Jill Abell

As you may be aware, this year we became a member of the Council of International Schools. Next year, as part of that Journey to Excellence in International Education, the whole school will undergo a rigorous accreditation process to see where we are placed on the world stage in all areas of school life.

The questions we have all been asking ourselves at Hutchins are What does being a citizen of the world actually mean? Why should we be global citizens? And how do we teach children to be citizens of the world?

What is a citizen of the world?

Global citizenship is not a new concept. Socrates spoke of global citizenship over 2000 years ago when he said, "I am not an Athenian or a Greek but a citizen of the world."

I think that Socrates would have agreed with a contemporary definition by Oxfam that "A citizen of the world is someone who is aware of the wider world, who respects and values diversity and has an understanding of how the world works economically, politically, socially, culturally and environmentally and acts to make our world a fairer and more peaceful and sustainable place."

Therefore, being a citizen of the world brings with it the highest order of responsibility for our community.

Young people learn about community first with their family. I would like to thank all the families of Hutchins for the wonderful foundation which we hope we continue to build on at school. Children who have been given an inspiring and compassionate framework of modelling at home and at school are intuitively citizens of the world as they have learnt to respect the people they meet for who they are.

Why should we be global citizens ?

Our children will sell to the world, buy from the world, work for, manage or collaborate with people from all over the world. This brings with it an imperative for global responsibility for issues such as environmental degradation, energy and resources. These have local and international dimensions and require world wide solutions.

Being a global citizen gives children the tools to counter ignorance and intolerance within our diverse society.

It challenges misinformation and stereotyped views that exist about other people and places.

It acknowledges that we have choices about how we behave and we have capacity as individuals to change things.

How do we teach children to be good citizens of the world?

Here at Hutchins, student lives are not changed by teaching lessons alone but by people. For this reason, relationships between students and teachers are of the greatest importance. If you want globally compassionate and aware students, you need globally compassionate and aware teachers. Our ELC and JS teachers take every opportunity to improve their practice and also give generously, such as Kate Vivarelli and Jason Berry who travelled this year to help train teachers in Cambodia.

We thank and farewell two wonderful teachers this year who are off on overseas adventures: Jill Britton and Leighton Beer. We also thank and farewell Monique Gall who will be taking up a permanent position locally. We are sad to lose the multi-talented Shane McAloon from the ELC and JS but are glad that his expertise will still be utilised at Hutchins in the Middle School.

Martin Luther King once said"Everybody can be great because everybody can serve." Our guest presenter, Denis Bishop, has certainly served the school well and in our eyes is great. He has served the community in a variety of ways from

Tasmanian cricket and football to driving our boys hither and thither in the bus, as well as maintaining the school buildings and grounds. He is unfailingly cheerful and demonstrates compassion, empathy and warmth not just to our current boys, but to all past students. He will be sorely missed and we wish him all the best in his retirement.

At the ELC and JS we provide a myriad of learning experiences to help our boys become global citizens:

Our Year 6 Environmental Team who look after our kitchen garden with recent older immigrants from Afghanistan, Bhutan and China.

Year 3 went online and invited students in other schools to tell them about celebrations in their country. Through conversation with students in Indonesia, they learnt about Ramadan and that they eat meatballs at Easter.

Year 5, as part of their unit on Antarctica via technology spoke to Professor Chris Thurley who is undertaking a centennial commemoration of Mawson's trek to Antarctica.

Boys need to know that individual and collective actions can make a difference on issues of global importance. Margaret Mead once said "Never doubt that a small group of thoughtful committed citizens can change the world. Indeed it is the only thing that ever has..."

To be a citizen of the world can be as simple as active participation locally. One of our many inspiring examples is a Year 3 boy who saw the plight of the homeless and has raised awareness and enough money to buy over 70 street swags for the homeless in Hobart.

These are only a handful of examples of what we are doing at Hutchins. However, on the other side of the globe other young students are trying to do the same. This is beautifully depicted in a documentary film called *I am 11* by Genevieve Bailey. One 11-year-old French boy, Remi, voices the same ideals that Socrates reflected on over 2500 years ago when he says "I am not a citizen of France. I am a citizen of the world. I've always dreamt there's no more borders that the world would be just one country. That way there would be no more inequalities." This is what we aim for our boys as citizens of the world too!

Jenny Manthey
Head of Early Learning Centre
and Junior School

Teaching music is not my main purpose. I want to make good citizens. If children hear fine music from the day of their birth and learn to play it, they develop sensitivity, discipline and endurance. They get a beautiful heart.

(Shinichi Suzuki, *Nurtured by Love*)

The Junior Music Program has experienced much growth in 2014 with three new teachers and three new ensembles! We have welcomed Ms Anna Maguire, Mr David Sanzone and Mr Sean Priest.

Men in Brass is the newest addition to the Junior Music Program this year! This exciting new group began rehearsing in Term 3 with Mr Sean Priest and has had much fun learning a lot of new repertoire. They have been spotted marching and playing at the same time and even a spot of dancing! Men in Brass gave their debut performance at music assembly in Term 3 and opened the Junior School Speech Night with a victorious fanfare.

Mini Fiddlers and Tiny Cellos have delighted audiences with their performances at ELC Assemblies and Soirees. It has been wonderful to see so many ELC boys taking violin and cello lessons and making such exciting progress! Colourstrings Violin Methodology and the Suzuki Cello Philosophy are both child-centered teaching concepts that provide the best repertoire for our young children, specialise in early years aural training and create a nurturing musical environment.

Music Camp was a wonderful celebration of our music program at Orana in April.

Pride had their first experience of several rehearsals in one afternoon and brought to each session their enthusiasm, energy and focus. Their singing tone became more vibrant and they began to shape the phrases more expressively. **Junior Orchestra** were playing more accurately and with more control by the end of their rehearsal day and those boys said to friends: "If you want to come to music camp two days in a row – then you should join orchestra!" Many boys said how much they loved the three different playgrounds and the comment of the day was: "Today has been so much fun because I haven't been made to learn anything!" Parents enjoyed listening to the boys perform at the end of the day and then we all had a BBQ dinner in the dark! Next year we'll remember Daylight Savings. Many thanks to all the parents who volunteered their time to help with food preparation, cooking and shopping and to staff for taking care of our very happy boys! Hutchins has a strong community spirit and this was very evident at Music Camp as we all enjoyed good music, food, fellowship, sand and sunshine.

At **The Hobart Eisteddfod** in May, Cubs and Pride delivered fabulous performances, full of contrast, beautiful smooth lyrical melodies and energetic, spirited, entertaining stories. Cubs sang about fish that prefer ice-cream and chocolate sauce to more traditional bait while Pride looked truly wonderful in their cowboy hats - *Old Dan Tucker* was a huge hit! Congratulations also to Zachary Phair, Oscar Reisz, Sheng-Yuan Lynch, Isaiah Douglas and William Thorpe who gained numerous awards for monologue, music theatre, chamber music, piano solo and violin performance sections.

Hutchins Pride had a wonderful time participating in the **Festival of Voices** opening event at the Farrell Centre on 3 July. **Tasmania Sings** brought together ten school and community choirs to work with internationally renowned conductor David Lawrence, in a spirit of sharing and joining in song. Congratulations Pride on your magnificent performance!

Instrumental Tuition has expanded this year and we have enjoyed over 120 solo performances at Year 4-6 soirees and 98 first performances at soirees throughout the year! Each term the boys have had a performance goal to work towards and they have practiced the art of performing. We have all seen huge improvements in technical facility, tone, character and poise.

The **Music Classroom Program** has been filled with lots of fun songs and games, dances and expressive movement, tuned percussion playing and developing musicianship skills. Year 1 boys have enjoyed making rhythmic patterns on the floor with ice-cream sticks and the Preps have loved using the Interactive Whiteboard to create song rhythms. Cubs have been learning new songs from the stave projected on the IWB and are very proud of how quickly they can read new music! Year 3 Strings have surprised audiences with their performances at each **Music Assembly**. They play with such a confident sound and parents always comment: "I didn't realise you could play so well!" **ELC and JS Grandparents Day Performances** have also been most memorable with Year 6 band entertaining families and Year 5 dedicating *Hymn to Freedom* to victims of the tragic MH17 disaster. Hutchins Combined Anniversary Choir filled St David's Cathedral with their beautiful singing of *Instrument of Peace* and lifted the Service with a gospel rendition of *Praise His Holy Name!*

Music is the only activity that stimulates the entire brain! When children are reading pitch, rhythm and text at the same time, their brain is going crazy – it is at its most active. Music has the power to excite the mind and the heart and to arouse the soul. Music has the capacity to change lives for the better and to give the gift of music is to have a profound and lasting effect on a child's life. (Richard Gill)

Claire Preston

2014 has been another fantastic year of Sport in the Junior School. A few off-season staffing changes saw Shane McAloon move into the Middle School after five years of dedicated service to the Junior School. Jason Berry stepped into the role of Head of Junior School Sport and Greg Rowlings joined the ELC Physical Education team.

Hutchins boys were again outstanding across a range of competitions and sports, participating with enthusiasm, determination and most importantly great sportsmanship. The year also saw record entries in a number of activities and events and some great opportunities for the boys to showcase their talents on a local, state and national level.

Term 1 saw boys representing their House in our Junior School Swimming Carnival and representing the School in cricket, swimming and tennis.

Our Swimming Carnival this year was taken out by Buckland with excellent participation levels from all students. From there, several students were chosen to represent Hutchins at the JSSATIS Swimming Competition and did so with great success.

Terms 2 and 3 were extremely busy for Years 3-6 boys who were involved in a multitude of Winter sports. Rosters commenced for soccer, Australian rules football, water polo, hockey, table tennis and basketball. Overall there were over 25 Early Learning Centre and Junior School teams participating, with some boys playing in up to five separate winter sports.

Term 2 also saw the running of our House Cross Country and subsequent JSSATIS and All-Schools Cross Country events. The House competition saw Thorold take out the trophy on a glorious day at Dru Point. Boys were then chosen to represent Hutchins at the JSSATIS Carnival where they achieved excellent results. From there 39 boys travelled up to Symmons Plains for the All-Schools Carnival, with Liam Canny (Year 5) and Christopher Law (Year 6) chosen to represent Tasmania in the National championships. Hutchins also won state medals for the best team performances in the carnival with gold medals for Year 5 boys, Year 6 boys and a bronze medal for Year 4 boys.

Our House athletics competition at the Domain rounded out our final carnival for the year and was a great success with excellent parent support and some outstanding efforts from the boys. Thorold, led by captains Taine Sookee (Year 6) and Oliver Luders (Year 6), claimed the BP Smith Memorial Trophy for House Athletics for the fourth consecutive year. A large Hutchins representative team was then chosen to represent the School in the JSSATIS Carnival in Term 4. Hutchins again proved strong across all year groups with Callum Emms (Year 6) and Christopher Law (Year 6) breaking records.

Term 4 also saw the commencement of our summer sports program, with students this year able to opt into Introduction to sailing, rowing, bushwalking, tee ball, cricket, Brazilian Jui Jitsu and tennis.

A massive thank you must go to our talented parents, teachers and friends who helped to coach, manage and support our sporting teams this year. Being involved in Junior School Sport can be very rewarding, but requires a big commitment and I sincerely thank each and every one involved in delivering such a great program at Hutchins. Finally, a big thank you, and congratulations, to the boys who have shown dedication, commitment and have represented the School with pride.

Jason Berry

Mini-Makers in Kinder Turner

The maker movement is a modern worldwide educational phenomenon which emphasises learning through 'doing' in a social environment. Maker culture engages students in informal, peer-led, and shared learning motivated by fun and self-fulfillment. This year the boys in Kinder T have been exploring many ways of making and doing, developing their creativity, problem-solving and persistence. Thank you to the parents and grandparents who came in to support our "Mini-Makers" program.

Ashlyn is proud of his friendship band he has made with his finger knitting.

Harrison spent a long time working on this creation.

Ethan has demonstrated great persistence when making his pom-poms.

William concentrates hard on his maker activity.

Nils is using tip-shop materials to make a fire engine.

Julian is making the light bulb turn on and off using a simple circuit set

Lars loves the tinkering table

Harrison is making sushi for Kinder Café.

Owen is chuffed with the card he has made for his Mum.

Lionel has created his construction using tip-shop junk materials.

Kieran is working out where to place a branch in his cubby construction.

Mr Sussex is showing Hugo and Nicholas how to do stop-action animation using an iPhone and Lego figures.

Mrs Young is watching Joshua and Wilson working together to put together electrical circuits.

Mitchell is using the i-Pad app "Puppetpals" to create his own animation.

Ms Tobin is helping Charlie and Alex braid t-shirts to make a mat.

The boys make a hot meal for the class once per week. Here are Jack, Ashlyn, Samuel, Nicholas and Callum peeling garlic cloves.

Quentin, Alex, Samuel, Wilson and Luke are making dough for our pizza in the Kinder Café.

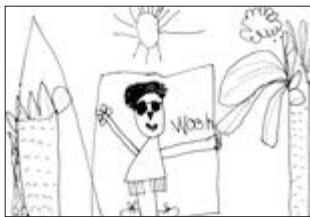

Back Row: William Orpin, George Richardson, Charlie Bovill, Zachary Boersma, Charlie Blackwood

Second Row: Miss Breeony Dick, Rohan Chamberlen, Xuewei (Mike) Zhu, Oliver Skinner, Tom Fader, Maxwell Miller, Samuel Jones, Mrs Jenny McIntyre

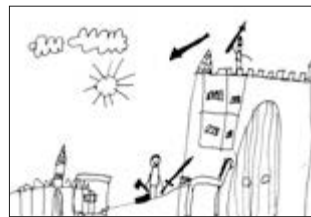

Front Row: Mark Healy, Aaron Varghese, Faris Sands, Edmund Leonard, Montgomery Cumming, Oliver Edwards, Thomas Haas

Teacher: Miss Breeony Dick

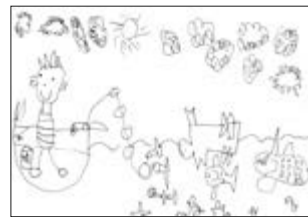

Teacher Assistant: Mrs Jenny McIntyre

Stop working and start relaxing. **Aaron Varghese**

Have more sleep overs in cubby houses. **Samuel Jones**

Go fishing more. **Xuewei (Mike) Zhu**

Ask a girl to marry you. **Tom Fader**

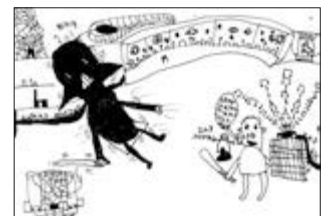

Adults need more sleep. They should be tucked up in bed by 7.30 so they have more energy to play and sing. **Rohan Chamberlen**

Always say good stuff to the ladies. Say things like I like your sparkly nails and you are looking gorgeous today. It's the right thing to do! **William Orpin**

Everyone should have a kennel licence so you can have four dogs. Imagine how happy you would be. **George Richardson**

Dress up in costumes more often. Dress up as Darth Vader and R2-D2 because they are cool. **Oliver Edwards**

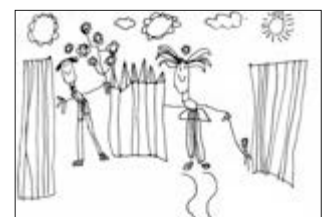

You gotta use your imagination more. **Zachary Boersma**

Read a dictionary so you can learn more stuff. **Faris Sands**

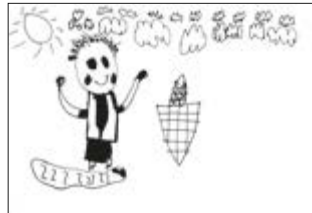

Travel more. Go to places like Sandy Bay, Risdon Brook Dam and Paris. **Thomas Haas**

You really gotta be a gentleman cause that's being smart. **Mark Healy**

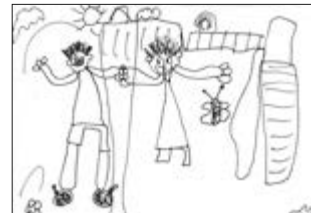

Stop chatting so much and play more lego.
Montgomery Cumming

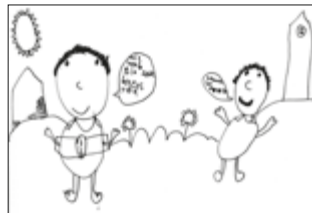

Eat ice-cream for breakfast and be a little bit crazy.
Edmund Leonard

Have more fun and learn to do forward flips and cartwheels on the trampoline.
Oliver Skinner

Be kind to everyone you meet and let them play with you.
Maxwell Miller

Tell more jokes cause they make people giggle.
Charlie Blackwood

When you are talking to people you have to stare real hard into their eyes.
Charlie Bovill

prep fielding

Back Row: Nicholas Badenach, Jacob Mason, Anastasios Dourias, George Leonard

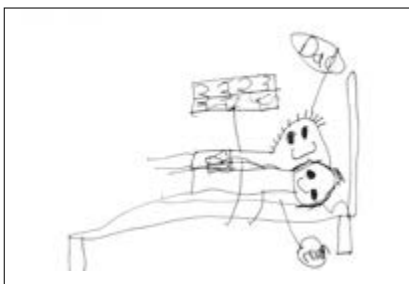

Second Row: Mrs Sarah Fielding, Liam Luttrell, Huw Ramsey, Macdonald Hammond, Frank Sary, Mrs Jenny McIntyre

Front Row: Charles Davey, Lucas Dooley, Jacob Wilson, Bailee Rugen, Henry Crowle, William Harris, Christopher Daly

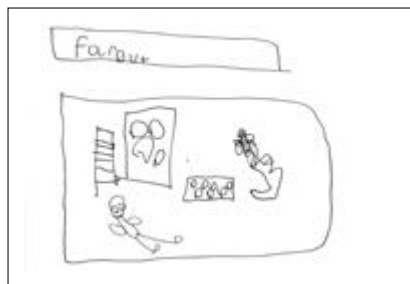

Absent: Ansh Garg

Teacher: Mrs Sarah Fielding

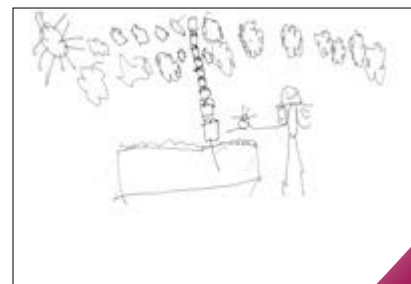

Teacher Assistant: Mrs Jenny McIntyre

Stop working and have fun.
Lucas Dooley

Go to 'Far Out' and play games and go down the slides.
Nicholas Badenach

Build Lego instead of doing the housework.
Charles Davey

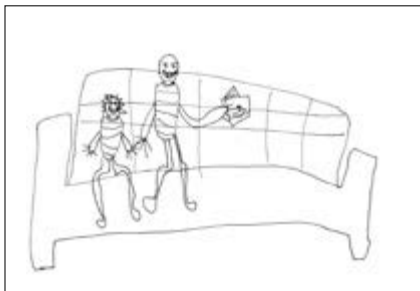

Have pancakes for breakfast every day.
Liam Luttrell

Stop talking and listen more.
Ansh Garg

Have more sleeps because you get tired.
William Harris

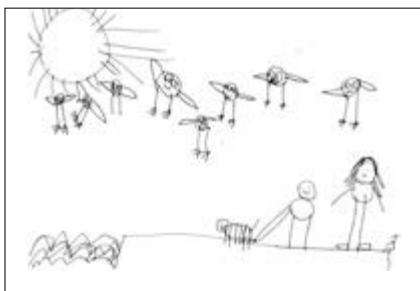

Stop working lots and play more.
Christopher Daly

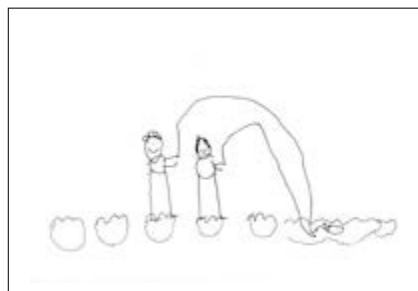

Ride your bike instead of driving the car.
Huw Ramsey

Read more joke books and laugh more.
Jacob Wilson

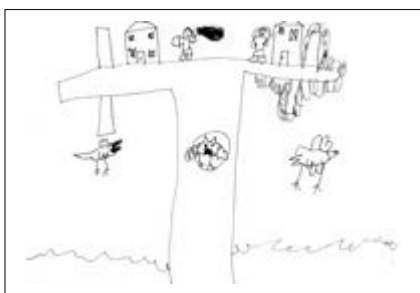

Go to the beach and take Lucy for a walk in the sand.
Jacob Mason

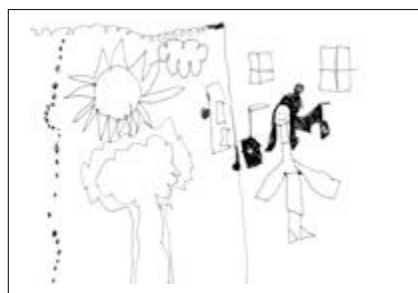

Just fish a little bit, only in the mornings.
Anastasios Dourias

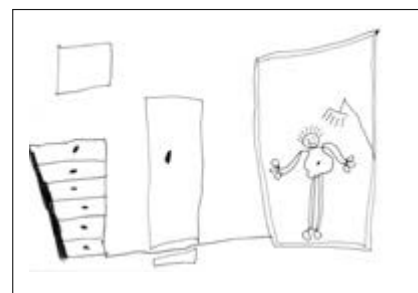

Don't sleep in too long.
Bailee Rugen

Play in a treehouse.
George Leonard

Put sunscreen on when you go outside.
Macdonald Hammond

Have more showers because sometimes you smell!
Frank Stary

Go to the bowling alley more.
Henry Crowle

YEAR 1 GROVES

Absent: Saritra (Todman) Malayanond

Teacher: Miss Kate Vivarelli

Teacher Assistant: Mrs Amanda Thomson

The ELC garden stall

Year 1 hosted the ELC garden stall. It was a chance for the boys to work as active community members to raise money for their chosen charities.

Getting ready for the stall

We spent a lot of time getting organised and ready for the garden stall. We had a few meetings before we started to talk about what we were going to make and sell. We also voted on the charities to donate our money too.

George Anderson, Nathan Godfrey, Thomas Clark, Oliver Johnstone, Lucas Akl.

Making posters

We made posters for the garden stall to let people know when and where the stall was. First we decided what to write on our posters and then we decorated them with pictures of fruits and vegetables around the writing. The whole class worked in groups to make them.

Charlie Ten Broeke, Jack Gibson, Joseph Greenwood, Anthony Nermut.

Creating picture frames

We drew pictures of fruit and vegetables with a thick black texta. We then painted them with some coloured die. We put them in black frames. We decided to sell them for \$5. We thought they looked superb!

Sidharth Gupta, Samuel Manns, Ellis Kacic-Midson, Darcy Sillifant, Ryan Mundy.

Making our Class Recipe Book

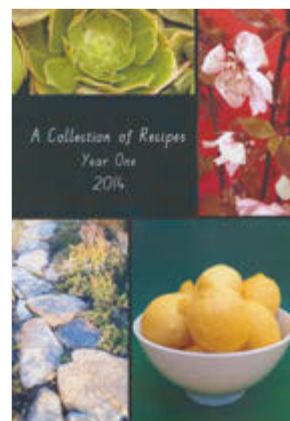

We made a Year 1 recipe book. There are lots of great, easy recipes to cook at home. We thought of our favourite recipes and sent them in. We tried so hard to pick the best recipes. Our favourite recipes in the book are: Spring Rolls, Egg and Bacon Pie and Creamy Bacon Pasta.

Jarvis Breen, Oliver Leary, Oliver Nogajski, William Roehrer, Tommy Lindell.

Creating a calendar

Year 1 made an amazing calendar. It has every month of the year and dates. It has lots of fruit and vegetable pictures. Year 1 loved making the calendar. We got lots of money for them at the stall.

Archie Robinson, William Brocklehurst, Rupert Wiggins, Daniel Shulman.

Planting

We planted little herbs and succulents to sell at the stall. First we filled the tins with soil. Next we dug a hole and planted the seedling. We had to remember to water them and put them in the sun. We enjoyed watching them grow.

Oliver Webb, William Lack, Travis Round, Kaylum Harris.

Making the lemon cordial

We made lemon cordial to sell at the Garden Stall. To make the lemon cordial we used lemons from William B's garden. We mixed the lemon juice in a mixture and added sugar. Lots of people bought the cordial and we ended up selling out very quickly. It tasted very sweet!

Frank Kennedy, Joshua Zeeman, Sartra Malayanond, Dewan Terblanche.

Donations for the stall

Lots of people brought in donations from home. We collected these items on the day and made some price tags. Donations included lemons, herbs, plants and Ollie Webb's Mum even made some mobiles. There were lots of things to sell.

Gabe Harkness, Louis Burbury, Will Abel, George McTaggart.

Setting up the stall

A group of boys had the job of helping set up the stall. We helped move tables, make some decorations and carry up items from the classrooms. There were a lot of items to move but when we finished the stall looked fantastic!

William Christie, Rhodri Rankin, Samuel Bishop, Campbell Jager.

Working on the stall

The Garden Stall was huge and we made so many different things to sell. Lots and lots of people came at lunch time. We had help from Year 6 boys and some parents from Year 1. It was quite tricky to serve and take money. We were so glad to have help.

Nitish Gillkum, Lewis King, Thomas Wilson, Julian Donoghue.

Save the Tasmanian Devil and Cancer Council donations

During our planning of the Garden Stall we decided to choose two charities to donate the money. As a group, we chose the Cancer Council and Save the Devil Appeal. We raised over \$1000 for the charities. We were so proud!

Frederick Clifford, Jack Fergusson, Tobias Morgan, Surya Bhandari.

Back Row: Hamish Cheeseman, Tamaroa Connelly, Austin Douglas, Sebastian Mundy, Samuel Essex, Lachlan Sheen
 Third Row: Oscar Greenwood, Toby Blight, William Curtis, Lachlan Browne, Jack Griffiths
 Second Row: Mrs Beth Bamford, Callum Wherrett, Casper Birch, Benjamin Sands, Edward Petrusma, Joseph Mione, Tobias Zochling
 Front Row: Thomas O'Toole, Thomas Cuthbert, Joshua Bodycoat, Logan Brown, Lachlan Ramsay, Thomas Bonney, Matthew Zeeman
 Teacher: Mrs Beth Bamford

Where in the world?

Where in the world have you been?

Where in the world would you like to go?

I have been to Queensland. I was born there and my Uncle Bobby lives there.
Connor Nicolle

I would like to go to Fiji because the people are nice and I would like to see the coins.
Hamish Cheeseman

I would like to go to Brazil because that's where the soccer World Cup was played.
Jack Griffiths

I would like to go to Paris and Munich. I would like to see the Eiffel Tower and the real Neuschwanstein Castle.
Sebastian Mundy

I would like to go to South Africa because you can see cheetahs there and they are my favourite animal.
Lachlan Browne

I would like to go to Sri Lanka to watch the cricket because they are good at cricket.
Lachlan Sheen

I would like to go to New York and Los Angeles to see baseball, Miami to see basketball and to Melbourne to see the football.
Callum Wherrett

I would like to go to Hollywood to see famous movie stars, like the makers of Looney Tunes, and get their autographs.
Oscar Greenwood

I would like to go to Antarctica because it has heaps of snow and heaps of awesome animals.
Benjamin Sands

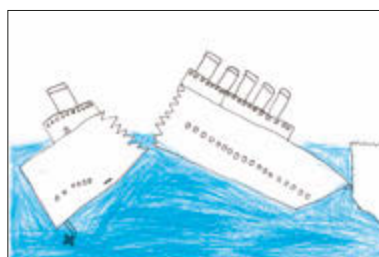

Logan Brown has been to China and **Samuel Essex** has been to Fiji.

Austin Douglas and **Matthew Zeeman** would like to go to see Messi play soccer for Spain.

I have been to the zoo in Bali.
Lachlan Ramsay

I would like to go to the Arctic to see where the Titanic sank.
William Curtis

I went to the zoo in Singapore. **Casper Birch**

I went to Whistler Ski Resort in Canada.
Thomas Cuthbert

I went to Paris and saw the Eiffel Tower.
Thomas O'Toole

Tamaroa Connelly has been to England and **Giuseppe Mione** has been to Italy.

Jack, Toby, Thom and Joshua are deciding where in the world they would like to visit.

year 2 smith 

Back Row: Brian Storrs, Cody Wighton, James Sims, Joshua Wise, William Bovill

Absent: Joshua Clark
Teacher: Mrs Judy Smith

I am going on a cruise to Noumea next year.
Joshua Clark

I would like to go 'around the world' because I want to see the world!
Lloyd Kacic-Midson

I would like to go to Disneyland.
Dimitrios Trambas

I would like to go to Japan to see their houses.
James Sims

I have been to Venezuela because my family is from there.
Jack Akl

I went to Waterbom Park in Bali.
Henry Pitt

I would like to go to India to learn about their culture.
Ellis Nunn

I would like to go on a plane to Canada to go skiing.
Brian Storrs

I have seen the beautiful views from the mountain tops in Wyoming.
Joshua Wise

I enjoyed seeing all the tall buildings in Hong Kong.
Tommy Bennett

I have been to Big Ben in London.
Kiran Sarma

I would like to go to China to try their food.
Alexander Smart

I would like to go to Paris to climb to the top of the Eiffel Tower.
Cody Wighton

I have been to a snake temple in Malaysia.
Angus Bayley

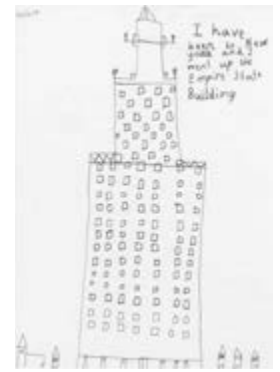

I would like to go to Jamaica to meet Usain Bolt.
Charles Boman

I would like to go to Antarctica to see the penguins.
Edward Broadby

I went to the Singapore Zoo.
Arjun Yellap

I would like to see The Statue of Liberty in New York.
Daniel Kotcharian

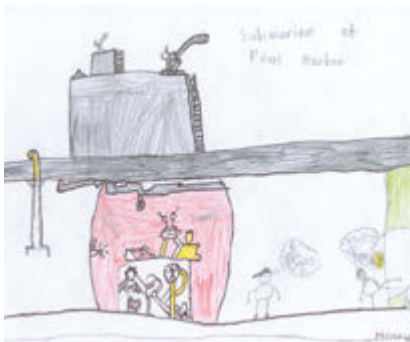

I would like to go to France because I can speak a bit of French and to see the Eiffel Tower.
Thomas Giddings

I have been up to the top of the Empire State Building in New York.
Nelson Humphrey

I have been skiing in Japan.
Max Genders

I saw a submarine at Pearl Harbor when I was in Hawaii.
Henry Browning

I would like to go to Rio de Janeiro to see the Christ statue on the mountain and taste the food.
Reuben Cousins

I would like to go to Legoland in Denmark because you would have a lot of fun!
William Bovill

Henry Browning and Brian Storrs are telling Charles Boman where in the world they would like to visit on their travels one day.

Edward Broadby, Tom Giddings, Cody Wighton, Max Genders and Nelson Humphrey decide where in the world they would like to go!

YEAR 3 BERWICK

Back Row: Samuel Wickham, Luke Harris, Nicholas Jager, Archie Simondson, Noah Kamprad

Third Row: Andreas Tsiakis, Charlie Cooper, Sheng-Yuan Lynch, Rohan Subbarayalu, Lachlan Krushka

Teacher: Mrs Caroline McCreary

Character – What you do matters

In Year 4 we have looked at the School motto and reflected on what character traits it takes to become a good Hutchins man

Year 4 reflections

Loyalty

People who are loyal will not betray you; are helpful; are trusted and truthful; are always on your side; will stand up for you; are good friends.

Honesty

People who are honest own up to their actions good or bad; do not pretend; don't keep secrets; really listen to people and include their ideas.

Integrity

People with integrity are always honest about what they like and dislike; don't keep secrets from you and do not hide their true character.

Kindness

People who show kindness include others; use positives not put downs; have good manners; do things without being asked; help people who are in need; show friendliness to people in need.

Courage

People who show courage are not afraid to do what is right; show bravery in facing what is scary; help people achieve goals; never give up; will have a go at anything; conquer their fears; strive and persist, never giving up even when it is tough.

Compassion

People who show compassion see what things are like from someone else's point of view; see and try to understand how you are feeling; put themselves in other people's shoes to try to feel what you feel.

9 am at camp!

The great sandcastle challenge!

Huon Clark

James Lucas with his rubber band powered car

Reflections of 2014 – the things that we enjoyed and that made us feel proud!

We enjoyed doing our best and then having success like winning the 400 metre race at the Athletics Carnival, mastering our times tables, being included in events like the vortex, representing the school in athletics and music and making new friends.

Campbell Logan, Nicholas Williams and Luca Nunn

We were proud that we achieved the long, muddy bushwalk on camp and felt good when we finished our work. In Year 4 we think the most important thing is being able to get along and make new friends. **Oliver Trill and Oliver Pooley**

We enjoyed all the opportunities we had this year such as swimming, cross country, maths, grammar, art, soccer and Winter sports day. There are so many opportunities for us to be involved in so many things. **Matthew Lowther and Campbell Rooke**

Pjama day and camp were great, we enjoyed making sculptures in Art and cricket and soccer were loads of fun. **Montgomery (Monty) Williams and Huon Clark**

We like learning about geography and the world around us. We found out about new places and got some great ideas for exploring on holidays. We enjoyed BJJ- a mixed martial arts sport, working on the computers (as we are quite good at it) and sports that help to make us fit and teach us to work as a team. **Benjamin Barker and Oscar Trill**

We enjoyed the performances we saw at Fahan and Collegiate. We loved making our Wakakirri film and designing our rubber band powered cars. We enjoyed listening to audio books and we liked all the different subjects, especially cooking, hosting Assembly, making our timelines and learning about the First Fleet and Australian explorers.

Flynn Ervin, Toby Moss, Jefferson Roy-Chowdhury and William Whitbread

We enjoy working with all the different teachers that we learn with and think they are fair and kind. Most of them are great. **James Fielding, Jack Parsons and Arthur Hayes-Newington**

Hutchins makes you feel safe and everyone is friendly. The staff are helpful and the kids are encouraging. We have good sports and great games. The staff have good control and they are fair. We have great lessons and excursions. **Connor Cheeseman and Dong Hun Kang**

Playing spotlight on camp was great. Packing and getting ready for camp was exciting. The bus ride was long but worth it. Having a good laugh together helped you not feel homesick and the food on camp was delicious. **Thomas Gibson, Matthew Hocking and Zacariah Dilger**

Cooking together was fun. We learned to measure and cook some delicious food like zucchini slice, muesli slice, lemon slice and savoury toast. **William Hale and James Lucas**

Year 4 Adamasons Falls Bushwalk

William Whitbread Flynn Ervin Montgomery Williams with their discoveries

Luca Nunn Dong Hun Kang Jeff Roy-Chowdhury William Hale at Lunarix Gemstones

Oscar Trill

Thomas Gibson

William Hale and Matthew Hocking

Toby Moss and his rubber band powered car

Master chefs Campbell Logan and Matthew Lowther

Montgomery Williams

What have we learned about ourselves?

To be responsible, to use common sense, to give everything a go and to work together to solve problems sensibly.

Back Row: James Krushka, Harry Headlam, Sebastian Greenwood, Jesse Wright-Burbury, Angus Ford, Hilton Voss
 Third Row: Sebastian Giannis, Elijah Sargent, Samuel McShane, Alan Hamilton, Caspar Warden, Ben Fergusson
 Second Row: Mr Michael Webster, William Thorpe, Miles Rothe, Henry Carne, Rory Chatwood, Thomas Bennett, Verity Forrest
 Front Row: Luke Palmer, Benjamin Dixon, Rafael Gasset, Gabriel Wake, Ethan Hurst, Angus Broadby, Cale Hine
 Teacher: Mr Michael Webster

On Winter sports day everyone put in a lot of effort for their House all throughout the day. The Houses showed persistence and leadership. Stephens won narrowly, followed by Thorold and School in equal second. Unfortunately Buckland lost. The events in the day were soccer, football, basketball and hockey.

Elijah Sargent, Alan Hamilton and Thomas Bennett

In the House sport this year we competed in athletics, cross-country and swimming. Thorold won the athletics and cross-country, Buckland won the swimming. Up until three quarters of the way through the Athletics Carnival Stephens was in front. Thorold took the lead and ended up winning by over 300 points. There was some great sportsmanship in the carnivals and there were also some longstanding records broken.

Sebastian Giannis, Angus Ford and Luke Palmer

The top eight for each age group in the Inter-House Cross Country went to the Inter-School Cross Country, held at Symmons Plains. There were schools from all over Tasmania competing in the event. Well done, **Jack Parsons, Luke Palmer, Sebastian Giannis, Ben Fergusson, William Thorpe, William Hale and Arthur Hayes-Newington.**

4W went to lots of excellent performances this year. At Fahan we saw two amazing plays – *Pinocchio* and *Cinderella*. At Collegiate we saw *Angelsea Presents*. This play was different than all the others as they got lots of fairytales and put them together. At Hutchins we saw the Year 11s and 12s play called *Robinson Crusoe*. We can't wait to see more excellent plays next year.

Caspar Warden and Samuel McShane

Camp and the bushwalk – the walk on camp was to Adamson's Falls. It took four hours and there was an awesome reward at the end – a fresh water waterfall which we refilled our water bottles in. On the way back Tom B hit his head on a log and fell on a rock. On the walk between the whole class there was some blood, bruises and leeches. **Rory Chatwood, Gabriel Wake and Maximus Ashley**

Throughout the year we studied and learned about lots of fun stuff. In Science we learned about variables in investigations, grew rocket in class and pushed Mrs Manthey's car when we were learning about Newton's Laws of Motion. We also had fun building rubber band powered cars from recycled materials. This year the record was broken by Monty's simple but effective design. In SOSE we found out about explorers of Australia and made documentary-style movies.

Henry Carne, Cale Hine and Rafael Gasset

Two of my highlights this year were winning my first ribbon at the Athletics and the Science experiments, especially building the flic-flac. I also enjoyed singing in Pride, the *Lady Nelson* excursion and the camp to Southport. I really liked getting muddy on the bushwalk.

Jesse Wright-Burbury

Watching *Treasure Island* with the Year 11 and 12 boys was really enjoyable. I also liked watching the Minecraft competition in the Middle School with all my friends. Camp was super fun – we enjoyed the beach and the amazing super fun bushwalk that everyone thought they would hate!

Hilton Voss

My highlight of the year was winning the Caterpillar event at the Athletics carnival. **Verity Forrest**

I really liked the Athletics Carnival. I did very well in the 800 m race I came second and Will Hale came first. School House won the Tug-O-War.

Samuel McShane

At the Inter-School Swimming we did really well at the freestyle and we also got good backstroke times to win them. The breaststroke was not so good but the relays were pretty good. We had a fun day and we won a lot of ribbons but we did not come first. Lots of people were happy with their placing. We had a lot of seconds and thirds in the Swimming. Everybody was cheering everyone on and it was so loud nobody could hear anybody. We had a good time at Swimming Carnival. **Alan Hamilton**

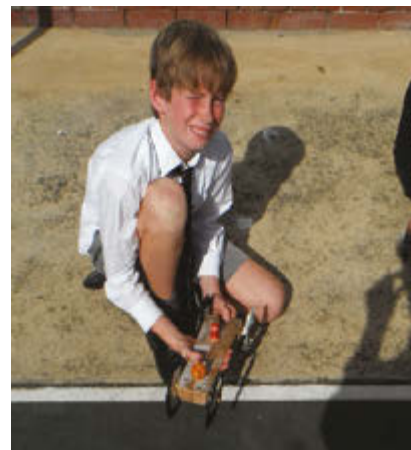

The Years 3/4 Soiree was held in September. This involves boys playing individually and in small groups. I played Rigadoon on the cello. We learned lots in Music this year. We learned time names, how to play cello and violin and others learned the recorder. Pride Gold enjoyed representing the school at the Mariner's Service at St Georges Church. **Ethan Hurst**

In Term 3 the Middle School had a Minecraft competition in the Auditorium. Each House had their own corner in the centre was a castle with an enchanted bow. Bucks dodged the traps and got the bow to win. The atmosphere in the Auditorium was loud and awesome.

Harry Headlam, Miles Rothe, James Krushka and Angus Broadby

In Term 2 and Term 3 this year 4W and 4Mc worked on a movie for Wakakirri. We called it *Agents of Smile* and Jo and Demi helped us learn the moves. The idea behind the story was making people all around the world be happy and smile. Some of the things we did we were the Happy Dance and the Sid Shuffle. Some of the characters were the Agents of Smile, scientists, workmen and students. We did very well and won lots of awards. In the State Category we won awards for Best Characterisation, Group Work and Soundtrack. Nationally we won an award for the Most Inspirational Story. We loved it and thought it was a great experience.

Ben Fergusson and William Thorpe

Back Row: Dashan Forrest, Hamish McDougall, Lloyd Lucas, Jack Carr, Felix Morgan, George Odgers

Third Row: Harry Sillifant, Rupert Hansen, William Anders, Alistair Smith, Lachlan Redburn

Second Row: Ms Trish Knight, William Preston-Stewart, Michael Carmona, Kilian Rankin, Ailbe Bourke, Jack Dixon, William Grierson

Front Row: Chester Burbury, Ben Tassell, Benjamin Davie, Angus Christie, Luke Manns, James Hodgman, Moses Okwechime

Teacher: Ms Trish Knight

One of our class team "ups" was when we were studying Light so we made shadow puppets. It made us work hard together and it was a lot of fun. **Ailbe Bourke**
This year in Terms 2, 3 and 4, our class had a garden. We grew parsley, lettuce, beetroot, carrots, broad beans and spinach. Every time something was ready to pick, Ms Knight would choose five people to come and pick the food, then we would get to eat it the next day for lunch. **Rupert Hansen**

Year 5 camp this year involved all classes going to Orford. We took two buses and one van. It felt like a long trip but we got there. When we arrived we had some lunch, dumped our bags and started on our first activity. After that we organised our rooms. Throughout the three days we did other activities and walked up Bishop and Clerk. **Chester Burbury**

On Wednesday 22 October, all of Year 5 boys went to Parliament Street Park to meet the Year 5 Collegiate girls. The point of the trip was to socialise and I think we did a good job of it. It was hard to talk at the start but when I did, it was easy. We had lunch then we could do basically what we wanted. **Dashan Forrest**

In Term 3 our class was lucky enough to go to UTAS for a National Science Week program. At UTAS there were multiple activities that helped us learn about different aspects such as light, sound and the classification of species. We split up into groups with a few other schools and spent 45 minutes at each station. Overall I really enjoyed our trip because it was educational and fun. **Jack Carr**

What we did with our islands was we got into a team of four and made our islands with newspaper, sticky tape, glue and white paper. We put the newspaper on first and then we added sticky tape so that it could stick to the base and then put the paper on top, over the newspaper and added glue. When it dried we painted the paper and put plasticine on to make objects. **Lloyd Lucas**

In Term 3 we learned a poem called "My Country" by Dorothea Mackellar. It was about her home in Britain but her love for Australia. Every day we would write down the verse and then draw a picture to go with it. It was a very good poem and Year 4 should definitely look forward to it next year. **William Preston-Stewart**

For our Hobart Antarctic connections brochure in Term 2, we went on an excursion to St David's Cathedral, Hadley's Hotel and went on the *Aurora Australis*. After the walk we had lunch at Mures. We ate fish and chips, followed by ice cream. It was really fun and I would do it again. **Luke Manns**

Back in Term 3 as part of our Antarctic studies, we did an excursion to the Mures freezer to find out how cold it would be in Antarctica. The temperature was about at its coldest, -17°C . But that's not all, we didn't just spend 15 minutes on our excursion, we also went to the Botanical Gardens, Macquarie Island House. We went in and it felt like we were on a freezing island. We examined the plants and the wall was painted to look like the island (Peter Goulthorpe painted it).

Felix Morgan

At Hutchins the Years 3-5 classes were doing a program called "Learn to Swim." We were learning to swim for our health and safety and so we wouldn't drown if we capsized our boat or needed to save someone. **George Odgers**

In Term 3 we, as a whole class, walked over to the Senior School Nettlefold Library. As we entered the room we saw the big black igloo aka geodome. The class walked in and were told to sit. When the final boy sat down, a scientist started to talk about our solar system. He showed us the limit to how far our telescopes go. He also showed us the orbit of the planets. **Lachlan Redburn**

Early in Term 1 we were looking at the first settlement in Tasmania so we decided to visit TMAG. When we were there we looked at the colonisation from the point of view of the Aboriginals and the Europeans. After that, as a special treat, we were taken into the art gallery and we saw some amazing colonial art. **William Anders**

This year we were introduced to a new subject called Geography. Geography is the study of a region, country or continent and its surroundings. This unit was very new to most people, but not for me. I have already caught on to Geography in Year 4 and knew the names of almost every country in the world. But this year we looked at Australia more often which I wasn't used to and didn't particularly like but the activities we did, changed that. We also looked at the geography of Europe and North America, which were my two favourite regions. This made Geography rate very highly for me this year.

Angus Christie

In the first couple of days of our exciting year we went orienteering around the School. We got a descriptive map that showed us where to look for letters. The letters spelled the words "Welcome to Hutchins". Everyone had fun and no one got hurt. **James Hodgman**

While studying Antarctica in Term 2, we learned a lot about the continent. My favourite part about it was Scott's story and I almost felt the pain when he died. We also studied the Antarctic animals, learning about the climate and how they have to adapt. Every moment of this unit was enjoyable because Ms Knight provided us with extensive information on the explorers of Antarctica.

Hamish McDougall

In Term 1, Year 5 was studying the first settlers and their way of surviving in Tasmania. We went on some excursions to Sullivans and Risdon Cove. We also wrote a review from one of the settlers' perspectives. We did some work on what they would need and who they would need to bring with them. We also looked at the impact they would have on the Aborigines. **Harry Sillifant**

Nara Jones came to visit 5K to talk about India. She was attending an International School there. She talked about the animals like frogs, snakes and lizards and she also visited orphans there. **Moses Okwechime**

Ducklings are very cute but the payoff is they are hard to take care of. So when I saw the incubator and the eggs, I was surprised in a good way! The eggs will get warmth and moisture from the incubator and the ducklings will live off the yolk in the egg. Then the egg cracks open from the duck's egg tooth.

Benjamin Davie

The Tarkine is an endangered forest with endangered animals. Brodie from "Beards On," a community-based organisation, visited our school. **Michael Hart**

James Hodgman, Moses Okwechime, Ben Davie and Rupert Hansen

Michael Carmona, Jack Carr and Ben Tassell at the CSIRO Science Laboratory

James Hodgman, Michael Carmona, Lachlan Redburn, Will Anders and Rupert Hansen at the Bowen Memorial, Risdon Cove

George Odgers, Jack Dixon, Luke Manns and Angus Christie at the Macquarie Island House, Royal Botanical Gardens

Ailbe Bourke and Dashan Forrest enjoying activities for National Science Week at UTAS

Angus Christie, State and National winner of the National History competition

Dashan Forrest winner of the recycled model competition

Isiah Douglas, Will Preston-Stewart and Lloyd Lucas experimenting with the acidification of sea water

George Odgers, Harry Sillifant, Chester Burbury and Felix Morgan making an island

Back Row: Alister Bradley, Lochie Taplin, Isaiah Douglas, Finn Stevenson, Oliver Elrick

Front Row: James Giannis, Michael Kotcharian, Alexander Langmaid, Ned Spiden, Luke Mitchell, Nathan Holloway, Henry Oddie

Teacher: Mr Scott Marriott

Favourite Moments 2014

2014 has been a big year for the students of 5 Marriott. We have enjoyed many exciting excursions, presentations, talks, sporting events and a fun camp. From the plethora of favourite memories, we all focused on one event and wrote about it.

My favourite moment of 2014 would have to definitely be the 2014 Hutchins Bokes and Spokes. It is my favourite moment because it involved exercising. I did it with my Dad and my best friend, Ben. We had awesome weather conditions and we were given freebies like; drink bottles, balloons, water, apples, lollies and lots more. If I had the option, I'd do it again. **Alex Langmaid**

My favourite part of 2014 was bringing my remote control tanks into school. I really enjoyed watching Mr Marriott and Mr Robinson battling it out down at the bottom basketball court and Mr Marriott winning. It was also brilliant seeing everyone having fun. **Byron Seward**

My favourite part of 2014 was the Swimming Carnival because Buckland won and I got three, 1sts. I really enjoyed it. **Finn Stevenson**

My favourite moment of Year 5, 2014, was winter sport. This is because my team was unbeaten and it made me happy. It was my favourite moment, because it was the best thing to happen to me all year. **James Giannis**

My favourite thing was quiet reading. I'm not much of a reader, but it is a time for me to relax and take a journey, a wonderful adventure, battle or even fight a deep sea creature! **Michael Kotcharian**

My favourite moment of 2014 was the start of the soccer season when we won 13-0. Our team was Hutchins U11 White. Three people scored. They were Lochie Taplin (scored 6), Olie Elrick (scored 4) and I scored 3. This was my favourite moment because I scored a hat-trick. **Isaiah Douglas**

I loved Winter Sports day this year because we got to play on different pitches and I enjoyed being part of a team. **Lochie Taplin**

The best part of 2014 was Mures ice cream. I was there with Year 5. On my table was Finn Stevenson, Liam Canny, Milo Langford and Lochie Taplin. It was my favourite moment because we got ice cream and we were with our friends. It made me feel happy. **Ned Spiden**

In term three, Year 5 travelled to Orford to a pretty large building. There were twelve cabins and space for tents outside. Throughout the day, we went to the beach, orienteering, canoeing, bush walking and camp fire cooking.

Flynn Millhouse

My favourite moment this year was up on Mt Nelson at the CSIRO Ice Cold. We did lots of science experiments with liquid nitrogen. It was one of my favourite moments because I like science experiments. It made me feel surprised. **Jake Maumill**

My favourite moment of 2014 was when we went to the Wharf, Hadleys Hotel and did our walk. All of Year 5 went. It was my favourite moment, because we got to go on the *Aurora Australis*, which is a once in a lifetime opportunity.

Alister Bradley

I was on the oval with the whole of 5MT. It was my favourite moment, because I caught an amazing catch. I took it while I was looking into the sun and at that point my eyes were hurting and I was bad at catching back then. Since that catch, I have become a lot better and I feel more confident. **Henry Oddie**

The best part of 2014 was probably our summer sports day. The sports day was the best because, Thorold won! It was good because, we got to get some fresh air and played with our team mates. **James Webb**

My favourite moment was when Year 5 went to Mures, for lunch. It was a great meal and we all got an ice cream. I chose a Gelato. It was a great day, spending time with my mates and having a meal together. **Oliver Elrick**

My favourite activity this year was going to Mures for lunch. We got to go on a school day and get an ice cream, *FOR FREE* (well for us). **Ben Boman**

The thing I liked most about 2014 was playing AFL for Hutchins Magenta. I liked being part of a team. **Nathan Holloway**

I liked the winter sports carnival because I had a great time. It made me feel happy. All the people who were there, were the people who liked AFL in School House. It was at Lower Queenborough Oval. **Milo Langford**

My favourite moment for 2014 was running in the inter school. I liked this because it was my third time in a row representing Hutchins at the Domain. I won all my events! **Luke Mitchell**

Back Row: Jack Allison, Jack Luttrell, William Francis, Noah Harris, Declan Gilmour, Isaac Nugent

Third Row: Tom Griffiths, Oscar Reisz, Oskar Henry, Zachary Phair, Will Durand

Second Row: Miss Belinda Simpson, Howard Tapping, Aryan Dubey, Quinn Kacic-Midson, Joshua Wiese, Harrison Jones, Lucien Patiniotis

Front Row: Jake Wilkinson, James Kemp, Benjamin Horsham, William Cox, Liam Canny, Fletcher Ryan, Fraser Cumming

Teacher: Miss Belinda Simpson

Friends and Teachers

In 5S, we've had a fantastic year, made new friends and met some great people. Our teacher, Miss Simpson, is awesome! She's kind, helpful and there for us all the time.
Jack Allison

Learn to Swim

Learn to Swim is an activity that Prep to Year 5 participate in. There are different levels but in Year 5, we also learn more about boat and water safety. We used materials such as life jackets (PFDs), rescue equipment and ropes. I really enjoyed Learn to Swim.

Liam Canny

What You Do Matters

This was my first year at Hutchins and I really enjoyed the Homework Challenges. My Dad and I went to the tip shop and bought two old bikes. Over two months, we stripped the bikes back, repainted them and combined them to make a new BMX bike. This was a really interesting project. **William Cox**

Antarctica

In Terms 2 and 3, we learnt about the Science and History related to Antarctica. We studied the food chain, how animals adapt to extreme environments and even designed an ultimate animal. We looked at the Race to the Pole and discovered more about Scott and Amundsen's journeys. **Fraser Cumming**

Bushwalking

On Camp, Year 5 went bushwalking on Maria Island. It was a very hard walk but we all did well. We got to see a snake and some wombats. **Aryan Dubey**

Orienteering

During our Camp at Orford, we completed an orienteering challenge. We were split into groups of 3 and set off with a compass. The goal was to follow directions and find checkpoints that were hidden in the bush. It was lots of fun completing this activity.

Will Durand

Canoeing

Our Orford Camp was such a great trip. While we were there, we got to go canoeing. We learnt about water safety, the skills of paddling a canoe successfully and then played some really fun games. **William Francis**

CSIRO

At the CSIRO, our class participated in an Ice Cold program to learn more about Antarctica. We got to experiment with regular ice and dry ice. To top it all off, we also got to make and eat ice creams made from liquid nitrogen! **Declan Gilmour**

Declan Gilmour and Fletcher Ryan

Camp 5S

Fletcher Ryan, William Francis and Howard Tapping

Portfolios

Our portfolios included some of the work we had done in class throughout the year. They were divided into different subjects and terms. I liked putting together my portfolio because we had a sharing afternoon where we got to show all our work to our parents. **Tom Griffiths**

Behind The News

Year 5S sometimes watched a news program for students called BTN. After we viewed it, we would show our understandings by doing posters, PowerPoints, quizzes and mini projects. It was interesting to watch this program and see what was going on around the world. **Noah Harris**

Geography

A new Geography unit was developed for Year 5 this year. We learnt about Australia, North America and Europe. One of my favourite activities was to design a hidden place name. We had to draw picture clues to match a location of an Australian site. Mine was of Mount Wellington.

Benjamin Horsham

Languages

This year we did French and Chinese for a semester each. The French teacher was Mr Theron and the Chinese teacher was Mr Cordell. Year 5 were very lucky to learn about the language and culture of these different places. **Harry Jones**

Grandparents Day

In Term 3, our Grandparents visited. Year 5 sang a song called 'Hymn to Freedom'. Our Grandparents visited our classroom to see our work and we took them on a tour of the school. I was lucky enough to have 4 Grandparents who came on the day. **Oskar Henry**

Cooking

At Camp, we learnt about building a campfire and fire safety. We cooked damper and marshmallows as one of our activities. It was fun and I can't wait for next year!

Quinn Kacic-Midson

Sport

I liked being able to choose my own Summer and Winter sport at Hutchins. We had a list of sports to pick from. I played water polo during the Winter season. My favourite sport was soccer and I played as a good defender.

Jack Luttrell

John Bednall Centre

Some of the boys in our class went to the John Bednall Centre this year. The subjects included Extension, Literacy and Numeracy. I was one of these students and I improved my skills so much and learnt a lot from the teachers there. **Isaac Nugent**

Antarctic Science

In Term 2, we studied the temperature on Macquarie Island and in Antarctica. We visited the Sub-Antarctic House in the Botanical Gardens. Next, we went to Mures and got to go in their freezer to experience freezing temperatures. These were great learning experiences and lots of fun! **Lucien Patiniotis**

Hobart's Antarctic Connections

For Humanities, we summarised podcasts which shared information about sites in Hobart with connections to Antarctica. We then developed a brochure and took it on a walking tour of the city to look at the very important buildings from Tasmania's history.

Zachary Phair

Family Fun Night

I loved the Hutchins Family Fun Night. There were so many different rides and food that I enjoyed. I can't wait to do it all over again next year!

Oscar Reisz

History

We studied the history of Hobart in Term 1. We visited Risdon Cove and also got to design our own island. Our groups drew a design first, then started making our islands in 3D. We painted them and made plasticine models at the end so they would look real. **Fletcher Ryan**

Excursions

I enjoyed our class because we were lucky to attend several excursions this year. We all really enjoyed being able to learn different things outside the classroom. Some of the places we visited included the CSIRO, Risdon Cove, Sullivans Cove, the Aurora Australis, the Botanical Gardens and Mures.

Howard Tapping

Socials

Years 5 and 6 had one social each term. They were held at Hutchins, Fahan, Collegiate and Mount Carmel. They started at 6.30 and finished at 8.00. We all really enjoyed the socials and we got to meet with the girls from other schools. **Joshua Wiese**

Prizes

We had several reward systems in 5S. You could get a raffle ticket and go in the stars draw by working hard and doing things including the magic job at pack up time. We could also enter a Science challenge where we had to find a scientific error in a picture. If we won an award, we got to select something from the prize pool. **Jake Wilkinson**

Howard Tapping, Oskar Henry, Liam Canny and Isaac Nugent

Tom Griffiths and Jack Luttrell

Oscar Reisz, Declan Gilmour, Noah Harris and Jack Luttrell

Fraser Cumming, Will Durand, Benjamin Horsham, Jake Wilkinson and Harrison Jones

Quinn Kacic-Midson

Music

2014 has been great year for the Music Committee, with success spanning over Pride, Orchestra and the Hobart and Clarence Eisteddfods. Pride gives students the opportunity to sing in a choir and participate in competitions and eisteddfods. Over 2014, Pride singers have won multiple awards and participated in the annual Hobart Sings.

Another music group is Orchestra. Orchestra gives the boys in Years 3 to 6 the chance to play in an orchestra. This choice is given to boys who play string instruments. The same option is given to boys who play brass instruments, which is known as Men In Brass. Over 8 and 9 April, The String Orchestra and Pride participated in Music Camp, which was held at Camp Orana. This camp consisted of enjoyable musical activities. Overall, 2014 was an excellent year for music at Hutchins.

Student Representative Council

This year in the Student Representative Council (SRC), the committee has accomplished a number of tasks in the Junior School and the Early Learning Centre (ELC), to make the school a better environment for students.

At the start of Term 1, suggestion boxes were placed in the Junior School and ELC. They became very popular with the ELC students, with a number of creative and interesting suggestions to make their playground more enjoyable.

Halfway through Term 2, the members of the SRC committee went to the ELC playground during lunch times and completed surveys on what games the ELC boys were playing. The SRC members were allocated specific areas to record notes for a week and as a committee, along with Mrs Manthey and Mr Little, a plan was devised for the new ELC playground.

Overall it was a very successful year in the SRC.

Environmental Committee

This year the Environmental Committee have been very busy, including our major event, Environmental Week which ran from 25 to 29 August.

We began the week with a touch of green on Monday, which was where the boys could bring an item to wear that was green. Switch off day was held on Tuesday where all the electricity in the Junior School, including lights, computers and heaters was turned off. Nude food happened on Wednesday (as it did every Wednesday) where all the boys had to bring a wrapper free lunch and the class with the least rubbish would win the use of a popcorn machine. Swap meet was held on Thursday, all of the boys in the Junior School could bring in 1 to 3 items from home that they no longer need. They were given a token so they could come back to get a new item. On Friday we finished with Clean Up day where each class was allocated an area in the Junior School campus which they cleaned up in the afternoon.

Charity Committee

This year, the Charity Committee helped and organised events to raise money and awareness. Here are some things that we have done this year.

Lap It Up

Lap It Up was a great event for the ELC and Junior School boys. Before the event the boys had to get family and friends to sponsor each lap or make a straight up donation. In this event, all the boys had to buddy up with another student and run laps around the War Memorial Oval for two, fifteen minute intervals. The money raised was donated to various charities. The house spirit and support was fantastic, whilst the running was of a high standard.

ALS Ice Bucket Challenge

For the ALS Ice Bucket challenge the charity committee conducted a small speech about what Motor Neurone Disease actually is. All the teachers that were nominated did the Ice Bucket challenge at lunchtime on the pavilion.

It was great to see so many teachers get involved, including Mrs Manthey and Mr Dean. It was optional to bring in a donation, with spreading awareness the main focus of the day.

Footy Colours Day

On 9 September, the boys got to wear their favourite team colours from any sort of sport. On the day the boys had to bring a gold coin donation and the money raised went to the Cancer Council. At the end of the day we had an assembly so the boys could show off their colours.

Year 1 Garden Stall

The Year 1s held a garden stall where they sold plants, drinks and paintings that they made. They asked the Year 6 Charity Committee to help them sell their items.

JAFFA Committee

JAFFA, or Jesus A Friend Forever Always, is a religious committee that spreads the word about God in a lively and enjoyable environment run by a group of Year 6s with the guidance of Reverend Mark.

Every Tuesday lunchtime, the JAFFA committee came together to run a game for the Junior School. Some of these included;

- Crab Soccer – a fun game of soccer where everyone crawls around to kick an exercise ball.
- Newspaper Hockey – in which two numbered teams line up, and when their number is called they run to the middle and score goals with a newspaper stick.
- The Amazing Race – a giant race that got everyone running around the whole school to different “countries” where they do little challenges to get the next clue.
- The Block – where the boys sorted themselves into their grades and built a room out of various materials and household items.
- JAFFA's Got Talent – This great activity ran over several weeks. The boys got to show their various talents to the rest of the group.

Halfway through each session, Reverend Mark would gather the boys in and talk about God's word, changing the topic each week, so that they could get a wider understanding of Christianity, after which they would pray and end the talk.

Every Wednesday, the JAFFA committee helped with Chapel; leading, praying, bible reading, even using the PowerPoint. Ultimately, JAFFA has been a great success and an astounding addition to the committees.

Camp Orana

On 11 February 2014, all of Year 6 left for our Leadership Camp at Orana in Lauderdale. The purpose of this camp was to help us learn the qualities of a good leader and to vote on the House Captains for 2014. On the first day we were given a tour around the campsite and then we set up our sleeping areas. We had the option of sleeping in a cabin, tent or under a tarp. After setting up we played lots of games with some Year 12 students who were kind enough to come down to Orana. These were swimming in the sea, team initiative activities, raft building and low ropes.

On the second day we all had to learn how to set up the Get Active games so that we knew how to do it when it was time to set up at school. Later that day we all went into the mess hall and some Year 12 Leaders came to tell us about Leadership. After that we voted on the Year 6 Leaders. Whilst we waited for the results we played a massive game of Flags on the Oval. After the game we were all nervous about the results of the vote so the teachers announced the House Captains; Oliver Luders, Alex Kuzis, Jack Marios and Jack Rossiter.

The next day after breakfast we began to pack up and after that we did an amazing obstacle course on the beach which involved lots of teamwork and strength. After completing the tiring course we all had an icy pole, hopped back on the bus and came back to school. Overall Camp Orana was a great experience for everyone because it helped to teach us about Leadership.

Canberra

Day 1. On 6 May, the Year 6 boys travelled to Canberra for 3 nights. After flying via Melbourne, we went straight to the accommodation and had dinner. After our dinner, we went to Questacon for a night session. Some of the highlights were the freefall slide, the artificial lightning and earthquake room.

Day 2. We had breakfast and went to Government House. We had the privilege of meeting the Governor General Sir Peter Cosgrove and his wife Lynne Cosgrove. We were given an interesting tour around their entire property. Shortly afterwards, we went to the National Gallery of Australia. The highlight were paintings of Bob the Human and the Ned Kelly series. The National Gallery also contained works from famous artists, such as Jackson Pollock's Blue Poles and Claude Monet's Water Lilies. After lunch, we left for Old Parliament House. One of the highlights was learning from the touch screens. Then we went to Geo Science. While we were there, we had a look at the seismograph and at that moment there was an earthquake happening in the Solomon Islands. We also learnt about rocks and what they're made of. We saw many fossils and minerals. After dinner, we went to Zone 3. We played two games each and we also played in the arcade.

Day 3. Straight after breakfast, we left for the National Archives of Australia. We were given an informative tour of the archives, saw the original Constitution of Australia, and took a Dictation Test. Next we went to the new Parliament House and participated in a role play, recreating the House of Representatives. Our final tour was an inspiring one of the War Memorial. We stayed for the Last Post. It was a great trip, all the boys really enjoyed it.

Athletics Carnival

On Tuesday 16 September, the Junior School Athletics Carnival was held at the Queen's Domain. We split up into our four houses and got onto the buses. With some inspirational speeches from the captains, we were ready to go, excited about the thrilling day ahead.

Some of the popular events were the 100 m, 200 m, 400 m, 4 x 100 m relay, long jump and high jump, but the other events were all fun and enjoyable. The boys that did not fancy the track events loved the novelty events. The novelty events were the sack race, balloon toss and the newly included caterpillar crawl. There were some outstanding performances including some record breaking performances from Callum Emms, Liam Canny and James Webb.

At the end of the day, Thorold were too strong and ran out comfortable winners. Buckland was second, followed by School and Stephens.

Everyone had an awesome day.

Swimming Carnival

On 7 March 2014, the Hutchins Junior School travelled to the Hobart Aquatic Centre for the House Swimming Carnival. Everyone raced their hearts out and pushed their bodies to the edge for their House. After a long day of blood, sweat and tears the results came in. It was almost as though you could cut through the tension with a knife.

As Mr Berry's voice boomed out of the loud speaker everyone sat on the edge of their chairs. Buckland came 1st with 783 points, Thorold came 2nd with 722 points, School House came 3rd with 701 points and Stephens came last with 669.5 points. Overall it was a fantastic day, everyone showed great House spirit and the event was warmly supported by parents and friends.

Cross Country

On Tuesday 8 April, the Junior School competed against each other in the Cross Country Carnival at Dru Point. It was a great day and everyone competed and tried their very best. It was great to see every person displaying positive House spirit and cheering for each other. Even the little ones had a good crack

in cheering for their house. Lunch was delicious with Mr Docking and Mrs McCreary on the barbecue, cooking up a mix of mouth-watering sausages and burgers. Each race had a year group competing and the top eight runners were selected to compete in Rokeby against all the other private schools.

At Rokeby, Hutchins boys all did very well in all year groups and managed to win a few ribbons. The top six of each race at the School Carnival went on to compete at Symmons Plains against the State's best runners. Overall it was a great day and everyone enjoyed themselves.

Get Active

Get Active was our morning physical activity to get the students hearts pumping. The students did Get Active on Monday, Wednesday and Fridays at 8.30 in the morning for 15 minutes. We did Get Active on the oval but if the oval was wet, Get Active would take place on the tennis courts. Sometimes students would gather on the basketball courts for a cross country course. The Year 6s setup in the morning before the Year 3s, 4s and 5s got to the area allocated to the activity.

Some of the popular games in Get Active where Space Ball, Lone Survivor, In the Dog House, Noodle Tag and other games. Minor Games was where you could play any game. Space Ball was where there were six teams and six people with coloured vests on would be inside a box and the other people would line up on the outside and throw balls that would stick to the vests and the person with the least amount of balls on the vest wins. Lone Survivor is a game that is played in a square that is about 25x25 m. It starts off with one person that is it, this person is the catcher, anybody caught by him will have to go off to the starting point and mark themselves with a bib or cone and this goes on until there is only 1 person left. In the Dog House divides a group into four smaller groups. The allocated group is tasked with catching and 'jailing' the other three groups. Once the group completes this their time will be recorded and their role swapped with another group. The group with the shortest time at the end of the session wins.

Quiz Day

On Thursday 12 June, the Year 6s went to Collegiate for a quiz. Boys were paired with girls from Collegiate and worked as a team to complete various activities.

Some of the activities were:

- singing the National Anthem
- to build the Sydney Opera House out of clay
- a dance off
- guessing the names of famous dogs from pictures.

After all the activities were complete, there was an opportunity to share lunch with the girls and get to know them. Overall, this was a good opportunity to make good friends and enhance our social skills.

Socials

This year, Year 5 and 6 boys participated in socials. These were held once a term. At a social, students from Collegiate, Fahan, Mount Carmel and Hutchins get together and socialise. The morale of the social is to boost confidence with girls, since many Hutchins students will be possibly sharing classes with them in the future.

In conclusion, the socials were a big success and it was great fun to socialise and dance with girls from other schools.

Leadership Day

On 27 March, the School's Leaders came together to enjoy a pizza lunch and mini games with Leaders from other schools all across Hobart. One of the mini games was attempting to walk through an obstacle course, blindfolded. Luckily, we had a partner to guide us, but this was not always a good thing.

School Fair

This year, on 28 March, we had our annual School Fair. You could not get bored at the fair because there are so many fun things to do like ride the Gee-Whizzer, get bucked of the mechanical bull, win prizes on the chocolate wheel, jump around on the jumping castle, dunk volunteers in the dunk tank, run around crazily in the worm and get some very tasty food from various food stores. All up the 2014 fair was one of the best so far.

Grandparent's Day

On 5 August, the boys had a chance to show their grandparents some musical performances and after the performances they got some snacks from the Chef Adam. After that they showed their grandparents around the school and the boys also showed them their work.

Winter Sports Day

On 22 August, the Junior School had its Winter Sports Day carnival. The sports played on the day were AFL, Hockey, Table Tennis, Soccer and Basketball. School came in 4th with 11 points, Thorold placed with 11.5 points, Buckland took 2nd with 12.5 points, and Stephens seized the day with 16 points. Overall, it was a very enjoyable day.

Open Day

Open day is when families come and look around the school to decide if they will send their children to Hutchins. The Junior School do lots of performances when Open Day comes around, one of them is the pride performance which as usual was very impressive.

YEAR 6 BURKHART

Back Row: Harrison Riley, Nicholas Westenberg, Jack Vallance, Ethan Taylor, William Osborn, Alexander Kuzis

Second Row: Mrs Elizabeth Burkhart, Logan Ahern, Thomas Maclachlan, Saxon Wright, Oscar Rose-Watson, Felix Smith, Oscar Campbell

Front Row: Ethan Medwin, James Fulton, Sebastian Wallman, Sebastian Longman, Ryan Deng, Gordon Hamilton, Lewis Traill

Absent: Luke O'Keefe

Teacher: Mrs Elizabeth Burkhart

YEAR 6 HAMMOND

Back Row: Vincent Harman, Axel Moore, Jack Whitton, Zachary Chatwood, Jack Campbell, Blaine Doust

Second Row: Mr Stuart Hammond, Henry Reeve, Jack Marios, Taine Sookee, Samuel Harris, Riley Ashlin, Alexander Betts

Front Row: Max Britton, Zakariya Eid, Riley Stevenson, Jordan Seabourne, Jack Rossiter, Clancy Pickering, Alden Rankin

Absent: Max Denehey, Ramez Eid

Teacher: Mr Stuart Hammond

YEAR 6 LITTLE

Back Row: Christopher Law, Hamish Betts, Izac Grantham, Harry Whitton, Harry Jones, Noah Sargent

Second Row: Mr Travis Little, Nicholas Kuzis, Trent Stephens, Oliver Luders, Finn McLagan, Jake Zubovic, Joe Clifford

Front Row: Alexander Rankin, Fletcher Hilder, Benjamin Welling, Felix Charles, Daniel Mackintosh, Callum Emms, Sebastian Folder

Absent: Ashby Bingham

Teacher: Mr Travis Little

In the extended version of his report, Shane McAloon wrote, "Possibly one of the best kept secrets at Hutchins is the staff of the Middle School." This year, this wonderfully dedicated team of professionals speak for themselves:

2014 has been a wonderful year, a year of firsts for me. Something that becomes less and less common with age. A Year 7 Mentor Group for the first time, a Power of 9 expedition for the first time, and my first year as House Coordinator. It made me appreciate the daily 'first times' Year 7s are exposed to, and the inherent excitement and fatigue associated with this daily routine of 'first times.' Their first Summer and Winter Sports Days, Camp, homework, lockers, moving from class to class, own devices, and so on. To be present for all of those 'first times' for the boys is so richly rewarding it makes us rarely ask why we would do anything other than teach.

Nick Eaves

You might think that after more than 19 years of working in Middle School as a Mentor and Maths/Science teacher, the job for me has become repetitive. That couldn't be further from reality. Life in the Middle School is ever-changing, usually subtly but sometimes more obviously. Different events, changes to curriculum, assessment and reporting and different themes and points of emphasis all add variety. But mostly it's the individual boys and their class groupings each year that provide the most important changes to maintain a fresh and vibrant ambience. As in previous years, it's the impressive deeds of the boys of 7IAd 2014, individually and collectively, that continue to make me proud and regularly give me the opportunity to boast: "They're my boys!"

Ian Addison

It is with mixed feelings that I reflect on 2014 in the Middle School. After spending part of my long service leave, and most of my money, travelling overseas, I was pleasantly surprised to find the return to school was not the paralysing shock I expected. Perhaps it was because I thoroughly enjoyed observing the individual successes of the boys in my Mentor Group. Perhaps it was the successes of my Year 7 and 8 subject classes. Perhaps it was the consistent collegiality and good humour of the teaching and cleaning staff. Perhaps it was simply the meals the Head of School provided for Parent/Teacher conferences. Or... perhaps it was all of these small but powerful reminders of how good it is to teach in Middle School. I will miss it!

Gary Prebble

I knew from experience 2014 would be a busy year and judging from the many activities undertaken by 8CBe, it has not disappointed. My boys' sporting achievements including having at least five members of the State Rugby team, participation in the National Free Running Championships and numerous swimming medals are some examples. Camp took us to the sunny east coast with the most popular activities being rock climbing and camping out under the stars and Year 8 projects cover a broad range, from car renovations to film making. I have found it exciting to see the large number of boys practising leadership skills through the Middle School Council and I look forward to seeing these skills refined, as the 2014 8CBe boys progress through the School.

Chris Berndt

It has been a pleasure working with 8RMc as they have journeyed through a productive and exciting year. We studied Science together. One of the highlights was looking at Archimedes' devices with the boys building their machine to fire set distances. We videotaped in slowpro the testing of our models and then presented PowerPoints on our learning. It was great fun! A pastoral highlight was an inspiring talk from Sam Cawthorn, demonstrating how lucky we are to be here, to have our health and family and to enjoy so many good school experiences. Surely a personal highlight has been how often other teachers have praised my Mentor Group for their enthusiasm and pleasant good humour. Thank you for our year together, 8RMc.

Rob McCammon

Pens, books and forms about lice,
Struggling to use a personal device.
Sport and dance, debating too,
The boys all have so much to do.
Tears shed over a simple red T.
"Siiiiir, do you really need to give that to me?"
"Mr Matthey is Evil!" I heard one of them go,
"Making us all perform in some Arts expo!"
When I heard this, I asked with a smile,
"Did you have fun? Was it worthwhile?"
Stories from backstage on the night,
That finish with, "Yeah sir, it was alright."
It's strange to look into a Year Seven's mind,
I'm no longer surprised at what I might find,
Some breezed through; others conquered fears.
I hope they remember it ... for at least a few years.

Brenton Matthey

Being a Hutchins Mentor for the first time has been a rollercoaster ride! But the busy times have been far outweighed by the fun I've had with the fantastic boys in 8 SMC. Who would have thought that a 'Human Skipping Rope' would be possible? The Middle School team is a dedicated, hard-working group of educators, but above all a great group to work with. I got a few laughs from my fleeting role in 'Spamalot' and enjoyed many more on Year 8 Camp, at our Minute to Win It Mentor Challenges and the Middle School Ice Bucket Challenge. As I move to work in Power of 9, I will always remember 2014 fondly for the people I've worked with and some of the great things we've achieved.

Shane McAloon

Why do I like being in Middle School? Quite simply, it's our students. They are enthusiastic, exuberant and keen to learn and still laugh at my poor jokes ... well sometimes. A bonus is the close collegial teamwork, while the Middle School gives me the opportunity to teach in a variety of learning areas. 2014 has provided me with the joys of Year 8 camp and the opportunity to coach Hockey. I never tire of being able to nurture our young men's love for this great game. A personal highlight was my wonderful opportunity to travel to France for a cycling tour with four friends since high school days. Being a student at Hutchins will also give our boys an opportunity to develop such lifelong relationships.

Anthony Hyland

Highlights of this year have been many and varied. But it is hard to look past these three. Running Middle School chapels, as we have used creative ways to make God's word accessible to the boys was the first. This included role-playing, competitions, short videos, tent assembling competitions, drama and making recipes. Secondly, there was running lunchtime activities, known as JAFFA, with a fantastic group of Year 8 volunteer Leaders. Last, but not least, was working with my wonderful Mentor Group. As a group, they all grew from strength-to-strength. The glue that created such a strongly-bonded group was an activity that will prepare them for future fatherhood, our pun of the week competition.

Reverend Mark Holland

It remains for me to thank, on behalf of our boys, their thoroughly dedicated Year Heads, Ivor Leonard and Fiona Moroney; our relief Mentor, the multi-talented Will Seager; all their teachers based in the Senior School; our School Counsellor, Dean Docking; Reverend Matt Gray, our Chaplain; our Matron, Andrea Kooyman; all the dedicated people in our Study Support Centre; our Middle School Secretary; Donna Beadle, our bus drivers; our maintenance team and in fact, all our support staff.

Ian McQueen
Head of Middle School

The differences between people need not act as barriers that wound, harm and drive us apart. Rather, these very differences among cultures and civilizations should be valued as manifestations of the richness of our shared creativity, (Daisaku Ikeda)

Active citizenship includes knowing your responsibilities within civic life, being prepared to learn about key issues impacting on society and, where possible, participating in strategies to resolve these issues. In an interconnected world, these issues may be local, national, regional or international. The boys in Middle School are fortunate to experience a wide range of literary genres and in English, we respond to issues in a variety of ways including: essays, forum posts, creation of animations and presentations.

We examine identity and analyse the role of the protagonist in stories. Students consider how language enables people to express attitudes, feelings and opinions and they explore how language is powerful in the creation and expression of personal and social identities. The central idea is: being an author comes with responsibilities. When telling a story about one's self or others, boys are mindful of respect for feelings of self and others.

An Indigenous female hero and the context of the Stolen Generations in *Rabbit Proof Fence* were explored by Year 7 by focusing on the main character, Molly, and her journey with her sisters following their forced removal from their family.

"Molly is the hero and because she is the big sister, she is charged with the job of protecting the younger family members through all the tough times, the harsh treks and the big chases. She carries Daisy all the way across the country and she always puts herself up for danger before anybody else."

Miles McTaggart

"I believe that Molly is the hero because she shows the most courage and is willing to do anything so that Gracie, Daisy and herself get home safely. Another reason is that Molly is the eldest and therefore leads the girls home. Molly also spends the most time on screen, which tells the audience that she is the main character."

Jackson Coad

In Year 8 we compared Indigenous and non-Indigenous identities through a study of *Two Hands Together* by Diana Kidd. The focus was on storytelling and the Dreaming and students responded by deconstructing, analysing and creating their own stories.

"By night time the women still hadn't seen them so they went looking for them. Finally finding their two boys in the river dead in the trap, they came back, finding Moon asleep. They set Moon on fire causing him to wake up and go up into the tree next to the house. He died saying, 'When you die, you will die forever but I will come back every month,' and that's the reason the moon rises above that tree every month."

James Britton

"Namorrodor is really a gentle beast that wishes to be accepted by every person of the populous Indigenous Australian community. He is a kind soul that has just been led astray over his many years of trauma and rejection."

Liam Usoalii

In Year 8 we looked at issues in our study of *Free: Stories of Human Rights*. Students used Fronter to view and respond to current media as it applies to asylum seekers and gender equity and analysed the language used by the media to influence their opinions. This work provided the opportunity to compare and contrast cultures, as well as to consider the responsibility to promote social justice which comes from living in a privileged country such as Australia.

"Women in more developed countries such as Australia are still being abused because of their gender. Statistics say that 1 in every 5 women you meet is likely to have experienced some kind of sexual abuse after the age of fifteen. Organisations such as Amnesty International, The Equal Pay Alliance and many women's rights advocates around the world are working to increase awareness of what some women go through as well as trying to improve their living conditions. There has been a major improvement in many women's lives; although there is still a huge improvement needed."

Stanley Stoneman-Waite

".....She also tells Amnesty International that daughters are regarded as mere possessions; she reveals that giving birth to a baby girl is a blessing for poor families as they will often be able to sell them to help relieve their poverty. Richer families who are in need of a servant also often marry one of their sons to these girls to gain a child servant as an alternative for having to do the work themselves."

Patrick Betts

"Child Marriages are one of the most common forms of mistreatment, all over the world. Most women, when sold as children, have no idea of their surroundings. Alsha was 10 when she was sold to a 16-year-old husband. She was sent off due to a dispute with her father's second wife, which ended in her agreeing to marry a husband she had never met before. Alsha recalls she was too young to know what was happening, so she just agreed like many other victims."

Liam Mead

One of the culminating events of our academic calendar is the Middle School Poetry and Prose in Performance competition. This was held on 28 October and the audience were fortunate to experience the excellent standard in public speaking by the boys. Examples of the wonderful pieces were: 'Chief Seattle's Speech' presented by Anurag Gilkum; 'Ferris Bueller's Day Off opening scene' by Noah Polglase; 'Blood, Toil, Tears and Sweat' (Winston Churchill), presented by Harvey Chilcott; "Horace" (Monty Python), presented by Morgan Macbeth; and 'Television' (Roald Dahl), presented by Ptolemy Savage.

Many thanks go to the Middle School English team: Mrs Moroney, Mr Leonard, Mr Green, Mr Prebble and Mr McQueen.

Nick Eaves

Middle School English Coordinator

Once again this year appears to have gone in the blink of an eye. It doesn't seem possible that the new cohort of Year 7s would 'grow into' their uniform by the end of the year. Fresh faced, wide-eyed in anticipation and with little clue about where they were supposed to be, when, with what and with whom.

They have now evolved into a confident group of boys who are prepared and ready for the challenges that Year 8 will present. They have become independent. They are an organised group who now know where they are supposed to be, when, with what and with whom. The journey has been mixed. Some boys overcame the challenges presented in next to no time, whilst others took longer. For some, the road was smooth and straight whilst for others it was anything but!

The Year 7 cohort have epitomised the Hutchins spirit this year. They have been kind, looked after each other and got involved. I understand there are no records kept regarding the number of 'Colours' awarded but I would anticipate that more have been awarded this year than at any point in recent history. It is also encouraging to see that nineteen Year 7 boys have decided to join the Middle School Council and are now working their way towards becoming Leaders. Most of all, I have been impressed with the honesty of the year group. When mistakes have been made they have been resolved quickly and easily. In this respect, the boys have made a difficult job significantly easier.

Once again, the academic curriculum of the Middle School has been enhanced by the large number of Co-Curricular activities. Throughout the year there is a steady stream of events to develop other aspects of boys' character. Reflecting on the calendar for the year shows that barely a week passes by without a sporting event, visiting speaker, excursion or other activity. The pastoral care within Year 7 has continued to develop this year with boys having a timetabled period of Resilience and Coping delivered by the Health and Physical Education Faculty. In addition a 'Broadening Horizons' programme has been implemented by Mentors to introduce such subjects as Finance, Philosophy, Sportsmanship, Japanese and 'That's How Wars Start'. Thankfully both will return in 2015.

2014 is a year that has had many highlights and moments to cherish. However, it is worth reflecting on a number. Jackson Coad has had an exceptional year academically and succeeded in posting the highest scores in Tasmania in ICAS Science and Maths Competitions whilst Frank Jiao did the same in Spelling. Benjamin Cornwell was the State Winner in the Tasmanian Chinese Speech and Performance Competition.

On the sporting front, Alexander Hogan-Jones and Miles McTaggart represented Tasmania at the National U13 Hockey Competition in Adelaide. Whilst Lochlan Hardwick and Samuel Kokkoris represented Tasmania at FFA National Championships at Coffs Harbour. Daniel Di Domenico continues to excel at cycling and has competed on a national level at a number of events during the year.

The wide range of opportunities that boys are offered in the Middle School at Hutchins would not be possible without the efforts of the staff who work here. Both I and the boys are very fortunate to have been supported by the team responsible for Year 7. I would like to thank Ian McQueen for his leadership and guidance and also the Year 7 Mentors who know the boys like no one else in school. On behalf of the Year 7 boys of 2014, I would like to wish Mr Eaves and Mr Prebble well in their new roles in the school. Mr Seager has been exceptional in covering

for Mr Prebble and Mr Addison whilst they were on long service leave and will spend 2015 in the Senior School. Mr Gard and Mr Matthey have had an outstanding first year in Year 7 and I am delighted they will return in 2015. Mr Addison will also return to Year 7 after spending Term 4 on long service leave and will no doubt, once again, be raring to go. I would also like to thank this group of Year 7 boys for making this year so enjoyable. They have been a pleasure to deal with. I will follow their Hutchins careers' with interest. Most importantly, it is terrific to see that their uniform now fits!

Mentor: Mr Richard Gard

Throughout the year, boys were asked how they would like to be remembered as they left Middle School. Embarking on this challenge individually and as a year group, they were encouraged to get involved in extra-curricular activities, follow their passion and try something new before leaving Middle School; not regretting the things they have done, rather regret the things not attempted. With trials and tribulations of adolescence, there were outstanding personal achievements along the way which would not have been possible without the remarkable pastoral care and guidance from Year 8 Mentors: Mr Hyland, Mr Berndt, Rev Mark Holland, Mr McCammon and Mr McAloon.

Year 8 Reflections

Harmony Day

'A smorgasbord of food to eat from all continents. I thoroughly enjoyed it.'

Will Polley

'We all came together as a diverse community and celebrated something that we all have in common. It was great to taste foods of the world.'

Mason Bird

Camp and Enrichment Week

'The things I liked most about the two

weeks were doing things I would not

normally do. My favourite things were

Genesis, Pennicott Cruise, Master

Chef and camping at Freycinet.'

Harvey Chilcott

'Wow! The view from Mt Amos

was amazing and the wildlife was

abundant! I enjoyed rock climbing as it

was challenging; I had to face my fear

of heights, but it was worth it!'

Thomas Davie

'Camp was an experience that will stay with me for a lifetime. I learnt so much about myself. I took on and learnt so much about the world and the way I see it. I also got to make new friends.' Tomas Hopkins

Year 8 Project

'This was almost the best part of Year 8 because I got to do something I really wanted to do!' Nicholas Davey

'I learnt so much about myself and the importance of time management. I loved the Year 8 Project.' Tom Taglieri

Mentor Challenges

'I really liked the Mentor Challenges in pastoral because we got to work together as a team. SMC rocks!' Lachlan Hart

'The Minute to Win It challenges were fun. We got to do offbeat things and it didn't matter how silly we were.' Brentyn Muir

Shave for a Cure

'A great cause and Mr McQueen said I needed a haircut!' Samuel Ryan

'Although it was lots of fun it was possibly my worst haircut ever!' Koh Kawaguchi

Father-Son Night

'This was a great opportunity to spend time with my dad and let him know how much I appreciate him.' Alastair Vickers

'An empowering night. I learnt so much about dad and myself.' Sebastian Robinson

'I got to hang out with my dad and enjoy his stories.' Henry Chambers

Ice Bucket Challenge

'Who would have thought we could raise enough money to throw buckets of water over Mr McQueen's head!'

Edward Coleman

'Mrs Moroney has an impressive scream; don't upset her!' Simon Watt

Absent: Alexander Harper, Liam Usoalii Mentor: Mr Shane McAloon

I feel I cannot begin a wrap up of 2014 without mentioning CIS. Involvement in the accreditation process for the Council of International Schools permeated every aspect of Senior School life and provided us not only with an opportunity to reflect on what we do, but also served to remind us of the strength and quality of the young men we work with every day and whose development we are contributing to. Whilst the process was ultimately about our growth as a school, we should not overlook nor underplay how overwhelmingly impressed the CIS Visiting Team were with our boys. The genuine attributes of our fine young men were not lost on our visitors.

The Senior School boys, in particular the Year 12 cohort, were ably led this year by Henry Garrett (School Captain) and Oliver Jones (Vice-Captain). There have been some outstanding student leaders in recent years and following in the footsteps of those who have gone before you is a daunting task, I certainly felt that at the start of this year, so congratulations to both Henry and Oliver for being true to who you are and for continuing to develop the strengths that work for you. These two boys led by example and were well supported by the Captains group of Ben Robinson (Stephens), Will Fisher (School), Jock Mure (Buckland), Daniel Larratt (Thorold) and Will Campbell (Burbury House) and then again by another 21 Prefects, 24 SRC members and numerous boys taking on leadership roles within the House.

'Leadership is not about a position but about how you conduct yourself...'

I hope it is apparent to the school community that at Hutchins, student leadership is not about fitting a specific mould but rather about demonstrating a strength of character, believing in what you stand for and conducting yourself as a role model who is also prepared to encourage others to come on their own journey of personal growth. Leadership is not about a position but about how you conduct yourself and this year in working closely with a more diverse group

of senior boys it has become apparent to me in this role of the large number of remarkably capable, strong minded, caring and respectful young men who day in and day out involve themselves so fully in the life of the school for the benefit of our students, the broader community and their own personal growth.

The notion of service is strong in the Senior School and over numerous years each House has developed a strong relationship with its own charity whereby they are now firmly entrenched as part of the culture of each House. Buckland House have the Leukaemia Foundation (Shave For A Cure); Thorold House work with Lifeline (Book collection and 'Out of the Darkness'); Stephens House have adopted the R U Ok? organisation and School House continue to work with the Salvation Army (Winter clothes appeal).

Across the Senior School the Prefects have fundraised for the Lion's Club through their "Freezin' for a reason" efforts at Sandy Bay beach, the SRC also fund raise and disperse funds to a local, national and international charity. These 3 charities change on a yearly basis and are voted upon by the entire Senior School. This year's charities were Loui's Van, Cancer Council and World Vision. Year 10 boys fundraised for their annual charity gala with Collegiate in August. This year the charity of choice was Albie House.

For all young men, growth requires a culture of encouragement and support so our boys are able to develop from the experiences they take on and learn more about themselves. To all staff, I thank you for providing our boys with so many different levels of opportunity to shine. As a school we are always talking of the myriad of opportunities that are available to our boys, but I must admit that it has not been until this year where I have had such close interaction with so many of these opportunities that the breadth and extent that is on offer to our student group has become so apparent. I am very proud of the dedication and skill set of our staff and parent body who are able to offer such a diverse set of experiences which both challenge and nurture each of our boys.

Throughout a busy and successful 2014 many boys were involved in numerous additional activities to our regular

academic program and co-curricular offerings such as Spamalot (thank you Mr Servant for the memories); Harmony Day; Prefect Mother's Day Breakfast and Grand Final Breakfast; National Youth Week Year 10 BBQ; Grip Student Leadership Conference; Student Leaders' Lunch hosted by the Prefects for leaders of JS and MS Council; Minecraft Competition; addresses to students by public speaking heavy weights Paul Dillon, Sam Cawthorne and Dr Keith Sutter; age specific study skills sessions; SRC Quiz Night; numerous sporting competitions with New Town High School; CPA Australia Plan Your Own Enterprise; 10th International Student Science Conference (ISSC) at Nankai High School, China; Junior Youth Physicists' Tournament; Philosothon at UTAS; and the Student Leaders' Convention in Singapore to name but a few.

Discussion on the 'year that was' in Senior School would not be complete without The Cock House Cup. This was hotly contested this year and late in Term 2 there was only 1 point between each of first and second, second and third and third and fourth. After the full series of competitions however, involvement in Swimming, Cross Country, Athletics, Drama, Music, Debating and Chess saw a draw between Thorold and School House. At an academic level, the Stephen Gumley Shield for Academic Effort was awarded to Thorold House in another close contest.

I would like to take this opportunity to thank all of my colleagues (teaching, administrative, support and maintenance) for your sense of team and acknowledgement that we all collectively make up the Hutchins experience for our students. Finally, best wishes to all staff and students who are leaving us this year, I wish you all the best for the future.

Roger McNamara
Head of Senior School

The most important ingredient required for a strong and successful boarding house lies in the quality of its personnel. Burbury House has a healthy mix of Tasmanian boarders, brought up with the finest local ingredients and moral values. They continue to provide the vibrant spirit that has contributed to many of the established traditions. Our fine cohort of local Junior Boarders will be complemented by three new boarders in Years 5 and 6 in 2015. The mainland Australian boarders come from locations as diverse as Sydney and Broome. This wholesome base is subtly spiced up by an international contingent, the majority of whom are from Hong Kong and mainland China, along with several transient guests from overseas: this year we have been joined by visitors from Spain, Germany and Italy; great contacts for a future adventure! We have also welcomed a range of casual boarders, who have generally joined us for between one week and one term.

Our Residential Staff (and WAGS!), kitchen and domestic teams bring a wealth of experience with them, and always look for opportunities to engage with the boarders, be it in animated conversation, relaxed 'banter' or over a game of 8 ball. The gentle patter (along with noisy screeching) of the soon to be five staff children provides an immeasurable quality, breaking down barriers in a way that only littl'uns know how, reminding us of the joys of youthful enthusiasm and awe. This year's Gap Students hail from South Africa, USA and Germany, and have helped to provide a valuable bridge between adolescence and adulthood.

The Hutchins co-curricular program receives healthy involvement from the boarders. Rowing is an essential part of the exercise diet for a considerable number of dedicated early risers, with football and rugby not far behind in popularity. Table tennis, badminton, tennis, soccer, dance, drama, music, cricket, surfing and fencing are all also well represented.

There are various activities that are unique to the boarding fraternity, with the annual 'Dash' taking its place alongside Staff v boarders sporting fixtures. The four Tutor Groups partake in regular challenges, involving items such as hula hoops, weetbix and paper planes; Hudspeth secured the coveted trophy this year. In addition, we have social events with St Michael's Collegiate and The Fahan School: mocktail, race night and cartoon character evenings have been complemented by barbecues at Long Beach and an excursion to the Tasman Peninsula. This relationship has contributed to

a very successful second year of 'Cooperative Boarding', by which boarders from the two aforementioned schools joined us for the Term 1 and Term 3 holidays. The week down at our Southport residential centre tends to be the highlight for many, and sightings of a Hutchins school bus on a holiday excursion receives the occasional confused look from those who 'thought Hutchins was a boys only school!'

Boarders and boarding are both celebrated as we farewell our Year 12 leavers at the annual Valedictory Dinner: this year we were able to say 'adieu' to four stalwarts who had been with us since 2008!

Fundraising efforts have involved manning the fairy floss / snow cone stall at the Hutchins Fair, with excellent teamwork resulting in very healthy profits, complemented by assisting with the BBQs at the Athletics and Cross Country Carnivals. The BH tuckshop, meanwhile, is a 'by the boarders, for the boarders' initiative.

There is one essential final ingredient that is key to a successful boarding house: the parents. Effective communication, along with strong support from the Burbury House parents, provides the foundations for their sons to achieve of their very best. We look forward to continued success in 2015.

Captain's Report

From my very first days at Hutchins, ever since I was placed in Buckland House, I knew that Buckland was the best House. To this day, the fact hasn't changed, and it doesn't matter if you ask a Buckland House veteran from Year 12 or a newly recruited kindergarten boy, they will confidently chant; "Buckland is the best". If you ask an ELC boy what he thinks it is that makes this house so great, he is likely to justify that Buckland starts with a B and so does the word best, clearly a brilliant answer that Thorold, School or Stevens can't claim! Others may argue that red is their favorite colour or that they get on well with their fellow Buckland members. No matter your reason, the truth still stands; our House is the place to be.

It is only this year that I have really worked out why I know Buckland is indisputably the best House. So what makes us different?

Firstly, the key to our fantastic culture and sense of team is the way all members of the House are respected and accepted for who they are, no one feels like they have to change in order to "fit in".

Secondly, we encourage and support each other, if you ever need help you will never have to look far within the House before you find a friendly, caring face that will listen to what you have to say and any of your problems, whether it is a fellow schoolmate, teacher or of course the main man Mr Servant himself. No matter how small a problem may seem, we'll work together to find a solution.

It is these characteristics that make Buckland more of a family than a House.

Our motto, Courage and Compassion, is lived out by each of our members on a day to day basis. A perfect example of showing courage is the Cock House competition this year, where our determination

helped us see the year through with many successes resulting in us claiming third place in a tight competition. Third out of four might not seem to be a success on paper, but as someone who has watched the House come together and battle until the end, I can confidently say there are years of success ahead for Buckland.

Buckland men are renowned for being compassionate to other boys within the House, the School and the wider community. It is this genuine caring that solidifies our place as a House to be proud of, and allows us to fulfil our house motto.

Whilst I have been honoured to Captain Buckland this year, I couldn't have done it without all of the support I have received from this great big family of a House. There are many individuals I would like to thank, but I would like to particularly thank David McQuillan who has been a brilliant Deputy, ready to support me whenever I ask, Mr Crofts our Deputy Head of House, and all the Buckland Mentors who have been absolute champions. But most importantly our Head of House, Mr Servant. He has calmly and effectively guided me and all other Buckland boys through the year.

Thank you.

Jock Mure
Buckland House Captain 2014

Head of House Report

This year has had its fair share of successes and challenges. I still have a conviction that we can make a difference to benefit young men transcending through adolescence to adulthood. Through compassion and courage we have achieved great things in Buckland House in 2014. It is also very interesting witnessing the huge influence that parents have during this time.

I feel that the experience of adversity – something we try to avoid at all costs – provides for some very important and life changing lessons. We rise up and confront these challenges or withdraw and hope that they go away.

In Bucks this year there have been many such challenges and I feel that in the end, in many instances, been strengthened. The dedication and compassion of the mentors has been an extremely important factor in achieving these outcomes.

This quote from Lucretius' *On the nature of things* has proven to be very true indeed:

"Watch a man in times of adversity to discover what kind of man he is; for then at last words of truth are drawn from the depths of his heart and the mask is torn off".

Some of the personal challenges faced by students at Hutchins this year have certainly been very prominent in building character. Simply: "If you tell the truth, you don't have to remember anything." (Mark Twain).

We gave our all this year in CockHouse – we didn't quite get over the line but only by a rather small margin. Years of disappointment have not dampened the spirit. In fact, it is as strong now as it has ever been. The level of commitment by Bucks boys has never been better.

It is very easy to chart a path forward in calm waters but that does not make for good sailors; and so it is that we will use these challenges to build strength and character for the future.

The contribution and commitment of this year's Executive – under the direction of House Captain Jock Mure – has been outstanding, with a special mention going to Lochlan Fraser, Thomas Henning, Samuel Casey, Mark Astley and William Heyward who turned words into actions and delivered, a most memorable year.

I travelled to the Philippines and Africa this year and in both countries saw examples of amazing wealth and prosperity standing alongside the most desperate, dehumanising poverty. I did not really question the reasons for

this but rather reflected on our good fortune of living in Australia.

I hope that through our work in Buckland House never to take this for granted and also to appreciate Hutchins as a community. I do still feel that we need to give thanks and gratitude to what we have and the opportunities provided. Food always tastes better when you are starving and the appreciation of good fortune makes the rewards even sweeter.

After my visit to Africa I found myself feeling invigorated by an energy that seemed to emerge out of simply being alive and wondering how to express this to Bucks.

I found inspiration in the words written in the airport. "South Africa has a pulse that starts in the depths of the ocean and rises to the top of the highest mountains."

I don't know exactly how to motivate boys to feel that sense of passion or inspire them to accept that they are the "captain of their ship and master of their own destiny". It is however a challenge that I am willing to accept.

The Year 11s for next year are an excellent group of leaders and with the quality of young men coming through we look forward to an exciting and challenging 2015.

I would like to thank all the Mentors and Mr Crofts for their outstanding contribution to Bucks this year.

A special thanks goes to Mrs Paine for her commitment and contribution over the years.

As always I conclude with the wish that we may have the "courage" to do our very best and the "compassion" to be considerate and respectful of others.

Captain's Report

For the mighty School House, 2014 was a year when the history books were re-written. It was a momentous year for the boys wearing blue. All aspects of the School were avenues of success for School House boys and it was just fantastic to be a part of.

The Cock House competition continued its fierce rivalry this year with all Houses tasting success in an event. School House got off to a brilliant start, taking home the trophies for Summer Sports and Athletics while tying for first in both Debating and Chess. Some debatable judgements throughout the Arts categories left School House 1 point behind Thorold coming into the penultimate event of the year, Cross Country.

This was a sink-or-swim moment for our House. It came down to this event. I'm immensely proud to say the 'Blue Army' rallied together for the final time in 2014. As a member of School House, seeing the boys in blue pushing themselves to the limit for each other was an amazing sight. It resulted in School House taking out the Cross Country in historic fashion to equal Thorold and share the Cock House trophy for 2014.

This has capped the third straight year that School House has been crowned the premier house. This is an outstanding achievement that has become affectionately known throughout the House as the '3-peat'. As the other houses can attest to, it's hard enough to win one in such a competition, only making the 3-peat more impressive.

The Winter Clothes Appeal was another area that School House made a positive impact in 2014. Will Terry and Alex Bessell lead the charge as we set our goal for 2000 items of clothing in only 4 weeks. No other School House year had achieved this but as I mentioned before, records didn't daunt the Blue Army in 2014 as we embarked on 'Mission 2000'. The result was nothing short of unbelievable. The Hutchins Community donated an unprecedented 2219 items of clothing into the iconic School House wool bins.

I can't express my thanks enough to the people who selflessly donated to the

wonderful cause. The Salvation Army were ecstatic when our convoy of cars arrived to deliver the clothes and like myself, were taken aback at the willingness to give that is present in our community. I'd like to publicly thank Will and Alex for their sensational work in achieving such a feat. Also thanks to the many people who donated wool bins, co-ordinated the Appeal from other campuses and assisted in delivering the clothes to the Salvation Army. The biggest thanks go to everyone who donated as it is you who have made the difference to someone's life less fortunate than our own. The clothes are highly valuable to the homeless throughout the typically freezing Tasmanian winter.

Unity is something that is valued in School House and is a large reason why we have secured the last 3 Cock House competitions. We swap Mentors every year and this enables us to create a large range of relationships throughout the House. This creates a fantastic culture and I'm extremely grateful to have been a part of this, as well as having the privilege to lead it. Our motto translates to 'Through Unity, Strength' and it is by the blue boys living out this motto that the culture is so strong. It is something that the other houses envy and is something I will always treasure.

To the House Executive for 2014, congratulations, everyone contributed strongly to the House and worked harmoniously together to make this year historic. You have run the House superbly and I thank you for that.

To the Mentors, thank you. Your caring nature and willingness to help the boys is a credit to each of you and I know all the boys are thankful for your work. I'd like to especially thank Ms Schafferius for guiding me through such a busy year.

To Mr Prior I owe a huge deal of thanks. He is such an important part of this House and works behind the scenes in all aspects of the School House to ensure everything runs smoothly. He has many times taken on a larger role than expected of him and every time helps the House achieve success.

Vice-Captain of School House Seb Withers has been

sensational this year. He delivered countless times when the House needed him and brought a strong work ethic and a fantastic sense of humour to all he was involved in. Congratulations and thank you for the year Seb.

Finally, to Mr Chambers. Your advice & encouragement this year has been crucial for me. I admire your passion for the House and your eagerness to engage every boy who wears the colour blue. You've done extremely well and thank you for everything.

To School House I owe a personal and large note of thanks. You are all fantastic young men and your efforts have made my role so enjoyable this year. I've loved spending this year with you and we have created many memories I will treasure for my lifetime. It has been an absolute privilege to lead School House in 2014 and I wish the 'Blue Army' all the best for the future.

William Fisher
School House Captain 2014

Head of House Report

There was plenty of excitement in School House when the start of the 2014 year rolled around.

William Fisher was named Captain and Sebastian Withers Vice Captain, with both boys showing enormous leadership potential in previous years. Notably, two other School House boys were granted extremely significant leadership roles at the beginning of the year. Henry Garrett was named Captain of the School and William Campbell, Captain of Burbury House. Both appointments were outstanding achievements in their own right. Congratulations must go out immediately to this initial group and the work they did to provide such a positive atmosphere for us around the House.

It didn't take long before we started our work at defending our Cock House title from 2013 and as William explains in his Captains report we had further success in 2014. I will not go into all the results here but need to sincerely say how proud and honoured we have all been of the boys efforts in the competition. One particular highlight for me was the combined Middle School/Senior School Athletics Carnival where boys from Years 8 to 12 competed for the House.

Participation in events right across the year was exceptional (as always) and the spirit in which School House boys compete is second to none. My particular thanks goes out to the House Whip, Nicholas Graver and the Cock House Co-ordinator Jono Kearney for the help they gave the House for the entire year. A thank you to Jesse Usoalii who always pushed the School House line whenever he could. Some great performances were shown in the musical, debating, drama and chess section of the competition.

It didn't take long for the new Year 9 Senior School students to settle and start to appreciate the true culture of

the House. It has been amazing to see how they have grown over the year and undoubtedly the Power of 9 experience is one which they will treasure for a long time.

It has also been pleasing seeing the Year 10s stepping up more and taking leadership roles in House activities such as the K-12 Assembly. They continued throughout the year to be a group who looked for opportunities and grew with maturity.

The Year 11s once again organised activities for the House from term to term and proved to be valuable helpers to the Executive. I am looking forward to working with them more closely in 2015 and am sure they will bring a new vision to the House.

From an overall House perspective, I was overwhelmed by the running and support of the Winter Clothes appeal. Both William Terry and Alexander Bessell were outstanding in their running of the school-wide community event and the entire House supported their efforts. The peer tutoring and Beattie trophy were again highlights for the year.

Captain of BBQs this year Edward Cotton did a fantastic job. Always keen to get a snag on the BBQ, Edward showed the House the importance of taking a role seriously and always performing above expectations!

A special thank you must go out to James Burgess for his continued leadership and guidance in Chapel and both Andrew MacKay and Alex MacIntyre for their work in the Assemblies. Exceptional work all year! Other members of the Executive; Samuel Davey, Jonathan Francis Smith, Anthony Krueger, Toby McShane, Harrison Paine, Darrel Russell and Samuel Young all helped out to make year run smoothly by concentrating their efforts in their own portfolios.

Of course the Mentors who care for the boys play such an important role. This year I would like to thank Mr Seager, Mr Green, Mr Sayers, Ms Malarski, Ms Schafferius, Dr Martin-Smith, Mrs Smith and Mr Peter Lucas for looking after the boys this year. They are truly inspirational Mentors who have always put the interests of the boys first. A very special thank you to Ms Malarski who is leaving School House after many years of dedication and hard work. We all wish her well for the future.

Mr Prior has once again been a magnificent House Administrator and always been there to help organise the boys. We owe much of our success over recent years to the attention to detail that he has been able to use with the House Programs.

So looking back, can I say it has been a successful year? My word I can! The House spirit has never been better. To William, your leadership as Captain has been outstanding and Sebastian your determination to lead by example has been first rate. Thank you for all your efforts throughout the year.

It is with a touch of sadness I say goodbye to the current Year 12s but wish them well in the future. I trust you will come back and visit us one day. It is, however, with excitement I look forward to 2015 and working with a new leadership group and seeing what imprint they can forge on this magnificent house.

Have a safe break, and see you again in 2015.

Martin Chambers

Captain's Report

Stephens House in 2014 for me was not just a House, but was also a home. It was in that home I lived for the year with my fellow Stephens family members.

What I have found to be the greatest part of Stephens throughout my time in the House is the close family atmosphere that you are surrounded by and the feelings that are associated with it.

In 2014 I had a secret to success that was to help all boys in the House in their journey throughout the year. I felt that these ingredients, when combined together, would create the best possible environment for students and teachers alike, to enjoy their development and time at the school. Compassion, communication and enjoyment were what I felt was necessary in the House environment for the year. As the year now draws to a close, I feel I can say that my ingredients for success combined well to produce what was a very successful year.

The Mentors are where each and every school day starts and where the structure for the House is set. I would like to thank them for all their work, their time and the effort that they have put into the House for the year. The kind, caring, and passionate environment that is created in the House is only able to be done through the work of the Mentors.

Within these Mentor groups are students from Years 9 to 12 and in the House environment a close family unit is created. Relationships are built between many different ages of students that through no other way would be formed. I have really enjoyed the involvement of boys within their Mentor groups this year. Most pleasing to me was witnessing the relationships being formed between students from such diverse backgrounds and interest areas.

I have been proud of the contribution of all members of the Stephens House family as we have conquered many parts of the school life, by our involvement in Cock House, R U Ok? day, the ruMAD Program, Mentor competitions, House Programs, assembly activities and everything in between. Looking back the work and

effort that has been put into the house by the students has been amazing.

For such a large part of my life I have been a Stephens family man and I feel I will always continue to be a Stephens family man wherever I go. I have had some of the best times in my life and was able to have one of my most enjoyable years through the House. I would like to thank everyone who helped make this possible and I cherish the opportunity I have had leading the House throughout the year.

Ultimately what makes a house a home, is the people inside it. A house can be nothing but walls and a roof, but a home is a place where you want to be. It is the students within Stephen House that make this house a home. Everyone being together as one, caring for and looking out for each other and having fun is what makes this home so great. I walked out of the Hutchins doors for the last time, not by myself, but with 21 other Stephens brothers with me. I wish everyone the best of luck for the years to come and hope that they continue with what they have been doing so well during their time at school.

I would like to thank my Year 12 brothers for the journey that we have shared. You have all left your imprint on my life thus far. I would like to thank the Executive and the Leadership group within Stephens. They have always been there to help and have fun along my side. To the majestic Vice-Captain, James Thompson. You have done an amazing job this year. Your involvement and contribution to the House has been nothing short of outstanding.

Finally, thank you to Mr Conacher. Your support, compassion and passion for the role has been nothing but incredible to me and to the House. You have been a role model and a friend and it has been a privilege to work with you this year.

**Benjamin Robinson
Stephens House Captain 2014**

Head of House Report

It is incredible how quickly a year can pass when you feel a great sense of belonging to the school community, are fully engaged and following your passion. This certainly rings true of my first year in the role of Head of House, but also reflects the desired outcome for all members of the Stephens House family.

In my final address to the Year 12s I expressed with confidence that every single one of them had established a sense of belonging and were leaving Hutchins having had the opportunity to discover their passion. Not only is this testament to the legacy left by Mr McNamara, but also the work done by our Captain Benjamin Robinson and his leadership team to further enhance and strengthen the culture and importance we place on traditional family values.

What qualities would we expect from a group of young men who value a sense of family and what opportunities can we provide to facilitate the development of these characteristics in each of the members of the House?

Under the direction of Miss Kate Langridge, we were able to introduce the ruMAD? (are you making a difference) keys into our Mentor program this year. Earlier sessions with Mentors and subsequent committee meetings enabled the boys to discover their shared values and explore opportunities for action, both within our school and the wider community. The process identified the boys' passion for the wellbeing of their peers and a motivation to ensure that all boys were engaged, connected and felt a sense of belonging to the Hutchins community. The ruMAD process led to the implementation of a pilot Peer Mentoring Program with 7NEA in the Middle School. Sessions were planned by the boys and time was spent playing games together, getting to know one another and forging ties for stronger relationships across school campuses. It was a truly successful program as evidenced by the younger boys' willingness to talk about and solve problems with their more senior mentors and role models. Following a review of our pilot program, it is hoped that next year we will be able to involve the Junior School boys and strengthen ties from Year 6 to Year 12.

RUOK? Day was a chance for Stephens House to recognise and promote the importance of getting connected and staying connected with your friends, peers, work colleagues and family. Benjamin Robinson's Prefect address to the school and the R U OK? Day morning tea spread the word that empathy begins with awareness of another person's feelings. The simple message was to start a conversation and check in with those around you to see that everything is ok. This message was reinforced by Mitch McPherson from Speak Up Stay ChatTY when he visited the school to address the Year 9 and Year 10 boys.

Thanks to the work of the Stephens Executive, there were numerous opportunities for the boys to bond socially and develop their sense of belonging to the community. Leading Light challenges, the Casino Royale evening with Collegiate and the introduction of House week events, all served to strengthen the relationships with both peers and Mentors alike. As too did the various Cock House events, where all of our boys participated so enthusiastically in music, drama, debating, chess, swimming, athletics, cross-country, winter and summer sports day.

It is at this point that I would like to recognise the work done by our fantastic Mentors. The level of pastoral care they are able to provide in such a calm, caring and supportive environment; enables them to monitor and guide the boys through not only their academic program, but their whole educational experience and involvement in the general life of the school.

In their final week of school, the Year 12s went out for lunch at Paesano's with the Mentor team. Each of the boys was given an opportunity to speak about one of their fellow Stephens leavers. The sincerity in which they spoke and how highly they valued the relationships they had developed throughout their time at school was so evident to all present. Their genuine gratitude for the care, support and direction given by each of their subject teachers, but importantly their Stephens Mentors was evidence that we had been successful in our goal to enable them to develop into mature, accountable and compassionate young men who are prepared for the challenges of today's world and that of the future.

Michael Conacher

Captain's Report

This year Thorold House has taken out the Cock House Shield, sharing the honour with School House. Such an achievement is a testament to the competitive and tenacious House spirit, with members always willing to make an effort. Some particular highlights of the competition came from House Music with spectacular renditions of 'The Chicken' and 'Epic' by Faith No More, Winter Sports Day, Debating and Chess, each of which we won. We also were able to provide fierce competition in every other event.

Thorold has also had success in areas not requiring a competitive attitude, such as community service and academics. The Thorold House Lifeline Appeal was thoroughly and successfully run by a Year 11 student, Benjamin Jarvis, who kept Thorold's community service tradition going with a Junior School barbeque and book collection. As a House we also adapted well to changing circumstances throughout the year with the strong leadership of Mr Prior taking over the reins from Mr McLeod as Head of House for Term 2. On behalf of the House I would like to thank Mr Prior for keeping the House running with his impeccable organisation.

I would also like to thank the Thorold leadership group, and specifically the Executive for the work and effort they have put in this year and for the role they played in keeping the House atmosphere and team spirit alive and buzzing. They were: Oscar Wyatt as Vice-Captain, always calm through stressful times; James Green and his barbecue team, producing a luscious spread when the time was right; Nicholas Gribble seamlessly running Chapel services; and Benjamin Jones who, without fail, was always willing to give a helping hand, no matter how tedious or time consuming the task. I could continue listing all of the outstanding efforts of each member of the executive and of the House, but unfortunately that would not result in a spatially efficient piece of writing.

On a personal level, Thorold House has provided me with a place where I have always felt comfortable to be myself, ever since I started in the Senior School in Year 9. The teachers who are a part of the House set a fantastic tone, and each Mentor in the House has a unique ability to take boys under their wing and help them to grow into Thorold men, a very special kind of Hutchins man. To my Mentor, Mrs Farmer: you have always been there for me, always been able to keep my woes in perspective and most of the time have appreciated my horrendous sense of humour, every morning, which I especially commend and thank you for.

Mr McLeod, as Head of House, is an essential component in the life of the House. His laid-back attitude coupled with his wisdom and experience enables him to evoke a sense of equanimity in any person, no matter how stressful their situation. These qualities filter through the House and create a relaxed and accepting atmosphere. He has been a Mentor for me throughout my whole time in the Senior School, but especially in my time as House Captain. On behalf of the House and myself: thank you, Mr McLeod. Thorold boys are the luckiest in the school and part of that is because of you.

This year has been defined for me by the Thorold House Leavers of 2014. I could not have asked to be going through my schooling life with a better group of men. You have made this year a tremendous one. The experiences we have shared together as members of Thorold are unforgettable and will stay with me for the rest of my life, whether it be the never-ending jokes from James Green, 'POK's' famous 'salad', Henry Johnston's remarkable footy tipping skills, Elijah's (Lil Elf) rapping skills or Nicholas Gribble's probing chapel questions. Each and every one of you holds a special place in my best memories of Hutchins and Thorold House. I hope that this year has provided you with a springboard into the next step of your life and I wish you all the best for wherever that step takes you in the future.

To have had the opportunity to lead such a genuine and talented group of boys, although challenging at times, has been an absolute privilege. This year has been spectacular and that is because of those Thorold and Mentors I have experienced it with and who have helped through it.

Head of House Report

Three Cock House victories in four years speaks volumes for the health of the House. The culture is strong, the boys are enjoying participating, and the Mentors are providing that excellent balance between encouragement and support. Much of the Cock House competition relies on hastily constructed teams. Students put up their hand or are asked to participate in sports and activities that may be unfamiliar to them. The repeated success of these teams does not necessarily stem from Thorold having the best talent, but from being good team members who can transfer their team skills to whatever is the challenge of the day. Thorold is the current holder of the Gumley Shield for academic effort and has been for a lustrium. At the time of writing Thorold is looking good for a sixth year in a row and, if won, would mean that Thorold had won the award as top academic House for eight of the fourteen years it has been awarded.

It has been a pleasure to be associated with the operations of the House Executive and I congratulate Daniel and Oscar on their administration of this body throughout the year. In short, it was great fun. The executive was characterised by individual portfolio holders planning ambitious projects, confident in the knowledge that when the work had to be done they would be supported by all members of the Executive. 2014 was a year when many boys rolled up their sleeves and helped out. The Executive ran some successful get-togethers with our sister houses at Collegiate, raised money and goods for charity, walked 'out of the shadows', assisted younger students with study and, under the charismatic leadership of the 'Captain of Lunches,' James Green, provided excellent food and fun at all our House lunches.

Last year I observed that when people are happy, optimistic and grateful it is awesome both for them and for those who come in contact with them, and I repeat this for 2014. While this positive attitude may occur naturally, it is important to foster it within the House. The CIS self-study this year has given us cause to reflect on all that we do in the House program. We have been asking, 'How well do we do what we are doing?' and 'Why do we do it?' It has been good to note that much of what we do through the House program greatly contributes to the welfare of our students, to their mental and physical health, to their enjoyment of school and to their connectedness to school, and also to the way they treat others and how they perceive the world. The Thorold House program is an excellent starting point for the nurturing of the 'Global Citizen'.

The boys and I give a big thanks to the Mentors for their commitment to the House this year and I would also like to acknowledge the excellent work that Anthony Prior performed as Acting Head of House in Term 2.

As we look to the future, I wish the Year 12s all the very best in their future lives, and, for those returning, I wish them a bright, happy and rewarding school year in 2015.

Go Green!

This year's grand final of the Tasmanian Debating Union Southern Schools Competition in Class 8 was won by Hutchins. A panel of adjudicators delivered a unanimous decision in favour of our boys' arguments for the negative on the impromptu topic: That religious leaders should not encourage people to vote a particular way. Congratulations to: Isaac Traill, Chisomo Banzi, Liam Mead, Harvey Chilcott, Koh Kawaguchi and Alexander Hall.

The 2014 Students versus Old Boys debate: That we should be real men rather than gentlemen was won by the students: Sebastian Withers, James Thompson and Nicholas Gribble, who argued the affirmative case. The entertaining contribution of Chairman, Andrew Mackay was especially commended.

From the Captain of Debating

Debating at Hutchins has opened many doors for me: the Tasmanian Debating Union has helped me and my fellow debaters to develop our public speaking skills in a friendly competition, and through it I have gained an ability to talk in front of groups of people, as well as general confidence and critical thinking strategies. These skills have paid dividends in my later school years, when debating has taken me across Australia and allowed me to meet talented and inspirational people through organisations such as UN Youth Australia and the Tasmanian Youth Government Association. Debating has encouraged me to take an interest in politics in Australia and the world and to educate myself in ways outside the normal school curriculum. The culmination of my debating life at Hutchins shows just where it can take you: after winning the Tasmanian rounds, Tom Harrison and I have been invited to Adelaide to attend the National Finals of the UN Youth Evatt Trophy, the largest debating competition in the Southern Hemisphere.

I would like to encourage younger students to try debating; the skills you can pick up are life-changing. My thanks go to Mrs Farmer and Mrs Heazlewood for organising the Year 12 team this year, all the other extraordinary teachers who have participated in my debating pathway at Hutchins, and my amazing team members: Andrew Mackay, James Thompson, Seb Withers and Alex MacIntyre for making debating one of the best experiences I have had while at Hutchins.

Nicholas Gribble Captain of Debating

In the Senior School Speech and Performance competition, Sebastian Withers won the poetry prize for reciting "The Shadow" and Nicholas Gribble won the Senior Orator prize for delivering his speech, "Cultural Supremacy and Terrorism in the West". At the Middle School Poetry and Prose evening, Alexander Hogan-Jones won the Year 7 prize for reciting "All the world's a Stage"; Alexander Hall won the Year 8 prize for his performance of the Endgame Speech from *Portal 2*; and the overall winner was Chizomo Banzi, whose rendition of *Humpty Dumpty Private Egg* was highly skillful and entertaining.

ICAS medals, indicating the top score in the state, were won by Frank Jiao, Year 7 Spelling; Alexander Hall, Year 8 English; Thomas Dunbabin, Year 9 English; James Tucker, Year 9 Writing; and Andrew Mackay, Year 12 Writing.

The Alliance Française is a competition which tests skills in understanding and speaking French. Miles McTaggart won Second Prize in Year 7 Poetry; Simon Watt won First Prize in Year 8 Poetry; and James Mellor won Third Prize in Year 12 Poetry, Aural Comprehension and Conversation.

P9 boys reflected on the value of their French lessons when they travelled to Villers-Bretonneux:

I applied skills learnt in class to reading menus, asking for help, ordering things, reading signs and attempting to converse with the locals.

Thomas Dunbabin

I was able to ask where things were, order food and ask for the prices of things. **Thomas Young**

Having studied French, getting around France was made much easier. Even a basic level of communications assisted greatly, particularly with ordering in restaurants and reading signs and maps. **James Tucker**

On Friday 16 May, Hutchins hosted the 2014 Tasmanian Chinese Competition. There were 180 contestants from Years 1 to 12 competing in poetry, conversation and speech categories. In the Year 7 Category, Benjamin Cornwell won first prize and George Scott won equal second prize. In Year 8, Hans-Bjorn (Hans) Zywo-Hicks won third prize. In Chinese conversation, Michael Boulton, Year 10, won first prize and Nathaniel Mollison, Year 9, won third prize.

P9 boys reflect on their Chinese classes:

One main highlight for me is when I hear friends of mine talking in Chinese I can sort of understand what they are saying. **Xavier Dixon**

Chinese has opened up the enjoyment of learning a language and I have the bug to travel to China to learn more. I certainly am going to continue Chinese.

Sam Caccavo

Now I know a lot more about Chinese culture and the way the language is spoken. Chinese is a common challenge and learning some words could help significantly in the future.

Ben Reed

In this year's Language Perfect competition, Daniel Croser, Nathaniel Mollison, James Anderson and Alexander Hall achieved Bronze Awards. This means that their command of relevant Chinese vocabulary is ranked within the top 10% worldwide. Chisomo Banzi and Tenzin Phuntsok achieved Credit Awards, which places them within the top twenty percent worldwide.

During the first term holidays Michael Boulton, Daniel Croser, Louis Duckett, Angus Hine, Henry Johnston, Oliver Kumala, Toby McShane, Lincoln Paine, accompanied by Mr and Mrs Brown and children, Lyla and Logan, travelled to Hong Kong and Beijing. The students were placed with buddies from The Second High School attached to the Beijing Normal University and worked alongside them in lessons and in excursions. We look forward to hosting the Chinese buddies at Hutchins next year.

Hutchins Short Story Competition prize winners were Isaac Hunn for "The Missing Finger" and Cameron Allen for "Holy Moly". The Hutchins Poetry Competition was won by Thomas Wilkins for "I am Everest" and Cameron Allen for "Recipe for a Totalitarian State".

Rivers snake through the valley

Trees lying down on the hill

Rupert Johnston, P9

Why does Darryl Kerrigan appeal to Australian audiences?

An Aussie battler is someone who may struggle but fights for what they believe in even if they have to fight against authorities. This theme is common throughout *The Castle* and appeals to many Australians because they can relate to it and as a nation Australians like to support those who struggle. They also like people who have a hard time but remain positive. This is what Darryl Kerrigan does even when he faces losing his home to the local authority. He is fighting against a big company but is determined not to give up and Australians respect people who do this. Bernard Salt explains in an article in *The Sydney Morning Herald* that Darryl's character 'has entered the hearts of the Australian people' (Hayes 2010) because of his happy-go-lucky attitude. Some examples in

the film which show that Australians support people in need and have an attitude like Darryl's include when Laurie agrees to fight Darryl's case in the Supreme Court for free. Another one is when Darryl hears about his home being 'compulsorily acquired' and runs over to see Jack because he immediately thinks how he will be affected too. He even offers to let him stay with his family if they lose their homes. Dennis also offers to help Darryl when he asks for help and says: 'Look I'll ring around and see what I can find out,' even though he is out of his depth and has no idea. Darryl's support of Dennis when he lost the case also shows how Australians help each other when things go wrong. You can see from the tone of his voice and facial expressions that Darryl is genuine when he says: 'But you did your best. I mean you can hold your head up high'.

Elliot Bleathman

Assef Takes Sohrab: An additional scene to *The Kite Runner*

Zaman watched the children's faces fall as the loud, violent knocking resounded throughout the decrepit orphanage. He slowly trudged towards the door, knowing full well who was on the other side. Self-hatred and disgust bubbling up within himself, he opened the door, trying to look cheerful, cooperative and willing. There stood Assef, a crocodile grin stretching almost unnaturally wide across his face, his eyes hidden behind black sunglasses. The Talib's head scanned the room, and the children shuffled slowly back, their heads down.

Zaman looked at the children around him as they cowered in fear of the Talib as he walked out the door. Zaman wondered for a moment why they didn't resist, but deep inside him he already knew. They had been brought up to be submissive, accepting of older people's wishes. He had to keep them alive, had to protect them, even if it meant sacrificing some for the betterment of the rest. He had nothing left besides the orphanage, and he couldn't let all he had done have been for nothing. For goodness sake, he could be in Pakistan or even Iran with his family, safe from the chaos here. But he had chosen to stay, for the children. He had to let this happen, lest the Taliban close his orphanage for good. Shaking his head, he retreated to the ruin he called an office. Sitting down on the fold-up chair, he began counting the money, and writing out how he was going to budget it to last them as long as possible. He didn't leave that room till his tears had dried. No use scaring the children.

Daniel Croser, Year 10

Geoff Goodfellow: "The people's Poet"

Context relates to the people, places, sounds and ideas that Goodfellow's poems are about: "I thought that there must be a lot of people out in the suburbs who want to read about lives like their own, but don't particularly rely on sophisticated language and concepts" (Goodfellow, 2014 p. xiv). One particularly striking thing about Goodfellow's poetry is that the subject of his poems is nearly always people. This is another way of making his work easier to understand and connect

with. A lot of his poems are about issues that would affect many people in society, for example: adolescent rebellion – “Set to the Left” (*Bowtie & Tails*) and cancer – “The Seventh Doctor” (*Waltzing with Jack Dancer*). These topics increase his popularity amongst people who wouldn’t normally read poetry. Context can also be directly linked to the language, because in order to achieve the desired context, Goodfellow has used colloquial language: ‘those bastards would’ve / been fighting one another to see /who was going knock/ the loudmouth out/ not to mention my own boys’ (‘Johnny’s Reply’ p.121). Complex words and pretty phrases are often attributed to poetry, however his style directly contradicts this. Goodfellow’s language is often simple yet powerful. He seems to take particular note of the sort of language used by the people he writes about just like a novelist would, and I think that this is another difference with his poetry, that phrases often come out like speech.

Patrick Eberhard, Year 10

Spinning Steel

An ode to the metal lathe

Peeling back the layers of solid steel
Once, two separate elements, forged together
Iron and carbon crushed under great heat
now ripped apart in showers of minute razors

A game of strength between two metals

The hardened tool carving a flawless circle upon
man’s most useful resource
like a knife on flesh

Handles of speed order the motion
separating a light touch
from a momentous gouge

Friction dominates

Thunderous resistance
crying out like children in a storm.
Chunks of shrapnel fly in all directions
burning comets trailing coiled smoke

Metal conforms to the greed of the machine

Always subtracting
With every gyration
mass is stolen away

Circular shapes forms under pressure
raw steel moulds into beauty
Perfectly round, marvellously smooth,
destined for a critical position
in a complex, high powered invention.

Harry Oldmeadow, Year 12

This poem received a Commendation from the judges of the 2014 Dorothea Mackellar Poetry Competition; congratulations, Harry.

I am Everest

I see them coming, down below
I wonder why they come and go.
I want their challenge; that is all
I watch them as they win or fall.
I know the fear, the rush they get
I feel them take their final breath.
I wonder nothing
I know their ways.
I feel their Pain, their passion and their Glory.
I touch their lifeless bodies.
I am their enemy.
I am their God.
I AM EVEREST.

Thomas Wilkins

Recipe for a Totalitarian State

A smattering of benign injustice
Seasoned with unrequited love.
A matrimony of invalids, a cockney of Shabbats, a flatter of
blue birds.
Poached in the carcass of a dove, elegant once.

Teeming with the moustache of alienation,
Stuffed with the misconception of divine.
Pirouetting on edge; once safe, entrenched within the
confines.
Now dead.

With each calculated assertion –
Siphoned to the chorus of deceit, lips insipid with a Preacher’s
oath –
Clacks of men dawn to tumultuous bliss.
Yet devotion to the Party wavers not.
Sinew spurs blind faith, which
Inadvertently becomes your Achilles heel.

With each swift jolt, ivied beneath the lid,
Congealed in the canopy of indoctrination,
The unfathomable recurrences of history align.
Etching towards you,
Oppression grows.
A false dawn.

Masking the flesh of the intangible,
Solace sweeps aside the toll of perjury.
Echoing the sentiment of a forgotten man.

Cameron Allen

Communication is a profoundly enriching process for creators and their audiences. Congratulations to all students who challenged themselves this year by using language to build connections, inform, persuade and entertain.

Mrs Alison Farmer
Head of English and Modern Languages
Teacher in Charge of Debating

sport

“Success comes from knowing that you did your best to become the best that you are capable of becoming.” I came across this quote from John Wooden, a famous UCLA coach, when looking for an inspirational quote to open the co-curricular montage for the Awards Assembly. Those fortunate enough to witness our teams in action would have noticed this behaviour from our students and coaching staff across the board. The effort, commitment and pride exhibited on the sporting field is why we have had so much success in 2014 and why the sport culture at Hutchins is stronger than ever.

Sport tours and national competitions provided a great opportunity for our teams to measure themselves against some of the best school teams in the country and presented each individual with the valuable experience of traveling and preparing for inter-state competition.

Our Athletics, Australian Rules Football, Hockey, Sailing, Soccer, Sport Shooting and Water Polo Teams all competed interstate and experienced success when returning to the local inter-school competition.

As always, thanks must go to the dedicated teaching staff and volunteers for their outstanding contribution to the sport program, through coaching, managing and supporting our teams. The many and varied sporting opportunities that we offer sets our school apart and enables all of our young men to have experiences that will stay with them forever.

Adrian Finch
Head of Sport

National Representation 2014

Jesse Usoalii – Athletics (4x100 m relay)

World Junior Championships in Oregon, US

Ryan Jones – Hockey

Represented the Australian School Sport U17 team in South Africa

Jock Calvert – Windsurfing

Youth Worlds in Portugal, Tavira

Alexander Pace – Eight Ball

World U18 Eight ball Championships in Blackpool, England

Xavier Dixon – Table Tennis

Represented Australia in the Cook Islands

The Hutchins School Sport program in 2014 has been extremely successful. Notable individuals and team performances throughout 2014 were:

Individual Performances

- Gerald Evans TIS Scholarship Recipient (Cycling), Elite State Time Trial and Criterium Titles
- Jock Calvert TIS Scholarship Recipient (Windsurfing). Jock won the Youth Nationals in Bic Techno Windsurfing
- Jesse Usoalii TIS Scholarship Recipient (Athletics)
- Samuel (Sam) King won the Australian Sabot Championships
- Samuel (Sam) Abel finished second in the Australian International Cadet Championships
- Charles Connor International Moth Sailing Championships – 1st Junior and 1st in the US Championships
- William (Will) Connor Sailing State Champion 29er class
- Russell Taib U17 400m National Champion, SATIS record in the U16 200 m
- Jagga Pybus ran a SATIS record in U/13 90m hurdles
- Alexander Bessell SSATIS record in the Open 3000 m
- Sean Oosthuizen and Remy Lynch selected in the State Pizzey Cup team
- Jarrod McMullin and Baxter Crawford selected in the State Waterpolo team.
- U15 State Hockey Representatives: Samuel (Sam) McCulloch, Hugo McCullum, James Moroney, Angus Lane, Henry Chambers – competed in the National Championships in Perth
- Ryan Jones and Charles Lane represented Tasmania in the National u18 tournament
- Alexander Pace made the top 8 in singles and runner up in the team's competition
- Mackenzie Evans 1st in the U13s, Harvey Chilcott 1st in the U14s and Owen Law 1st in the U15s in the SSATIS Cross Country competition
- Xavier Dixon Table Tennis State U15, U18, U21, Men's Doubles and Men's Singles titles at the Tasmanian Open
- Owen Law 2nd in the U16 and Harvey Chilcott 3rd in the U15 event at the Tasmanian All Schools Cross Country competition
- Oliver Jones and Benjamin Johnston represented Tasmania in the U18 TAC Cup Football Competition
- Owen Law bronze medal in the National All-Schools U16 1500 m

Team Success

Athletics

- SSATIS Senior Boys and Aggregate Trophies, SATIS Boys Aggregate Trophy, School Knock Out State Champions (Junior and Senior Divisions)
- SATIS U13 4x100 m relay record
- National Senior SKO Silver Medallists

Australian Rules Football

- SATIS State Premiers 2nd XVIII and 1st XVIII finalists

Basketball

- SSATIS 1sts finalists, SSATIS Year 9 Premiers

Cricket

- SSATIS Year 9/10 Premiers

Cross Country

- SSATIS Senior and Aggregate Boys Shields

Hockey

- First XI SSATIS, Southern Tasmania Division 1 Schoolboy and State SATIS Premiers. Second XI SSATIS finalists

Orienteering

- 3rd in the Tasmanian All-Schools teams competition

Sailing

- State Teams Racing Champions – Represented Hutchins at the Nationals in Sydney

Sport Shooting

- 3rd place in the Invitational Clay Target Shooting Competition at the Melbourne Gun Club

Rowing

- Champion School Pennant winners for the 5th straight year
- State Champions in all U19 events, 1st VIII Head of The River Open, Under 16 VIII Head of The River and success in all age-groups

Rugby

- U14 finalists, First XV and U16 State Premiers

Soccer

- 1sts XI SSATIS & SATIS Premiers
- 2nds SSATIS Premiership
- Year 8 Finalists

Swimming

- SSATIS Junior Boys Shield and Aggregate Boys Trophy

Tennis

- SSATIS 2nds Premiership, Firsts SSATIS finalists
- SSATIS Year 9/10 Premiers

Water Polo

- Firsts Southern Schools Champions

Athletics

The athletics season for Hutchins started off strong with the Southern SATIS competition in late September. The Open boys were able to capture the title by defeating Guilford Young College by a small margin. The Under 13 through Under 16 teams were narrowly defeated for first place but were keen to fire back at the later State SATIS competition. In the first race of the day Alexander Bessell placed first in the Open 3000 m with Robert Law taking out third. Alexander's time of 9:28.11 bettered the competition record that was held by former Captain of the Hutchins School, Charles Haward.

The day produced many strong performances which set the tone for the remainder of the season. Russel Taib had strong performances in both the Under 16 100 m and 200 m placing second and first respectively. His time in the 100 m of 10.98 was a personal best at the time. Owen Law also had strong performances, taking out both the Under 15 800 m and 1500 m events. Top performances also came from Benjamin Robinson in the Open 400 m and Nicholas Graver in the Open Javelin.

The State SATIS competition in Hobart produced some impressive results. One of the main highlights came towards the end of the day when Torrin Jones, Lemon Raiden, Jagga Pybus and Oliver Burrows-Cheng took out the Under 13 4x100 m relay while also beating the previous meet record, which was held by a former Hutchins team comprising the majority of this year's Open team. But once again it was Russell Taib who produced the ultimate highlight of the day, destroying his personal best from just weeks prior by running a fantastic 10.88 seconds in the 100 m as well as producing a meet record in 200 m that had stood since 1972.

A number of boys represented Hutchins at the 2014 Tasmanian All Schools Track and Field selection meet. Congratulations to all the boys who made the long trek up to Penguin and we as a school wish those competing at the Australian All Schools Championships in Adelaide the best of luck. Immediately following the All Schools Championships, Hutchins Junior and Senior teams will battle it out with other top schools from around Australia at the National Schools Knockouts competition hosted by Athletics Australia. Both the Junior and Senior teams finished at the top of their respective age group ladders in Tasmania and thus earned their spots at the national competition, which will also be held in Adelaide. A number of the Senior boys will be keen to make their mark, after previously tasting victory as part of the successful intermediate team that took out the national title in 2011. The Junior boys are in with a genuine chance to take out the victory also, so we wish the boys the best of luck in their upcoming hit outs in December.

The fantastic achievements thus far could not have been possible without the ongoing dedication and support from a number of staff. To Mr Roger McNamara, Mr Mike Conacher and Mr Adrian Finch, a huge thank you from all of the boys for

your continuous effort and dedication to our teams. I speak on behalf of all the year 12s in saying that we feel like our athletics team isn't just students and teachers but really a great bunch of men that love to see each other do well and love being part of the group. We thank you very much and of course some of us are saddened but proud to know 8 December will be the last time we wear the magenta and black.

Jesse Usoalii
Captain of Athletics

AFL

First XVIII

The AFL season at Hutchins started off in May, with the biannual footy tour to Melbourne. After a shaky start seeing the boys stranded in Hobart airport for 10 hours, the trip was a huge success. We claimed the inaugural Hutchins - Trinity Cup against Trinity Grammar, as well as beating Yarra Valley Grammar. We were also lucky enough to watch a Carlton vs Collingwood game at the MCG, tour Hawthorn's training facilities at Waverley Park with Chris Fagan (Head of Football at the club) - and trained at Collingwood's Gosch's Paddock.

The trip served as an ideal preparation for the upcoming SATIS home and away season, with the First XVIII going through undefeated. The side was led by Acting Captain, William Campbell in most games. The Second XVIII also had a stellar roster year, going down on only two occasions.

Our strong year saw both teams make it through to a home state final on the WMO, against St Patrick's College. The day got off to a great start, with the Second XVIII - finely led by Captain, Jack Bignell, account for St Pats 15.12.102 to 1.6.12. Unfortunately the First XVIII went down to a very impressive St Pats outfit; 11.11.77 to 5.10.40.

On behalf of the squad, a huge thanks to Mr Palfreyman (Coach), Guy Abel (Assistant Coach), Mr Banks (Second XVIII Coach), Mr Green (Assistant Coach) Mr Finch, Mr Rae and Mr Morrisby for their commitment, expertise and guidance - and to the parental support. I would also like to thank all the boys for making school footy so enjoyable over the last five years.

While we did stumble at the final hurdle this year, there is absolutely no doubt Hutchins footy has been put back on the map; I have full confidence that both grades will take home the silverware in 2015.

Badminton

The 2014 Badminton season has been very successful. Hutchins had a total of six teams from Year 7 to 12 in the Southern Schools Badminton Roster: one combined Year 7/8 team, one from each of Years 9 and 10, and three Year 11/12 teams. Four teams managed to make the semi-finals and two teams made it through to the grand finals. The Year 10 team and the Firsts were victorious in their respective grand finals.

Individual Championships were held in mid-August with a large number of our players entering. In the Boys' Singles: Lachlan Chambers won the Year 8 Plate, Ka Shun (Kason) Cheung won the Year 10 Plate and Samuel Jones won the College Plate. In the Doubles: Theo Kessler and James He won the Year 10 Boys' Doubles and Tea Yun (Jason) Song (Year 11) and Luca Buissink (Year 12) won the College Boys' Doubles.

The Firsts were the Most Successful Team for the season having not lost a game.

To cap off a tremendous season, Hutchins was awarded The Ampol Cup, which is the trophy for the Most Successful Badminton School in the Southern Schools roster.

Many thanks to the coaches for helping us to have a great season: Mr Berndt, Mr Hudson and Ms Schafferius. Thanks also to the parents, family and additional volunteers for their loyal and continued support for Badminton at Hutchins. We look forward to another successful season in 2015.

Tea Yun (Jason) Song
Captain of Badminton 2014

Basketball

Basketball at Hutchins was a popular a sport as ever with a large number of teams entered throughout all year groups.

The Year 9 basketball team was extremely successful winning the grand final against Friends and being crowned the SSATIS Year 9 Champions.

Despite not winning a game, the Year 10 team improved dramatically throughout the season and showed great promise.

The 1st Basketball team had their most successful season in several years. Having not beaten Guilford Young College in at least 4 years, the first game of the season concluded with Hutchins beating Guildford by a small margin. Having won the last regular season game against Guildford, Hutchins secured the first home grand final in recent memory. Unfortunately even the large supporter numbers were not enough to bring Hutchins over the line in the final game. Although a slightly disappointing finish to the season, with new talent coming up from Middle School and Year 9 as well as Year 10, the basketball program at Hutchins should be able to build upon the successes of this year.

Many thanks to all the players, coaches bench support and referees that have supported basketball at Hutchins this year.

Johannes Peters and Daniel Larrett
Co-Captains of Basketball 2014

Cricket

Cricket Development Squad 2013/4:

The development squad is mainly comprised of cricketers in Year 9 or above who aspire to represent the First XI in the future. The 2013/14 season provided them with plenty of opportunities to develop both individually and as a team.

Our first fixture was a 20/20 fixture against New Town High School, and what a thriller it was! Carter Hansen anchored the batting in scoring a well-paced 38, as we set the opposition a target of 78 to win. They in turn seemed to be cruising to victory at 52/1, but a wonderful team performance that included fine bowling

spells from Jacob Opray (3 for 9) and David Geary (2/15) resulted in them being all out for 76. This victory by one run emphasised to spectators and players alike just what we love about this occasionally exasperating sport!

We were brought down to earth the following day by a strong St Virgil's side in the Annual 50 over Saunders / Di Venuto Shield match. We posted 130 all out thanks to a composed 24 from William Scott and a swashbuckling 25 from Rainjan Blakers but even though Carter Hansen took 2/5 with the ball, we lost by 7 wickets.

We then moved into the 20/20 roster season with an opening fixture against the reigning premiers the Hutchins Magoos! 3 wickets each for Thomas Parsons and Aza Nichol-Hawkes saw the Magoos all out for 58 and after a solid start from Angus Szoke and Charlie Greenwell they just got over the line for a two wicket win. Harsh Makharia (3/15) could not prevent defeat by St Virgil's. A fine 23 from Jacob Opray and a high octane display of clean hitting by Samuel Fergusson (39 off 25 balls) helped us score 130 against Calvin Christian College, while Thomas Bester (3/17) and Thomas Skalicky's remarkable figures of 4 for 1 sealed a second win.

Angus, Rainjan Blakers, Rainier Roberts and Jacob all made double figures against Guilford Young College, while Rainjan took 2/2 and Ben Rhodes 2/7 on the way to a 61 run victory. James Weir returned figures of 5/17 against Friends' while Ben Rhodes weighed in with 2/6 to leave us with 111 to chase. Charlie Greenwell (40) and Harsh Makharia (35) put on 85 for the first wicket as we sealed a seven wicket victory.

We needed to defeat the Magoos in order to reach the final but we were halted in our tracks by a sensational 48* off 26 balls from Broden Polley.

Overall, a huge amount of fun and plenty to look forward to next season.

Justin Bowman-Shaw

First XI Cricket

The 2013/14 season started with a number of new players in the First XI. Former first class player with Tasmania Mark Divin was appointed coach and was a popular appointment. Training began during October and it was pleasing to see many new talents arising amongst the squad.

Our early preparation was for the two games played annually against the Old Boys XI and The Peninsula School First XI from Victoria. Our clash against the Old Boys was an invaluable learning experience for the boys playing against

some past First XI and First Grade legends. The boys were beaten comfortably but took many positives from the game that greatly assisted our preparation for the 'Boot Game' that was to be played in Melbourne in early December. A squad of twelve was selected to tour and play against The Peninsula School in a game filled with rich tradition and history. An enjoyable trip getting to know one another and the new coach was slightly dampened by the excessive rain experienced, pardon the pun. Only 22 overs were played in the game where Hutchins compiled 100 runs for the loss of four wickets.

The SATIS season began with a double-header against the Scotch Oakburn College and Launceston Church Grammar School. After a convincing loss on the Friday against Scotch Oakburn, the boys showed great resilience to fight back and dispose of Launceston Grammar on the Saturday winning by 164 runs, 98 of which were contributed by opening batsman Carter Hansen. Carter's innings was the highlight of Hutchins' batting throughout the season, only one other 50 plus score was achieved during the rostered season.

Following this game, the boys battled to secure consistent victories, making ourselves ineligible to make the State final by the final game. During these weeks there were some outstanding individual performances from our bowlers. William Schiwy took 5 for 28 against Launceston Grammar, only to be outdone by Fergus Richardson taking 6 for 36 against St Patricks College.

The highlight of our season came in the final game. Coming up against powerhouses and premiership favourites Scotch Oakburn on their home surface, Hutchins were severe underdogs. Captain James Green won the toss and elected to bat, Hutchins were dismissed for what seemed to be a vulnerable score of 96.

An effort of defiance in the field, led initially by young gun David Geary in his first match (2 for 5), and then from Year 12's William Schiwy (4 for 26) and Peter O'Keefe (2 for 24) allowed for a spirited and memorable victory.

Resounding thanks from all the team go to Mark Divin, our coach who developed our players into being more rounded and compact cricketers as well as developing a sense of resilience amongst the group. Also to Mr Finch for his tireless administration work in particular sweeping the gutters during the Boot Game. Lastly to Mr Brown, Mr Green and Mr Irons for their efforts doing anything else that needed to be done throughout the season.

The future for the First XI looks promising with a number of excellent coaching appointments that will assist the talented players coming through. I look forward to hearing about future victories for Hutchins.

James Green
Captain of Cricket 2014

Seconds Cricket "The Magoos"

The Hutchins Senior Seconds Cricket Team (the Magoos) played once again on Wednesday nights through Term 1 in the ever popular 20/20 format of the game.

As reigning premiers the Magoos headed into the 2014 season with great anticipation. Early signs were promising with spirits up in all areas of the game. A host of new players ensured the season could be one of surprises. On paper there appeared to be plenty of talent.

Battling through the first half of the roster, however, the competition from St. Virgils College, Guilford Young and our own Development Squad became quite problematic and we were sitting about mid field on the ladder. There were, however, some sparks of brilliance from Caleb Berriman, Jono Kearney, William Campbell, Hugh Johnston and Stipe Mamic with both the bat and the ball which was pleasing to see. We still had hope!

It was the back half of the season though, where the lads really hit their straps. Spiros Daglas, Alex Geapen, Angus Woodcock, James Melor and Andrew Jones were particularly effective in the field and Joseph (Joe) Burbury & Henry Garrett, chimed in with the bat when the runs were needed.

It was, however, the aggressive batting and cool head of Broden Polley that resulted in some nail biting wins. These were last over triumphs and "6 off the last ball" type victories. Outstanding effort and very entertaining to watch.

With this, we had been able to get ourselves into the finals for a second year in a row, but unfortunately were outgunned by a slicker SVC outfit on the day. The final was played in great spirit and supported by many.

I would like to give my particular thank you to the Captain of the team, Henry Garrett, for organising the boys all year. It was a pleasure to be involved with a great young team of cricketers who, hopefully will go on to play again at some level in the future.

Martin Chambers
Manager

Cross Country

This year was very successful for Cross Country at the Hutchins School with some standout performances coming both individually and as a team. The first carnival for the team was the SSATIS Cross Country Carnival at Pontville. The SSATIS cross country was held on 10 June and on this day we claimed the Senior boys and Aggregate boys shields. Owen Law, Harvey Chilcott and Mackenzie (Mack) Evans were standout performers on the day, each taking out the win in their respective age groups with numerous other boys achieving top 10 finishes. This individual success led to Hutchins claiming the Year 7 boys, Year 9 boys and Open boys' pennants for winning these age groups. The Open age group performed particularly strongly with students finishing in 2nd, 3rd, 4th, 5th, 7th and 10th resulting in a very comfortable victory in this age group. The Year 7 and Year 9 boys each had 3 top ten finishers in their age groups to help ensure the age group pennant.

On 1 July the team competed in the State all Schools Cross Country Championships at Symmons Plains. The day was another success for the school with Hutchins winning team medals in various age groups. The School also had six boys finish in the top ten of their age groups which were Mackenzie Evans, Alexander Bessell, Robert Law and Damien Messmer. On top of this, Owen Law and Harvey Chilcott medalled in their age groups, winning Silver and Bronze respectively, which is a tremendous effort considering this competition is against students from

Cross Country Team

every school in Tasmania. Hutchins also picked up team medals in the U14, U15 and U20 age groups.

I would like to thank all the boys that competed over the course of the year for their outstanding level of commitment and school spirit across both events. Lastly I would like to thank the staff members, Mr Finch, Mr McAloon, Mr Conacher and the Gap students for their ongoing assistance throughout the year.

Alexander Bessell
Captain of Cross Country

Cycling

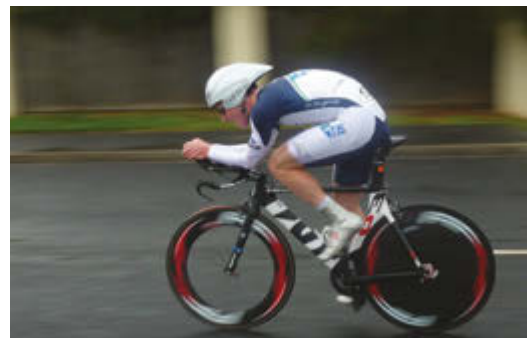

The Hutchins School 2014 Cycling program has continued to offer Hutchins students a range of structured, skills-focussed activities whereby students have developed their abilities within the sport.

Mountain Biking

Throughout 2014, senior students Michael Boulton, Connor Duggan and William Harris have regularly competed in local club races. Held over difficult terrain, these events are typically of 90 minutes duration and require an ability to perform at maximum intensity with very little recovery time. Being able to control a bike whilst managing severe oxygen debt is an attribute these boys have developed in recent years and they will begin to feature in the results more regularly as they persist with their training. These boys represented the School with maturity and always strived to be examples of good sportsmanship.

Elite Road & Track

Gerald Evans, Captain of Cycling, has had a successful year, competing in four multi-day national tours, in addition to winning the State Elite (Open) Road Race, State Elite Individual Time Trial and the state U19 Criterium Championships. Earlier in

2014, Gerald also won bronze in the National U19 Omnium Championships. The Omnium is a track cycling event and is comprised of six different races over two days. These races include sprints (250 m), middle distance (3 km time trial) and longer endurance races. The Omnium typically suits athletes who excel in both power and endurance events, whilst retaining an ability to strategise mid-race. Initially leading the competition, Gerald was eventually

overtaken by current Junior World Champion Sam Welsford (WA). In late 2014, Gerald transitioned into the Senior (open) category and again raced the Omnium, this time at the Oceania Championships, where he recorded a number of top ten finishes. Gerald's continued progression has seen his Cycling scholarship with the Tasmanian Institute of Sport retained, along with his place on the Team Polygon Cycling Team. Gerald has an exciting future within Cycling and has, characteristically, been greatly appreciative of the support his class teachers have provided him in order to pursue his sporting and academic goals. We have enjoyed the opportunity to assist in the skill development of the students throughout the year. Students at Hutchins will again be able to enjoy a structured and enjoyable Cycling program in 2015.

Michael Thorne and Tim Grabovszky
Teachers-in-Charge

Hockey

First Eleven Hockey

Hutchins Hockey had an outstanding year with both the Firsts and Seconds playing in grand finals. The Firsts took out the title, courtesy of a hard fought draw with The Friends' School and a superior ladder position. We then went on to defeat Launceston Church Grammar School 4-2 in the State final. This rounded out a successful year, finishing undefeated in all competitions. While there was an outstanding team chemistry in the side, I wish to acknowledge some excellent individual performances. Our goalkeeper, Angus Woodcock, experienced defenders Solomon Henderson, Jackson Turner and Charles Lane, key midfielder Ryan Jones and the versatile Samuel McCulloch who

headed our powerful corner battery, all had outstanding seasons.

Our success as a team came because of the depth of the young players in the team. Half the team were in their first year with the Firsts. The performances of Callum Tabor, Thomas Maughan, Hugo McCullum, Angus Lane, James Moroney and Fraser Moroney give great encouragement for years to come.

Jackson Turner
Co-Captain of Hockey

Multi-Sport tour

The First Eleven Hockey team travelled to Melbourne to face off against Trinity Grammar School and Yarra Valley Grammar from the AGS. During both games, we really stepped up our intensity to match that of our Melbourne opposition, and it was very pleasing to see great individual performances coming from our Year 9s. We started strongly against Trinity Grammar School and found the net early through Thomas Maughan. The game remained close until Solomon Henderson bagged a powerful drag flick to double our lead. A couple of goals went against us, before full backs Charles Lane and Jackson Turner steadied the ship, and earned a penalty corner. A Ryan Jones variation sealed the win 3-2.

The following morning, we faced Yarra Valley Grammar. They had a couple of National Representatives who brought some flair and pace, but we managed to take an early lead through some great passing patterns, followed by some individual skill and the finish from Angus Lane. From there we had most of the play and were looking dangerous, but lacked quality finishing. We were able to put in another goal following from a solo

Sam McCulloch preparing for a shot at goal

Charlie Lane makes a break from defence

run by Ryan Jones along the base line, and finishing with a reverse stick shot. From there, Yarra Valley Grammar had managed to claw back a couple of their own, until Solomon Henderson lined up yet another drag flick for the weekend, slotting it past their goal keeper's right boot. The game ended in a 3-all draw, with Hutchins unlucky not to win after such a strong performance.

Thanks to Mr McLeod and Mr Addison for coaching yet another successful First Eleven for Hockey, to Mr Finch for organising the tour, and also thanks to the team for their efforts. I was really proud of the way we played and I thought everyone stepped up and played some excellent Hockey. It has been a pleasure to Captain the team in 2014!

Ryan Jones
Co-Captain of Hockey

Second Eleven Hockey

The Hutchins Hockey Magoos punched well and truly above their weight this year, finishing the preliminary rounds as Minor Premiers. This was an outstanding effort considering the youth of our players and their minimal experience playing together.

In the Grand Final the boys were unfortunately defeated 4-1 by New Town High School. The first half was a very even contest, with Hutchins scoring the first goal. Although the final result was a substantial win by New Town High School, a notable feature was the way the Hutchins boys fought valiantly to the very end.

Apart from the Grand Final, perhaps a more memorable game this year was the occasion when the boys, with only seven players on the field still played with gusto, courage and exceptional skill to defeat a

Hutchins First Eleven – State Premiers

Senior College team 3-1. Tears of pride were rolling down my cheeks.

It is difficult not to give recognition to every player in the team, as they are all deserving, but I was really impressed with Jordan Foster's level of improvement, along with Henry Chambers' high standard in the goals, and with Samuel Hall scoring his first goal. Albert Wyatt was always gutsy on the half-line, while James Tucker and Thomas Dunbabin played with a high degree of intelligence. Benjamin East, Sam Abel, and the late addition, Fraser Brumby, continually kept the opposition on their toes.

We say goodbye and good luck to speedy, lion-hearted, William Terry this year and wish him all the best.

Anthony Hyland
Seconds Coach

Middle School Hockey

Middle School Hockey this year was a season of worthy losses, hard fought draws and a famous victory! With a large squad in a nine-a-side competition, the side was never totally settled. The team was led ably by Fraser Brumby, our Year 8, Junior State-playing member. The boys came along in leaps and bounds as the tight-knit side improved and worked well as a team. Special mention must go to Morgan Macbeth who as goalie was peppered with hockey balls for the first time, and to Henry Chambers who gave up his position as goalie to umpire. With a strong group of Year 7 students expected to play next year, Middle School and Hutchins Hockey has a strong future.

Richard Gard
Hutchins 3 Coach

James McLeod
Teacher-in-Charge

Orienteering

It is exciting to see the number of boys choosing Orienteering steadily increasing. Whilst Term 1 saw an even spread of boys from Years 7 to 10 joining in, the Term 4 participation rate has doubled, particularly in Year 9, and development of the boys' skills and experience is fantastic. It is also great to see a few younger competitors from the Junior School also attend the weekly events.

In the Term 3 holidays, three boys were part of the winning Tasmanian Schools Team in Perth, to take out the Australian School Championships. Andrew Mackay, Jake West and Luke West are highly skilled orienteers and provide wonderful leadership and mentoring to the younger boys.

Andrew Mackay, our retiring Captain of Orienteering, is largely responsible for the growth of orienteering as a sport at Hutchins and his humour, enthusiasm and organisation will be missed. I am sure, however, that the boys will continue to catch up with Andrew at future twilight events.

Orienteering looks to be firmly entrenched as another summer sport option at Hutchins.

Sheree Malarski
Teacher-in-Charge

Rugby

After a rebuilding year in 2013, the U/14 season commenced with some challenging games against Taroona High School. Again, they were the team to beat. The mid-year holiday turned the tide. Hutchins defeated Taroona High School on a memorable War Memorial Gala Day. The competition was alive. The Grand Final was a high quality game of Rugby with both teams having the ascendancy at various points. A wonderful finish saw Hutchins score to draw level.

Unfortunately there was no extra time and the trophy went to Taroona High School as worthy leaders on the ladder at the end of the competition rounds. That Hutchins was undefeated on Grand Final day was a great point of pride and did much to quell the disappointment of missing out on the trophy. Congratulations to Captain Liam Usoalii and Jack Weeding for strong team leadership. Connor Noble had an excellent season with bullocking runs and strong defence. Newcomers 'Chap' Macpherson, Sean Fenney-Walch and Clancy Smith did much to strengthen the team and showed great potential for future seasons. Thanks to parents and staff who assisted greatly throughout the year.

The U/16s this year started the year strongly and finished even stronger. An important contributing factor to the success throughout the year was the camaraderie of the team. Determination and push ups at training made us hungry for each win. Despite our undefeated season, we never took any opposition for granted and this was reflected at training. We saw massive improvements from everyone on the team. The general culture of the team made it one of the most memorable and enjoyable experiences of our lives. I would like to congratulate the boys on their participation, commitment and for making this year so enjoyable. A huge thank you to the mums, dads, guardians and fans for all the time and

Orienteering Boys Term 1

support given to our team. Our success is in no small part to our outstanding coaches Mr Doust and Dr Reid. We thank them for their time, money, blood, sweat and tears and we are glad that we can share a great season with them. The achievements of the U/16 team in 2014 should not be underestimated. Undefeated State Premiers who met every challenge presented head on with great spirit, skill and courage. A team that always played Rugby the way it should be played and who Mr Devine regarded as the outstanding Rugby team in Tasmania in 2014.

After a slow start to the season the U/18s showed their full potential late in the year. Coaches, Mr Lawrence and Mr Lopa laid the foundations for what would turn out to be a premiership year. The team was confronted with far bigger teams with more experienced players but trained solidly with one goal in mind, the final game of the year. When Mr Devine came on board to assist with team tactics and style of play all the pieces were in place to have a shot at the title. We had to do it the hard way as we had finished 3rd in the regular season and needed to qualify through the preliminary final.

Thankfully we produced our most complete game of the year to defeat the Barbarians comfortably and set up an enthralling final against hot favourite, the undefeated Devonport. Taking the field it was quite evident that we were outsized by close to 20 kgs a player, but with the School crest over our hearts and magenta blood running through our veins we stood 10 feet tall. Time and time again we repelled the "Green Giants" and counter attacked with precision. Our game plan was simple, tackle as if our life depended on it and run the bigger team off their feet. Not many of the crowd gathered thought we could do it, but we believed and added another story to the proud history of Hutchins Rugby by causing the upset and taking the State Premiership. Special mention to our coaches Mr Devine, Mr Lopa & Mr Lawrence who guided us through the year but I need not mention individual players as this was truly a great team effort. We will always fondly remember the day at Rugby Park when the Hutchins Lion roared the loudest.

**Rev Matt Gray, James McNeill,
James Mellor**

Sailing

2014 was a very successful year for the Hutchins Sailing team. Our first Regatta was the State Championship, held at Tamar Yacht Club in Launceston. Hutchins entered two teams in the Regatta, with the aim of qualifying both teams for the Nationals, which would have been a first for Hutchins. The Hutchins Magenta team consisted of Samuel Tiedemann (C), Oliver Burnell (VC), Angus Calvert, Sam King, Toby Burnell, Nicholas Smart and William Cooper, while Hutchins Black was made

up of William Connor (C), Josh Brown, Samlan Richardson.

Unusual light, variable winds and strong currents made for a very difficult Regatta. Conditions aside, both Hutchins teams made a strong appearance on the first day with Hutchins Magenta unbeaten and with the Black team also posting strong results.

Overall the first team won the final 2-1 against The Friends' School after having another excellent day on the water. The second team showed moments of brilliance and sailed well to finish 5th overall.

For their performances in the State Championship both teams qualified for the National Championships held at Woollahra Sailing Club in Sydney. Under team Coach Elliot Noye we engaged in a gruelling 10-week training program – which saw us spend countless hours on the water both before school, after school and also every weekend. Both teams remained the same for the State Championships with the addition of Charles Connor as the Hutchins Black reserve.

The Regatta itself challenged both teams. Both Magenta and Black struggled to post wins at the beginning of the Regatta. Towards the end, however, both teams learnt from past mistakes with the Magenta team spending the majority of the third day on the podium.

The final series was very competitive but unfortunately the Magenta team was knocked out in the first round and finished in 5th place.

Overall we had an excellent year in terms of both results and participation. Our thanks go to team coaches Elliot Noye and Paul Burnell, team managers Greg Rowlings, Will Seager and Philippa

Calvert and, of course, to everybody who sailed this year.

**Captain Samuel Tiedemann
Vice-Captain Oliver Burnell**

Neil Thomas Scholarship

Congratulations to Sam Abel who has been awarded the Neil Thomas Scholarship for 2015. We thank Mr Thomas for his generous support.

Soccer

Soccer First XI

For the Hutchins First XI team 2014 began with the appointment of a new head coach, Mr Apted, whose wisdom and experience was to greatly benefit the team in its development, morale and enjoyment of the sport over the course of the year.

The team entered the season enthusiastically; with pre-season and a defined game plan under the belt, ambitions and hopes were high. Unfortunately, in our first game we were comprehensively defeated 9-0 by Guilford Young College, a margin that destroyed our morale and suggested it was going to be a long, hard season.

Fortunately, our highly skilled coach was able to help us rise from the depths of defeat. With the improvement in teamwork, communication and skill that only comes from dedicated training, we started to become a force to be reckoned with.

We travelled to Melbourne mid-season to face Trinity Grammar School in the Trinity-Hutchins Cup. The improvement in the team's performance was evident and we secured victory; a superb penalty save by keeper Alex Geappen in the dying minutes of the game proving decisive.

The return from Melbourne saw further improvement in our game, with great results and a string of undefeated performances locking up second place. For the Southern final we faced Guilford Young College, who had remained undefeated during the season. The match was a hard fought affair, with goals being scored left, right and centre. Hutchins played an amazing game, the best of the season, and came away with a triumphant 5-4 victory, with Henry Garrett scoring the winning goal in the last minute of extra time.

In the State Final four weeks later, we played St Patricks College on the WMO. We capitalised on their slow start, scoring in the first few minutes of the game and gradually stretched the lead to win 3-0. The victory meant the Hutchins First XI were State Champions for the first time in 9 years.

Congratulations and thank you to all the players for the hard work they put in this year. It has truly been an amazingly successful and rewarding season.

I would like to thank Mr Apted for all the hard work he put into the sport over the year, his ability to create enjoyment in the sport and for his great attitude. I would also like to thank Mr Finch for the support he has shown the sport and his efforts organising the Melbourne trip and State Final.

Benjamin Robinson
Captain

Soccer Second XI

It was a season to remember for the Hutchins Second XI as we were able to come out on top of the competition. Despite a less than ideal practice game against the First XI, we managed to pull together as a team and put in a few good training sessions before the season started. Unfortunately, many of our games were cancelled due to weather but our talent showed when we did get on the field and we were able to secure a spot in the final. When it mattered most we stood up, overpowering Guilford Young College 3-1 in a classic finals performance where everybody gave it all they had. Congratulations to all the boys and our awesome coach, Les Richardson. Good luck next year!

Benjamin Jones
Captain

SATIS Premiers

Middle School Soccer 2014

The pre-season proved to be reassuringly familiar, with waterlogged pitches and a scarcity of on field activity which continued into the first week of the season. Thankfully, the spirits of the boys were not dampened and three teams, one Year 7, one Year 8 and a combined team, were entered in the Southern SATIS competition. One of the Year 8 teams contained a significant number of players who had stepped out in Year 7 for them. The other two teams had a large number of new players joining them, all from Year 7.

Clearly rested from the Term 2 holidays and the washout in the first week, all three teams succeeded in posting comfortable wins in their first matches scoring 27 goals between them. The rich vein of form continued into the second week with all teams remaining unbeaten. The record read P6 W5 D1 L0 F36 A6. It was at this point the wheels started to wobble.

Year 8 Black lost a number of key players, notably Fergus Bridge, and a run of three straight defeats effectively ended their season. The Year 7 Black's form went a similar way and they too lost three consecutive games albeit narrowly. Thankfully, Year 8 Magenta continued to win and finished the season strongly. A 14-0 win at St Virgil's College in a match effectively secured a place in the top three. The minor premiership was secured in the final week of the season with a 6-1 win over Mackillop Blue. The other teams also finished the season on a high note with victories over MacKillop Blue - Year 8 and Dominic - Year 7.

And so to the Grand Final. The Year 8 Magenta Team, were unbeaten in Years 7 and 8 and once again finished top of

the league were drawn to play The Friends' School in a home final. As an added bonus the fixture was to be played on the WMO. The scene was set.

The first half was an edgy and extremely close affair which finished 0-0 with no team able to beat the deadlock. Early in the second half Hutchins were awarded a free kick on the edge of the penalty area. Cometh the hour, cometh the man and Elliot Goward stepped forward only to crash his free kick against the crossbar with the keeper stranded. The game continued in a similar vein with chances few and far between until, with 10 minutes to go, the ball broke kindly to a Friends' forward on the edge of the area. With only the keeper to beat, he slotted it coolly past Nicholas Stenning to give Friends' the lead. It proved to be a bridge too far for Hutchins and despite some late pressure they were unable to force an equaliser eventually losing 1-0.

Nonetheless, the season was thoroughly enjoyable for all concerned and I would formally like to thank Shane McAloon, Tom Turbett and Old Boys' Tom Beadle and Jamie Bryant for all their assistance in making the season run as smoothly as it did. Quite simply, without them it wouldn't have happened.

The David Hoskins Award for Middle School Soccer 2015 – Hamish Wakefield

Ivor Leonard

Soccer First XI

Year 10 Soccer 2014

There was plenty of talent within this year's squad and I sense that they will deliver some impressive results for Hutchins over the next two years. They were not able to galvanise themselves on match days this year, however, resulting in several disappointing performances. It is fair to say that they came up against three strong opposition teams, so they are well aware of the standard to reach in the future.

Regulars in defence were the tenacious Toby Burnell, the skilful positioning and tackling of Andonis Pavlides, the lion-hearted Benjamin Grainger and the natural 'libero' Calum Hunter. In midfield, Lewis Urquhart showed vision with his passing ability, Stuart Carnaby's fleet of foot left many an opponent in his wake, Henry Moss showed his ability to set up attacks with his skills on the ball, Riley Clutterbuck displayed a fine first touch and Nicholas Thomas has remarkable pace with the ball at his feet. William McCullum is a real handful to opposition defenders and has a strong instinct for goal, Nicholas Fahey performed well wide on the right, while Ben Speakman's season was cut short by a terribly unfortunate injury; his presence was missed by the team.

The glove work was shared between the dedicated Jock Taylor who is very effective when faced with a one-on-one and Jake West, whose height and agility helps him to keep out a range of shots. The ever-present Ian Hamilton developed his knowledge and skills up front, Roan Gillam strikes the ball beautifully, perhaps no surprise given his talent as a goalkeeper, and we also benefitted from utility players such as Michael Gentile, Thomas Skalicky and Lochlan Gardner. William Dobson and Oscar Marshall switched codes from rugby to soccer to good effect. William Smee and David Lennon (with a left-footed cracker!)

found their goal scoring touch in our final match.

Overall, an enjoyable group of boys to work with, and with hard work and determination there will be some improved results in 2015.

Justin Bowman-Shaw

Sport Shooting

Working with our Captain Jack Field and Mr Kjell Friberg (Parent) we have introduced new boys and enjoyed the growth and success of older boys with their Sport Shooting. Derwent Valley Field and Game Club continue to provide outstanding support. Mr Graeme Jarvis, Mr Keith Howells and Mr Adrian Hepburn assisted us with regular intense coaching sessions delivered to our first five squad who participated interstate in early October.

Junior shooters, Angus McMaster (Year 7) and Liam Webster (Year 7) have had a very strong year with Jack Weeding (Year 8) returning to the group after State Rugby. Thomas Burbury (Year 7) started late in the year and is showing terrific promise, enjoying support and coaching from the older boys. Sport Shooting is unique as boys from 12 to 18 years can compete together with grading occurring at club events. Occasionally the fathers shoot with their sons but all too often showing the younger hand eye coordination is superior.

The First 5 Squad consisting of William Terry (12), Jock Parsons (10), Edward Bowden (9), Lachlan Peacock (8) and Dane Friberg (9) worked very hard at preparing for our first trip to Victoria; competing at two school events and two club events over four days. It was an outstanding trip and a real challenge when competing in a 'bigger pond'. We finished third from 19 squads at the Lilydale High School Invitational held at the Melbourne Gun Club. At this competition we saw strong performances

from all the boys with special mention to Edward Bowden and Lachlan Peacock. Mr Garry Bennett from Lilydale and the Melbourne Gun Club committee where outstanding hosts sponsoring the boys with many half cases of shells. While at Melbourne Gun Club the boys got to shoot Olympic Trench, see current Australian Olympians and shoot with Mitchell Isles a current World Title holder their age; with his grandfather, well renowned and respected Billy Isles.

These opportunities are most rewarding and priceless in terms of help and experience shared. The boys also travelled to Traralgon Field and Game, enjoying a wonderful field setting in country Victoria. It was a very hot day with many hard targets; William Terry and Lachlan Peacock placing second in their respective age groups. Before returning home we competed at Benalla in the Victorian Schools Sporting Clays competition. The boys rated fairly well but in a comp where 3 targets out of 30 separated three places it brings a new level of competing under pressure; especially with 168 competitors.

Many thanks to all the parents, friends and DVFG club members who supported us over the 2014 season; travelling was such a wonderful experience and full of opportunities the boys embraced. In 2015 we will look at going abroad again this time with all the boys who would like to attend.

Squash

Hutchins entered five squash teams in the Southern Schools' Competition for 2014. Competing against eight other schools, the Years 7-12 students from Hutchins contributed more teams than any other school.

As we are in the midst of a transition from the old guard to a new cohort of players, Hutchins was only able to field one Division One team this year but the number of younger players coming through the ranks is exciting. All of our teams should be very proud of their achievements with all boys competed with great enthusiasm and sportsmanship. Many of the boys were playing squash competitively for the first time, and learnt very quickly.

Notable achievements this year were the Hutchins Blue and Hutchins Black teams who finished second and third respectively in Division Two. The Hutchins Green also needs to be congratulated for the second place finish in Division Three.

In 2014 we continued to train at the UniGym squash courts on Thursday afternoons. Professional coaching was provided to the boys at this location. Thank you to Matthew Sayers for his assistance in supervising the boys at training.

Aside from all the players, special thanks must go to Anthony Krueger, Captain of Squash for his leadership over these last three years. While he has battled chronic illness through this time, he managed to attend most weeks, even if only to encourage the other boys when he was too sick to play.

Reverend Mark Holland
Teacher-in-Charge

Surfing

This year the Hutchins surfing team has had a growing membership and solid results in competitions. An excellent move forward for Surfing as a sport at Hutchins is the advent of a 'Learn to Surf' squad. This combined with our competition-based group, brings the number of surfers to over 30, which augers well for the future of Surfing adding a new depth to our team.

Perhaps most pleasing of all is the excellent leadership shown by the more senior members towards the younger members. The camaraderie and sense of community is strong. Caps to Oscar Wyatt and Marco Lubiana, our Co-Captains of Surfing, illustrating the commitment and endeavour within the team.

Competition results have been very good this year. We had all age divisions

well represented, with our entire squad entered in the Tasmanian Schools Surfing Association Championships (TSSA). Noah Polglase made it through to the second round, Lewis Freeman had a succession of first placings in the first and second rounds and made it through the semis and in to the finals. Lawrence Eberhard had some solid results and made it through to the third round.

Max McLagan, Jeremy Wilson and Elliot Goward made it through six rounds to the finals of the U16 State competition. They were narrowly defeated by Mackillop College. Congratulations to Elliot Goward who was nominated for the State U16 team.

Oscar Wyatt, Marco Lubiana, Lachlan Brumby, Rocco Schmitt, Jordan Foster and James (Jimmy) Padgett surfed in the Open Division. After some strong individual performances in difficult conditions, the boys were knocked out in the opening rounds.

Our Co-Captains have led the team very well, both in and out of the water. Strong improvement has been displayed by all boys with a wonderful team spirit shown each Thursday afternoon, regardless of the conditions.

"Every Thursday afternoon the Hutchins surfers go to Clifton Beach for surfing training. The conditions aren't always the best, most days being small and onshore. Each week we talk about things before we surf, such as how waves work and our plan for the session. We might not have the best surf but everyone looks forward to Thursday afternoons and leaves the water with a smile." Max McLagan

Nick Eaves
Shane McAloon

Swimming 2014

At the Hobart Aquatic Centre on Tuesday 4 March, all the Southern Tasmanian independent schools and on Thursday 27 March, Tasmanian independent schools statewide met for the annual Southern SATIS Carnivals for Years 7-12. The

Hutchins School team returned with the Boys U13 and Boys U16 Age Pennants and both the Junior Boys and Aggregate Boys' Shields in the Southern Carnival.

The 2014 Award for The WA Webster Prize for Most Improved Swimmer in Senior School was won by Christopher Boulton, and the JS Anderson Cup for Most Improved Swimmer in Middle School was won by Oliver Burrows-Cheng.

Coached by Richard Gard, the SSATIS and SATIS Swimming Team as pictured comprised:

Captain: Jordan Foster Vice-Captains:
Lachlan Brumby and Christopher Boulton
Under 13 - Sam Canny, Oliver Burrows-Cheng, Henry Luders, Sembeyan Muthu, Raiden Lemon, Alexander Smith, Reuben Nettelfold

Senior Swimming Trophy

Open Swimming Team

Under 14 - Mitchell Rickards, Patrick Betts, Harrison Grant, Thomas Wilkins, Jarrod McMullen, Connor Noble

Under 15 - Lewis Wood, William Clerk, Sebastian Renshaw, Tyler Mason, Edward Bowden, William Smith, Fergus Bird

Under 16 - David Geary, Julian Hudson, Nathaniel Franklin, Michael Boulton, Oskah Marshall, James Bone

Open - Lachlan Brumby, Christopher Boulton, Andrew Hudson, Jordan Foster, Benjamin Robinson

Dr Jill Abell

Co-ordinator of Swimming

Table tennis

Over the last few years, Table Tennis has become an increasingly popular sport choice for Hutchins boys.

In our first summer roster, we had around forty students playing in the junior and senior rosters. Seven of the twelve teams competing in the junior roster were representing Hutchins.

The standard of expertise is steadily rising and we have produced some star competitors in recent years, such as 2013 graduate Nick Sakov and our current captain, Xavier Dixon.

Xavier has recently won two bronze medals at an Oceania tournament in the Cook Islands and is the undefeated Under 15s champion in the Top Ten Comp. Xavier has also won the Under 15s, Under 18s, Under 21s and Men's Open at the Tasmanian Open Competition.

The following boys were awarded trophies by the Southern Tasmanian Table Tennis Association for winning the First Division roster in Juniors: Declan Giltjes, Shifan Patel, Alex Grining and Liam Hamilton.

Our Term Four roster was also played with great enthusiasm, Hutchins students making up the main part of the competition. In particular, we had excellent participation from the Boarding House, with some potential stars of future rosters.

Simon Moore and Erik Marr

Hutchins Tennis First Team (Tristan Lynch, James Burgess, Jack Lowrie, Remy Lynch, Sean Oosthuizen).

Tennis

The Tennis selection took place at the beginning of Term 1 with initial round-robin matches followed by a knockout competition. The First Team that was selected comprised of Tristan Lynch, Remy Lynch, Sean Oosthuizen, and Jack Lowrie (Captain of Tennis). Following some good results in the Second Team competition James Burgess also played in the First Team for the southern SATIS final. Training sessions were held on Monday afternoons, coached by Dr Keith Martin-Smith (Teacher in Charge of Tennis) and Thursday mornings, coached by Mr Ray Harrison.

First Team

Tennis for the First Team was a rather closed affair with only two other teams in the competition (Guildford Young College and The Friends' School) and many of the players being regular rivals on the State tennis circuit. All of the matches in the regular season were very tight with three of the four being tied on rubbers and only decided by games. Indeed, the first meeting between Guildford Young College and Hutchins was also tied on games. This meant that the First Team had to win against Guildford Young College in the last match of the regular season which they did convincingly 6 rubbers to 0. This set up the southern SATIS Final which was a tense, close competition at The Friends' School. Sean Oosthuizen and Tristan Lynch in the line two doubles played exceptionally well, coming out with our first set win for the day. Remy Lynch and Jack Lowrie battled hard but just lost some crucial points. After many long and tiring rallies, James Burgess unfortunately lost in a gut-wrenching match in line four singles as his opponent proved to be too strong in a nail-biting tie break. Ultimately The Friends' School edged the vital matches, winning 5-1 in rubbers and moving on to take the State title. In individual performances, Sean Oosthuizen was undefeated in singles for the whole season.

Hutchins Magenta Tennis Second Team (William Heyward, Cameron Allen, Locklan Fraser, James Burgess) - SATIS Seconds' Champions.

2014 Tasmanian Volleyball Schools Cup College Division Champions

*Back: Johannes Peters, Daniel Larratt, Sean Brüysters, James Burgess
Front: Calum Hunter, Harshvardhan Makharia, Hassan Mohamad, Jock Mure
Absent: Nicholas Graver*

Second Teams

In the Second Teams' competition, Hutchins was rampant with three teams (Gold, Magenta & Black) all recording convincing victories throughout the regular season. The southern SATIS Seconds Final pitted Hutchins Magenta against Hutchins Black and was played over two days in order to accommodate James Burgess' commitment with the First Team. In a nail-biting finish, everything came down to last rubber which was edged by the Hutchins Magenta team. Congratulations to James Burgess, Locklan Fraser, William Heyward and Cameron Allen on an undefeated season and worthy win and commiserations to James Anderson, James Crean, Hassan Mohamad and Ziah Cooper. Thanks to Mr Crofts for his encouragement and management of the Second Teams.

Volleyball

2014 has been an outstanding year for Volleyball and builds on the great re-start made in 2013. We began in Term 2 with twice weekly games during lunchtime for Middle and Senior School boys, using an informal roster

that allowed for maximum participation and enjoyment. Volleyball was re-opened for all interested Senior School boys in the lead up to our defence of the Tasmanian Volleyball Schools Cup in Term 3. A win in the final, over a strong team from Elizabeth College, saw Hutchins retain the College Boys division of the Schools Cup. Johannes Peters was awarded the Most Valuable Player on the day, capping an outstanding effort by all of the boys throughout the tournament.

Water Polo

Hutchins have had a very successful year in Water Polo. From the Year 5/6 team all the way through to the Opens, the boys have all put in a stellar effort in what was a tough competition.

Hutchins 5/6 Black had an outstanding season of Water Polo. The boys went into the Grand Final being the only undefeated team in their league. The team played one of their best games for the season winning by 11 goals. All of the boys played really well and all proved to be very handy in the pool.

The 7/8s had a most successful year with promising futures for all the boys. Hutchins Magenta ended third on the ladder, narrowly missing out on the Grand Final. All of the boys put in a stellar effort all season making it a very enjoyable year of Water Polo.

The 9/10 team had an encouraging season this year. The team finished fourth on the ladder below some tough competition. There were some star performances from the likes of David Geary and Julian Hudson. The team was unfortunately knocked out of the finals in the semis with Julian

showcasing his prized backhands, not being enough to keep the top team from narrowly defeating them.

The Open Boys had an exceptional season in the College Boys League this year. They played some outstanding games throughout the season coming into the finals as second on the ladder. With some exciting wins and some narrow losses under their belt the team was ready for an intense two games in the final. The semi-final saw the boys battling it out with The Friends' School for a spot in the Grand Final. It was a close game coming down to Hutchins scoring on the buzzer to win a spot in the Final. The Grand Final match saw Hutchins and Guilford Young College playing for the College Boys Title. The whole game was played out with Hutchins and Guilford neck and neck, but a goal from Guilford before the final siren saw the game end in a draw. This meant the game went into a Golden Goal situation. In what was an absolute nail biter of a game,

Andrew Hudson scored the golden goal making Hutchins the winners of the College Boys for 2014. Andrew also finished the season with the Tasmanian Water Polo Award for most valuable player, followed by Lachlan Brumby and William Hay.

Thanks must go to all the student coaches for the time they put into their teams this year. Thanks also to Mr Wilson (Firsts Coach), Mr Seddon and Mr Lucas for running Water Polo at Hutchins throughout 2014.

Oscar Wyatt
Captain of Water Polo

Rowing

The Boat Club had another fabulous season with all age groups achieving successes as well as enjoying the life of the Boat Club and the rowing community. The strength of the rowing program is clearly demonstrated by Hutchins taking the Rowing Tasmania Schools Pennant for the fifth successive year, a record performance, and the overall aggregate trophies at the North-West Schools Regatta and the Head of the River. At the Tasmanian Schools Championship Regatta we won both the junior aggregate trophy and the Mercury Cup overall aggregate trophy.

The junior squad season started with the Junior Sculling Regatta at Franklin, with the Under 15s particularly strong, winning each of the six divisions of the single sculls, as well as the quad scull. In February the Under 13s won the quad scull, the under 14s the double scull, and the under 15s the

single and quad sculls and the Under 19 handicap eights rowing the Ted McCulloch as an octo-scull.

At Launceston and Henley, the Under 13s had success in the quad scull, the Under 14s in the doubles and the Under 15s in the singles, doubles and quads.

The Under 13s finished on a high, winning the double scull at the School Championships, while the Under 15s finished their strong year winning the double and quad sculls at the Head of the River, and the singles, doubles and Jim Turner Shield for quad sculls at the championships.

The Senior Squad season started with the pennant series, with a close-run win by 3 points. The Under 16 boys' focus was on their first year sweep rowing, undefeated all season in the eight, taking out the Under 17 eights at Royal Hobart, and the Under 16 eights at the Southern Head of the River,

North-West Schools, Launceston and Henley, Head of the River and School Championships.

The Open boys won the School Eights and the Para Double at Royal Hobart, the Southern Head of the River, and the doubles, quads, fours and eights in all regattas up to the Head of the river. At the State Championships they took out the Under 19 Single, Double, LTA Double, coxed and coxless Quad Sculls, coxed and coxless Fours and the Eight.

The Head of the River brought to a head the close contest all season against Scotch-Oakburn College. Their 1st VIII had been closing the gap all season, and were ready to turn the tables. Our eight got out to a lead at the start, stretching it to a length through the 500m, before scotch started to peg back. At the 1700 they made a push, getting to within a quarter canvass of the eight, before we lifted to the finish, winning by 2/3 of a length to return the Golden Fleece Cup to the school.

At the School Championships Hutchins won the Bob Blake Shield for para single, the para double, the HEC Shield for doubles, and the prestigious North-Esk Shield for fours (seconds), the Clarke Shield for fours (firsts) the Frank O'Shannessey Shield for eights, and the Mercury Cup aggregate trophy.

Captain of Boats Will Campbell provided a strong role model of hard work and determination for the Boat Club, the Headmaster's Cup for most impressive coxswain was jointly awarded to Tom Downie and Alex Hall, Will Fisher received the most improved rower award, and Tom Cottier best clubman. The First Eight, unbeaten all season won the Wilkinson Shield for most successful crew. Missy Fergusson as President, and all the supporters group provided strong support and Mick Casey was again, unmatched as Boatshed Manager (fat controller).

The strong fundraising by the supporters enabled us to bring three new singles, four new doubles/pairs, a quad and a quad/four into the fleet, together with three sets of sculling blades.
